St. Paul Globe

MINNESOTA HISTORICAL SOCIETY ILLINOIS DEMOCRATS Call a Convention to Consider the Money Question. Gov. Marshall Still Lives.

VOL. XVIII.—PRICE TWO CENTS—ON TRAINS FIVE CENTS. ST. PAUL, MINN.: FRIDAY MORNING, APRIL 5, 1895. PRICE TWO CENTS—ON TRAINS FIVE CENTS.—NO. 95.

ON A COINAGE BASIS

Leaders of Democracy in Illinois Propose to Reorganize the Party.

CURRENCY THE ONLY ISSUE

In the Coming Campaign, It Is Claimed—Tariff Relegated.

STATE CONVENTION CALLED

At Which the Policy of the Party Is to Be Decided Upon.

SPRINGFIELD, Ill., April 4.—The Democratic state central committee of Illinois, at a special meeting today, issued a call for a state convention to meet at Springfield June 4 next to consider the currency question, which it is proposed to make the issue for the next campaign. The call issued to the Democracy of the state says in part: "The only national question before the American people is that of the currency. The war is over. The force bill is repealed, never to be re-enacted. Tariff legislation of a general character will not be attempted for several years. The next national campaign must be fought out with the currency as the issue between the parties, and it behooves the Democratic party as a party to assume a decided position on this question, and to draw its party lines according to the wishes of a majority of its members. The BASIC PRINCIPLES

of Democracy forbid the decision of important questions by the party leaders without instructions from the people, and it is therefore proper for this committee to call on the Democrats of the precincts, townships and counties of this state to meet in convention in their respective localities to discuss freely the great questions before the people, to give expression to their views in appropriate resolutions, and to select delegates to a convention to be held at the state capitol. The call then sets forth the basis of representation, etc., and urges the Democrats to turn out freely to the meetings in their various localities, and give free expression to their views, in order that there may be no doubt as to the position of the party on this great and important question.

At the conclusion of the meeting Chairman Hinrichsen gave out an interview of some length in regard to the action of the committee, and its expected effect. He said he is in receipt of information from every county in the state, outside of Cook, which convinces him that 90 per cent of the Democracy favors the free and

UNLIMITED COINAGE of silver at the ratio of 16 to 1, without waiting for the action of any government. The committee expects that the resolutions adopted by the county conventions will be in line with this feeling. Mr. Hinrichsen says he does not think the party will commit the party to a fiat currency, or cause the disappearance of gold from circulation, and thus cause it to be a premium. On the contrary, he states that the object of this movement is to prevent that very thing. Regarding this he says:

"This movement will spread from Illinois to every state in the Union, and long before the convention comes around it will be evident that congress will be chosen in 1896 will pass a 16 to 1 free coinage act. Now, when capitalists realize this they will begin to purchase silver bullion, which can now be bought for, say, 55 cents for 41 2/3 per cent. The sure profit of 45 cents on each 41 2/3 per cent will bring out all the gold from hiding places. The result will be that the price of silver will rise steadily, and when the law goes into effect the question of the party will be settled."

As to the bankers he says: "The bankers cannot combine and refuse to buy silver bullion. The profits on silver speculation will be so sure that they will tumble over each other in order to buy. Gold will roll in from Europe, and the demand and trade stimulated by the letting loose of hoarded millions, and the certainty of a final settlement of the currency question will bring on a more prosperous period, without danger of following panics. A few leading Democrats will be driven from the party by this movement, perhaps, but most of them will be swept along in the tide, especially as the character of the movement and its certain results will remove the only serious objections to the free coinage of silver."

EFFECT ON G. O. P. As to the effect upon the Republican party, Mr. Hinrichsen said: "As party men are pledged to monometallism and take no other ground, unless they will join the Democrats, they believe in free silver. I certainly expect to carry the state and country in 1896. This movement will be a reorganization of the Democratic party. It will be built from the township up."

Regarding the prospects of an independent silver party, he says: "The attempt begins at the wrong end. A few men at Washington cannot control 13,000,000 voters. The county movement started in a strong party, using fixed ammunition like a revolver cartridge, are absolutely necessary to fighting off torpedo boats and general efficiency. Therefore the board recommended that while the eight-inch guns be retained, rapid-fire five-inch rifles be substituted for the six and five-inch breech loaders. It is also held that the masts and rigging of the Chicago are of no service.

RHODE ISLANDS VOTE

Official Figures on the Result of Wednesday's Election.

PROVIDENCE, R. I., April 4.—Following are the official figures on the state election: For governor, Lippitt (Rep.), 25,697; Littlefield (Dem.), 14,191; Lippitt's plurality, 11,506; lieutenant governor, Allen (Rep.), 23,342; Miller (Dem.), 13,431; Allen's plurality, 10,911; secretary of state, Bennett (Rep.), 25,688; Green (Dem.), 13,347; Bennett's plurality, 12,341; attorney general, Dubois (Rep.), 23,242; Brown (Dem.), 13,877; Dubois's plurality, 9,365; general treasurer, Clark (Rep.), 24,199; Perry (Dem.), 12,359; Clark's plurality, 11,840. The Republicans elected 34 members of the senate, the Democrats 3. In the house the Republicans have 67 members and the Democrats 17. All the towns and cities voted on license voted yes.

WINSLOR ELECTED

His Majority Sufficient to Make It Certain.

MILWAUKEE, Wis., April 4.—Reports on the supreme court election indicate gains on the part of Winslow over Clemenston that will give the former a majority of 1,000 to 900. The official count changes many of the former estimates, but Winslow's gains over last night's estimates are nearly 100. Winslow's plurality is 1,000. Many blank judicial ballots were cast. The lack of interest in the contest for supreme court justice causes delay in forwarding returns to the county clerks. While the foregoing estimate is reasonably correct, the receipt of returns from rural precincts may possibly change the result.

RIVAL OF THE BELL

NEW TELEPHONE COMPANY SAID TO BE FORMING.

CLARKSON AS PRESIDENT

It Is Rumored, and Pillsbury One of the Main Movers in the Organization.

CHICAGO, April 4.—The Times-Herald says: What the Bell Telephone company has been fearing since its first meeting in Chicago is now a definite shape. This is nothing more or less than a competing concern in process of construction, the mission of which will be to fight the Bell people wherever they operate. According to reports, a telephone company has been formed in New York, backed by a number of wealthy men. The capital of this company is given as \$10,000,000. The backers said to be connected with this new enterprise are: The Parrot company, of New York; the Standard Oil company, of Chicago; the sugar trust; George F. Ruggles, San Francisco millionaire; Pillsbury, the Minneapolis flour man, and J. S. Clarkson. About a week ago whispers of the company were first heard in San Francisco, and now they are heard in Wall street, and now they swell to pretty authentic assurance that such a stupendous enterprise has been planned.

BADGERS INTERESTED. APPLETON, Wis., April 4.—Concerning the new telephone company mentioned in today's Associated Press dispatches as having been organized in New York with a capital of \$10,000,000 to fight the Bell company, something is known here. Several circles that have been known in some circles that such a project was maturing, and that several heavy capitalists of the Fox River valley were interested in it. This district will be composed of the states of Wisconsin, Illinois and Iowa, and the president will be Gen. J. S. Clarkson, ex-chairman of the Republican party in Wisconsin. The full details of the project will be given out very shortly, it is understood, and then it will be found that capital from the Fox River valley is very prominent in the company controlling the district of Wisconsin, Illinois and Iowa.

NEW YORK, April 4.—There is no doubt that a new telephone company, to be known as Standard Telephone company, is now being organized in this city. Several of those whose names have been mentioned in connection with the project declare, however, that they have no interest in it whatever.

It is understood that Thurlow Weed Barnes is to be president of the new concern, and it is known that Henry Metz, of the firm of Hatter & Metz company, of 55 Maiden Lane, is interested in the organization, but in what capacity he refused to say.

Members are being asked to pledge their support to the new concern and to take its service.

TO REFIT THE CHICAGO.

WASHINGTON, April 4.—The naval inspection board which recently made a careful examination of the United States steamer Chicago has made a report to the secretary of the navy suggesting important changes in the rig and battery of the ship.

The Chicago was one of the first vessels of the new navy to be launched, and she has rendered excellent service and has made long cruises to every part of the globe. In the years she has been in service great progress has been made in the naval construction, and in view of the good qualities of the ship the board believes that she should be supplied with modern appliances.

Congress has already made an appropriation to fit her with new engines and boilers, which are now being constructed, and will result in largely increasing her speed and coal endurance. Now the board expresses the opinion that her battery should be changed almost to date. This new battery consists of four eight-inch, eight six-inch and two five-inch breech loaders. The war in the east has emphasized the belief of the ordnance officers that for the smaller caliber, the rapid-fire type guns, using fixed ammunition like a revolver cartridge, are absolutely necessary to fighting off torpedo boats and general efficiency. Therefore the board recommended that while the eight-inch guns be retained, rapid-fire five-inch rifles be substituted for the six and five-inch breech loaders. It is also held that the masts and rigging of the Chicago are of no service.

BRUTE'S CASE GOES OVER. NEW YORK, April 4.—William Caesar, the negro who was arrested for the murder of Mary Martin, was arraigned in the Tombs police court today. On request of Supt. Byrne the prisoner was remanded to police headquarters until 2 o'clock tomorrow afternoon.

SPINNERS WANT SHORTER HOURS. BOSTON, April 4.—The National Mill Spinners' convention adjourned today. It decided to petition to legislators of the several New England states to reduce the weekly working hours from sixty to fifty-eight.

BANDITS RUN DOWN

The Hold-Up of a Rock Island Train in Oklahoma Is Quickly Avenged.

ONE KILLED—MANY INJURED

In the Fight Between Outlaws and Pursuing Sheriff's Posse.

ROBBERS MADE LIGHT HAUL

They Relieve Passengers of a Half Dozen Revolvers and a Few Valuables.

CHICAGO, April 4.—The Rock Island train was robbed at 11:50 last night twenty rods west of Dover, Okla. The train, No. 1, was held up by five mounted men, who ordered the baggage man to open the door of the baggage car. He refused, and the robbers fired twelve shots through the door, wounding the baggage man in the wrist. The robbers then broke open the door with a sledge, but did not succeed in getting anything but a number of watches and rings. The passengers in the sleepers were not disturbed. The robbers were last seen from the train, going west from Dover, all mounted, the leader being upon a mettlesome gray horse. A posse started from Kingfisher, Okla. the next station, in pursuit of the bandits.

BANDITS BITE THE DUST

WICHITA, Kan., April 4.—Late tonight word was received from the territory that the posse had come up with the Rock Island robbers, and that in the fight which followed one man was killed and several wounded. Names are not given, and it is not likely that further particulars can be gotten tonight. The leaders of the robbers were Charles Bagly and Sel Wyatt, of Ingalls, Payne county. They were recognized by ex-U. S. Marshal Grimes, who was on the train. They were formerly prisoners in his custody and greeted him courteously. The others were evidently local thieves from Kingfisher. The delay caused by the robbery of the express cars of the passengers an opportunity to hide their valuables. What they had handed to the robbers were such amounts as they chose to give up. The negro porter was forced to carry a small sack and go in front of the bandits. Bagly kept with him, telling everybody to chip in, and with his Winchester ready to shoot any one who resisted. The Rock Island has offered a reward of \$1,000 for the arrest and conviction of each of the robbers.

DASTARDLY REVENGE

Residence of a Lady Philanthropist in Nova Scotia Burned.

HALIFAX, N. S., April 4.—It was learned here today that the residence of Miss Sterling, a well known English lady, who has several years since come to Nova Scotia and purchased a magnificent property in Annapolis village, together with several other buildings, was destroyed by fire yesterday morning. The fire is thought to have been started on account of Miss Sterling's refusal to admit to bail to the purpose of the woman in coming to Nova Scotia was to establish comfortable homes for orphans. Upon her property here she built elaborate houses in which the children were received, not only from this vicinity, but from England, Ireland and Scotland. From the latter country came the fire. Last week it became known to the matron that an operation had been performed on the girl, and on Saturday Dr. A. N. Miller and Robert S. Parker, of Aylesford, were being responsible for the girl's condition, which is very serious. Miss Sterling made the complaint against the prisoners, and in spite of her attempts to have them released on bail, Miss Sterling has refused to consent to such proceedings, and the men are still in jail. The authorities will investigate the matter.

SAT IN THE DEATH CHAIR

Lake, the Murderer of Emma Hult, Electrocuted.

AUBURN, N. Y., April 4.—William Lake was executed by electricity in the state prison here at 12:45 p. m. William Lake murdered Emma Louisa Hult, a fellow prisoner at the Van Camp home near Carlton, in an operation of last year. The crime was accompanied by manifestations of ferocity and depravity almost beyond belief. The victim's head was beaten to a pulp and her body mutilated in a barbarous manner. After the crime committed, he was taken to the electric chair, and did not plead any provocation or excuse. It had been deliberately planned, and the details committed to writing, together with a brief story of the murderer's life. The crime was of illegitimate birth, he said, had embittered all his life. He had loved Emma Hult, but she refused his attentions, and he determined to kill her. Lake, upon his trial, expressed a desire to go, but was sentenced to one year at Waupun by Judge Gilson this morning. M. V. Sullivan, a leading member convicted recently of petit larceny, was fined \$20 and costs.

Actor Payne Sentenced

FOND DU LAC, Wis., April 4.—Charles Bishop, alias Charles A. Payne, an actor, who pleaded guilty some time ago to abducting Clara Vetter, was sentenced to one year at Waupun by Judge Gilson this morning. M. V. Sullivan, a leading member convicted recently of petit larceny, was fined \$20 and costs.

Spinnerys Want Shorter Hours

BOSTON, April 4.—The National Mill Spinners' convention adjourned today. It decided to petition to legislators of the several New England states to reduce the weekly working hours from sixty to fifty-eight.

DEAL OF COMMENT

Occasioned Over the Opening of the Yankton Reservation.

JANGLE REGARDING LANDS

Land Commissioner Lockhart Tries His Hand at Unraveling.

THE RELEASING OF FILINGS

Not Carried On by the Commissioner—Has No Such Authority.

Special to the Globe. PIERRE, S. D., April 4.—The Yankton reservation matter and the connection of Land Commissioner Lockhart thereto are creating a great deal of comment in the vicinity of the reservation. Your correspondent called upon Commissioner Lockhart today for a correct statement of the facts. One article set out states positively that the commissioner has released filings of the fish for the reservation, and in the northern part of the state to file on the Yankton lands, and also that the officials at the Mitchell land office had refused to accept the filing fees for the state lands, and that the state filings are not recorded in the Mitchell office. In reply to these assertions, Mr. Lockhart states that he has released no filings in any part of the state to file on Yankton lands, as he has no authority for such action, the bill introduced to give him such authority having failed to pass the legislature. And as to releasing filings on the Sioux reservation, the office has never made a filing on that reservation, and has nothing to release, even if it so desires. The receiver of the Mitchell land office did not have authority to release the filing fees presented, but did accept them, and agreed to make an early report of them to the department. In relation to the fact of the strong objection of that portion of the state to filings on the Yankton reservation, Commissioner Lockhart thinks that, as the southern part of the state gets nearly all the benefits of the endowment lands, it should not object to allowing a share of such lands to be taken in that portion of the state, the Yankton filings being the only ones south of Wessington Hills, and the people of the south, who took up all the land before the state was given its grant, are now asking that the people of the state furnish the lands for which they are still left about \$5,000 in benefit. The \$5,000 of the Yankton reservation will not take from them anything near like just proportion, as the lands are located by the office.

Timber and Stone Claims Wanted on Ash River

DULUTH, Minn., April 4.—When the land office opened this morning 100 men made a rush to file timber and stone claims on a tributary of the Ash river, a tributary of Rainy lake. The crush was terrible. There were only twenty-seven who were in order, and of them a dozen were in conflict. The government men in the out on the street all night, and were some decidedly unpleasant experiences. Two men were found clinging to the roof of the government building at midnight and bounced from the building, and when the men were let into the corridor at 6 o'clock this morning they found the Philip Hasselblad, a mailing clerk, had got through the postoffice and had hold of the land office door knob. They used him so roughly that he had to retire. The business of the land office for the first quarter was only \$19,983, as against \$10,283 one year ago. This is due in great measure to the rig investigation being made by the government into claims, so that men are afraid to take up land, and partly, also, to the fact that the lands thrown open to settlement.

ALBERT LEA EVENTS

Young Man Dies From Injuries Received in a Runaway. Special to the Globe. ALBERT LEA, April 4.—A team ran away with Oliver Stenard, and after a long chase he was killed by the runaway. He was twenty-four years of age, and had hosts of friends, who mourn his violent death.

Refractory Gold

ALFRED FALLS, Minn., April 4.—Alfred Eiland, president of the Minnesota Gold Mining and Refining company of Duluth, arrived here in company with H. R. Owens, of Minneapolis, yesterday, and proceeded by team to the mines. Mr. Owens was asked for a plain statement regarding the property, and he stated that up to date it was a mere experiment. Some gold has been discovered, but it was of the refractory kind.

Seventy Dollars a Ton

BOISE, Idaho, April 4.—News has reached here of a remarkably rich strike, made in the Alta mine, at Delamar. An air shaft is being sunk the result of sampling and assaying showing the ore to average \$70 per ton in gold, and the shaft has hardly been started. Chicago capitalists have bought bonds, which they claim are now worth twice what the purchasing price was.

Amelia at Hot Springs

HOT SPRINGS, S. D., April 4.—The famous authoress, Mrs. Amelia River-Chandler, has been in this city a few weeks. She has been here incognito, registered under the name of Mrs. Pratt, of Denver. Mrs. River-Chandler and her party have left for California, after which they will return to Hot Springs for a two months' stay.

From Minnesota to Kansas

AUSTIN, Minn., April 4.—C. H. Davidson, of this city, has, with his cousin,

THE VENEZUELAN SITUATION

In His Attempt to Interfere With the American Children in the Division of Venezuelan Pie, Likely to Step on a Few Monroe Doctrines.

POISONED FISH

They Come Pretty Close to Killing Several People.

Estes' Skull Crushed

ANKA, Minn., April 4.—Samuel Estes, well known to Minneapolis people and lumbermen throughout the state, was killed yesterday afternoon about 4 o'clock while crossing the Great Northern railroad bridge. Estes had been in Anoka, and when in the middle of the bridge the accommodation train leaving for Milaca came on. The engineer reversed and applied the brakes, but the man had disappeared. Estes was found at once on the logs about four feet below with his skull crushed.

May Yet Keep Open

GRAND FORKS, April 4.—At its recent meeting the board of university trustees checked up accounts and ascertained that after running the institution through the school year there would be still left about \$5,000 in the treasurer's hands. The board also passed a resolution to the effect that no action would be taken by it towards the closing of the institution, but that every last effort that could be made towards raising money had proven futile. The members express confidence in being able to raise the amount required, \$25,000, among the people of the city and state.

Don't Move the Monument

REDWOOD FALLS, Minn., April 4.—The action of the joint legislative committee on the Birch Coulee monument to move the same, created considerable feeling here, where Hon. C. D. Gillilan, one of the commissioners, resides. Every one believes that Mr. Gillilan and the commission did what was right in the matter and that the monument was located on the best spot on the battlefield, overlooking, as it does, the entire Minnesota valley, where railroad passengers can easily see it. If it is set back it will be out of sight.

Bevington Acquitted

SIoux CITY, April 4.—Today the jury in the building case of ex-County Attorney Bevington was instructed by the court, upon motion of counsel for the defendant, to return a verdict of not guilty. The remaining case against Bevington, the one which charged him with obtaining money on fraudulent bills of witness fees, was dismissed upon motion of the county attorney.

Has Only One Saloon

LUVERNE, Minn., April 4.—Ole Ostrem's saloon was closed last night by Sheriff Balch on an attachment in favor of the Gund Brewing company. Ostrem has made an assignment to T. J. McDermott, liabilities, \$1,800; assets, about \$500. There in only one saloon left in Luverne. License here has been fixed at \$1,500, and three will drop out.

Blaze at Leeds

LEEDS, N. D., April 4.—Fire this morning destroyed the general store of W. I. Brown and the Benson County Star office, adjoining. Brown's stock was quite heavy, though his stock was less than a short time ago.

QUEER ENTERPRISE

General Indignation at the Dispatch for Its Publication of

EX-GOV. MARSHALL'S DEATH

Without Seeking to Ascertain the Facts in the Case.

HIS RELATIONS ARE PAINED

At the Premature and Assinine Publication—Was Only a Rumor.

LOS ANGELES, Cal., April 4.—A dispatch from St. Paul today stated that somebody had received a dispatch from Pasadena announcing the death in that city of William H. Marshall, ex-governor of Minnesota. While Mr. Marshall is quite ill, suffering from nervous prostration and a partial paralysis of the lower limbs, he still has a very substantial lease on life, and his physicians are hopeful of his recovery. The assinine of the St. Paul Dispatch in publishing as a fact the rumor of the death of ex-Gov. William H. Marshall without first ascertaining whether it was true, has caused general indignation in the community, to say nothing of the pain it has occasioned the governor's family, relatives and immediate friends. Gov. Marshall is still alive, and was resting easy at the hour the false publication was issued. There was no occasion for the story beyond the rumor on the streets, and this the Dispatch distorted into fact and published as such without a line of information from Pasadena, Cal., where the governor is at present, on which to base it. Such action on the part of the evening paper is regarded as wholly inexcusable, as had it made the least exertion to ascertain the facts, it would have speedily learned that Gov. Marshall was far from being a dead man. It was assured by Gov. Marshall's immediate friends in this city, who took the pains to call at his office, that Gov. Marshall had not died, and after publishing this assurance, it follows that the St. Paul Dispatch had lied, and that Gov. Marshall had died, and devoted two columns to an obituary. On the preceding night at 10 o'clock when the GLOBE office was closed, Gov. Marshall had died at Pasadena. The GLOBE did not accept the rumor as true, and rush blindly into print, but followed the rules observed by every land of the living, and telegraphed to Pasadena for confirmation or denial of the report by those at the governor's bedside, or other in actual possession of the facts. This was not done to do, as there are numerous lines of telegraph into Pasadena, and it required but an hour to ascertain that Gov. Marshall was still in the land of the living. The Dispatch did not observe this common-sense rule. Evidently it feared being left on the news, and preferred to hurry into the great beyond. Near shall family into unnecessary grief rather than be considered a truth-telling publication. The premature publication occasioned the Marshall family much pain. Being aware that the governor was alive, they were naturally pained and mortified to witness this cold effort to hurry into the great beyond. The friends of the family called at the GLOBE office last night and expressed the indignation they feel over the action of the Dispatch, and many days of many days of the family shall be forgotten. MRS. LANGFORD'S DENIAL. "There is no foundation for these painful reports," stated Mrs. N. P. Langford, a sister-in-law of the governor, when questioned last evening at her home, 291 South Exchange street, as to the published reports of the governor's death. "Mr. Langford is not at home just now," she continued, "but he is utterly worn out running about the whole day in the hospital, and he is very ill. I shall, when questioned last evening at her home, 291 South Exchange street, as to the published reports of the governor's death. "Mr. Langford is not at home just now," she continued, "but he is utterly worn out running about the whole day in the hospital, and he is very ill. I shall, when questioned last evening at her home, 291 South Exchange street, as to the published reports of the governor's death. "Mr. Langford is not at home just now," she continued, "but he is utterly worn out running about the whole day in the hospital, and he is very ill. I shall, when questioned last evening at her home, 291 South Exchange street, as to the published reports of the governor's death.
