

ONE MORE BISHOP

THE CLEVELAND CONFERENCE WILL SELECT A SUCCESSOR FOR BISHOP TAYLOR.

ELECTION COMES MONDAY.

NUMEROUS CANDIDATES FOR THE HONOR ARE ALREADY IN THE FIELD.

PRESBYTERIAN ASSEMBLY DAY.

Greater Part of It Devoted to the Consideration of Two Interesting Reports.

CLEVELAND, May 23.—Almost the entire session of the Methodist conference today was devoted to the election of editors for the various church periodicals.

Bishop Warren presided today. Rev. Dr. P. B. Scott was elected editor of the Southwest Advocate.

Dr. J. M. Buckley presented the report of the committee on Episcopacy. He reported the case of Dr. Bowditch against Bishops Fowler, Fitzgerald and Warren, and reviewed the case in full, as given in these dispatches.

Dr. J. M. Buckley presented the report of the committee on Episcopacy. He reported the case of Dr. Bowditch against Bishops Fowler, Fitzgerald and Warren, and reviewed the case in full, as given in these dispatches.

C. W. Manus, of New York, presented a substitute which declared it not expedient to elect missionary bishops, except possibly a successor for Bishop Taylor.

At once Dr. Buckley was on his feet and said Dr. Leonard had no right to denounce an action taken by the conference except under a vote for reconsideration.

The committee on judicial decided today that any general bishop may preside over an annual conference in the missionary field.

At once Dr. Buckley was on his feet and said Dr. Leonard had no right to denounce an action taken by the conference except under a vote for reconsideration.

conference of the Methodist Protestant church finished its work at noon today, after a seven days' session.

BAPTIST MISSIONS.

Close of the Anniversary Celebration at Asbury Park.

ASBURY PARK, N. J., May 23.—The second day's session of the anniversary of the American Baptist Missionary union was well attended.

MEMPHIS, Tenn., May 23.—The Southern Presbyterian general assembly reassembled at 10 o'clock this morning.

able from it, has been pleased to ordain in imitation of all his predecessors and glorious ancestors that the sacred solemnity of the King's consecration of his imperial majesty, which his majesty wills that his august consort shall share, do (by the grace of the Almighty) take place on the 26th of May.

The above proclamation was printed on folio vellum, beautifully illuminated and adorned with the arms, monogram and insignia of the emperor. Copies were scattered through the crowd and there was a wild scramble to obtain possession of them.

On May 25, the day before the coronation, the ceremony of transferring the regalia to the throne room of the Kremlin will take place, and on the same day their majesties will remove from the Alexandrinski palace to the Winter Palace. A special mass will be celebrated during the evening in all the churches. The coronation will take place in the cathedral of the Assumption, the most sacred place in the Russian empire.

Five Strong Points. The following five points constitute a sort of cheveau de frise in front of the strong position occupied by the gold standard men which the fifty cent dollar people will have difficulty in getting over:

(1). There is not a free gold country in the world today that is not on a silver basis.

(2). There is not a gold standard country in the world today that does not use silver as money along with gold.

(3). There is not a silver standard country in the world today that uses any gold as money along with silver.

(4). There is not a silver standard country in the world today that has more than one-third as much money in circulation per capita as the United States has; and

(5). There is not a silver standard country in the world today where the laboring man receives as fair pay for his day's work as those people who are in circulation per capita as the United States has; and

They Both Think He Is With Them. The California Republican convention declared for free silver and instructed for William McKinley. Is there any other presidential possibility in either party whose principles are considered so insignificant that he is acceptable to both free silverites and anti-free silverites?

The Last Rose of Summer. Lured by the savor of the tidbits on the Republican pie corner, hypnotized by the prospect of future office, the Republican party in Montana has stamped into the McKinley camp, and the cause of the white metal is to be surrendered at St. Louis.

who will say trades unions are no good and that other means must be adopted; in reaching conclusions let us consider facts. They are more substantial than theories. It is not the fault of the trades union that it has not accomplished more; it is the fault of those who blindly stand aloof. If the union can do so much with its present membership, what would be the result if all were organized? Let us bend our efforts in that direction.—Cigar-Makers' Journal.

This department does not object to any paper giving credit to Mayor Plunge, of Detroit, for remarks made by him. But it does raise objections to adding a quarter of a column, more or less, of what he did not say, and then giving him credit for it. This is intended for a prominent labor paper, which recently started a series of quotations, and by that gentleman was quoted as, but failed to close them where they appeared in copy.

The cigar-makers' unions of this country expended \$41,366.51 in their strike, sick, death, traveling and out-of-work funds during 1895. Of this amount \$4,026.76 went towards defraying the expenses of strikes, \$12,587.08 was paid out to sick members, \$95,725.93 was paid to pay death benefits, \$14,857.75 towards traveling expenses and \$166,377.55 was paid to those out of work.

Labor organizations all over the country are anxiously watching the outcome of bills now before the house establishing a labor commission, and providing for arbitration between railway companies and their employees. The commission bill will pass the house, and will be considered and will pass the senate. Senator Nelson is a strong supporter of both bills.

The strike of the firemen in the employ of the Armour Packing company at Kansas City, and the subsequent boycott, has been declared off. Over 1,000 men were involved, but a settlement was made on Friday, and the firemen and all others laid off will go back to work.

"Eight hours a day for work, eight hours for play, eight hours for sleep, eight dollars for pay," is what a master plumber of Kansas City says journey-men plumbers who like to have.

Organized labor, says the Typographical Journal, is gradually bringing about an improved condition of affairs for the toiler. From almost every direction comes the cheering intelligence of amicable arrangement of difficulties, and except in a very few of the largest business centers, there is much encouragement for the future. Labor, organized on trade union lines, will bring about an intelligent and healthful understanding between the employing class and the employe, and the general betterment of economic conditions.

MORE COUCHING

Becomes the evidence that the reign of abnormally low prices is near its end. Forehand buying has enabled us to secure an immense factory stock of Furniture from a manufacturer, who never let the standard of his work fall below the level of the best. Every piece of this Furniture is finished to perfection and is built for long service. Among this week's offerings:

This Glass-Door Bookcase. Solid Oak, 36 in. wide, 5 feet high, adjustable shelves, strict value, \$8.00. We have just 50 of these to sell this week at only \$3.85. (This is not a misprint.)

300 Misfits! All qualities and sizes, to go at 20 per cent discount from yardage price; making 20 in cent.

Table with 2 columns: Item description and Price. Includes Double Chain Ingrain, All-Wool Ingrain, A 1 Tapestry, Standard Body Brussels, Best Moquette, Best Axminster, BABY CARRIAGES, and JAPANESE MATTING.

ord of the number of apprentices will be kept in future. The waiters who went on strike at the Creamery restaurant in Minneapolis two weeks since, won; those who took their places were fired, and everything is lovely once more.

The members of the carpenters' union do not propose to be left behind in the race for an increase in numbers. Eight new members, artists in house building operations, gave the right of membership at Tuesday evening's meeting. Probably what will prove to be the most pleasant business transaction, however, was the selection of J. L. Hughes, John Burns and A. J. Metzger to make preparations for a banquet to be held on the evening of June 5. Admission will be free by invitation, and the probabilities are that all the boys from the other organizations will cultivate an acquaintance with the committee, with the express purpose of being invited to the "spread." Ed Dubois, N. Johnson and A. J. Metzger were chosen to represent the union at the convention of the State Federation of Labor which takes place at Minneapolis on June 14.

The funeral of Otto Oberg, a member of No. 30, occurred last Sunday afternoon from the undertakings rooms of Damper, on Wabasha street. Mr. Oberg died from quick consumption. His age was twenty-four. He left a wife and one child.

The Monday evening session of the harness and saddle makers' union was well attended. Besides the regular routine one new member was initiated into the mysteries of unionism. Two delegates to the convention of the State Federation of Labor at Minneapolis will be elected at the next regular meeting. Several of the boys would like the position, and the probability is that a general but good-natured scramble for the honor will ensue.

The following were installed as officers at the Saturday evening meeting of the pressmen: Thomas Yould, president; F. O'Rourke, vice president; F. J. Boyle, secretary; R. M. Rolfer, secretary-treasurer; L. M. Ayers, sergeant-at-arms; F. O'Rourke, John Gondek, James Sweeney, P. J. Maloney, D. C. Driscoll, executive board; William Abbeck, John Gondek and P. J. Maloney, delegates to trades council; P. J. Maloney and James R. Corcoran, delegates to the coming convention at Chicago. F. J. Boyle was elected to represent the union at the Tenth District Allied Printing trades convention at Fargo next month, which John Gondek will attend the annual meeting of the State Federation, which convenes at Minneapolis on the 14th of June. Buttons will hereafter be worn in the lapel of each member of the union.

A joint meeting of the St. Paul and Minneapolis typographical unions was held at Assembly hall last Sunday. The meeting was called especially to consider a proposition from the Dual City publishers' association relating to the time scale and the interchange of matter. There were about 200 printers in attendance, and the result of their deliberations was the drawing up of a counter proposition, which was sent to the president of the association.

At the July meeting of Typographical Union No. 30 officers will be elected under the Australian system of voting. The election will take place at Assembly hall, the polls being open from 12 noon until 7 o'clock at night. Delegates will also be chosen to attend the international convention at Colorado Springs in September. Harry Franklin, president of No. 30, can have the same office if he cares to make the run, but if Dame Fortune can be believed, he will be out of the race. There is a report in circulation that H. P. is slated for a city, or some other office, but he will neither deny nor affirm it. He simply smiles and says, "Who told you?"

Several important propositions will come before the convention of the Tenth district union of the allied printing trades, which convenes at Fargo on June 8. H. Franklin, H. W. Dennett and H. W. Goetzinger will represent No. 30, while No. 42, of Minneapolis, has chosen E. E. Stevens and H. S. Woodward to act for that union. The convention will last three days, and the printing trades of Fargo will banquet the delegates. The Tenth district union embraces Minneapolis, the two Dakotas and Manitoba. The election measures that will be discussed is an amendment to the constitution of the international union giving district organizations greater powers than they now possess, and also a proposition to restrict the country will be voted on.

At the Thursday evening session of the bricklayers' union, the trouble noted in this department last week, in relation to the importation of labor from Minneapolis and also the employment of non-union labor, at least than union rates on certain structures, was reported adjusted to the satisfaction of all concerned—that is the union, owners and boss bricklayers. Delegates to the State Federation will be elected at next Thursday's session. One new member was initiated, and trade reported as good.

H. W. Dennett, a member of the International Typographical union for the Tenth district, returned from Mankato Friday, at which place he succeeded in forming a temporary organization of printers. There are some sixteen of the craft in Mankato, and Mr. D. expects to have a permanent union there before many days.

The garment workers' union will be represented at the convention of the State Federation of Labor at Minneapolis, next month, by Misses Kate Keating and Lena Smith.

Chamber Suit. Of 3 pieces; solid oak, or birch mahogany finish; large square glass or oval French plate; polished finish; heavy brass castings; should be sold for \$35.00. New England Price, \$21.00.

There's No Question. As to the merits of gasoline as a fuel for summer use, but there ARE degrees of excellence in price and degrees of economy in the pricing of them. Our "RELIABLE" Gasoline Stoves are perfect in themselves, and not only so, but really cleaner than second and third class stoves sold elsewhere. They come in all sizes, from two burners to the large family size.

NEW ENGLAND Furniture and Carpet Company. One-Price Complete House Furnishers, 434-436 Wabasha Street, St. Paul.

They're Worth Examining. The regular meeting of the executive board of Typographical Union No. 30 will be held at Assembly hall next Sunday afternoon at 3 o'clock.

On Monday evening, the committee appointed by the plumbers' union to hold a conference with the Master Plumbers' association on the advisability of restricting the number of apprentices and abolishing the hour system, held a secret session at Assembly hall. There was a full attendance of the committee.

The secretary of the Minnesota Democratic association has received a number of the great speeches delivered by Secretary Carnegie in Chicago at the invitation of the labor unions of that city. He will be glad to furnish them to such persons as may wish to inform themselves on the relation of the silver question to wages and money. Applications should be sent to him at 217 News-paper Row will be attended to.

It was decided to establish a reading room and library at assembly hall, and Harry Franklin, J. F. Krieger, C. H. Bonn, J. L. Hughes, H. W. Dennett and J. F. Pamphus were appointed to secure suitable books and papers.

Secretary McKean, of the agitation committee for the sale of the market house and the erection of a library building, extended an invitation to the delegates to attend a meeting some time in June to be held at the Commercial club rooms in the interest of his pet measure.

Communications were received and read from the labor exchange sent in a communication asking the delegates to purchase their new laundry. It was voted to get washing from the exchange, and the delegates instructed to bring the subject before their several unions.

The resolution of James Morrow, of the Retail Clerks' association, advocating a 16 to 1 dollar and numerous other things, met with a warm reception. Some of the delegates thought that if the assembly was going into financial matters, it would be a good plan to "hire a hall" and put in a day or two discussing the matter. This seemed to be the sentiment of the majority, and, on motion, the resolution was placed on file, to come up again—when?

The grievances committee reported on certain boycotted high-grade bicycles, and the probabilities are that rather than buy one of them the boys will walk, as heretofore.

President Miller, of the international barbers' union, will go to La Crosse Monday to make permanent a temporary organization of the barbers of that city. He will also address the workmen some evening while there on the necessity of organization.

Binery Girls' Local Union No. 40, which met for organization last week, held a special meeting Friday evening to elect the remainder of the officers. Two delegates to the trades and labor assembly were also chosen, and a committee to prepare a constitution and by-laws was selected. It was decided to meet on the second and fourth Mondays of the month. Louis Nash addressed the union on the benefits to be gained from organization, and was frequently interrupted by generous applause from those present. The union starts out with a good membership, and all are enthusiastic as to the future outlook.

The hack and cab drivers' union proposes to attack the attitude of the union depot officials in debarring its members from occupying certain favorable positions, while they grant privileges to others. At their last meeting a committee was appointed to employ an attorney to prosecute the case, and the matter will soon be heard of in the courts.

Fell to His Death. DULUTH, Minn., May 23.—An unknown man fell from the docks at Two Harbors today and was instantly killed.

FAITH CURE A GOOD THING. In some diseases, but it is a failure in stomach troubles. Mere faith will not digest your food for you, will not give you an appetite, will not increase your flesh and strengthen your nerves and heart, but Stuart's Dyspepsia Tablets will do these things, because they are composed of the elements of digestion, they contain the juice, acids and peptones necessary to the digestion and assimilation of all wholesome food.
