

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

WALBROOK'S

ABSOLUTELY PURE

TUPPER IT WILL BE.

WILBUR S. SAID TO BE SLATED FOR STATE INSURANCE COMMISSIONER.

POPULARITY WITH A. P. A.S.

WITH HIS NATURAL ABILITY, SAID TO GIVE HIM A FILL.

CLOUGH WANTS ALL THE VOTES

And Thinks He Can Solidify Himself With This Uncertain Quantity in That Way.

Gov. David M. Clough may be stringing several men along with the supposition that each one of them is to eventually be rewarded with the position of state insurance commissioner made vacant by the death of C. H. Smith. The idea that the appointment is coming their way has been an incentive to several men in and out of the Twin Cities to talk and hustle for the governor. Whether or not he intends to keep them thinking that way until after the election remains to be seen. So far as the business of the office is concerned, it doesn't make any difference whether anybody is appointed or not, for Acting Commissioner Lightbourne has directed the affairs of the department satisfactorily for nearly two years and could possibly continue to do so for two years longer. It is fair to him to say he has done the work to the satisfaction of everybody who has had anything to do with the office, a fact evidenced by the petitions in the governor's office from the St. Paul and Minneapolis fire underwriters and the St. Paul and Minneapolis Life underwriters as well as petitions and personal requests from other parts of the state, asking Gov. Clough to appoint him to the vacancy. If the governor were to make the appointment without reference to politics, he would, therefore, it is believed, have named Mr. Lightbourne to succeed to the place some time ago.

As a matter of fact, the name of Wilbur S. Tupper, whose name can be learned, Gov. Clough doesn't intend to appoint Mr. Lightbourne to the position. Neither does he intend to appoint W. M. Todd, nor Elmer H. Dearth, both of whom have held the position of assistant state insurance commissioner. Both of these gentlemen expect the place and are ready to resign to have said some time ago. It is reported that Mr. Clough has had the following formed an outing party at Woodford yesterday: Misses Wetherbee, Cox, Snyder, Bunker, Webster, McWilliams, Houton, Cullen, Clark; Messrs. Wetherby, Williams, Lager, Wagner, and Chamberlain; Messrs. Gregory, Allison, Thompson, Mann and Hewitt.

Miss Ernestine Spencer entertained at dinner last evening for her guest, Miss Seldon, of Duluth. The guests were Miss Seldon, Bessie Martin, Birdie Hope, Sadie Proctor and Faith Marsh.

Miss Garnet Butcher gives a cycle party Friday evening from her home at 96 North Victoria street. The party will be given at the home of Mrs. Markis Tice who will act as chaperone.

Dr. and Mrs. B. H. Ogden gave a wheeling party last evening with the following as guests: Mrs. B. H. Ogden, Helen Rihel-daffer, Spencer Merrill, Paul Merrill, Mrs. Gay, Miss Carrie Ogden, and M. O. Greer.

Ben Sommers, Miss Sommers and Miss Davidson have taken the trip to St. Louis on the steamer St. Paul. They left yesterday.

Miss Stella Slavin left Monday morning for Duluth. She will spend the week with her friend, Miss Elsie Hankinson.

Miss Agnes and Della Flynn, of 19 Hoff street, will be in the city for a visit of two weeks with relatives in Buffalo.

Prof. Gordon, who has been supplying the pulp at the House of Hope, is a guest at the Greengarden.

over the youngster. The crowd at once gathered and as the territory is thickly settled, the boys in the immediate neighborhood when called to any certain spot make quite a respectable showing. The police were unable to learn who drove or owned the rig which ran down the child. Dr. Seybel was called and reported the child not seriously hurt, the only injury being a scalp wound. Mr. Niemann, seen later in the evening, said he had no intention of making any complaint against the person driving the rig which ran over his child, and if he wanted to, could not do so if it was the child he said, was not hurt much, and there was no need of having the police called, or any excitement over the accident.

KILLING OF CHICKS

SPECIAL WARDENS ARE APPOINTED TO PUT A STOP TO THE SPORT.

YOUNG LAND AND WATER FOWL

ARE RUTHLESSLY SLAUGHTERED BY ALLEGED SPORTSMEN IN PRAIRIE COUNTIES.

MINNESOTA'S FEATHERED GAME IS TO BE GIVEN SPECIAL PROTECTION Between Now and the First of September.

Executive Agent Fullerton, of the state game and fish commission, yesterday announced the appointment of a batch of 15 special deputy game wardens to serve from now until the 1st of September. The names, however, are not given out for publication, on account of the special nature of the work assigned to the new men.

For several days the game and fish commission has been deluged with complaints concerning the slaughter of helpless young chickens and ducks by alleged sportsmen in various counties. The complaints are especially numerous from Anoka county, Twin City residents spending the Sabbath in the indiscriminate slaughter of the birds. The young chickens and ducks are at present hardly bigger than the fluff of an ordinary man, and the killing is anything but sport. Residents of Polk county, around Prokoston, of Stevens county, near Morris, birds of Nobles county, near Worthington, have also made complaints and wardens were appointed to serve in each of these vicinities until the opening of the game season the first of September.

Mr. Fullerton states that the department is going to protect the young birds until the opening of the shooting season if it becomes necessary to appoint a warden at every cross-roads in the state. The prairie districts seem to be overrun with a horde of useless blood-suckers, and there is no respect for the law nor love for true sport. The birds at their present stage are about as good marks as tin ducks and it does not require much of a sportsman to massacre them in scores. The thing must and will be stopped. The commission will continue in the appointment of wardens until every acre and bridge of the city and county has been protected by a warden.

County Fathers Ponder.

Weighty Matters Occupied Their Attention.

At a meeting of the board of county commissioners held yesterday afternoon, it was decided to include in the tax levy estimate an appropriation of \$2,000 for the erection of a city hospital with an electric light plant.

The report of the committee on roads and bridges which contemplates the issuance of \$100,000 worth of bonds for the purpose of building macadamized roads, was the subject of some adverse criticism on the part of Messrs. Doran, Kellerman and Ness, although it was finally adopted and placed on file.

At a meeting of the board of county commissioners held yesterday afternoon, it was decided to include in the tax levy estimate an appropriation of \$2,000 for the improvement of the city streets, and to set aside for the construction of macadamized roads. The recommendation at this time was made by the committee on roads and bridges for the reason that when the schedule was submitted last week it had not yet completed its figures.

Following a consideration of the report by separate items the extra recommendations included in the schedule accordingly amended. The recommendation for the issuance of the \$100,000, payable in ten equal yearly installments with interest at 4 per cent, was supported by Commissioner Allen, its framer, and also by Commissioners McCarron, Wright and Moritz. The arguments in favor of the proposed bond issue were that at a far greater disadvantage than neighboring cities in the way of suitable approaches from the country districts, and that for this reason the city should be put into other channels which would, with the proper facilities, come to this city. It was stated that the increase in the tax levy would be so small as to be hardly felt by the citizenry, and that it would not be felt to any appreciable extent and as a rule, in consideration of the good which would accrue to the city, most of the property holders would be glad to pay their share. Notwithstanding the urgent plea of those favorable to the plan, Mayor Doran, and Commissioners Ness and Kellerman vigorously opposed the issuance of the bonds at the present time, the strictest economy should govern the action of the board and they did not believe the tax levy should be increased even in the slightest degree.

Chairman Kerwin, of the board of control, and Dr. Ancker were present to place on the city hospital bill. Figures were presented to show that the expense of lighting the institution in 1893 had been \$1,145.10, in 1894, \$1,347.15; in 1895, \$1,533.45, and for the first six months to date this year, \$1,112.12. The increase in the expense, it was explained, was owing to the larger number of patients for which the hospital is cared for each year. The cost of the plant proposed was placed at \$1,000, with a yearly expense for its operation of \$1,000.

Commissioner Ness and County Auditor Sullivan, report showed that during the year there had been a substantial growth in the enrollment of the societies comprising the union, which now comprised seventeen Presbyterian churches and two other Congregational societies. During the year one or two Methodist societies have withdrawn and gone into the Episcopal church. The membership of forty-four senior, one intermediate and thirty junior societies.

Rev. A. R. Moore, retiring president of the union presided, and during the evening gave a report on the efforts of the recent national convention at Washington, to further the cause of Christian citizenship. Rev. Mr. Moore said that no one fully realized the power the church has exerted toward the renovation of political methods, and the uplifting of national citizenship. D. A. Thompson, a delegate to the national convention, told of his experience at the gathering, and was followed by Miss Carrie A. Holbrook, state secretary of the Endeavorers, and State President C. M. Hunt. The report of the delegates were all enthusiastic, and it was the unanimous opinion of those who were

entered into judgment in 1893, and that the report brought by Mr. Libbey, Judge Brill had decided that the judgment was void, owing to a clerical error in the office of the clerk of courts, whereby the date had been omitted from the report. It was stated that this decision would also affect all other tax judgments of that year.

The purchasers could fall back upon the county and recover the amount paid with interest. The amount of the judgment, which made the case of the greatest interest to the county. He also suggested a plan whereby a compromise could be effected between Mr. Libbey and those who hold the judgments against his property, but if this is adopted the county will lose the penalties and interest amounting to nearly \$800.

Part of the crew of laborers who were employed by H. C. Huebner, in the grading of Rice street, and who claimed to have wages still due them, appeared before Judge Butler yesterday. There was any way of collecting their money. The answer was given that the contractor still owed other claims on the Rice street project, and that he would not pay. The court attorney asked the men that the only way in which they could recover would be to bring suit against Huebner's bondsmen.

at Washington that the convention was one of the most successful in the history of the Endeavorers.

TO CARRY THE PRIMARIES.

Aim of the Free Silver Democrats of St. Paul.

F. A. Pike, F. L. Nelson and T. R. Kane were the orators at the meeting of the Central Bryan and Sewall Democratic club last night. Between fifty and sixty men were present, and with half a dozen exceptions, they were all Democrats. Reports from the wards indicated that the ward clubs are organizing to carry the Democratic primaries on Saturday evening. Every Democrat was cautioned to see to it that he voted favorably to the Chicago ticket and platform go to the polls to cast their votes for delegates who will nominate a free silver state ticket.

The report was received from the First ward and it is believed that it shall be taken care of, a special committee was named to assist the ward committee. The special committee consists of Messrs. F. A. Pike, John E. Hearn, Dr. Buckley and John L. Nelson. To look after the silver interests in the country the chair named Charles F. McCarron, John Melrose and Gen. R. W. Johnson, and as the orders issued by the committee will be cared for by A. Fleming, Dan Baker and Pat Gleason.

In addition to the gentlemen named who spoke somewhat at length on the need for the Executive of non-partisan patriotism to elect the Bryan-Sewall ticket, President Caldwell, T. J. McDermott, John E. Hearn, T. D. O'Brien and H. H. Pillsbury made brief addresses. Mr. McDermott reported that the information which shows that some of the most popular Democratic leaders in the state cannot be elected as delegates to the state convention because they are not in sympathy with the Chicago ticket.

Mr. Hearn expressed the opinion that the Democrats of St. Paul are practically unanimous in favor of free silver, and all that is necessary to do on Saturday is to make a personal effort to get men to go to the polls and vote for free silver delegates.

John Nelson orated in his usual eloquent, mellifluous manner, on the earnestness and unselfishness of the free silver advocates.

The addresses of Messrs. Pike and Kane took the ground that unless Bryan and Sewall shall be elected a free coinage law enacted, there will be a continual grinding down of the masses, by plutocracy, that will crush every striving man, and will destroy the citizenship. They were especially fearful that the workingman is to get the worst of life more and more every day if the present monetary standard is maintained.

When the club adjourned it was to meet at the call of the president.

JOHN'S NECK WAS CUT.
Mayor Doran's Ax Caught Officer Lawton Yesterday.
Patrolman John Lawton, an old and efficient officer of the police force, was discharged yesterday. Yesterday afternoon he was summoned to the mayor's office and requested to resign. The reason given was that his superior had preferred charges against him for general incompetency. Lawton refused to sign the resignation which had been prepared for him, and something more specific was alleged and proven. The result was that he was told to consider himself discharged "for the good of the service."
