An Unappreciated Story.

A story, told by an English paper and claiming the merit of absolute truth, evidences once more the inexorable purity and womanliness of Queen Victoria's character. At Windsor a party of young princes and princesses were chattering with members of the royal household on various matters. The queen was present, but was not noticing them especially, when a heartier laugh than the rest aroused her interest and she asked to be told the fun. Now the laugh had arisen from an anecdote, which was not really risky, but just a little bit so. There was a demur at repeating it to the queen. Everybody felt slightly uncomfortable. The queen said again that she and Princess Beatrice would like to hear the story. It was told. The queen listened, and then said, with her inimitable slignity and simplicity: "We are not amused." It is not the example set by its royal head that has given the English smart set its unenviable reputation in the matter of morals, big and little. An Unappreciated Story.

CHICAGO, Ill., Sept. 14.—Large Northwestern receipts, an expected in-crease in the visible supply and the eported failure of the bond syndicate to make good the gold reserve, were too heavy a load for wheat today, and December closed 1%c lower. visions closed at declines.

Wheat was less active today. Cables came higher, the natural reflex of our strength yesterday, but outside of this all the conditions were bearish. It was reported that the bond syndicate had failed to make good the loss to the treasury by the gold exports and this proved a great disappointment; the deliveries in the Northwest were larger, being 1,129 cars, against \$11 cars the same day last year, and the exports from both coasts for the week were only 1,810,000 bu, or 400,000 bu less than the week before, and nearly 1,000,000 bu less than the week before, and nearly 1,000,000 bu less than during the corresponding week last year. There were also indications of a big increase in the visible supply next. Monday, against a decrease of 3,000 bu the corresponding week last year.

All this had a most depressing influence, and the selling pressure was considerable. There were times, however, when the weakness was combatted with a good deal of vigor, but without much success. The probable big increase in the visible, the weakness in stocks and the financial outlook were all against it. December sold from \$3%,0050c split to 57%c, made several reactions on the way down and closed at 57%c.

Corn was firm for a few minutes about the opening, but weaknesd in the near future. The latter was the reason for exceptional weakness in the near futures, September closing at 31c, as against 32c yesterday. May, although also weak, did not get below 29c, which was the value at the elose. Today's receipts were 551 cars by rail and 20,000 bu by canal, and Monday's receipts are estimated at 600 cars.

Trading in oats was quiet. At the opening prices were steady, but fell

STOCKS STILL UNSETTLED. Downward Tendency Was Re

illieved by a Short Rally.

NEW YORK, Sept. 14.—The stock imarket today opened weak, the unsettling influences of the previous day continuing operative. London prices for American securities, as had been expected, came lower, the reported dealines extending to % per cent. There awas no important news bearing on the prices of stock exchange securities, but the expectation of something vagilely unfavorable was felt by many of the traders. The downward tendency was not relieved until 11:15, when covering of shorts temporarily stemmed the recession. In the break Missouri Pacific lost 3%; Great Northern pfd, 3%; Sugar, 2%; Lead, 2%, and C., C., C. & S. L., Denver pfd, Kansas & Texas pfd, Tennessee Coal and New York Central each 2 per cent. Material declines also occurred in a number of other stocks.

The rally extended from ½ to 1½ per cent, the last in Sugar, Tobacco and Missuori Pacific. The improvement was short-lived, however, and, in the last fifteen minutes of businss, another effective drive caused recessions of ½61½ per cent, Sugar making the extreme loss.

these conditions are the heavy obligations of the United States to Europe to account of the balance of trade against us, which has been swelled by the heavy imports and totally inadequate movement of our exports to cancel the same. The sharp shrinkage in the prices of our agricultural product, the comparative failure of our winter wheat crop, the shortness and slow movemnt of our exciton crop, as well as the present heavy stocks of that staple abroad and the persistent selling of our securities by Europe, constitute a grave problem. On the other hand conservatives, leaving the probability of a government bond issue out of the question, believe that, under the auspices of the syndicate, a block of our securities, variously estimated at from \$5,000,000 to \$10,000,000, will be floated abroad, which will make enough exchange, together with the assistance of the syndicate and the banks, to tide the situation over until a supply of grain, cotton and other bills has appeared, large enough to stem the tide of gold exports to Europe. The other new developments have temporarily been ignored as of relative unimportance to the foregoing considerations.

INCREASE OF LOANS.

Less Idle Cash in Banks Than for a Long Time.

a Long Time.

NEW YORK, Sept. 14. — The New York Financier says this week: "If the statement of the associate banks of this city for the week ending Sept. 14 affords any criterion, the day of 1 percent money in New York has passed away. The banks now hold less idle cash than they have reported since April 27 last, when the reserve was affected by the bond syndicate operations, and while the heavy cash reductions of the past week—amounting to \$9.436,000—were due in part to gold exports, the fact should not be overlooked that the loan items show a remarkable tendency to advance without symptoms of relapse; the increase for the week ending Sept. 14 being \$4,333,-100. The aggregate loans are now \$522, 638,900, or nearly ten millions in excess of the figure that stood for years as a high water mark. The decrease of \$5,099,100 in deposits shows that money is being employed to advantage by interior banks in their own localities. The decrease of \$7,524,700 in legal tenders was brought about by shipments previously referred to, and also by the heavy export movement, which necessitates the use of legal tenders. A new bond issue in the face of such heavy decrease in cash would put money rates far higher than they have been since the panic."

Chicago. Chicago.

CHICAGO, Sept. 14.—Cattle—There were not enough cattle to make a market todisy, only about 500 head being received. Thus far this month the demand for well finished corn cattle has continued active, and the outlook is good for the near future, the current receipts being much smaller than in recent years. Hogs—Only about 9,000 fresh and stale hogs were offered on the market today. Heavy hogs sold at \$3.80@4.50; mixed lots at \$3.90@4.50, and lightweights at \$3.90@4.60.
