

BROKE THE RECORD

ST. PAUL FILES UP FORTY-ONE RUNS IN A LEAGUE GAME.

MILLERS ROUNDLY BEATEN.

HEALY AND CARNEY KNOCKED OUT OF THE BOX IN TURN.

LOCALS MAKE NINE HOME RUNS.

And Forty-Five Safe Hits for a Total of Eighty Bases—Tigers Beaten.

Table with columns: Team, Wins, Losses, Runs, Hits, Errors. Rows include St. Paul, Minneapolis, and various local teams.

No games scheduled for today.

Forty-five hits for a total of eighty-two bases.

That is the secret of Minneapolis' heartrending defeat yesterday.

The West Side grounds now have the record for professional baseball big scores.

Forty-one runs is a lot. It not only takes good batters, but good runners and great endurance to play a ball game like that.

Minneapolis was never in it at any stage.

The locals piled up six runs in the first inning and the most conspicuous thing about the rest of the game was the lassitude which characterized the Minneapolis players.

Perhaps you could not blame them. O'Day was sick yesterday, or at least suffering from an injured ankle, and could not umpire.

Manager Comiskey appointed as a substitute umpire a young man named Slater, who has officiated as umpire in the city league.

Wilnot refused to accept him, and packed up his bats to leave the field. That would have forfeited the game, but the crowd did not want the game that way, and urged Comiskey to compromise by having a referee for each side umpire. This was tried between the same clubs once before here this year and the St. Paul club got the worst of the deal.

Comiskey would not agree to it, so finally Johnston, of St. Paul, went into the diamond.

He was roundly roasted on several occasions by the players of his own team, but as a matter of fact he gave a pretty good exhibition of umpiring.

But it did not make much difference whether he did or not. The home team was slugging the ball, and that was all there was to it.

St. Paul's first three to bat got first by hook or crook, and then George drove the ball over the fence. Burns hit safely and Shugart put the home ball out of the lot, before the side was out.

That made six runs for a starter, and the only Miller to reach first was Lally, who got there by an error of Shugart only to be forced off immediately by Wilnot on a double play from Pickett.

Glasscock was next to make a home run. Turner contented himself with a two-base hit, but George made the second homer. Burns, Pickett and Shugart in turn hit safely and the first of them scored the tenth run.

Worden, Frank and Schriver in turn hit the ball to the home plate, and at first, Lally dropped a ground ball, but Turner made a homer. It was 12 to nothing. Three more Millers tried in vain to reach first.

Four singles, Spies' homer, and an error or two gave the locals four more in the fourth, and the score was 16 to 3. The Millers in succession hit safely, and as Wilnot's was for two bases, three of them scored.

Shugart's two-base hit, followed by Spies' single, gave the locals only seven runs in the fifth, followed by Wilnot's homer. Burns, Pickett and Shugart in turn hit safely and the first of them scored the tenth run.

Johnston madder than a wet hen, because Johnston had called three strikes on him. Phyle went in. The first two men got high flies to the outfield, but Shugart gave Wilnot a life, and "Perdy" Worden hunted and beat the ball to first. Frank, however, hit the ball into the air and Burns pulled it down.

IN DULUTH TODAY.

Local Club Will Seal on Open Date There.

This is an open date in the Western league ball schedule. St. Paul's club will go to Duluth to play an exhibition game with the Zenith City constellation.

It will be observed from the account of yesterday's game that Turner is still playing well. "Buck" seems to be willing to play him, and Manager Comiskey is making an effort to retain him.

In the battling records of the local club published yesterday, O'Rourke was left out. To date "Tim" has made 78 hits in 244 times at bat, an average of .320.

It is rarely, if ever before, that any one has made as big a batting record in a single game as that of Glasscock yesterday. Eight hits in nine times at bat, at 100 per cent average to .420, pretty near to George, who is now but a shade under .425.

Jim Burns hurried home from the game in time to get mixed up in a runaway accident. Dr. Charles L. Greene, with his wife and child, were driving home from Com. His horse was frightened by a fire cracker, and he was thrown from the seat of the car. The animal backed the car into the front end of an interurban car. It was completely smashed. None of the occupants were hurt, for the car was stopped by the horse during the collision, and prevented further damage or excitement.

Glasscock's liner in the sixth gave Carney a very bad thump.

Three hits was the least that any member of the local team got. Do you remember on the 15th of June the whole team went to struggle in vain to get more than that number?

The only thing Healy could pitch yesterday was what he called his "home run ball." It was very effective—when batted.

First Fan—When is Mullane not a ball player?

Second Fan—When he's not.

GRAND PACING RACE

STATE FAIR IS FIGURING WITH JOE PATCHEN, GENTRY AND BADGE!

FOR A THREE-SIDED EVENT.

A GOODY PURSE TO BE HUNG UP FOR THE SIDE-WHEELERS.

RACING ENTRIES ARE CLOSED.

And They Show Good Fields in All but Two of the Classes

Special to the Globe. The entries to the races which will be held under the management of the Minnesota Agricultural society during the state fair closed July 1 and, while the horses have not as yet been classified nor all of the entries received, the indications point to the most successful race meeting ever held by the society. At least 90 entries are already assured in the different classes, making eight of the twelve scheduled events certain, with the prospect of enriching the programme with four special features which may attract to the racing circuit up to date the entries which have been received are composed mostly of Northwestern horses, notably those from Iowa, Wisconsin and Minnesota, and as the three states have produced and own some of the finest horse flesh in the country, it is expected that their candidates for the rich purse hung up by the agricultural society will furnish contests well worth witnessing.

At the date of the closing of the entries last year only about half as many owners had signified their intentions of participating in the meet, while the entries in each class were only sufficient to warrant a start. This year every class of the slight assured will not only have a number of horses to start the events, but in each instance sufficiently well filled to insure a large field. It is, of course, possible that all of the entries will not face the starter, but even the likelihood of a few scratches will not interfere with the general interest of the races in the face of so many entries.

No entries were made in the free-for-all pace nor in the 2:12 pacing class. These events were arranged for horses throughout the Northwest which have since been attracted to the national meet, and as a result remain untried. Instead of however, of tending to detract from the high quality of races which will take place at the fair grounds it is quite likely that inability to fill these classes will result in the arrangement of special purses of sufficient value to tempt the presence of the fastest horses before the racing public. Nothing definite has yet been decided upon, but the state fair management is seriously considering the question of making a bid for a race between the three fastest pacers in this country, namely, John R. Gentry, Joe Patchen and Badge, the speeder from Rochester, Minn., who is at present showing such great form in competition with the world beaters on Eastern tracks. If the race is arranged it will undoubtedly prove one of the best contests of thoroughbreds ever seen in the West.

In view of the fact that the time for the exhibition of the state fair buildings and grounds is approaching active preparations are being made for the buildings and grounds that may be ready in ample time for occupancy. A large crew of workmen are already at work on the building which is in process of thorough remodeling and when finished will in all respects be equal to a new structure. An entire new floor is taking the place of the old one, and the plan of the building is being so altered as to permit the utilization of considerable space which has heretofore been unoccupied. The old dining hall, which was for the first time last year used as a room for the women's exhibits, is also undergoing repairs and will in the future be entirely devoted to the women's exhibits.

The spacious and modern dining hall, familiarly known as the "betting ring," has at last been pressed into service and will this year contain, in addition to the over flow of county exhibits, the exhibits from the Northwestern states. Four of these states, Montana, South Dakota, Oregon, and Washington have already engaged space for their products and applications are on file for other counties. A most complete and interesting programme.

The plan of arranging for exhibits by these states is indirectly the outgrowth of the Northwest work and also a social association. State immigration associations have been formed throughout the different states and through the efforts of the fair management, working through the secretary of the general association, have induced their states to exhibit at Minnesota's fair, one of the chief reasons being the splendid opportunity of showing their resources to the large number of visitors from all parts of the country who will be in St. Paul during the G. R. encampment who will also visit the fair.

Secretary Randall, of the State Agricultural society, has recently received a communication from the Page Woven wire company, of Adrian, Mich., that the firm will be on the grounds this year with a veritable menagerie, including deer, antelope, bears, buffalo, moose and elk. This exhibit alone will be a most interesting attraction of the fair, which Secretary Randall anticipates will be one of the most successful of the society.
