BY WILLIAM G. ROBERTSON,

REAL ESTATE DEALER, successor to Daniel A. Robertson; established in St. Paul 1850.

FOR SALE—Over 600 selected building lots im different sections of St. Paul, on the unusual and most attractive terms of \$25 and upward, according to value and location, for the first payment, and \$10 per month thereafter until the lot is paid for. This is a rare chance to secure a homestead or to purchase for most profitable investment. Here is an offer that beats a savings bank. Just think it over, buy a lot on these easy monthly payments with money you might otherwise spend and a couple of years hence find that your \$300 lot, about half paid for, is then worth at least \$1,000 cash in the market, and all on such easy savings. Any intelligent person will find on investigation that most of the safest and enduring fortunes have been made out of real estate at all times. There is no question about the future of St. Paul. It is a substantial city and not an overgrown Western town. And St. Paul real estate is cheaper and is the best investment today of any city in the United States, and there is no mistake about this either. Times are improving, business is on the upward grade and now is the opportunity to make money by purchasing St. Paul real estate. To meet the demand I have decided to make a specialty of selling lots on monthly payments and am now enlarging my business and office facilities to aggressively enter this vacant field. I will have a large corps of efficient assistants and salesmen, and respectfully invite the attention of purchasers to inspect my lists, and if the lot wanted is not there I will get it.
