TALMAGE STEPS OUT.

PASTOR OF BROOKLYN TABER-NACLE RESIGNS.

Discouraged Over the Third Destruction of His Church-He May Become an Lvangelist.

NEW YORK, Nov. 8.-Dr. T. Dewitt Talmage, pastor of the Brooklyn Tabernacle, which was recently for the third time destroyed by fire, has w itten a letter to the elders of the church

tendering his resignation Following is a copy of the letter. "Brooklyn, N.Y., Nov. 8.—To the Session of the Brooklyn Tabernacle—Dear Brethren: I hereby ask you to join with me in a request to the Brooklyn presbytery that they dissolve the pastoral relation now existing. The congregation of the Brooklyn Tabernacle have built, during my pastorate, three large churches, which have been destroyed. It is not right that I should call on them to build a fourth church during my ministry.

during my ministry.

I advise that you do one of two things-either call a new pastor, under whose leadership a church might be built, or remain in organization until you can give certificates of membership to our people, so that they may in usual form join sister churches.

As for myself, I will, as Providence may direct, either take another pastomay direct, either take another pastorate or go into general evangelistic work, preaching the gospel to ail people without money and without price. Thanking you for your ever-increasing kindness to me and wine, and hoping to be reassociated with you in the heavenly world, together with the multltudes with whom we have worshiped during the past twenty-five years, I am, yours in the Gospel,
"T. DEWITT TALMAGE."

The session, according to a triend of the preacher, met Talmage last night and agreed to request the Brooklyn presbytery to dissolve the pastorate re-

presbytery to dissoive the pastotate relations now existing. This is a practical acceptance of the resignution.

Dr. Talmage will in the future devote himself entirely to evangelical work. For a year at least he will make pastoral visits throughout the country, starting early in January. The manager of his business affairs said today: "Dr. Talmage believes that he day: "Dr. Talmage believes that he is called upon to preach the gospel and not to plan how interest on a big church | days. debt can be raised, and how impatient creditors can be appeased."

The Minneapolis & St. Louis road has joined hands with the Union Pacific and Santa Fe, and withdrawn from the Western Passenger association. UNSETTLED TONE IN STOCKS.

But the Result of Trading Was Higher Prices in the General List.

CHICAGO, Nov. 8 .- Owing to renewed and energetic talk of wheat feeding the wheat market was narrow, but firm in tone. The range of price was 1/2 per bushel. There was 1/8c improvement at the opening, and that was the gain with which the market closed. Corn was dull and heavy, losing %c on its previous value. Provisions were firmer and higher. Oats followed corn, losing c on May.

Wheat received a lift at the start from the remarks on feeding and reduction of exportable surplus therefrom in the Cincinnati Price Current. May, which closed yesterday with sellers at 58%c, opened at from 581/4c to 59c bid, with sales freely made at both extremes. The market appeared inclined to hold the slight improvement it started with. Liverpool cablegrams quoted a steady demand for wheat at 14d declose it was 58 %c.

Corn was dull, and for the most part heavy. The receipts were only moderate. The offerings of new No. 3 for December and January were comparatively heavy and the demand nil. The market here was sustained for a short time by the firmness of wheat, but that was insufficient to overcome the apathy of the traders. May opened at 50½c, sold as high as 50½6,50¾c, and at the

close it was 40%c.

There was very little trading in oats.
An easier feeling existed, influenced by a likewise heavy corn market. May started at 32½c, sold down to 32½c and back to 321/4 c, touching 31% c and clos

ing at 32c.
Provisions were firmer. It was reported by an export house that all cable offers of products made from here yesterday were accepted, and this demand for the cash property induced the pack-ers who were short against stock in warehouse to cover their hedges. Pork at the close is 221/2c higher, lard 10c and ribs 121/2c over yesterday's closing The leading futures ranged as follows:

The pressure to sell was slight,

This was followed by a partial reaction, a slight rally, and to. partial reaction, a slight rally, and topartial reaction, a slight rally, and toward 11 o'clock by another small retrograde movement in which the stocks mentioned were the principals.
