EXPORT BOUNTY ON SUGAR

Is Being Paid by That Country According to Recent Discoveries.

COMPLICATES NEGOTIATIONS

For the Restoration of American Exports to the Minimum Tariff.

WASHINGTON, Jan. 14.- The first effect of the discovery by the treasury officials that Spain pays an export bounty on sugar, and that therefore Spanish sugar is liable, like European beet sugar, to an additional tax of one tenth of a cent per pound, was the caus of much apprehension lest it should prevent the consummation of the agree ment which United States Minister Taylor has almost completed with the Spanish government looking to the restoration of American exports to the minimum tariff schedule. But it is believed here that this fear is not well founded. As explained by Mr. Taylor, the Spanish bounty is paid only on sugar produced in the Spanish posses sions, refined in Spain and exported Now it appears that the value of the sugar so refined in the Spanish pos sessions and imported to the United States is absolutely inconsequential, for during the last fiscal year it amounted to but \$1,797 in all. As against this small amount of refined and bounty-paid sugar, there was imported into the United States during the same time from the Spanish possessions raw sugar, upon which no bounty was paid, to the value of \$69,195,626. While it is true that the tariff act provides that all sugar coming from countries that pay a bounty shall pay the additional tax, there is also a provision that the "importer of sugar produced in a foreign country, the government of which grants such direct or indirect bounties, may be relieved from this additional duty under such regulations as the secretary of the treasury may prescribe, in case said importer produces a certificate of said government that no indirect bounty has been received upon such sugar in exchange of the tax collected upon the beet or caue from which it was produced, and no direct bounty has been

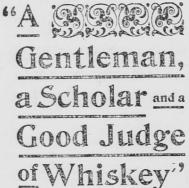

or shall be paid."

The amount of the duty on the small remainder of \$1.797 worth of refuned and bounty-paid sugar would be too small to cause any friction between the United States and Spain, it is believed. As the matter stands now however, the the matter stands now, however, the only country which sends any consid-erable amount of sugar to the United States and can entirely escape the payment of the differential duty is Great Britain, and the value of the sugar so imported into this country from the British possessions during the last fiscal year reached the total of \$13,236,491.
Date this afternoon Secretary Carlisle

sent a telegram to collectors of customs at all of the leading ports modifying his recent order in which they were direct-ed to collect an additional duty of onetenth of a cent per pound on sugar im-ported from Spain or her dependencies. He now instructs them that this additional duty is to apply only to refined

COURTS PREVENT THE ANNUAL ELECTIONS.

Move of Antis Against the Gas Combine Causes a Flutter Among Speculators.

CHICAGO, Jan. 14.-Attorney General Moloney today sprang a decided surprise upon the gas companies of Chicago and the Fidelity Insurance, Trust and Safe Deposit Company of Philadelphia. He went before Judge Tuthill restraining order preventing the Fidelity company from voting stock or prox ies at the annual meetings of the companies, which were set for today, or from receiving any dividends from Chicago gas stock.

The decree had the effect of causing an adjournment of all annual meetings of the gas companies until the decree can be disposed of or set aside, and the sudden and unexplained reasons for the financial people and those interested in

About a month after the entry of the

Since that time Mr. Moloney has been watching the proceedings of the trust which had presumably been broken up. A few days ago he heard that the annual meetings were to be held today, and that it was intended to vote the proxies of the Fidelity company at the meeting which compose the majority of the stock. As the corporation had voluntarily come into court, the attorney general proceeded to act under the questions arising as to the Fidelity comany should be continued until the latter should have come into court. So Mr. Moloney prepared the restraining order, which eventually spoiled a well-laid plan. He did not serve notice of his intentions until a short time before ne went before the court, when he no-

NEW YORK, Jan. 14.-The week opened on the stock exchange with an irregular market, and the tone of speculation was unsettled throughout the greater portion of the day. There was very heavy trading in Chicago Gas, the transactions in which were one-third of the total sales. At the opening free offerings of the stock were made, and a sharp break was made in the early dealings of 21/8 per cent, ex-dividend of 11/2 per cent. The selling was credited to inside interests in the main, but the bears put out some fresh lines, and reports of complications in the annual meeting, called for today in Chicago, which rendered necessary an adjournment without electing directors.

At the lower figures there was some covering of short contracts, which caused a recovery of 1 per cent, of caused a recovery of 1 per cent, of which & per cent was lost in the final dealings, making the loss on the day 2½ per cent. Sugar came next in order of activity, but moved within very much narrower limits.
