There is a lively beer war at Racine. It will end in somebody having to take water.

It is at least certain that this session of the legislature will not enact any pernicious laws.

Secretary Morton may as well resign. His method of distributing seeds is distasteful to Senator Hansbrough.

Phil Armour might be made the farmer candidate for president. He is buying all the corn he can get at any price.

Congress is overshadowed for a time. The Woman's Suffrage association will be in session in Washington for the next few days.

The emperor of Germany and the czar of Russia are to have a meeting. Of course, John Bull will not overlook this opportunity to get his ear very close to the ground.

George L. Wellington has been elected senator from Maryland. A very good man named Wellington made himself quite useful at Waterloo some years ago.

Northern Wisconsin is also very anxious to go to war. There appears to be a fear that the people of Port Arthur and neighboring points will try to steal Lake Superior.

Can it be that the president of the Mexican republic has been "seen"? He appears to be making no preparations to prevent the "clash of arms" of Maher and Fitzsimons.

The New York Republicans are plainly going to have harmony if they have to fight for it. The New York Tribune says of some recent primaries in that town: "The Platt-Lauterbach banditti are openly lawless."

An Illinois parish is making a lively fight upon its pastor because he rides a bicycle and voted for Cleveland. This is prima facie evidence that several people in the parish need the services of the probate court.

Nebraska may live to wish it had never heard of sugar raising. The sugar beet raisers have declared war on the sugar makers and will seek to enjoy the payment of \$40,000 bounty money claimed by the latter.

Some very queer things happen in South Africa. The Germans of Salisbury (prophecy name), the capital of Mashonaland, have passed a resolution condemning Emperor William for his dispatch to President Kruger.

The sentiments in this telegram from a St. Louis club to the manufacturers in session at Chicago are worth preserving: "Let our only war with England be a commercial war, with a flying squadron of our manufacturers in every foreign market."

Mr. Cleveland wouldn't hurt anybody's feelings if he appointed Americans with American names to positions in the consular service. Yesterday he named Ignacio Zepulveda, of California, as secretary of legation at the city of Mexico.

Keely has his troubles like the rest of mortals. An Illinois woman took her husband to Keely to be cured. The inebriate was sent away in a straight jacket a raving maniac a few days later. Now the lady asks the doctor for \$50,000 damages for making a lunatic of her husband.

Nat Goodwin, the great stage fun-maker, is going to digress to the extent of having about \$50,000 worth of fun with a Chicago morning paper. It accused him of gambling, and he asks for \$50,000 for the "great injury it has done his name, credit, reputation and standing, and for bringing him into public scandal, infamy and disgrace."

THAT LIBRARY PLAN

THE BOARD TALKS OVER THE PROPOSITION OF CERTAIN PARTIES

TO BUILD A NEW STRUCTURE

ON PART OF THE MARKET HOUSE PROPERTY FOR A LEASE OF THE REST.

THEY SUGGEST SOME ADDITIONS,

And by Resolution Recommend an Amended Proposition to Careful Consideration.

The library board held a special meeting yesterday afternoon at the office of Clarence Johnston, the architect, for the purpose of considering the proposition of certain parties to erect a library building on the market house site in return for a ninety-nine year lease of the rest of the property. The board was well represented, eight of the nine members being in attendance.

Clarence Johnston, the designer of the proposed library building, and Pierce Butler, the representative of the parties offering the proposition, were also present.

The plans and specifications of the new building were laid before the board and carefully inspected. Mr. Butler explained the details. In brief they were as follows:

The plans and specifications as submitted to the board called for a brown stone building of fire-proof construction with a frontage of 134 feet on St. Peter street and 92 feet on Seventh street. The building would cost, according to the specifications, about \$150,000.

In return for the gift of such a building to the city, the promoters asked to grant the promoter of this enterprise a ninety-nine year lease of all the remaining property. The dimensions of the entire market house property are 150 feet on Wabasha and St. Peter streets by 300 feet on Seventh street.

After Mr. Butler had dwelt upon the details and described the interior of the proposed building and the uses to which each story would be put he explained the financial details. The plans submitted must not be considered as final and cut and dried. The main idea involved was that of exchanging a new building for a lease.

The considerable discussion took place among the members of the board. All of the members favored the general plan, with certain modifications. There was some opposition to the proposed occupation of the library building by any concern or enterprise other than the library itself. The members agreed that any such arrangement should be wholly to the purposes of a public library. It was also thought that the proposed frontage of sixty feet on Seventh street was too small, and it was voted that the plans be modified so as to provide for a building 75 by 124 feet.

A difference of opinion manifested itself as to the advisability of the city's granting a ninety-nine year lease of the remainder of the property, but the board finally decided that this part of the proposed transaction should concern the library board, but was rather a matter for the common council to consider. Referring to the lease, Mr. Butler pointed out that the revenue from the taxation of the leasehold of the land, as well as that of the business building to be erected on it, would aggregate about \$5,000 a year for the city.

The board also suggested another important modification of the specifications whereby the parties erecting the new building would supply a complete equipment, including a heating and lighting plant and appliances, fixtures, shelving for books, elevators, heat and power.

At the close of the discussion, Messrs. Butler and Johnston retired from the room and the board thereupon drafted and adopted the following resolutions, which embody its conclusions:

Resolved, That the library board, having had under consideration a proposition from certain parties to erect, free of cost to the city, a public library building on the western end of the market house property, refer the same back to the promoters, with the suggestion that they present it to this board after having amended it in the following particulars:

1. The entire building shall be devoted to library purposes, and no portion of it reserved for business uses.

2. The building, as turned over to the city, shall be equipped with a complete heating and lighting plant, and appliances, pictures, shelving for books, elevators, heat and power.

3. The plans shall be so modified as to provide for a building 75 by 124 feet.

Resolved, That with these amendments the board is of the opinion that such a proposition offers advantages to the city which should have careful and favorable consideration by this board and the other city authorities.

The modifications in the plans asked for by the library board, call for a building and equipment that would cost considerably more than \$150,000.

G. A. R. ENCAMPMENT.

St. Paul's Chances of Getting It Not Very Bright.

The following Associated Press telegram was received from Chicago last night:

"Gen. L. N. Walker, commander-in-chief of the Grand Army of the Republic, is greatly exercised over the possible refusal of the

WESTERN PASSENGER ASSOCIATION TO EXTEND PRIVILEGES ASKED FOR IN THE WAY OF LIMITATION OF TICKETS TO THE NEXT GRAND ENCAMPMENT.

The rate of one cent a mile each way from the Atlantic seaboard has been conceded, but the passenger association desires to limit tickets to two days after the convention for the return.

This evening Gen. Walker held a conference in his rooms at the Palmer house with a committee from St. Paul, composed of Gen. E. C. Mason, ex-Gov. A. R. McGill, Gen. M. D. Flower, Col. Beck and Hon. Albert Scheffer. These gentlemen were informed that the directors of the grand army expected a guarantee of rates, and that the matter had been pending since last December and must be settled within the next ten days.

A member of the Western Passenger association was present and the entire matter gone over with him. He held out no encouragement that the privileges asked for would be granted, and St. Paul's chances took on a very sad outlook.

ALASKAN BOUNDARY.

Shall We Appropriately \$75,000 for the Purpose of Fixing It.

WASHINGTON, Jan. 22.—Secretary of State Adee and Gen. Duffield, superintendent of the coast and geodetic survey, today explained to the committee on ways and means the desirability of an appropriation for the expenses of a conference with Great Britain for marking the Alaskan boundary along the 141st meridian of west longitude. A joint resolution to appropriate \$75,000 for the purpose is before the committee. By independent surveys by both United States and Canadian engineers this meridian has been marked at three important points—Mount St. Elias, Forty Mile creek and Porcupine river. The two lines are but 8 feet apart at the first, three feet at the second, and 400 feet at the third. The Canadians of the discussion it was said that the Canadian line is in accordance with the settlements near the meridian on ground which has not yet been decided to

ALL FOR SILVER.

Meeting of American Bimetallic League at Washington.

WASHINGTON, Jan. 22.—About a hundred silver men were present at today's conference at the Willard hotel under the auspices of the American Bimetallic league.

Gen. A. J. Warner presided. He said it was expected that an agreement would be reached upon a time and place for holding a national convention to nominate candidates for the presidency and vice presidency of the United States. The fight must begin now and continue until election day next November. Silver men must get together as the gold men are together.
