the alleged \$16,000 offer of the Hot

the hour. It was discovered early this

morning that he had not been authorized by the Hot Springs Athletic club

to make the offer, and Brady openly accused him of being a fakir. In re-

buttal he unfolded a three-sheet litho-graph in colors of himself. During

the afternoon he appeared to be considerably worried over the harsh criti-

ciams passed upon his conduct of last

night, and finally, in self-defense, he issued the following card to the public:

"My name is Jack Dalton and I hail from Chicago. I am on the level.

The Cabinet Party Attends a Grand Banquet and Afterwards Departs for Washington.

ATLANTA, Ga., Oct. 23. - No brighter or balmier sun ever shone over this particular portion of the Southland than that which dawned on Presidential day at the Cotton States and International exposition. The thousands of visitors landed in the city yesterday early swelled the throngs on the streets to immense proportions and locomotion soon be came a difficult matter. In accordance with the carefully laid plans of the exposition management, the exercises of the day were all concen trated within the exposition grounds into which the visitors and a large proportion of the population of the city emptied themselves during the morning. The presidential party anteed and protected by a constitution spent the morning quietly at the which was ordained and established by Aragon, where they remained until 11 o'clock, when they were driven rapidly to the exposition grounds without any parade whatever. Inside the gates the military was already gathered. Capt. J. F. Burke, of the Gate City guards, acted as marshal. He had in line the Fifth regiment of the United States regulars, commanded by Col. W. L. Kellogg; the Fourth Virginia regiment, commanded by Col. C.A. Nash; the Virginia Military Institute cadets, commanded by Col. D. The troops paraded around the board walk within the fair enclosure and were reviewed by the president from a stand in front of the government building. EVILS OF THE SHERMAN ACT.

Democratic Party Always the Consistent Champion of Personal Liberty.

NEW YORK, Oct. 23 .- Senator Hil. was the central figure in the great Democratic mass meeting under the auspices of the state committee, which was held at Cooper Union tonight. Frederick R. Coudert acted as chairman, and with a few complimentary remarks introduced Senator Hill. The senator declared that the prin-

ciples of the Democratic party are so plain and explicit that they do not need to be avoided. "We have dodged nothing in the campaign, and we are attempting to deceive no one. If we are right we want to win; if we are wrong we deserve to be defeated." Speaking of the tariff bill enacted in 1894 by the Democrats, Senator Hill said: "It has been in operation only a little over one year. That time has not been ample to demonstrate its value and usefulness. It is to be regretted that it has not met the full expectations of its friends in realizing sufficient revenues to prevent deficiencies, but this consolation exists that, even if there must be some deficiencies for a brief period, there has been no unnecessary and extravagant taxation imposed under its provisions. Sufficient time has not elapsed to determine accurately whether its reductions were all wise or justifiable, but it is believed that in the end it will be proved that they were not unreasonable. It is possible that, in anxiety to relieve the people from the enormous tariff taxation, largely prohibitory in its character, imposed under the McKinley bill, the reductions were pressed too far, but that fact has not vet been established."

ITS MISCHIEF REMAINS. As to the Sherman silver law the speaker said: "The Democratic party may not always have acted with entire wisdom in regard to silver, but this much can be said, that it was not responsible for the Sherman silver law. That law was Republican in its conception, in its enactment and in its enforcement. The law had ceased, but its mischief remains, because there had been issued under its provisions \$150,000,000 of legal tender paper money with substantially no available assets with which to redeem it, and which today is disturbing the treasury and

embarrassing its operations.' The senator devoted a considerable portion of his remarks to what he regarded as one of the principal issues involved in the campaign, viz., "Personal liberty." Personal liberty meant liberty regulated by law-reasonable law. Continuing, he said in part: "The Democratic party has always been the consistent champion of personal liber-ty. It will not change its attitude by reason of misrepresentations or the threats or boasts of puritanism. The persistent misconstruction of the Sun-day provisions of the existing law, and the difficulties of securing the same without long and expensive liti-gation, render some additional legislation desirable. It may be that if the excise law were enforced alike in all the municipalities of this state-en-

forced liberally, charitably and reason

ably-there would be no necessity for new legislation WHERE IT IS DIFFERENT. "It is a fact that the Sunday provisions of the existing law are not en-forced in this great metropolis the same as they are in Brooklyn, in Re-publican Syracuse, Republican Buf-falo and Republican Rochester, and in the state. They are not enforced in the same manner as they are in Republican Herkimer, from which Senator Miller hails. Some legislation is therefore indispensable. The people demand it, and popular sentiment should be respected in that regard. Upon this question the two parties have declared themselves. We have not said we favor the opening of saloons on Sunday throughout the state; neither have we said we are opposed to it. We have simply declared that the people of each municipality should be permitted to de-termine that question for themselves. This is a safe and just and a satisfac-

tory disposition of the question. FOR A SHORT CAMPAIGN.
