ASKED TO GO BACKWARD.

Suppose some party should arise attributing the hard times among the farmers to the use of seeders and self-binders and threshing machines, and attempt to convince them that it is prosperous, they must "demonstrate" to all these implements and again scatter seed with their hands from a bag slung over their shoulders, go back to the cradle, or, better, to the sickle in harvesting and the flail in threshing.

And yet it is precisely such a retrograde movement as any of these supposed cases would be, that our silver friends are proposing. They are asking the commercial and business world to discard one of its implements that has been evolved in the gradual development of trade, and take on again the use of one which has been supplanted for all larger transactions.

THE SOUTH DAKOTA DEMOCRATS.

On the same day that the Democrats of Iowa were depicting the deplorable condition of affairs as the result of the cessation of the free coinage of silver dollars twenty-three years ago, the Democrats of South Dakota were also in counsel considering the welfare of the Union, the questions presented by the campaign, and expressing their judgment as to the proper course to pursue.

AT THE THEATERS.

The Clara Schumann Ladies' orchestra will give their last three concerts at the Metropolitan tonight, tomorrow matinee and tomorrow night. At the matinee tomorrow the orchestra of the Catholic orphan asylum will attend the concert, through invitation of Manager Scott.

WITH INTENT TO AMUSE.

displaced gold in 90 per cent of the exchanges. It is not at all probable that the evolutionary and progressive movement has reached its latest and best stage.

THE WHEELS DO NOT GO ROUND.

The situation in the business world today ought to be a sufficient and unanswerable argument to the clamor for a change in our financial system. Commerce and industry at the East are absolutely lifeless. It is from that direction that we always look, and have to look, for the successive impulses that bring us to prosperity or adversity.

A PUBLIC LOSS.

By the death of D. D. Merrill yesterday St. Paul loses an energetic and public spirited citizen. Mr. Merrill was one of those men who are most valuable in the upbuilding of a city and the creation of its manifold industries.

MERRIAM'S LUCK.

Should Maj. McKimley give Mr. Merriam a cabinet portfolio he would make no mistake, as it is a well known fact that no man in the Northwest has a better reputation as a financier than he has. He has made a fortune, even though it is said his father gave him a competency, yet he wisely invested what he had, and manifested a disposition to increase instead of decrease—Granite Falls Tribune.
