WHEAT STILL OFF.

ANOTHER INCREASE OF THE VISIBLE CAUSES A DROP.

IT HAD A HIGHER OPENING.

REACTION CAME QUITE TOO SOON AND LASTED ALL

Corn. Oats and Provisions Also Turned Downward Before the Close.

CHICAGO, Oct. 19.-Prospects of big local receipts and another increase in the visible supply knocked another %c off the price of December wheat today. May corn closed 4c lower, May oats 1/4c lower and provisions finishe at declines. Wheat opened higher and sold $^3\mathrm{sc}$ above the close yesterday, but soon turned heavy and declined %c,but The early strength was due to the steady, firm cables, and to the fact that there was no rain in the winter wheat belt, notwithstanding the pre was good covering and not much for sale, the result being a temporarily strong market. But the strength soon started free selling, not only of long stuff, but for the short account as well. Armour, Baldwin-Farnum, Schwartz Dupee and Brosseau all sold heavily and started the price downward. The anticipation of a large increase in local stocks, a big addition to the visible supply and the heavy deliveries in the Northwest, with some assertions that they were likely to keep up for ninet; days at least, all contributed to the weak factors, and finally carried th

weak factors, and finally carried the price off \(\frac{1}{2} \) for from the opening.

Trade was again very dull and confined largely to the local talent, with big operators apparently bearish and the scalping crowd inclined to follow. December sold at 60\(\frac{1}{2} \) early, sold off to 60\(\frac{1}{2} \) c, up to 60\(\frac{1}{2} \) early, sold off to 60\(\frac{1}{2} \) end then down to 60\(\frac{1}{2} \) c, up to 60\(\frac{1}{2} \) early include 50\(\frac{1}{2} \) cars of wheat, and this had much to do with

celpts for Monday include 598 cars of wheat, and this had much to do with the weakness as well as the estimate of over 2,000,000 bushels increase in the visible Monday.

Corn was weak and dull. Inquiry for cash corn was good, but the stiffness of lake freights rather hindered the shipping movement. Receipts were 333 cars and 499 cars are estimated for Monday. In addition to the rail receipts today 15,800 bushels came by canal. December, which sold at the opening for 27%c, closed at 27%c, and was offered at that at the close.

The session in cats was quiet. Toward the end a little better demand developed and sellers were very willing to let stuff out. The feeling was weaker. October sold at 17%c and closed there.

The hogs were no more numerous at

The hogs were no more numerous at the yards to day than had been expected but the week's run, compared with that of the corresponding week of the year, numbered 201,272 to 153,024. The packing to date at Chicago is 2,789,000 head, and was 2,626,000 head for the same time last year. January pork declined to 39,20 and closed at \$9,22½, as against \$9,37½ on the day before, and May drepped from \$9,62½ to \$9,52½ and closed at \$9,55. Lard rested with a loss for the day of 5c in January and 2½c in May, and ribs are 7½c lower for both of these deliveries.

Estimates for Monday: Wheat, 508 cars; ccrn, 410; oats, 315; hogs, 37,000 head.

MINNEAPOLIS MARKETS.

Nothwithstanding the dry weather continues wheat closed lower Saturday. The market ruled without feature throughout the session, and with nothing to 'influence it from outside, the drift of trade naturally brought lower prices. There was a good demand for No. 1 northern at '4c over December price. The offerings on spot were not large, a great many cars being applied on sales previously made to arrive. Offerings of No. 1 northern to arrive were small at the decline. No. 2 northern was freely offered and sold within a wide range of price, the best going at as h'gh as 55c, while the poorer qualities went at as low as 54c. Following are closing quotations: No. 1 hard, on track, 55½c; No. 2 northern, October, 55c; December, 55c; May, 59½c; on track, 55c; No. 2 northern, on track, 53½c. IRREGULAR AND WEAK.

But Stocks Closed Slightly Above the Low Points.

NEW YORK, Oct. 19.—The speculation in stocks today opened moderately active and irregular. A weak tendency sood developed in the active shares, with General Electric and Kansas & Texas preferred making the most important losses. After the first hour the market again became irregular. The coalers declined fractionally, and Cleveland, Loraine & Wheeling preferred lost 1½, and Pittsburg, C., C. & St. Louis 1½ per cent. Support appeared in the grangers, and Tobacco ralled 1¾, while New York, New Haven & Hartford jumped 2½ per cent on a purchase of 100 shares. Further liquidation was apparent in La Clede Gas, the stock yielding 1½, with a later recovery of 1 per cent. The depression is credited to apprehension of hostile action on the part of the municipal authorities of St. Louis. Prices closed slightly above the low point, as a rule, with the market quiet.

The week's market has developed the fact that, while buyers of stocks have been few, sellers have not been numerous. Accordingly, except in a few noteworthy instances, the transactions have been due to the room scalpers. The dominant factor on the bear side has been again the adverse condition of the foreign exchanges, which pointed toward gold exports, while on the bull side there have appeared the substantial results following from an increased commercial and manufacturing business, improved earnings of the rallways and the largest iron output in the history of the country.

Early in the week a spurt in the grangers carried Northwest to 107½, the highest of the year. For the week fractional losses were recorded for the most active stocks.

The speculation in bonds today was fairly active and irregular, with the changes narrow in most cases. Northwest sinking fund 6s, Toledo & Ann Arbor firsts trust receiptes, and Toledo, the Low Points.

North-west sinking fund 6s, Toledo & Ann Arbor firsts trust receipts, and Toledo, St. Louis & Kansas City firsts trust receipts gained 2 per cent. Wabash firsts, Detroit & Chicago extension declined 2½, and Oregon Short Line consol 5s trust receipts 1 per cent. The sales were \$953,000. The bond trading for the week was fairly active and irregular, with a downward trend.
