

IT SUITS TOURISTS

RIVALRY OF ST. PAUL ROADS RESULTS IN A DECIDED CUT.

THEY BOYCOTT THE N. P.

SEATTLE SHIPPERS TAKE ACTION IN RETALIATION FOR FANCED SLIGHT.

CHANGES IN OFFICIAL PLACES.

Callaway to Succeed Hibbard—Scott for Paymaster on the St. Paul.

The watchfulness of the various city ticket agents in the matter of East-bound passenger rates was advertised to yesterday. From the scramble made to capture the school teachers, of whom there are about 1,600 in the Twin Cities, it was intimated that there was a likelihood of rates being raised. It so proved yesterday. The Soo Line claimed to have evidence that the Chicago-St. Paul lines had secretly made and were selling tickets at a one fare rate for the round trip—\$25.50 to New York and \$30.50 to Boston. This was a sign for all lines to do the same thing, and all went into the scramble with a will.

ALL FOR HILLS ROAD.

Seattle Shippers Boycott the Northern Pacific. SEATTLE, Wash., June 14.—The Seattle Shippers' association, comprising 75 per cent of the business men who have dealings with railroads, today decided unanimously to route no more freight by the Northern Pacific, but to route it all over the Great Northern until the Northern Pacific stops its trans-Pacific steamers here to land and receive freight. If the Great Northern does not within a reasonable time provide a depot and terminal facilities in accordance with the Westinghouse agreement, the boycott is to be applied to the Great Northern, and all business is to be given to the Canadian Pacific. At present the Northern Pacific gets 60 per cent, the Great Northern 25 per cent, and the Canadian Pacific 15 per cent. It was decided to secure the adhesion of every shipper in the city and of every lumberman.

ELECTRICITY ON THE "L."

Russell Sage Says It Is Being Considered.

NEW YORK, June 14.—Russell Sage was interviewed today in reference to a report that the Manhattan Elevated Railroad company, of this city, had contracted with the Westinghouse electrical company for the electrical equipments for the Manhattan road. Mr. Sage said there was no truth in the statement that the contract had been made with the Westinghouse company, but it is a fact that the Manhattan company is considering the problem of operating the elevated road by electricity. If the Great Northern does not within a reasonable time provide a depot and terminal facilities in accordance with the Westinghouse agreement, the boycott is to be applied to the Great Northern, and all business is to be given to the Canadian Pacific.

GATHERING INFORMATION.

PITTSBURG, Pa., June 14.—Col. F. K. Hain, vice president and general manager of the Manhattan Railway company, New York, who is here with Frank Jay Gould and William Northrop, said to a reporter today: "We are here looking through the Westinghouse works and will examine the general electric plant to determine their ability to handle such a contract as ours will be if we decide to go ahead in the matter."

CLARK A. PLACE RETIRES.

G. G. Scott to Become Paymaster of the St. Paul Road.

MILWAUKEE, Wis., June 14.—After an active service covering a period of about thirty years, Clark A. Place, the vice paymaster of the Chicago, Milwaukee & St. Paul Railroad company, will retire July 1 next. He will be succeeded by G. G. Scott, for several years past assistant paymaster, and who has been in the office for the past ten or twelve years. W. H. Hayden, who has for some time past been a traveling agent for the St. Paul company, will be made assistant to Paymaster Scott, with the title of cashier.

Callaway Succeeds Hibbard.

The successor of General Passenger Agent Hibbard, of the Soo Line, whose resignation takes place today, was quietly announced in local railroad circles.

NEW FACES ALL ABOUT CHANGING

Winona, Minn., June 14.—B. J. Jackson, of Bayfield, Wis., was elected and accepted by wire today the position of principal of the Winona high school for next year.

BREW FOR SILVER.

ACTION OF THE GERMAN FEDERAL GOVERNMENT NOT WHAT WAS DESIRED.

HOHENLOHE IS SHREWED.

DALLIED WITH THE BIMETALLISTS KNOWING THEY WOULD FAIL.

BRITAIN'S GOLD INFLUENCE.

Hope that the Kaiser May Do a Little to Help the Silverites.

WASHINGTON, June 14.—The preponderance of opinion among public men who have given attention to the progress of the German movement for an international conference looking to the rehabilitation of silver is that the chances for such a conference in the near future are very slim. There are few left who believe that such a conference will be held this year, and many express the opinion that it will be postponed indefinitely. The action of the majority of the German federal governments, which is reported to have been adverse to the bimetallic movement, is the principal basis for this opinion, but some profess to see, back of the action of the German governments, a still more significant circumstance. Chancellor Hohenlohe is known to be opposed to the silver movement, and the most that he ever promised Count Mirbach and others, who have been pressing upon the German government the propriety of Germany's taking the initiative in calling the conference was that he would consider the question in connection with the different state governments of the empire; and now that these appear to have spoken against silver, it is maintained that the chancellor probably had a shrewd idea of the probable result and adopted it as a political device to avoid assuming direct responsibility on a question on which he could count upon the support of only a minority of the cabinet, and upon which at large is not united, and upon which also the emperor has made no declaration.

Further Cut in Rates.

Reference was made in the Globe yesterday to a cut in freight rates which has been made by the Chicago common points from \$3.30 first-class to \$2.65. Yesterday it was learned that a still deeper slash is expected on the rates in which Montana rates will be made the maximum. Freight rates between New York and Chicago were advanced on Tuesday, but it is believed that they will be reduced to 10 cents higher than had prevailed for a long period. It looked as though earnings would again pile up, and the Chicago common points would have become so greatly demoralized—in fact a regular slaughter is reported—that the promise of any important rate cut was not to be expected on this basis since has vanished.

RAILROAD NOTES.

The recent meeting of the lines in Chicago to form a new passenger association did not accomplish its purpose. One who was present says: "This was owing to the lukewarmness on the part of certain of the lines. Chairman Caldwell and twenty-five others were appointed to further the project, but they failed to meet on June 25. This committee was in St. Louis today, and will go on to Kansas City, and possibly to Denver. They hope to patch up differences and try to get a basis of organization that shall satisfy all concerned." By order of the bureau of navigation of the United States treasury department, the Great Northern line at the Soo is given exclusively to passenger steamers of over 2,500 tons burden. The Chicago and North Western ship company, the only exclusive passenger steamers on the Great Lakes. Hereafter these vessels will have no cargo on board. The new tender of the St. Paul & Duluth, showing its summer resorts, is very artistic. The corners are embellished with a yacht done in colors. White Bear lake is given six illustrations, Chicago lakes three, besides several to the Dulles of the St. Croix. Rush lake, Goose lake, Snake river, Pokagona lake, the Dalles of the St. Louis, Baptism river and a river are all shown in handsome half-tones. A lithograph bird's-eye view of the lake region of this state is also shown. A table of general information of resorts along the line and the game and fish laws of Minnesota are not forgotten.

Yesterday morning at 8:30 a special train of five cars left Minneapolis for the St. Paul & Duluth for Duluth. It carried out the delegates to the train dispatchers' convention held at Minneapolis, and arrived at the Zenith City at 11:40 a. m., thus making the run of 157 miles in three hours and thirty minutes. This included twelve stops, taking up about thirty minutes of the run. The run was practically made in three hours.

THE FIFTH ANNUAL AMERICAN

congress will be held at Minneapolis June 17-21. It is authorized that certificates of central traffic, Chicago and Ohio river traffic and Southern passenger associations shall be honored by the roads in the western line. Passenger association, when sold with tickets giving passengers the right to pass over such lines on June 15, 16 or 17.

On Thursday night Mr. Ober,

the father of Second Assistant General Freight Agent Ober, of the Omaha, and also of Robert Ober, general agent of the Northern Pacific Refrigerator Car Service company, died at Chicago. These young men are doubly afflicted, as their mother died only about two months ago.

The Great Northern will make a one fare round trip rate to the regatta at Lake Minnetonka on June 22, between the Wisconsin university and Minnesota Boat club of the regatta. Willmar and intermediate points to Minnetonka beach.

F. C. Brown, of Chicago, general Western passenger agent of the International Navigation company, arrived here yesterday morning to attend the great steamship ball given last night. He returns home today.

On account of the third annual assembly of the Chattanooga association at Devil's Lake, N. D., the Great Northern will make a rate of one and one-fifth on excursion tickets sold any day during the assembly.

The land department of the Great Northern announces that thirty-four Polish families will shortly remove from Winnipeg, and settle in the Red River valley.

General Passenger Agent Teasdale, of the Omaha, and Chief Clerk Valentine, of the Burlington, have returned from the Chicago passenger meeting. Dr. Hallwood, of St. Paul, was among the outgoing passengers on the Northern Pacific last night, en route for Yellowstone Park.

Division Freight Agent Rantoul, of the Northern Pacific, left last night for Cincinnati and other points East. He will be gone a week.

General Freight Agent Broughton, of the St. Paul & Duluth, left last night for St. Louis on business trip.

The steamship "Empress of China," of the C. P. R. line of steamers, arrived at Hong Kong, June 12.

Eastbound on the Great Northern's train out from Seattle Thursday night was a carload of schoolma's.

W. A. Beckler, of Chicago, traveling passenger agent of the Queen & Crescent, is in the city.

General Passenger Agent Whitney, of the Great Northern, was in Duluth yesterday.

ROOM FOR CIVILIANS.

Not Enough Candidates to Fill Naval Vacancies.

WASHINGTON, June 14.—

Owing to the unusually large number of retirements from the navy and the engineer corps during the past year, for the first time in the two administrations there are now more vacancies than candidates to fill them.

The action of the majority of the German federal governments, which is reported to have been adverse to the bimetallic movement, is the principal basis for this opinion, but some profess to see, back of the action of the German governments, a still more significant circumstance.

Chancellor Hohenlohe is known to be opposed to the silver movement, and the most that he ever promised Count Mirbach and others, who have been pressing upon the German government the propriety of Germany's taking the initiative in calling the conference was that he would consider the question in connection with the different state governments of the empire; and now that these appear to have spoken against silver, it is maintained that the chancellor probably had a shrewd idea of the probable result and adopted it as a political device to avoid assuming direct responsibility on a question on which he could count upon the support of only a minority of the cabinet, and upon which at large is not united, and upon which also the emperor has made no declaration.

WORLD'S GOLD AND SILVER.

Mint Director Preston Estimates an Enormous Increase.

WASHINGTON, June 14.—The director of the mint, R. E. Preston, estimates the world's production of gold for the calendar year 1894 to have averaged \$20,000,000 in value, against the value of \$18,500,000 against \$18,500,000 for 1893, showing an increase during the year of \$1,500,000. The increase in the production of gold during the year was: Africa, \$1,400,000; Australia, \$6,000,000; United States, \$2,000,000; Europe, \$1,100,000; and the rest of the world, \$1,000,000. The production of silver for 1894 is estimated at \$100,000,000, against \$90,000,000 for 1893, showing an increase of \$10,000,000. The greatest increase in the production of silver is in Bolivia, \$10,000,000; Mexico, \$3,000,000; Peru, \$2,000,000; Chili, \$1,000,000; Greece, \$1,000,000. Both the production of gold and silver in 1894 exceeded that of any prior year in the world's history. Mr. Preston is of opinion that his estimate is conservative, and that the exact facts known they would show an increase even greater than stated.

HARMON TAKES ACTION.

United States Officers Told to Keep Their Eyes Open.

WASHINGTON, June 14.—Attorney General Harmon has received the following from the secretary of state relative to reported filibustering expeditions against Cuba: "It is a matter of current rumor and newspaper report that certain individuals in the United States are making, by enlistment of men, the equipment and arming of vessels, and by other illegal measures, to aid the insurrection in Cuba, and to bring about the independence of Cuba. While this department has not been furnished with tangible evidence confirmatory of such rumors and reports, it deems it of great importance that no possible opportunity be given for complaints that the government of the United States has in any respect, in violation of its full duty to a friendly nation, it is respectfully suggested, therefore, that the United States attorneys and marshals for the several districts embracing the coast between New York and Brownsville, have their attention called to the subject, and be specially enjoined to see to it that the neutrality laws of the United States be faithfully observed, and all violations thereof promptly and vigorously prosecuted."

BRADSTREET'S.

Bradstreet's will tomorrow say: The recent check to the activity in general trade, taking the country as a whole, which followed the severe and unusual frosts of the close of May, has begun to register in relatively moderate spurts of prices for the staples and upwardly smaller totals of bank clearings. The cereal crop scares which follow the frosts (which are now being met by the new contracts) are being made at \$3.35 for the last half-year, with provision for advance in wages.

"Futures for the past week have been 24 in the United States, against 22 last year, and 24 in Canada, against 30 last year.

NEW RISING FAST

BUSINESS IMPROVEMENT MORE MARKED WITH EACH SUCCEEDING WEEK.

GOOD REPORTS ALL AROUND

EXPORTS WILL SOON BE BRINGING GOLD INTO THE COUNTRY.

MONEY IN BETTER DEMAND.

Industrial Conditions Gratifying and the Crop Situation Better Than Ever.

NEW YORK, June 14.—R. G. Dun & Co.'s weekly review of trade tomorrow will say:

"It is no longer a question whether business improvement has been effected, for we have reports from all parts of the country been so uniformly favorable. The daily average of bank clearings in June is 24.8 per cent larger than last year, though 14.4 per cent less than in 1892. The most potent influence has been the receipt of more favorable advices regarding growing crops. Labor troubles are getting out of the way, wages in many establishments are rising, and with the iron industry just now leading, there is general prosperity. The professional condition also helps. The time draws near when, with good crops, exports will bring gold hither, and though foreign operations in stocks and bonds have been insignificant this week, the effect of the present transactions has not been exhausted. Much diminished receipts of money from the interior indicate better employment in business, and especially at the West, and the volume of commercial loans steadily rises and is now far for this season, even in good crops. The most potent influence has been the receipt of more favorable advices regarding growing crops. Labor troubles are getting out of the way, wages in many establishments are rising, and with the iron industry just now leading, there is general prosperity. The professional condition also helps. The most potent influence has been the receipt of more favorable advices regarding growing crops. Labor troubles are getting out of the way, wages in many establishments are rising, and with the iron industry just now leading, there is general prosperity. The professional condition also helps. The time draws near when, with good crops, exports will bring gold hither, and though foreign operations in stocks and bonds have been insignificant this week, the effect of the present transactions has not been exhausted. Much diminished receipts of money from the interior indicate better employment in business, and especially at the West, and the volume of commercial loans steadily rises and is now far for this season, even in good crops. The most potent influence has been the receipt of more favorable advices regarding growing crops.
