Deliciously delicious pastry when you eat Dr. Price's Cream Baking Powder.

THE LIBRARY BOARD.

F. D. Walker Re-elected Chairman.

The library board held its annual meeting yesterday afternoon. F. D. Walker was re-elected president and A. M. Goodrich secretary by acclamation. Mr. Walker responded in a brief review of the year, thanking his brother members for the honor conferred upon him, and said that he was especially glad that they manifested the interest in the library that they did.

Secretary Goodrich read his annual report, which was adopted and amended. His report showed that the rate of tax levied for library purposes for 1894 was three and one-half cents, and that the amount for the year was \$1,000,000. The total receipts for the year from the different sources were \$57,783.24, a fall-off of \$8,500 since last year. The balance on hand with which the board enters the new year is \$2,101.78, which will be sufficient till July 1, 1895 is available. Of the \$2,101.78 reported last year as tied up in insolvent banks, \$98.73 has been recovered.

The total expenditures of the year have amounted to \$48,111.25.

Dr. Hosmer's report was also read, and contained many interesting facts and instructive figures. During the year, 628 new volumes have been added to the library, not including the books which replace those worn out. The total circulation for home use was 428,744 volumes, 48 per cent of it being from the branch libraries.

Park Board Meeting.

The park board held its regular meeting yesterday, and transacted only routine business. The newly-elected members—Commissioners C. H. Woods, F. C. DeWitt and Samuel Hunter—were present to familiarize themselves with the board proceedings.

Mr. W. Folwell, from the committee on disposition of grounds, stated that the land to be given to the city in the tract west of Cedar lake had been laid out and arranged for, but one owner had made it a condition of his gift that he be released from taxes for Glenwood Park, some \$2,000. The committee refused to recommend this to the board, and Dr. Folwell stated that the only thing to do was for the property owners to get together and agree on the gift.

The board then adjourned until Jan. 15.

Galusha Bequests.

The joint will of Elijah and Lydia M. Galusha was admitted to probate yesterday. After deducting the private bequests amounting to \$6,500, the following bequests followed: Ovatonna county, \$1,000; Minnesota state convention of Baptists, \$1,000; Minnesota state convention of Baptists, \$1,000; Baptist women's training school, of Chicago, \$500; Baptist union of Minneapolis, and its mission, \$500; Y. M. C. A. of Minneapolis, \$500, and Home for Aged Women and Children, of Minneapolis, \$300.

Of the balance of the estate one-third each is given to the Baptist Union Theological Seminary of Chicago University, the American Baptist Home and Missionary society and the American Baptist Missionary union, of Boston.

Ministers Meet.

The monthly meeting of Presbyterian ministers was held yesterday at Westminster church. The following were present as corresponding members: Rev. Charles Haver, of Marquette; Rev. R. M. Adams, of Red River; and Rev. R. S. Fields, of the Reformed church, North Minnesota.

It is Judge Kerr.

Judge William Kerr, the new police court judge, took his seat on the bench yesterday morning, taking Judge Mahoney's place, he having retired Saturday night. Judge Kerr, by an arrangement with Judge Holt, at once took up the criminal calendar, and disposed of the day's trial like an old veteran.

Tired of Life.

Glennie Barthlen, eighteen years old, attempted suicide yesterday at the New York kitchen, 205 Nicollet avenue, by taking a dose of poison. The girl was in love with one of the waiters in the establishment, but the young man discouraged her advances.

MAYOR PRATT IS IN.

The New Council Installed Yesterday at City Hall.

“EX” - MAYOR EUSTIS NOW.

His Retiring Message an Able Review of City Affairs.

SNYDER HAS A SURPRISE.

Some Very Plain Talk in His Opening Remarks.

The new council held its first session yesterday afternoon in the council chambers at the city hall, and it has been a long time since the old building presented such a bustling scene of activity as it did then. President Kielich called the old body together, and after a few minutes of preliminary remarks, he moved that it adjourn sine die. Before the motion could be put the resignation of A. H. Runge was read and accepted without a dissenting voice.

President Kielich, before retiring, thanked the members for the courtesy that had been shown him during his term as president, and congratulated them on having made the best record of any council in the history of the city. The twelve retiring aldermen then left their seats and turned over the keys to their successors.

Snyder Got Them All.

The first business of the council yesterday, which it was expected, would furnish a lively time; but Aid. Frederick Snyder received the full twenty-six votes, Aid. Loye, his opponent, not being heard of.

President Snyder was escorted to the chair by Aid. Loye and Lohr, and after the applause had ceased, President Snyder delivered his speech of acceptance. He said:

"In thanking you for the honor which you have conferred upon me, I wish to say that I will be my constant aim to please at least a majority of you all the time. I want the help of all of you in the management of the city. I will do this at the right times for the good of our city. The contest which has just closed has been a light to the public, and it has shown to the people of this city that the interests of certain corporations on the one side, and the interests of the city on the other side, are not always identical. There has been no compromise, and the public interest has been maintained. Let us cling fast to the principle that the public interest is paramount. When that principle is maintained, the city will prosper. No person or corporation will dictate the course of the city. Let us guard the interests of the city as if they were our own. When that is no longer possible, I shall cease to be your president. Let the people of this city know that I will be successful at all times, either to depose your president without good cause, or to change him to their advantage, means that their rights are in jeopardy."

It Was a Hot One.

President Snyder had no sooner ceased than remarks were heard from several of the aldermen that it was a hot one. The speech created an amount of gossip, and a few of the dissenters of the council thought that some of the remarks were somewhat unwise.

C. F. Hauey was re-elected city clerk without a struggle. Aid. Elliott, Adams and Schwartz were then appointed to wait upon the outgoing and incoming mayors and notify them that the council was ready for the transaction of business. Mayor Eustis was introduced by President Snyder. In his last message to the council the retiring executive referred to the council as the "work" during the past two years, and congratulated the old body on having done so much that was so highly commendable.

After giving an outline of the work done by the various city departments, he closed with a feeling tribute to the public and the press.

"I wish to express my warmest appreciation and thanks to all those who have been co-laborers with me in the past two years. Faithfully and conscientiously have the different departments performed their work, the details of which will be laid before the council and the public in the reports of these departments.

It is the duty of the public to feel proud of my part for the moral support which has been accorded to this administration in so generous a measure. To the press I desire to acknowledge obligations, both for criticism and commendation, each helpful in its way in the honest discharge of public duties. To the press more than to any other agency is entrusted the keeping of the jewel of self-government. No local or general government can drift far from an honest, economical and efficient administration unless the press becomes indifferent or falls asleep.

"I know the full weight of the weakness of human judgment, I bespeak for the errors of this administration the charity of the public, and if there has been aught of good it was but the simple discharge of duty."

The New Mayor.

Robert E. Pratt, who was introduced to the council by Frederick W. Capper, in his inaugural address he laid stress upon the fact that the incoming council had before it some very important matters to consider, and it should be the constant aim of the new body to keep up the good work.

At the conclusion of Mayor Pratt's address the election of the various city officers which had been prepared at the morning caucus was proceeded with. The same went through without opposition, as follows:

President—Fred B. Snyder; vice president, Francis G. Drew.

City Engineer—Frederick W. Capper.

City Assessor—Joseph C. Plummer.

Health Commissioner—Dr. H. N. Avery.

Chief Engineer Fire Department—Frank L. Stinson.

City Attorney—D. F. Simpson.

Building Inspector—John A. Gilman.

Street Weights and Measures—A. G. Mosher.

Gas Inspector—A. D. Meeds.

Elevator Man (city hall)—F. T. Quinn.

Janitor City Hall—Frank Gaylord.

City Hall Engineer—George Hull.

Street Commissioners—First Ward—David Armstrong.

Second Ward—David Armstrong.

Third Ward—Charles Wallen.

Fourth Ward—T. Dettler.

Fifth Ward—J. M. Cole.

Sixth Ward—John A. Hagman.

Seventh Ward—George Michie.

Eighth Ward—E. F. Ferry.

Ninth Ward—D. H. Taylor.

Tenth Ward—A. C. Somers.

Eleventh Ward—P. J. Equity.

Twelfth Ward—E. O. Parker.

Thirteenth Ward—Hugh Webster.

The Standing Committees.

were then ready Clerk Haney. Aid. Jennings then arose, trembling with excitement, and said that he wanted to be excused from serving on any of the committees. He considered the names of the committees as being a disgrace, and whoever compiled it had done so very unbecomingly and indecently. Excitement was at fever heat. President Snyder demanded the aid of the clerk to make an appeal to the chair.

What the Beautiful Girl Herself Says.

Surprising Story of the Daughter of a Noted Professor.

How She Excited the Curiosity of All Her Friends.

One of the best known and most interesting men in Brooklyn, N. Y., is Professor J. M. Elwood, residing at 43 Cornelia St. He is a noted scholar and professor. His charming daughter is a young lady of most estimable character and has hosts of friends everywhere.

She became fearfully nervous and run down, and this was followed by a most severe attack of St. Vitus' dance. She grew worse and physicians could not cure her. She finally got well, however, by a method which astonished all her friends.

"It affords me the greatest pleasure," said the professor, "to state that my daughter, who was a sufferer from nervousness and St. Vitus' dance, and who was treated for some by eminent physicians in Brooklyn without result, was completely cured by using two bottles of Dr. Greene's Nervura blood and nerve remedy."

A Portuguese maxim: "A good breakfast, a good husband." American husbands are favored as the best. Follow the example of the beautiful girl who cured her St. Vitus' dance by using Dr. Greene's Nervura in breakfast dainties.

LUMBER TROUBLES.

SLANDEROUS WAR MADE ON P. & J. MEEHAN.

Prominent Lumber Manufacturers of Thief River Falls—Statements Corrected.

Patrick Meehan, of the firm of P. & J. Meehan, lumber manufacturers of Thief River Falls, Minn., was in Minneapolis yesterday, and a GLOBE reporter interviewed him on the subject of the lumber troubles in his town. Mr. Meehan said:

There never was any serious disturbance at Thief River Falls. Some feeling existed between our friends and the lumbermen, but the feeling was mutual and being about evenly divided, but it developed into nothing more than some rash talk and threats on the part of a few hot-headed lumbermen. Unfortunately for us, the newspaper correspondents sending dispatches to the other side of the water were interested in the Jones enterprise, and, as a result, nearly everything that has been published concerning the controversy has been favorable to Jones and prejudicial to us. Slandering, sensational and silly articles designed to injure us got into the city newspapers through the efforts of Mr. Jones, and these, together with the statements of Dr. Greene's Nervura blood and nerve remedy are constantly appearing, and the people everywhere have the utmost confidence in this wonderful medicine.

They take it, and perfect health results. The popular Miss Elwood thinks it is indeed a wonderful remedy when it will cure what all the skill of other physicians cannot cure. It is a medicine which you can consider your own. Dr. Greene's direct professional care, and you can consult him or write to him about your case, freely and without charge. This is a guarantee that this remedy will cure, possessed by no other medicine in the world.

CONROY RE-ELECTED.

His Associates Place Him in the Chair Again.

The newly elected board of county commissioners met yesterday. Mr. Conroy was re-elected to the chairmanship. The first business to come before the board was the reduction of taxes in Crystal Lake. Judge Young presented the matter, asking for a resolution to be passed to that effect.

In discussing the resolution it was shown that parts of Crystal Lake were assessed originally at \$104 an acre, while the balance of the lake was assessed at \$48. When the state board met Crystal Lake was raised 75 per cent and Brooklyn 25 per cent, making adjoining parts of the same farm lying in the two townships assessed at \$182 and \$60 respectively. The entire board concurred in thinking that a manifest injustice had been done.

Commissioner Nash thought that the only proper thing to do was to have a county assessor who should devote his whole time to the work. Commissioner Barnard suggested a convention of assessors in the regular course of business the county auditor was authorized to advertise for bids for the county printing for 1895.

The old board concluded its business yesterday. The bonds for the new county officers were accepted.

SWOIN IN.

New Judges of the District Courts Take the Oath of Office.

The newly elected judges of the district court appeared before Judge Pond yesterday to take the oath of office. Judge Belden took Judge Pond's consideration a batch of civil court cases, and Judge Smith began the criminal court grind in the court room at Labor Temple. Charles Hink, the self-confessed murderer of Miss Catherine Gink, was brought to court and his case set for Jan. 11.

The demurrer in the indictment of Fred W. Farrington, which was set for yesterday, was continued till Jan. 12, when it will be heard. Judge Smith, who kept the calendar in excellent shape last term, is anxious to have this term prospective equally well kept.

POLICE ITEMS.

Seth Faulkner was fined \$10 or ten days by Judge Kerr yesterday afternoon in the police court for cruelty to animals. Sunday Faulkner drove a team of horses and a cow, and the cow finally dropped dead at Eleventh avenue south and Washington, while the other had to be shot.

Sunday night burglars broke into the Northwestern Hing Fur company's store, at 409 Main street southeast, and stole a large quantity of untrimmed mink, wolf and fox skins. Entrance was effected through a second-story window overlooking a shed.

William Brookson, a switchman on the Milwaukee and Fur company's road, was called upon Dr. Moulton yesterday while setting a brake, and received several bad bruises. He was removed to Dr. Lockford's office and his wounds dressed, after which he was taken to his home on Sixth-avenue south.

A man giving the name of James Enrie has called upon Dr. Moulton, whose offices are over Vogel's drug store, several times lately, claiming that some one was trying to poison him, and doctor made an examination of the man yesterday, however, and is of the opinion that he is suffering from a hallucination. He is said to be an active worker at the City mission.

Water Higher Than in Any Freshet Since 1839.

USTONTOON, Pa., Jan. 7.—The flood is sweeping things along the river at a lively rate tonight. During the past two hours the river has been rising rapidly, and at 9 o'clock tonight there was a stage of seventeen feet at Conneville and sixteen feet six inches at Dawson, five miles below, and it was rising at the rate of a foot in four hours. This is the highest the river has been since the flood of August, 1880, and, with this expectation, surpasses all the floods since 1850. The situation tonight is really alarming. Towerville, a suburb of New Haven, is submerged; two-thirds of the citizens have already moved out, and if the water rises much higher their homes will be swept away. Reports from Dawson, Dickerson's Run, Hanlings and other towns down the river state that they are now at the mercy of the waters, and great damage is being done. The slope mines along the river are flooded, and work has been suspended; it will require at least several weeks to get the water pumped out of them.
