

KNUTE STILL CLIMBS,

and He May Have Sixty Thousand More Than Owen.

BECKER'S SURPRISING VOTE.

The Democratic Vote Will Reach Nearly Sixty Thousand.

HEAD OF THE TICKET BEHIND

Review of the Results in the Congressional Districts.

Four years ago the country districts gave Mr. Owen a very large vote. This year the Populists leaders devoted almost their entire attention to the Twin Cities and Duluth, St. Cloud and Winona, expecting confidently that the name of Owen would again rally the farmers. A large vote was secured in the cities, but in the country the farmers did not respond, and beyond securing a considerable Democratic vote in the cities for both the Populists and Republicans, the Populists have accomplished very little.

Notwithstanding the stampedes attempted by both Populists and Republicans, and the inability, through a lack of means, of the Democrats to make a campaign, the Democratic vote holds up remarkably well, and Owen, Becker and Dan Lawler in 1892. Considering everything this vote is the best evidence that can be had of the firmness and devotion of the masses of the Democracy.

The next time the Democrats of Minnesota are appealed to help save any other party or aid in defeating any other party, by deserting Democrats the appeals will fall on deaf ears.

Counties.

Table with 2 columns: County Name and Vote Count. Includes counties like Aitkin, Anoka, Becker, Benton, Big Stone, Blue Earth, Brown, Carlton, Cass, Chippewa, Chisago, Clay, Cook, Cottonwood, Crow Wing, Dakota, DeKalb, Douglas, Faribault, Fillmore, Goodhue, Grant, Hennepin, Houston, Hubbard, Kandiyohi, Jackson, Johnson, Kanabec, Kittson, Lac qui Parle, Lake, Le Sueur, Lincoln, Lyon, Marshall, Martin, McLeod, Mower, Murray, Norman, Otter Tail, Pope, Ramsey, Redwood, Rice, Rock, St. Louis, Stearns, Swift, Todd, Travers, Wadena, Wabasha, Washington, Watonwan, Wilkin, Winona, Yellow Medicine.

Totals 157,285 54,149 79,511

CONGRESSIONAL RETURNS.

Republicans Carry the First Six—Seventh in Doubt.

With the exception of the Seventh district, where the returns are not complete enough to show the result, all the congressional contests in Minnesota have been settled, and the results are known. In the Seventh district the chances are about even. Pope and Douglass the only counties giving good-sized pluralities for Eddy have been heard; but Pop, Norman and Marshall, which are good for a total of 2,000 plurality for Congressman Boen, have not yet been heard from. McClain, the Democratic nominee, receives less than 2,500 votes, the Democrats apparently having gone to Mr. Boen as the only way in which to defeat Eddy. In Otter Tail, where the Republicans promised to do so much for Dr. McClain before he was nominated, he actually received just about half the number of votes given Hon. W. F. Keise two years ago.

First District.

In the First district Congressman Lawler wins by a plurality of about 10,000 over Moan, Dem., Metzger, Rep., polling about 3,700 votes. The fact that both Democrats and Populists and only realized that divided as they were. Lawler was bound to win, lost both Melgren and Moan votes and that the voters to a certain degree. Two years ago over 20,000 votes were polled in the district for the Populist, Republican and Democratic congressional candidates, and this year the total sinks to 33,500. Lawler then had 3,151 plurality. This year

he has 10,000, but gets but 1,051 more votes than in 1892. The vote is less than Capt. Harney, and Melgren 1,803 more than Vermilyea received.

Prof. McClary's Return.

The returns from the Second district are not yet complete, but the vote for congressman will be a little ahead of two years ago for McClary, but much less for Gen. Baker. He had Hammond, and 3,000 more for Long than he received in 1892. The attitude of ex-Congressman Long on the silver question undoubtedly costed McClary some votes, and perhaps caused some Republicans who sympathize with McClary's position to desist from voting for him.

Joel Russ Behind.

In the Third district Heatwole wins by about 2,500, running far behind his ticket in nearly every county. Nothing but the tidal wave saved him, and of the six Republicans surely elected it is in the smallest plurality, and is in an actual minority of about 2,000. Heatwole's vote will be about 12,000. Hall's 9,500, and Bowler, 4,500. The Lienu influence rather helped than hampered the success of Heatwole. In the Fourth district Col. Kiefer's plurality will probably reach the dangerous point at which the late lamented Capt. S. P. Smider stopped in 1888, only to be beaten on the other side of the ledger two years later.

The Largest Plurality is Scored by Kiefer's Large Plurality.

In the Fourth district Col. Kiefer's plurality will probably reach the dangerous point at which the late lamented Capt. S. P. Smider stopped in 1888, only to be beaten on the other side of the ledger two years later. The largest plurality is scored by Kiefer's large plurality. In the Fourth district Col. Kiefer's plurality will probably reach the dangerous point at which the late lamented Capt. S. P. Smider stopped in 1888, only to be beaten on the other side of the ledger two years later.

The Sixth District.

There was an all-around slump in St. Louis which made Major Baldwin's record as a man and a worker powerless, and the Democrats of the district progress to decline, when he had a chance, for two years. The fact that Duluth furnished a very large part of Mr. Baldwin's vote, and that he is the principal sufferer by the substitution makes the sacrifice of the gallant major for Democracy to St. Paul, in Duluth, a sacrifice that certainly can't be in this district, the vote is increased by 7,000 to 8,000. The Democrats, 4,000 over the Parsons vote, while Baldwin has only about 1,500 less than two years ago, while Tuve gets nearly as many more than Judge Seiser.

FRIENDS OF WAIFS

Society Elects Officers—Two Minnesotans Chosen

PITTSBURG, Nov. 8.—The Waif-Saving Association of the United States is in session here. The afternoon meeting was given to organization and preliminary work, and in the evening a public meeting was held at which George A. R. Aker presided. Among the delegates present were T. E. Daniels, of Chicago, secretary of the national association, and J. E. Daniels, of St. Paul, secretary of the Minnesota association. The business meeting of the association was held at the Chicago Newsboys' home, Col. J. G. Butler, of Detroit; Judge H. T. Thompson, of Louisville, Ky.; Maj. R. W. McClain, of St. Paul; and Russell A. Aker, Detroit; first vice president, J. Keenan, Pittsburg; corresponding secretary, E. Daniels, Chicago; recording secretary and treasurer, L. D. Drake, Ironville, Mo. Board of directors: Joseph Pfeffer, Chicago; H. B. Chas. Chicago; J. E. Daniels, St. Paul; J. Keenan, Pittsburg; C. R. Lathrop, Albany, N. Y.; Lars Anderson, Chicago; G. E. Erie, St. Paul; Mrs. Henry Whitcomb, Chicago; E. E. Stoum, Chicago; Col. George H. Perkins, San Francisco; Hon. George W. Stevens, Duluth; Judge R. E. Johnson, Louisville; Maj. R. W. McClain, Chicago; Rev. R. E. Donohoe, Pittsburg. Adjourned.

THAT LITTLE LOAN BILL.

Gotham Man Refuses to Cash Up \$222,000 and is in the Supreme Court. NEW YORK, Nov. 8.—Justice Barrett rendered judgment in the supreme court today for \$22,171.54 a bond bill, in favor of Julia Shaw, former owner of the Grand Union hotel, against Charles O'Brien Bryant, Bryant's two daughters and a maid hired on credit at the hotel during the three years before 1888 and 1885. They had expected the amount of \$180,000, which they finally realized. They refused to pay the bond bill and hence the suit.

Rhyndland Sailed at Antwerp.

LONDON, Nov. 8.—The sensational story circulated in New York to the effect that the Red Star steamer Rhyndland was six days overdue at Antwerp from New York, and that the delay in her arrival was caused by anxiety, is without the slightest foundation in truth. As a matter of fact the Rhyndland arrived at Antwerp Monday last, and is now lying safely in the port from which she will sail next Saturday, on her return for New York. The steamer on her eastern voyage experienced bad weather, which delayed her somewhat, but she sustained not the slightest injury, and arrived at Antwerp on the 5th inst., as above stated.

Torpedoes a Failure.

NEWPORT, R. I., Nov. 8.—Work in fitting out the cruiser Montgomery with her complement of torpedoes has been suspended, pending a sitting of conference of torpedo experts at Washington. This is supposed to be a result of the fact that the torpedo trials on the Detroit and Cincinnati torpedoes fired from both these ships having sunk.

Lynchers on Trial.

MEMPHIS, Tenn., Nov. 8.—The trial of Detective W. S. Richardson charged with complicity in the lynching of six negroes near Millington, Tenn., Aug. 31, opened in the criminal court today. The entire day was occupied in selecting a jury, and only nine had been empaneled when court adjourned tonight.

Election Court Was Fatal.

CHICAGO, Nov. 8.—E. M. Dickson, the Republican challenger who was assaulted by a crowd of thugs at the polls election day, died today.

ALL IN 6,000 AHEAD.

The Exact Size of the Big Slump in North Dakota.

ALL REPUBLICANS ELECTED.

The Legislature Appears to Be Overwhelmingly in G. O. P. Hands.

MINNESOTA BY COUNTIES.

One Humorous Item—Hilleboe Leads Becker in Freeborn.

Faroo, N. D., Nov. 8.—At 11 o'clock tonight Chairman Robinson, of the Republican central committee, had received returns from nearly every precinct in the state. They give Allen, Rep., for governor, 6,000; Johnson, Rep., for congress, 5,000; Nichols, Briggs and Fancher, for treasurer, auditor and commissioner of insurance, 4,000; and the balance of the Republican state ticket 3,000, except Miss Bates, for superintendent, who leads the entire ticket. Pembina, Walsh and Richland counties, however, Democratic strongholds, give Republican majorities. The legislature is overwhelmingly Republican.

Dakota County Result.

HASTINGS, Minn., Nov. 8.—The official canvass was begun this afternoon, but is not completed, hence the total vote on governor cannot yet be given. For Allen, while Mr. Erickson polled nearly 12,000, as against less than 6,000 for Becker. In this case figures speak loudly for the Republican ticket.

Big Sioux Falls Blaze.

SIOUX FALLS, S. D., Nov. 8.—At 3:15 its morning fire broke out in the Plains Hotel, a building which was apparently caused by the explosion of a lamp. The fire dry goods were practically ruined, entailing a loss estimated at \$30,000; insurance, \$27,500.

Hawkeye Doctors Fined.

DES MOINES, Ia., Nov. 8.—Doctors A. L. Wright, S. C. Dunkle and A. S. Coker, of Carroll, Ia., were today caught by the federal court and are to pay a fine of \$1,000 for irregularities in certifying to fees as members of the pension examining board.

Kyle Isn't Discouraged.

SAN FRANCISCO, S. D., Nov. 8.—United States Senator Kyle, interviewed here today, attributes the Democratic defeat to continued hard times, charged to the Democratic administration by the Republicans. He is not discouraged, but will continue the struggle with the expectation of triumphing in 1896. "No party in history has made such grand strides as ours," he said.

ALL A CASE OF SPITE.

GERMAN PROHIBITION OF CATTLE IMPORTATIONS Proven to Have Been Done for Spite—Concessions Very Ganzy.

WASHINGTON, Nov. 8.—Agricultural department officials who are watching the progress of negotiations between Germany and the United States are inclined to believe that the American cattle to the European power has been prepared for a clever stroke of diplomacy. The announcement from semi-official sources that the German government has agreed to leave the commercial point of dispute whether or not Texas fever could be communicated to other cattle by the importation of American stock to the preponderance of expert opinion, which concludes that the exportation to the United States of cattle from Germany is not a material concession, and that Germany has secured the concession as such but for the chief authority would be Frank Billings, of Nebraska. The work of Dr. Billings is well known at the department. He was formerly chief of the state agricultural experiment station in Nebraska, and among other labors which he conducted, and which brought his name before the public, were experiments upon swine in furtherance of the scientific theory which the scientific bureau of the department, under the leadership of Dr. Billings, and at the beginning of this administration was a candidate, but an unsuccessful one, for the position held by Dr. D. B. Saimon, chief of the bureau of animal industry. A thorough investigation of the propagation of Texas fever conducted by the bureau of animal industry before the present complications with Germany had arisen, led to conclusions which preclude the belief that the germs of Texas fever could be spread abroad by the exportation of Northern cattle. Dr. Billings, however, antagonized Dr. Saimon's report and wrote a paper which furnishes the authority the Germans would like to see desired. Officials say that it is evident that Germany has secured the concession as such but for the chief authority would be Frank Billings, of Nebraska. The work of Dr. Billings is well known at the department. He was formerly chief of the state agricultural experiment station in Nebraska, and among other labors which he conducted, and which brought his name before the public, were experiments upon swine in furtherance of the scientific theory which the scientific bureau of the department, under the leadership of Dr. Billings, and at the beginning of this administration was a candidate, but an unsuccessful one, for the position held by Dr. D. The work of Dr. Billings is well known at the department. He was formerly chief of the state agricultural experiment station in Nebraska, and among other labors which he conducted, and which brought his name before the public, were experiments upon swine in furtherance of the scientific theory which the scientific bureau of the department, under the leadership of Dr. Billings, and at the beginning of this administration was a candidate, but an unsuccessful one, for the position held by Dr. D. B. Saimon, chief of the bureau of animal industry. A thorough investigation of the propagation of Texas fever conducted by the bureau of animal industry before the present complications with Germany had arisen, led to conclusions which preclude the belief that the germs of Texas fever could be spread abroad by the exportation of Northern cattle. Dr. Billings, however, antagonized Dr. Saimon's report and wrote a paper which furnishes the authority the Germans would like to see desired. Officials say that it is evident that Germany has secured the concession as such but for the chief authority would be Frank Billings, of Nebraska. The work of Dr. Billings is well known at the department.
