YOUR MOUTHS ARE SHUT.

"He who will not speak when he should speak shall not be heard to speak when he would speak," is the terse definition of the law of estoppel.

The silver plank is but the fruit of the plant which the greenback is the root and the Allison and Sherman acts of 1878 and 1890 were the flowers.

The report of the county assessor, which is presented to the public this morning, announces the completion of the reassessment of St. Paul property.

THE NEW ASSESSMENT.

The report of the county assessor, which is presented to the public this morning, announces the completion of the reassessment of St. Paul property.

Finally a plan was adopted by Assessor Seng, which was described fully at the time in the Globe, and which was the product of long study and scientific investigation by Mr. W. A. Somers of this city.

Nor does it lie in the mouths of Republicans to rebuke the Chicago convention for its implied promise to reconstitute the federal supreme court so that a majority of its members may be favorable to a reversal of the reversing decision of that court in the income tax cases.

having spoken, when they should have spoken, Republicans shall not now be heard to speak when they would speak.

HOLD UP THEIR HANDS.

If ever there was a cause that deserved and called for the generous and enthusiastic support of its believers, it is that of the sound money Democrats; and those of that faith in Minnesota, who are many and tried, should respond to the call for a conference in this city on Thursday next.

As far as the attitude of real Democracy toward both state and national politics is concerned, it is time that good Democrats should take counsel with one another and should resort to such measures as may be necessary to preserve intact for the people the true and ancient Democratic faith.

The sound money Democrats of this state are many and determined. They have been, up to this time, either too confident or too disheartened to make a proper effort. Now is the time for them to show their devotion to right principle and a worthy cause.

So the course by which national bank notes, although not legal tender, may at any time be converted into gold, if so desired, is simple.

So, behind this form of money, as behind all others in the United States to-day, there stands as the redeeming agent, the gold dollar.

We publish elsewhere an article setting forth the need of a place of detention for women prisoners, either for the use of the city of St. Paul, or that of the state at large.

AN INSTITUTION NEEDED.

We publish elsewhere an article setting forth the need of a place of detention for women prisoners, either for the use of the city of St. Paul, or that of the state at large.

It is certainly an open question whether the mere name of that institution is not a stigma so great as to bar the effort to reform; and whether it is possible there to surround the women who have made a bad beginning with the influences that should be placed about them to prevent a lower fall and a more hopeless degradation.

It seems to be the opinion of those who have given the subject much thought, that the women offenders throughout the state of Minnesota should be cared for at one central institution, where they might be placed under the charge of a matron, furnished with suitable employment and looked after with the greater and more lenient care that their sex demands.

erto as a part of the penalty of a fictitious system of realty values will be laid aside. Stripped of our desire to make boom prices appear as current in the market, we have now a relatively fair valuation as compared with the remainder of the state.

WE NEVER DID IT.

The New Ulm News is always so vivacious and spicy that, even when it gets real vinegary and scolds the Globe, we cannot like it less.

MAY BE TURNED INTO GOLD.

To the Editor of the Globe. Kindly inform your readers, of which the writer is one, if "National Bank Notes" are a legal tender for all debts, or, in other words, if I owe a party say \$100 or any other amount, if I can compel such party to take national bank bills in payment for the same or not.

By the acts creating the national banking system and authorizing the issue of national bank notes, it was provided that these notes should not be legal tender, but should be received at par in payment of dues to the United States, except duties on imports, and for payments by the United States, except interest on the public debt, and for the redemption of national currency.

Our contemporary upbraids the Globe, because, while declaring that the convention "outraged the Democratic party and broke its faith," we "did not and cannot point to a single act violative of Democracy—a government of the people."

Without any flourish of reformatory trumpets there enters the journalistic or magazine "City Government," the purpose of whose coming is to gather information relative to the government of cities, the business of governing them, details of management, and generally, all matters that will be of interest to the officials of cities and of citizens who interest themselves in municipal affairs.

So, behind this form of money, as behind all others in the United States to-day, there stands as the redeeming agent, the gold dollar.

WILL PROTECT LABORERS.

County Contractors Have Got to Guarantee Their Pay. Renovation of the interior of the city hall and court house will be begun within a week or ten days, if the county commissioners can see their way to make the expenditure.

HIT A BOY WITH A STONE.

Sunday afternoon J. E. Jensen, a special agent of the state police, was on duty at West side, threw a stone at a party of boys who were breaking the fence around a youth who lives on Avenue C.

WIT INTENT TO AMUSE.

Old Lady-Poor fellow! I suppose your blindness is incurable. Have you ever been treated? Blind Man—Yes, mum, but not often. 'Tain't many as likes to be seen going into a bar-room with a blind beggar—Hartford Times.

There is one thing I like about you, Miss Daisy. Miss Daisy—And what is that? He—My arm—New York Herald.

Prisoner (in New Jersey)—I'm no burglar, you should know that. Judge—But you were found after night with a mask on. Prisoner—Mosquito, your honor. I'm a stranger here and I had to do something.

"There is a woman out West who has fainted for forty days," he reported. "I should think her as she prepared to mount her wheel." "Who was that?" "The orange grinder," Washington Times.

these unfortunate, who are rarely deprived throughout, should have an opportunity and be brought within the reach of all the reforming influences of the times, instead of being kept in the same prison and under the same system as hardened male criminals.

without the use of his mental faculties, is not laying the foundation for an intellectual and well ordered life. It was not all in the training of the intellect or judgment; the morals needed equal training.

The boy who is taught to earn his bread and butter, without knowing how to plan his work, will be a lamentable failure in life.

Rev. John St. Claire narrated some scenes he had witnessed at the battle of Pine Ridge and Wounded Knee, and believed the efforts of the Indian teachers should prevent a repetition of such occurrences.

CENTRAL IDEA OF A POPULIST PLATFORM PREPARED BY "CYCLONE" DAVIS.

APPROVED BY COMMITTEE. HIS DECLARATION OF PRINCIPLES WILL BE OFFERED IN THE CONVENTION.

BOTH OLD PARTIES ARRANGED. Abundant Money of Any Kind Presented as the Cure for Every Public Evil.

ST. LOUIS, Mo., July 20.—The following platform has been prepared by "Cyclone" Davis, of Texas, who is to present it to the convention. It has been submitted to the executive committee, of which Mr. Davis is a member, and approved. Mr. Davis remarked with reference to it: "It represents humanity."

"We, the People's party of the United States, in convention assembled, proclaim the following as the paramount creeds and principles of our party, and the pledges and promises upon which we ask the votes and cooperation of the American people."

"We declare that no man should be allowed to own lands in our country without first becoming an American citizen. We declare that no corporation should be allowed to own land except what is necessary for the legitimate purposes for which such corporation was created. Believing that the home is the basis source of the grandest civilization, we demand that some just system shall be established by which the lands now held by speculators be abolished and the lands sacredly preserved for homes for our people and their posterity."

"The right to construct, own and regulate highways is a sovereign right, a right of government, and should be conferred upon citizens or corporations for private gain or speculation. Under the power in the constitution and federal authority to establish post offices and post roads, it was intended that congress should build post roads, and under the clause of the constitution, we declare that congress has the same right to build railroads or marble buildings to be used as a postoffice. Under these plain provisions of our constitution, we demand that the railroads, telegraph and telephone lines."

"We declare that the act of 1873, denouncing the use of silver as a legal tender, is a violation of the constitution and a corresponding fall in the price of commodities produced by the people of the United States, and that the increase of the burden of taxation, and of all debts, public or private; it has resulted in the impoverishment of the masses of the people at home and abroad; it has resulted in the prostration of industry and the impoverishment of the people."

"We arraign the Democratic and Republican parties for surrendering to the holders of the government debt the right of coinage, reserved by law to the government, of redeeming such obligations in either silver or gold, and for the issue of a paper currency by the Democratic and Republican parties for trafficking with banking syndicates which, in exchange for bonds, and in violation of the constitution, have secured the federal treasury with gold to maintain the Republican policy of gold monometallism. We declare that the issue of a paper currency is a violation of the constitution and the powers of our constitutional union, and that the powers of our constitutional union and the rights of our people should be sacredly preserved."

"We arraign the Democratic party for establishing a precedent of government by injunction, and for the use of the power of oppression, by which federal judges, in contempt of the law of the states and the just rights of the citizens, have been appointed, judges and executioners—a tyrannical departure from those principles which are the basis of our government. If the American people by their factory-made goods to foreign countries because they can buy them cheaper, and the result is a heavy burden and force us to sell our raw material in the same cheap foreign market. Our plan is to coin money, to buy and sell our goods to buy and consume the products of this country. Then wages, prices, everything will be raised. This is the only way to raise revenue for current expenses, but to prevent foreign competition, other countries importing foreign paupers themselves or by pauper-made goods."
