DULUTH, Minn., Oct. 19.—The Endeavorers began their second day in Duluth with a sunrise prayer meeting at the Congregational church. The subject was "Laborers Together With God," conducted by Albert Gentry, Cream, Minn. At 9 o'clock a song service was conducted, followed by devotions led by W. H. Knapp, of Rochester. The church was well filled when the active business of the convention was taken up at 9:30. The first subject was "The Prayer Meeting Committee," conducted by J. H. Taylor, of St. Paul. Mr. Taylor regarded the prayer meeting committee as the most important in the society. The discussion brought out many varied ideas. Next was a free parliament on "The Lookout Committee," conducted by Dr. Jennette McLaren, of St. Paul. "Each one of us," she said, "no matter what we are or what committee we are on, should be members of this committee." The different methods of committee work in various societies was talked over. The committees in some societies kept a record of the members and where some were thought to be backward they were assigned to members of the committee for personal work. The question of dropping members after failure to attend three consecutive meetings aroused a lively discussion and much difference of opinion. State President Leffingwell, of Wisconsin, was present and gave greeting to the Minnesota endeavorers in the name of the Wisconsin society.

The discussion of Christian citizens was taken up. "The Sabbath" was discussed by Rev. George W. Trower, of Hutchinson, and was followed by Rev. H. F. Stillwell, of Minneapolis, who discussed the governmental side. Dr. Merrill Nealopolis, invited the convention, in behalf of the city union of Minneapolis, to hold its tenth annual convention in that city. The banner for the society showing the largest proportional increase in membership was awarded to the Faribault Presbyterian society, which has increased 88 per cent in the past year. The banner is composed of badges from local societies in the state and from others. This closed the morning session, and with their song-leaves under their arms, the young Endeavorers went upon the street to hold their meeting in spite of cold wind and the snow which filled the air. Meetings were held at four different points. In the afternoon there was a boat ride, after which the denominational rallies were held at various churches. At 5:30 the Duluth committee of 1885 tendered a reception and tea in the parlors of the Congregational church, at which President C. N. Hunt was toastmaster. At this evening's meeting the report of the secretary was read, and President Hunt delivered his annual address.

OFFICERS CHOSEN.

Officers were chosen as follows: Charles N. Hunt, president; Carrie A. Holbrook, secretary; W. H. Knapp, treasurer; Minnie R. Ellingson, judge; superintendent; Walter N. Carroll, chairman of transportation committee; H. J. Petran, first vice president. A rising vote of thanks was given Miss Holbrook upon the reading of her report for her earnest and faithful service during the past year. Minneapolis was chosen as the next meeting place. The short list of names for the general secretary, John Willis Barer, of Boston, and from the B. Y. P. U. and the Epworth league and greetings were returned by the convention.

BRUTE WAS DESPERATE.

Beat His Wife to Death, Shot the Sheriff and a Woman. WEBSTER CITY, Ia., Oct. 19.—Reed Smith, aged thirty-five, living at Lehigh, became insane with jealousy last night, and took a club and beat his wife into a jelly, killing her. The sheriff of Webster county was called to arrest the murderer, when he arrived at the Reed home, the man was there, and asked to go into another room to get his coat before going with the sheriff. When he came out of the room he was carrying a gun, and before the people in the room realized what he was doing he fired at the sheriff, not ten feet away. Sheriff Woolsey was struck in the head by the shot, the bullet tearing off one ear. The shot passed on, striking a woman named Harber, who will die from the injuries. Reed escaped, and has not since been captured. He was traced to Jewell Junction this morning. Reed is a mulatto, about six feet tall and well dressed.

GALE ON PEPIN.

Log Rafts Wrecked—One Life Lost. Special to the Globe. LAKE CITY, Oct. 19.—Three rafts of lumber which were being towed through Lake Pepin by the steamers Ravenna Clyde and Graves were broken up by a severe gale last evening. Most of the lumber is now drifting through the lake and but little of it will be recovered. The loss will exceed \$100,000. Lewis Moore, a trawler residing at Read's landing, lost his life by drowning while attempting to catch drifting logs which were floating past the pontoon bridge at that point. The unfortunate man leaves a wife and two children.
