

AN IMPROVED TONE

FOLLOWING A BULL OPENING THE STOCK MARKET CLOSES STRONG.

PRICES GENERALLY HIGHER.

SPECULATION DURING THE WEEK HAS BEEN APATHETIC AND IRREGULAR.

FOREIGNERS MOSTLY SELLERS.

Trading in Bonds During Saturday's Short Session Was Active and Strong.

NEW YORK, June 8.—The stock market opened dull with some irregularity as to prices. Advances, were recorded, were of the modest fraction, while Cotton Oil preferred and Sugar declined 1/8. Rubber 3/4, and preferred 3/4. Western 3/4, and do preferred 3/4. Subsequently Rubber rallied 1/8 per cent. Pittsburg, C. C. & St. L. declined 1/8 and Squeechum & Western preferred recovered 1/8 and reacting 3/4 per cent. During the last hour of business there was a general improvement in prices. Consolidated Gas was notably strong and advanced 1/8 per cent. Hocking Valley and New Jersey Central 3/8. C. C. & St. L. and Hocking Coal 1/8, and the rest of the list a fraction. Sugar advanced 1/8, but receded 1/8 in the final sales. Squeechum & Western preferred gained 1/8 and reacted 1/8 per cent. The market closed strong and in the main higher.

Speculation during the week was at times extremely apathetic and while somewhat irregular the movement of prices was in the main downward. The official declaration of the secretary in the Northwest dividend rate had a temporarily depressing influence on the stock and the market in general. The action of the Sugar factors in declaring the regular dividends had an enervating effect on the stock, which made a material impression on the market, but later reacted. Notwithstanding the better tone of the market, the reaction in the Northwest dividend rate had a temporarily depressing influence on the stock and the market in general. WHEAT REACHES 81 3/4 CENTS, CLOSING STRONG AT THAT FIGURE.

MARKET OPENED UP TAME, BUT FURTHER CROP DAMAGE REPORTS EXCITED THE TRADERS.

GOOD CASH WHEAT INQUIRY.

The Corn, Oats and Provision Markets Sympathized with the Strength in Wheat.

CHICAGO, June 8.—Wheat turned from quiet weak early in the session today to very strong at the close of further crop damage reports. After declining to its lowest point, the highest value made in the first half hour, it rose 2c and closed at 13c for July, which is 1/2c since the close yesterday, and is the highest closing price so far this season.

The corn, oats and provision markets sympathized with the strength in wheat. Oats were higher, while corn only gained 1/8, and pork, lard and ribs are but modestly advanced. Although the first sales of wheat were from a crop of 1,000,000 bushels, the price it closed at on the day before the opening was comparatively tame. There were no new features in the surroundings of the market. The weather was still dry in the winter wheat area and wet in the spring wheat region. The chief items of early news comprised the publication of the state crop reports of Michigan and Illinois and the particulars of the week's movement. The Michigan report on wheat gave the following condition for the state at 73, or about 10 per cent reduction for the month. The Illinois report gave the average for the state at 82, or about 10 per cent on May 1. These reports, had as was the state of affairs they indicated, were not quite so bad as the imaginations of some of the speculators had pictured the conditions, and consequently their effect was bearish rather than bullish. The aggregate decrease of wheat and flour in the United States and Canada for May, as given by the trade bulletin, was 10,353,000 bu. and an increase of 4,000,000 bu. in Europe and abroad, the net result of the world's decrease for May was 15,353,000 bu. The market acted rather heavy for an hour or more, and then took a hand in the market and around 10:30 a. m. the price of wheat advanced 1/2c, the price of flour advanced 1/4c, and the price of corn advanced 1/8c.

Barrett & Zimmerman report: The market is bearish, characterized by liberal receipts and inquiry and firm and steady prices. The demand has been active, but the traders and drafters. These conditions still remain, and indications point to a good trade in wheat and flour. The sales were:

MINNEAPOLIS MARKETS.

Activity in Grain and Quotations Bullish.

There was a good deal of activity in wheat futures yesterday. Monday will be the government report for July, which is expected to be bullish in strength. The short interest became anxious and the market advanced 1/2c for July, but the buying was light and the price settled to around 80c, when the shorts introduced a large amount of wheat and the price made itself felt and the price made an uninterrupted advance to 81 3/4c at the close.

There was considerable cash wheat changed hands yesterday. Offerings of spot wheat were in the bulk and were good buyers. Occasionally a car of choice No. 1 northern, realized 1/2c over the July bid. Offerings were at 5c over. For No. 1 northern to arrive, the market was 1/2c higher, and for No. 2 northern, 1/4c higher, and for No. 3 northern, 1/8c higher.
