THEY WAIT A LEADER. Not less than one-third of all the voters in this country, and probably more nearly one-half, are waiting today for the appearance of the man who shall lead them to battle in November under the old standard, one glance at which awakens all their loyalty and their love.

These are the voters who wait to be organized into a party, call it what you please, offer it how you may, but holding the traditions that have been handed down to us by the great fathers of Democracy, and who are waiting today in little groups from ocean to ocean for the sign of leadership and the word of command. They will not be forever silenced. Not always shall they be shut in to a choice between unworthy motives.

THEY WAIT A LEADER. Not less than one-third of all the voters in this country, and probably more nearly one-half, are waiting today for the appearance of the man who shall lead them to battle in November under the old standard, one glance at which awakens all their loyalty and their love.

West, and wielding pick and shovel in the lowliest labor. He is everywhere. There are millions of him. For he is not the idealistic reformer alone, the man whose culture and comfort and the glimpse of possible wealth have only led to dedicate himself more absolutely forever to the uplifting of the great mass of humanity to a higher life, but he is the common man of limited horizon and hopelessly insufficient opportunities, beneath whose cheap raiment there yet beats the heart that aspires to truer and better things forever more.

the greatest boon of the century. The story has its warning for us, too. We care not what the people may be, how near or how far, how logically they may prove their absence of responsibility, we say that it is an immutable law in the government of this world and the evolution of mankind that nations and peoples cannot harden their hearts and callous their sensibilities to the sufferings of their brethren without self-deterioration, and without paying the ultimate penalty. Sooner or later, the punishment of the crimes of the Armenian sufferers will descend upon the whole western world.

NO DANGER IN IT. But a single objection has been advanced by any one who has occurred to the minds of those who urge the nomination of a Democratic candidate for the presidency of a real Democratic convention. This is the possibility that such action would, by dividing the sound money vote, tend to the possible success of the free silver crusade and threaten the election of Mr. Bryan. It is a natural alarm, and yet the supposition that underlies it is seen by the slightest examination to be superficial and false.

A MOST FITTING TAIL. The nomination of Arthur Sewall, of Maine, as Mr. Bryan's running mate in the mad race to paternalism is the most fitting choice that could have been made. It is rather better than does McLean the spirit that looks on the government as a legitimate source of private wealth, an instrument whose proper use is to levy tribute on the many that the favored few may be richer. He is a wealthy vessel builder and owner of Maine. When it was proposed in the Fifty-third congress, to remove the obstacles to our commerce that have driven the flag of the American merchantman from the high sea and restricted it to the coastwise trade, it was this vice presidential candidate, Maine's member of the Democratic national committee, who made vigorous protest against it, addressing a public meeting in Bath, at which resolutions were adopted declaring the necessity of continuing protection to the vessel building industry.

HORRORS AT SHORT RANGE. The readers of the Globe will get a more distinct and vivid impression of the Armenian horrors after reading the letter which we publish this morning from Mr. J. B. Hubbell, the field agent of the Red Cross association, written to a personal friend in Minnesota. The letter was prepared without a thought of publication, simply to convey an idea, without exaggeration or emotional display, of the situation as it is to-day. The picture is as appalling in its half lights as are some of the more detailed and lurid descriptions of the ravages of the Turk. Mr. Hubbell has been the active agent of the Red Cross association for so many years, and has so wide an experience in scenes of misery and distress, having accompanied, among other missions, the expedition to carry the contributions of the United States to the Russian famine sufferers, that his words carry more than ordinary weight.

of free silver, unless there is no choice between that and the noxious caves of monopoly and greed that are signs of Republican rule.

CONCERNING ANTITOXINE. In view of the strong differences of opinion among physicians and the laity as to the advisability or even safety of the use of antitoxin in diphtheria, the report of the American Pedestrian society upon the subject, which has just been made public, will be welcomed, for it practically settles the question.

tion, the same fetitious wealth, the same wild extravagance, inflation, futurality-discounting over again and finally, like the over-blown bubble, the general smash? And yet absurd as is this deduction from Republican and Populist premises, it is the only logical one. The conclusion only shows the baseness of the charge made against Democracy and the hollowness of Republican premises. Congress can only make conditions better by leaving them alone. They cannot improve them all alike, and those unchanged must bear the cost of the change made. They can only disturb and injure. Nature is wiser and stronger than congresses or parliaments and, while working her will, falls not to punish those who interfere with her design.

REMARKABLE, IF TRUE. The scientific sensation of the week is the most startling yet. If peradventure there should prove to be the judgment in it—a result which the judicious are disposed to doubt—it would be of immense importance for it would carry the achievements of science well out of the material life to which they have been confined, and across the boundaries of the psychic world.

WAR INTO AFRICA

NEW DEMOCRATIC COMMITTEE IN FAVOR OF AN AGGRESSIVE EASTERN FIGHT. SENATOR JONES, CHAIRMAN. REWARDED FOR HIS EFFECTIVE WORK IN PASSING THE SILVER PLATFORM. PLAN A GREAT DEMONSTRATION.

Candidates Will Be Officially Informed of Their Nomination at a New York Meeting.

CHICAGO, July 11.—Senator James K. Jones was elected chairman of the new Democratic national committee to-night. It had been generally understood for some time that he would be selected. When the committee met at 8 o'clock there was considerable discussion as to whether it was the best policy to complete the organization now or at some subsequent meeting. It was finally decided to select Mr. Jones at once. The new chairman was called in and made a speech saying he was deeply sensible of the honor and accepted the position because of the interest he felt in the cause of silver.

CHICAGO, July 11.—In Madison Square Garden, New York, early in the month of August, the Hon. William J. Bryan will be formally appraised of the fact that he has been nominated for president. At the same time and date the same place, the Hon. Arthur Sewall, will be notified of his nomination for the vice presidency. This matter was decided by the notification committee which met at the Palmer house this evening. It was thought it would be wise to open the fight in the heart of the enemy's country. The committee organized by electing Senator S. V. White, of California, chairman, and M. L. Blake, of Wyoming, secretary. Both Mr. Bryan and Mr. Sewall were present as were also nearly all the members of the national committee. A general discussion was entered into as to where the notification should be made. It was finally agreed that Madison Square Garden would be the best place. On motion by G. B. Sparman, of Florida, the chairman was directed to appoint a committee of three to prepare an address to be presented to each of the nominees at the time of their notification.

The executive committee to be appointed was directed to confer with the notification committee and the nominees to arrange the notification program. Mr. Bryan remained until adjournment. After the meeting Congressman McKee, of Arkansas, said that there was, in his opinion, a probability that the national headquarters would be established in Chicago, instead of New York, where they have always been before. He said: "Unless the Eastern states can demonstrate that they will give the ticket enough votes to make it worth while, there is no reason why we should waste our energies there. It will be better to do our work near the center of the territory, party's strength and near the doubtful states."
