MINNEAPOLIS.

OFFICE 29 SOUTH FOURTH STREET.

MINNEAPOLIS GLOBULES.

The June business at the local postoffice exceeded that of June, 1895, by about \$4,000.

Christine Johnson has brought suit for \$2,000 against Sven Peter Ekeroth for breach of promise.

Minnesota is out for another convention. The time is the 10th meeting of the Baptist Young People's Union of the United States.

George E. Maxwell, vice president of the Union National Bank, was yesterday afternoon named receiver of the Northwestern Loan and Building association.

The case of Bertha Sheppard came up yesterday morning and she was ordered to appear on the first day of next term. This was the first of the criminal work to be done this term.

H. J. Gjersten, as assignee for Lina Christensen, insolvent, has filed a special report stating his opinion that \$3,000 may be distributed among the creditors at once.

Cornelia Kelly has brought suit in the district court, asking that the common law marriage between herself and John Kelly be dissolved and that she be allowed suitable alimony. Kelly denies ever having married her.

Mrs. G. A. Lund died Wednesday evening at the residence, 1907 Second street south, after a severe illness of typhoid fever. Deceased was one of St. Paul's Minneapolis settlers, having lived there for over thirty years.

Yesterday the jury in the case of Russell Ruly, charged with stealing three bugles, after debating on the subject two days and a day concluded to find the guilty in the third case without argument. A new trial was granted.

Sympathizers with the insane met in the Y. M. C. A. lecture room Wednesday night to organize an association to give the conscientious patient a summer outing, and to agitate in favor of a twin city hospital for the detention of temporarily insane patients. The attendance was so small that no action was taken.

Ruley Must be Tried Again.

Russell Ruly is a very lucky man, even though he did come from St. Paul. He was accused of and indicted for grand larceny in the second degree for stealing two bugles. The jury went out to deliberate, and for a long time failed to come upon a verdict, although they had come in several times for instructions.

Yesterday the jury reported that it had been unable to agree, and they were polled. The result was a compromise for the jury had found him guilty in the third degree. Judge Russell promptly set aside the verdict, dismissed the jury and ordered a new trial. The defense set up was that of insanity. The value of the bugles had been placed at \$80, and was not disputed, hence the verdict could not be accepted.

After the Educators.

A most determined effort is being made to bring the National Educational convention of '97 to this city. The Commercial club has just sent to Buffalo, where this year's printed matter to Buffalo, where this year's convention is to be held. This printed matter is in the hands of the state and the gentlemen of the state will be glad to see the gentlemen of the state high school principals, Prof. Greer, and Sawyer, have gone as the advance guard and they will be followed by other members of the schools and the Commercial club, and Mayor Frerking. They are after big game, and they expect to get it.

Dr. Bertha's Case Goes Over.

Dr. Bertha Sheppard, looking hazy, hearty and muscular, boarded the elevator at the court house and city hall in company with Freeman P. Lane yesterday afternoon to proceed to the court room presided over by Judge Jamison. The indicted woman looked beamingly upon the court, as her case was formally set over the term. This time there was no daughter with a palm leaf fan present to waft gentle and cooling zephyrs over her accused, although the day was the hottest of the season. Her case was being disposed of she had fought the skirmish and had won, and she was quite chipper. They will not be seen in court again, probably, until September next.

MADE GOOD SCORES.

Amateurs Shoot for Badges on the Gun Club Grounds.

A large and enthusiastic crowd of shooters gathered at the Minneapolis Gun club grounds yesterday and participated in the most successful series of target shoots of the season, although the weather was excessively warm. However the club had its large awning in position over the score and a nice breeze made things very comfortable.

There was a good turnout of amateurs besides all the old timers. Excellent scores were made. C. E. Charles carrying off the honors of the day by a large majority, winning the Schlitz diamond badge with 22 out of 25 unknown angles, the Val Blatz diamond badge with 14 out of 15 known angles, the Junior and Senior prizes, and the singles and 5 pairs, and the fifth souvenir button with 14 out of 15 unknown angles. Four medals in one day is something which has seldom been done by one person. Marshall won the second and Parker, the amateur badges. Mabe secured the fourth button and Parker the sixth. Three of these handsome gold medals were the most prized prizes each went until the end of the season. Consequently great interest is

APPOINTED A RECEIVER.

George E. Maxwell Placed in Charge of the N. W. L. & B. Association.

Judge Jamison has signed the order appointing a receiver for the Northwestern Loan & Building association. George E. Maxwell to the position, and placed in charge of the association. As soon as the appointee accepts of the position, he will have charge of the assets. The action was taken by Judge Jamison after a hearing on the petition of the officers, directors and shareholders, and after a full and complete examination of the books and records of the association. A receiver was appointed to take possession and control of all the property, real and personal, of the association, with power to collect, sue for and recover the debts and demands that are due, and the property that belongs to said corporation, with the usual powers and duties of a receiver in such cases.

And it is further ordered that upon the filing of this order the duties of the receiver shall be to take possession of the property, real and personal, of the association, and to collect, sue for and recover the debts and demands that are due, and the property that belongs to said corporation, with the usual powers and duties of a receiver in such cases.

George E. Maxwell is hereby authorized and empowered to take possession and control of all the property, real and personal, of the Northwestern Loan & Building association, with power to collect, sue for and recover the debts and demands that are due, and the property that belongs to said corporation, with the usual powers and duties of a receiver in such cases.

And it is further ordered that upon the filing of this order the duties of the receiver shall be to take possession of the property, real and personal, of the association, and to collect, sue for and recover the debts and demands that are due, and the property that belongs to said corporation, with the usual powers and duties of a receiver in such cases.

CONSIDERS THAT TODAY HE IS THE IDEAL DEMOCRAT OF THE UNITED STATES.

HIS STAND AS TO LABOR.

MISSOURI GOVERNOR SAYS HIS MAN HAS BEEN "OF THE PEOPLE."

EXPECTS NOTHING OF THE EAST.

As Personification of Silver Idea He Will Be Opposed to the Last There.

CHICAGO, July 2.—Gov. Stone, of Missouri, was asked today if he had noted the report that the Eastern gold standard delegates were being toward Gov. Bolea. He answered that he had seen such a report in the newspapers, and had heard such talk in the lobbies, but knew nothing as to its truth.

Continuing, the governor said that Mr. Bland and his friends had not expected that they would have any support from that source. He said that Bland's stand is the personification of the free coinage idea. It is utterly impossible in the very nature of things, that there should be any alliance between him and the single standard people. If the nomination is made, he will be nominated by the votes of delegates elected as free silver coinage men. I am sure Mr. Bland's nomination will be opposed to the utmost and his defeat sought by every means possible, by the gold party. One of the reasons for this is represented here by the single gold standard delegates will not probably cast a single electoral vote for the nominee of this convention. If Mr. Bland is nominated he will be nominated by the delegates from the states whose electoral votes must be relied upon for success in the election.

The governor was asked if he was aware that two or three gentlemen prominent in labor organizations were not partial to Mr. Bland's nomination, "on the ground that he has not been the active friend of labor."

That is a strange objection to make to Mr. Bland," he replied. "The whole life has been identified with the industrial and producing classes of the country. He has not played to the galleries for mere effect, but his whole public career has been one of battle in favor of the people—the great masses of the people—and his history. For 22 years he was a representative in congress. In all that time he never rode to Washington or anywhere on free passes. He paid his own way and that of his family, not that he was antagonistic to the silver cause, but that he was not partial to Mr. Bland's nomination, "on the ground that he has not been the active friend of labor."

At a meeting of the Democratic county committee, held at the New York hotel, the county convention to name 112 delegates to the state nominating convention to be held in Minneapolis Aug. 4, was set for Tuesday, July 28. The primaries were fixed for the evening preceding. The basis of representation will be the same as at the convention, thus giving the same number of delegates, and there will be changes in the list of polling places.

NEW REVOLUTION.

Scene of the Latest Trouble in Bolivia.

LIMA, Peru, July 2.—Dispatches received here from La Paz, capital of Bolivia, announce that a revolution has broken out at Sucre (Chuquisaca) an important city which was the capital of Bolivia until 1825. Sucre is situated on a small plateau above the Rio de la Plata, and immense treasures were formerly carried across the river at that point; hence the Indian name of Sucre, which means "the salt," from which the town is supposed to have derived its name.

No details are given in regard to the uprising at Chuquisaca, but for some time past disturbances have been growing on account of the government's alleged fraudulent changing of the result of the elections favoring Col. Pando for president of Bolivia. In May last, Col. Pando was declared elected president, in succession to Senor Mariano Baptiste, whose term of four years expires on Aug. 6 of the present year.

FOURTH AT MINNETONKA.

The promised events of tomorrow in celebration of the national holiday, will be speeded by the fact that the Swedish team, intent on watching the blind wheel on the double rig, stuck close behind and Homer Fairmont started with him. Lawson remained in front till close to the finish. The first half was made in 1:08 and the mile in 2:15. The men increased their speed in the next mile and made the half in 1:17, making the second mile in the same time as the first. The third mile was made in 2:20. Williams and Nilsson set a fresh pace on the second half of the fourth mile and quickened the time up again, the round being made in 2:18. The time for the five miles was 13:49. From then on the time for the halves and miles was up and down up and down. The slowest time being made in the eleventh mile, 2:24. The fastest time was made in the last mile of the heat, 2:12. The ten miles were made in 23:09.

Excitement became intense at the last mile. The half was made in 1:04, the riders lagging just a trifle and saving their strength for the final half. The pace was quickened perceptibly and when they came into the stretch they were flying. The tandem switched off at the three-quarters and in the last eighth of a mile Fairmont poked his front wheel up even with the rear one on the Swede's machine and forged quickly ahead.

His rear wheel was now even with the Swede's and the goal was but a short distance away. Lawson tried his best, but at least make it a tie, but intent on making the thing a horse race and horse, Fairmont bent forward on his wheel and fairly jumped across the tape, a wheel length ahead. The time for the five miles was 13:49.

This beats the track record but does not begin to come up with the paced track record made by Fred J. Titus at Springfield, Mo., on July 12, 1895, when he rode the 15 miles in 32:31 3/5. Linton, the Welshman, is also credited with having made the 15 miles paced in 29:15.

SOME SATURDAY EVENTS.

Iver Gustavson, the champion boy rider of the world, is to have another contest with the horse "Albatross" Saturday afternoon at Minnehaha. The wind cut too much of a figure in the race of last week, and Gustavson was defeated. This is shown by the fact that in the second heat, when the race was run on the back stretch, he beat the horse by several lengths. Tomorrow, if the air is still, it is thought that he can beat the horse. This will be the last time that "Albatross" is the fastest quarter finisher in the world, with a record of 1:27 1/2. But Gustavson is not in 28 seconds, not once, but several times since he has been here, the race should be very close.

Besides this race and the final heat of the Iron-iron-Lawson race, there will be a tandem race for amateur non-winners of the week, to be run in mile heats, best two out of three. The horse races will be the strongest of any day in the week. Fourth of July celebrations need not fear the heat at Minnetonka. If the sun is hot, it will be a hot day. All during the past week, when the heat has been suffocating, there has been a strong breeze from the west, and the dust nuisance has been abated.

TALK OF STONE.

Many Delegates Prefer Him to Bland.

CHICAGO, July 2.—There is a great deal of quiet talk for Gov. Stone, of Missouri, Members of the Missouri delegation declare that there is a strong feeling in the ranks that Stone can do very much as he pleases, as the delegation is very friendly to him. The talk for Stone comes from outside states, where there is some opposition to Bland. Missourians have been informed that Stone has been elected to the Missouri delegation, and his interests are being pushed with as much vigor as ever.
