The Trip of Li Hung Chang.

TODAY'S EVENTS.

West Side Park—Base Ball 3.30. Wildwood—Druids' Picnic.

MOVEMENT OF STEAMSHIPS.

NEW YORK, July 18.—Arrived: Scandia, Hamburg, Umbria, Liverpool. LIVERPOOL.—Arrived: New York, Havre—Sailed: La Bretagne, New York. SOUTHAMPTON.—Sailed: New York, New York.

Li Hung Chang now knows what he needed to whip the Japs—a tidal wave.

Mr. Bryan's continual references to "plain people" would ruin his cause if women were voters.

The Hinkley man who had his shoes stolen from his feet failed to get in a kick at the right place.

The shirtwaist girl has made her debut in Paris, and for once France is following an American fashion.

The indications are that the "Middle-of-the-road" Populists are about to be crowded off onto the cycle path.

Now that the amateur golf championship is settled, the country can really devote itself to the campaign.

Tams Bixby and Mark Hanna can now form a mutual admiration society. They are each the whole thing.

The engineers of the Omaha have planned a rose of priceless value upon the lapel of Edwin W. Winter's coat.

Now that the Populists are considering him for president, Mr. Towne will have to have himself incorporated as a city.

A New York bishop has advised all his people to keep out of politics. After November, bishop, they will consider your advice.

Prince Charles of Denmark is to have as many medals as a bicycle teacher. The queen will give him three on Monday.

If Lord Salisbury ever gets his toy arbitration commission working, Punch and Judy shows will be crowded out of business.

The cigarette trust is said to have a fighting chance in the Iowa case, which is more than can be said for the average cigarette victim.

Warner Miller has had another bath. He has been bathed in tears several days because a number of his old party friends have deserted him.

David M. Clough is at the post and might be sent away for a few speeches on the issues of the day before the other fellows are ready.

St. Paul's bicyclists are pretty unanimous in the opinion that it would be better to have our streets paved with good intentions than cedar blocks.

If the silver men and the Populists insist on naming separate tickets, and the Labor party follows suit, the presidential race will have to be run in heats.

When the market reports say grangers were pounded in New York, it does not follow, of necessity, that Wall street has fallen on the honest farmer.

SILVER MEN'S PLANS

IN ANY EVENT THE NEW PARTY LEADERS EXPECT TO NAME BRYAN.

ST. LOUIS PUTS UP PRICE.

EXPENSES OF THE CONVENTION GUARANTEED BY BUSINESS MEN OF THE CITY.

SECRETARY KEENEY HAS A PLAN

By Which He Thinks the Populists and the Silver Men can be Brought Together.

ST. LOUIS, Mo., July 18.—This evening a committee of prominent business men of this city, irrespective of party affiliations, called on Chairman Mott, of the national silver committee, and assured him that sufficient money would be raised by them to defray the expenses of the convention. Chairman Mott said this evening that he expected the convention to be in session until Friday night at the latest. It has been definitely settled that Congressman Francis G. Newland, of Nevada, will be temporary chairman, and it is conceded that Wm. P. St. John, of New York, will be permanent presiding officer. George P. Keeney, of California, will be secretary.

Expressions from delegates who have arrived thus far for the silver convention seem to indicate that Bryan will be indorsed by it. Secretary Keeney has a plan which is that when two conventions meet there shall be a joint conference committee charged with the duty of making a report upon the common demands of both conventions. "If this can be done, I believe," said he, "that within two days an agreement can be reached which will favor the indorsement of Bryan. If this cannot be done then it may be agreed that the silver men shall go ahead and nominate Bryan, as if he had never been mentioned before. It looks from present indications that this will be the action of the silver men anyhow."

"Do you think the Populists intend nominating a straight ticket?" "That is not the idea of many of them. There is a feeling of no surrender especially with the Southern delegates in states like Georgia, Mississippi, Tennessee and Texas, where war has been bitterly waged between them and the Democrats. It is not so with the Western, Eastern and most of the Northwestern delegates. They favor the indorsement of Bryan and have no fears of disbanding their forces in state and county elections."

"My idea and hope," said Mr. Mott, "is to harmonize all the elements of party strength, and march them in solid phalanx to the polls in November against the imperialists of the world. If this can be done then success is assured. I am a Republican on principle who believes that bimetalism is necessary to the commercial growth and stability of this country, and I am willing to subordinate all minor things in order to see that cause successful. Left to itself the national silver convention, perhaps has nominated a far different man from Mr. Bryan, but he has views on the main issue in accord with mine and that of my party. He is the nominee of a strong and successful party. At least it was successful four years ago. There are upwards of 3,000,000 silver men who do not belong to the Democratic organization, but they are not enough to elect a candidate. Combined with the host of Democratic voters also for silver they form a coalition that is simply irresistible. It is in the fighting each other on issues of minor importance this vast silver majority comes to nothing."

George W. Thompson, ex-president of the chamber of commerce of Tacoma, Washington, is one of the first arrivals from the Pacific Northwest to attend the silver convention. "I have always been a Republican," he said tonight. "Do you think many Republicans of your state will support Mr. Bryan?" "We held a state mass convention, effected an organization of the 'free coinage' Republican party, making Attorney General W. C. Jones, chairman of the state central committee, selected seventeen delegates to the national silver convention," ex-Gov. Miles C. Moore, Attorney General Jones and Judge Turner among them. Rousing mass meetings have been held in different cities in favor of the silver movement."

"Do any silver Republicans favor Mr. Bryan for president?" "So far as I have been able to learn the answer is strong that all the silver forces should combine on Mr. Bryan and thereby insure his election."

"Will the new free coinage Republican party attempt to make nominations for state officers?" "No; the intention is to use their influence to combine the silver forces to defeat Gov. McGraw, who seeks to be sent to the United States senate in place of Senator Squire, whose term expires next March. A great many Republicans, in addition to those in favor of silver, will aid in defeating McGraw."

"The counties perfecting organizations of the new silver party?" "Yes; Pierce county, in which Tacoma is, has already organized every precinct. One county precinct, in which there are twenty-five Republican voters, reports twenty-three for the new party."

CHANCES FAVOR WAR

BOLT ALREADY THREATENED.

"MIDDLE OF THE ROAD" CROWD TO GO OUT IF THEY ARE BEATEN.

ALLEN SUGGESTED FOR CHAIRMAN

Bryan Crowd Will Not Stand Interference If They Find They Are in Control.

ST. LOUIS, July 18.—Not enough of the delegates to the Populist national convention, which assembles next Wednesday, have arrived to give a fair idea as to the complexion of that gathering. A majority of those

SUGGESTION OF WHAT BICYCLING MAY BRING US TO IN A GENERATION.

TO FREE CUBA.

Gen. Maceo Tells Just What He Needs.

NEW YORK, July 19.—The World this morning publishes the following correspondence from the headquarters of Gen. Maceo:

"The want of a few cartridges and cannon," said Gen. Antonio Maceo, "is all that makes our government vegetable's rocks instead of brick and mortar for a white house."

Asked how many and what arms and ammunition he needs to guarantee to win the war, say in two months, he said: "I could do it with 20,000 cheap Remington rifles, small calibre; 1,500,000 cartridges, ten cannon and 100,000 rounds of artillery ammunition. I might do it with much less. I would invariably attack the Spaniards and attack them after maneuvering their columns into cul-de-sacs, and I would take an important town. The supplies captured, they would assist in the capture of the next one, and so, on, until I would be able to storm Havana, with its fully equipped army of 100,000 men and fifty pieces of artillery. From the land it could be thus easily taken."

NEW YORK BANKERS.

Three Papers Read at Their Last Session.

NIAGARA FALLS, N. Y., July 18.—This afternoon the New York State bankers assembled for their concluding business session. Three addresses were delivered by R. S. Sloan, of Oswego, spoke upon "The Uses and Abuse of Banks." Mr. Sloan said referring to the question of coinage: "Free silver is the last legs. Hon. S. M. Griswold, of Brooklyn, made an address entitled 'The Prosperity of Banks Insures the Prosperity of the People, and the Government,' and President James H. Tripp, of the First National Bank, of Marathon, spoke on 'Will the Business Interests of the Country be Benefited by a Further Expansion of the Currency.'"

CAR BARN BLAZE.

CHICAGO, July 18.—The car barn of the Chicago City Railroad company, on Cottage Grove avenue, near Thirty-sixth street, were destroyed by fire tonight. The barns were filled with cars, being the stable for the city system. The company lost 54 cars. Not a thing in the building was saved. The loss is estimated at fully \$200,000. The building contents being insured for \$311,000. The fire one started burned with great rapidity, and the firemen experienced great difficulty in preserving many of the adjoining buildings. They managed, however, to confine the fire to the car barn. The fire started at the sixteen were saved and fourteen burned in their stalls.
