RESIDENTS ALONG LYNDALE PARK-WAY WOULD LIKE TO KNOW.

MUSIC FOR CARNIVAL WEEK.

Eighteen Bands Will Make Harmony—General News of Minneapolis.

Since the legal battle has been made public wherein the taxpayers, who were assessed for the Minnehaha parkway, are striving to get back what they claim is their due from over-assessment in the matter of that parkway, other portions of the city have awakened to the chance that they may await their residents, and North Minneapolis is one of the first sections to be up and moving.

It is claimed by people who have been assessed on the Lyndale north parkway that they have been doubly dealt with, and they are about to employ attorneys on the percentage plan to see if they cannot secure back some of their over payments. The taxpayers in that locality claim that many years ago the park board conceived a scheme of a parkway to Fairview park, and obtained specifications for a parkway which was to have a roadbed like unto that on Kenwood boulevard, consisting of a macadamized bed, with a gravel top, the parkway to have small trees, the sidewalks laid out on the strength of this cost assessment were made, and ever since the taxpayers of that vicinity have been paying that tax, until it is almost paid. In fact there remains but one more payment before it is all paid up.

These property owners claim that all they have received for their money are small trees, the macadamized base as far as Twentieth avenue north. Shortly after the road bed was down a sewer was dug, which put the street in bad condition, and little has been done since, while the money collected has been used in other parts of the city. The property owners bore with this, however, hoping that they would some day see the benefits of their payments, but last year there was an order for stone sidewalks, and they were laid and, strange to say, charged up against the property, and the property owners had to pay for them, although they claim they had already done so, because the sidewalks were already included in the original assessment which was nearly paid, thus making a double payment. Should the property owners prove to be right in their conjectures, the amount will be quite large, as several blocks of sidewalk were laid and the assessment for the same was quite heavy, being about \$30 for each lot of fifty feet.

AIR FULL OF MUSIC. There will be 18 bands in town for Carnival week.

There will be no lack of music at the latest report of the committee on music, which has been organized to consider the question of being on the program for the carnival at the Exposition grounds, which will occur Monday evening of next week.

GOOD CITIZENS ARE WARY. Hesitate to Indorse Any Republican Candidate for Alderman.

The Good Citizenship League of the Seventh ward spent two hours last evening in deliberating on the question of indorsing a candidate for alderman at that meeting. The league held in the Republican hall, Lake street and Eighth avenue south, and was presided over by Robert Christianson.

OLNEY IS PRESIDENT. American Philatelic Association Adjourns to Meet in Boston.

The last session of the eleventh annual convention of the American Philatelic Association was held at the Hotel Marlborough, Minneapolis, Thursday, the most important business session of the officers for the ensuing year, which resulted as follows: President, J. P. Olney, Providence, R. I.; Vice President, J. B. Mearns, New York; Secretary, J. W. Chandler, Collinsville, Ill.; Treasurer, J. H. Phillips, St. Louis; International Secretary, H. B. Phillips, San Francisco; additional vice presidents and board of trustees, J. J. Kline, W. C. VanDerlip, W. L. Toppan, Boston.

Starved Himself to Death. Charles Lindgren, forty-six years of age, residing at 117 1/2 South Second street, died at the city hospital Wednesday of insanity. His case was peculiar and

most unusual one. Death was due rather perhaps to the fact that he had been afflicted with the necessary subsistence of life. The family was so poor that he had hoarded a small sum of money, but two months ago began to deny himself food. He continued to do this until he was removed to the city hospital Monday. Despite the efforts of the physicians at the hospital, the man succumbed.

GRIEBLER BENEFIT. Bicycle Races Made Up the Events of the Evening.

The benefit tendered the family of the late Joseph F. Griebler last evening at Athletic park by the Athletic Park association and the United Watersmen, was a public affair, but those at the head of it have assurances that many tickets were sold that were not presented, the proceeds of the proceeds might be, it is, therefore, impossible to make any estimate of it at this time. The entertainment was, however, a blank character. Following is a summary of the races:

One mile, amateur—John Lidberg won, Charles Palm second. Time, 2:25 2-5. One mile, professional—A. A. Hansen won, L. Stevens second. Time, 2:22 2-5. Two laps, slow race—Frank Walborn led, Charles Moss second. Time, 3:08 2-5. Half mile running race—M. Merrill won, Gus Guerrero second. Time, 2:32 1-5. Half-mile race—John Lidberg won, Charles Palm second. Time, 1:16 1-5. One mile, amateur, wheels reversed twice while riding—Palm won, Martin Nelson second. Time, 2:43 4-5. Two laps backward—George Edwards won, Time, 1:01. Five-mile handicap, amateur—Lidberg, scratch won, Palm, five laps, second. Time, 12:51 4-5. Five-mile handicap, professional—C. V. Cummings won, five laps, second, Hansen, scratch, second. Time, 13:24 4-5. One mile match race between Charles Gregory and Charles Sowers—Sowers won. Time, 2:25. One mile tandem—Lidberg and Ed Bloomquist won, Palm and Johnson second. Time, 2:26 3-5. The other brothers, two local riders, gave an excellent exhibition of trick and fancy riding.

THEY WANTED HIM. Minneapolis Authorities Capture an Alleged Burglar.

Inspector John Morrissey yesterday brought to the city from Ripley, Minn., a young Afro-American youth, arrested there, but wanted by the authorities here to answer to the charge of burglary. Incidentally Secretary Mat Mallon forwarded a telegraphic message to Sioux City asking the department there to investigate the case, the name of the burglar being the name of H. B. Smith. It is said to be the plunder secured by the officer against the prisoner, in which Robert Stone, also colored, whose whereabouts are unknown, is accused of being concerned, in entering the room of Frank B. Cousins, 509 Washington avenue north, Aug. 10, and stealing \$300 worth of clothing. They are alleged to have removed their plunder to South Minneapolis, placed it in a trunk, shipped it to Sioux City, and boarded the train for that city. Through some means they were made to get off, and remained in St. Paul, where Smith was arrested.

Favor Granting Right of Way. The joint committee on roads and on ordinances yesterday afternoon voted to recommend the passage of the ordinance granting to the St. Anthony Falls Water Power company the right of way through the city of Minneapolis for the new Pillsbury-Washburn dam.

Bothman No Longer Agent. The much discussed and long delayed circular signed by a number of steamship companies declaring the local agent, C. H. Bothman, to be no longer agent, was issued at last. It is not a conference document, but is simply a circular signed by the American Line, the Cunard, Fabre, French, Hamburg-American, Netherlands, North German Lloyd, Red Star, and the White Star lines, as individual concerns.

Buried in Minneapolis. The remains of R. Lasenske, of Fargo, who committed suicide in this city Wednesday, were yesterday interred at Hillside cemetery, and not taken to his former home in Fargo, as was at first intended. William Lasenske, his wife, were present at the interment.

ARRBITRATION PROGRESSING. Favorable Report to the Commons by Mr. Balfour.

LONDON, Aug. 14.—The first lord of the treasury, Mr. A. J. Balfour, in the house of commons yesterday, reported on the arbitration treaty proposed by Sir William Vernon Harcourt, the liberal leader, who requested information relative to the progress of the negotiations for arbitration of the Venezuela dispute, asking whether the parental difficulties had been removed by the proposal of the United States, contained in the dispatch of June 12, said that the treaty was being considered, and the latest proposals of Secretary Olney, which are regarded as opening the way for an equitable settlement. Mr. Balfour stated that the government has every reason to expect that the pending negotiations will lead to an early settlement of the dispute. Mr. Balfour stated that he had thought of the subject, and was glad to see Mr. Balfour's statement as eminently satisfactory. (Cheers.) He added that, considering the anxiety felt on the subject, he was glad to see the country and the negotiations had taken such a shape which led to the belief that the papers on the subject can be communicated to the house at an early date, and that he was glad to see the communication to the public as soon as possible. "Yes," answered Mr. Balfour, "it is the desire of the government to communicate the papers, but it can be done without prejudice to public interests."

NOBLE SUICIDE. Count Was in Love With an American Singer.

BUDA PEST, Aug. 14.—In social circles, little else is talked of here today than the romantic love affair of a Count Arthur Pallavicini, who was buried yesterday. The lieutenant, a handsome young fellow, only 21 years of age, became great friends with Miss Ethel Barrion, one of the five Barrion sisters, the well known American variety artists, whose doings in New York and in Berlin have attracted so much attention, and whose scandalous conduct in Berlin brought upon them an order of expulsion from Germany. Mr. Pallavicini sought in every way possible to induce Miss Ethel to return his love, but she only laughed at his protests of affection, and apparently paid no heed to his threats to end his life unless she altered her actions toward him. On Wednesday Count Pallavicini was found dead, having committed suicide by shooting himself with a revolver. In his left hand was a photograph of Miss Ethel, and a slip of paper upon which the unfortunate young man had written "I beg Miss Ethel Barrion to come to my coffin and kiss upon my forehead the words 'I am on the cork.'"

The strange feature of the case naturally aroused much comment which was not in any way favorable to the American music hall artists, and nobody believed Miss Ethel would grant her lover's last request. But contrary to expectations, she appeared at the funeral yesterday, dressed in the deepest mourning, and her presence caused a revival of all the stories in which the Barrion sisters have figured, including the elopement of one of the sisters with the baronet, of New York. Then it is recalled that in February last Count von Wedel, a young officer of the German army, was arrested for having pawned jewelry which he had stolen from the baroness. The disclosures which followed showed that the young man had spent quite a fortune on the Barrion sisters, and that when his money became exhausted he obtained funds in the manner indicated, in order to spend it upon them.

AN ANDREE AT HOME

MINNESOTA HAS A WOULD-BE EXPLORER ON THE POLAR REGIONS.

WOULD GO BY BALLOON

AND DEPENDS ON SCHOOL CHILDREN TO FURNISH THE MEANS.

LIGHTNING ON A LIVELY SPREE.

Queer Freaks at the Hall at Marshall—News of the North-west.

Special to the Globe. GRAND RAPIDS, Minn., Aug. 14.—Prof. Andree has a rival here in the search for the North Pole, and a School Children's Polar association has been formed to forward the enterprise of sending an airship on a voyage to the polar region. Plans of the airship are now in Washington, D. C., and a model here occasions much favorable comment, particularly on account of its arrangement for motive power and steering. Taken together, it has the form of a whale, with deck and cabins between the hull and superstructure. The latter is divided into compartments for holding the gas. The young folks have secured emblems, or badges, made of aluminum, for sale at a dime each to provide a fund for preliminary work, and they look for the formation of branch associations by young Americans to assist in outfitting the airship.

Freight Trains Crash. ST. CLOUD, Minn., Aug. 14.—A terrible head-on collision occurred on the Hinkley branch of the Great Northern railway at 12:28 this morning, in which Fireman John Mohr lost his life, and the balance of the crews escaped by jumping. It was between two freights. An extra bound from Sandstone for Melrose, was standing at the water tank Ground House yard, and had eight minutes time against fast freight No. 23, for Superior. A brakeman had been sent ahead with a lantern, but his lantern went out and before he could cure another one, the other freight came thundering down upon them. All the train hands escaped by jumping, except Mohr, who was caught in the runaway house and his engine and fast freight ploughed its way under the other train. One of the engines was badly wrecked, the other to a considerable extent, and the remains of Mohr were brought to this city on a special at noon. He was thirty-six years old, and leaves a wife and five children.

LIGHTNING ON A SPREE. Queer Freaks of the Electric Fluid at Winona.

WINONA, Minn., Aug. 14.—At about 5 o'clock this morning a heavy electric storm accompanied by considerable rain, passed over this city. The dwelling of August Thommason was struck. Things in the house were considerably scattered about, but little damage was done. The family of Rev. L. Wiestle had a narrow escape from death. The lightning came into the house through both the chimney and the roof. Alfred, the oldest son, was just dressing in a room in which the lightning struck, and sustained a severe, though not serious, shock. The residence of Mrs. Thode was struck. A sash board was torn off the house. The lightning entered the fourth ward engine house and rang the fire gong. The lightning played a curious freak at Ernest Ehmecke's home. The doors and windows were open and a strong draft blew through the chimney. The fire fluid passed directly through the open doors and windows without touching anything, and struck a chimney on an adjacent house and bored a small hole in the roof. Mr. Ehmecke was somewhat stunned by the brilliant passage of the fluid in the room where he was.

PAGE MORRIS TALKS. Large Crowd at Aikin Listens to Towne's Opponent.

AITKIN, Minn., Aug. 14.—Hon. Page Morris opened his campaign here tonight with a brass band and street parade. The crowd was estimated at 1000. The speech was well received by his audience and was devoted to the subject of the tariff. He said that the record of the Republican party during the years between 1861 and 1873.

New Dilemma for Superior. WEST SUPERIOR, Wis., Aug. 14.—In the event of the Minnesota warehouse commission's refusal to waive inspection in Wisconsin, it is now expected that the Superior board will probably be stripped, and independent system exclusively, as the majority of members have all along been in favor of such action, and passed the compromise resolution for the accommodation of the mill men and elevators, who asserted that the warehouse commission at the present unless they are allowed to have what is known as the Wisconsin system will be inaugurated on Sept. 1, and that the mill and elevator men must close under it, and they have threatened to do so since the movement was started.

ICEBERG MUST HAVE EXPLODED. Marshall and Vicinity Bombarded with the Pieces.

MARSHALL, Minn., Aug. 14.—Lyon county had the worst hail storm ever seen here last night about 9 o'clock. It went through the county from southwest to northeast about six or seven miles south of Marshall. It came too late to damage grain, which is mostly in the shock. Corn is badly stripped. Chickens were killed and all glass broken. Stones were veritable chunks of ice. We saw some this morning at 10 o'clock. Corn is badly stripped, that were fully as large as hen's eggs.

DETROIT, Minn., Aug. 14.—Harvesting has not much more than commenced in this vicinity, but it is being pushed rapidly from this time. From present outlook the yield will be an average one, compared with other years, but the acreage is small.

Princeton Doesn't Buy Booze. Special to the Globe. PRINCETON, Minn., Aug. 14.—E. A. Ross, a saloonkeeper at Princeton, was given an assignment today by his bartender, John P. Donovan. No schedule of assets and liabilities yet filed.

Unknown Dead in a Box Car. Special to the Globe. TRACY, Minn., Aug. 14.—An unknown man was found dead in the railroad yards shortly after midnight last night. The coroner's jury brought in a verdict of accidental death. The body was found among the wheels of a box car. The man carried letters bearing the name of Alfred Martin, and is supposed to have come from New Jersey. No other clue can be obtained, and the body will be buried here tomorrow.

They're With the Buckeye. Special to the Globe. GRAND FORKS, N. D., Aug. 14.—A McKinley club, with 150 members, was organized here tonight, with Dr. H. M. Wheeler as president. The club will meet once a week until election.

Indorse Crofoot for Judge. Special to the Globe. MILBANK, S. D., Aug. 14.—The bar of this city has indorsed Wm. Crofoot, of Aberdeen, for United States district judge, to succeed the late Judge Edgerton. Andy E. Lee and Melton Grady, popular candidates respectively for governor and attorney general, spoke to a crowded house last night in this city.

Lost Both Legs. Special to the Globe. YANKTON, S. D., Aug. 14.—Yesterday at Bow Valley, Neb., about ten miles from Yankton, John Stornesky was seriously and perhaps fatally injured by falling into the separator of a steam threshing machine. Both legs were cut off above the knees, and he is in a precarious state.

CROWNED WITH GLORY

The Great Presbyterian, Rev. Charles L. Thompson, D. D., of New York.

What Paine's Celery Compound Has Done for the Eloquent Preacher.

From no class of men has Paine's celery compound received more unstinted praise for its wonderful powers of making the sick to be well again than from ministers of the gospel in every denomination. Rev. Father Queller, Rev. Dr. Meek, the editor of the "Central Methodist," Rev. Dr. Baird, Rev. W. J. White, D. D., of the Georgia Baptist, are among the hosts of clergymen who have gratefully published, that their experience might be of benefit to others, the ever true story of how this greatest of all remedies makes people well, building up the shattered nerves, enriching the thin blood and rooting out disease. Rev. Charles L. Thompson, D. D., pastor of the Madison Avenue Presbyterian church in New York city, is a man crowned with honor. Before going to the celebrated church where he now preaches in New York, he served in prominent pulpits in Cincinnati, Chicago, Pittsburg and Kansas City. He has written much and well on themes of public interest, presided over the

Centennial General Assembly in Philadelphia, and has been often a commissioner of leading committees, and an exceptionally forcible debater in all the church courts. His large charity has made him a welcome representative of his church to other churches and to his brethren of other lands. He is a prodigious worker. He is one of the many thousands who have discovered what Paine's celery compound does for those who are worn out by labor, who are suffering from some stage of nervous exhaustion, and who require a health-giving remedy that will speedily replenish the system with proper nutriment, enriching the thin blood and rooting out disease. Writing from New York on June 23, Dr. Thompson said: "I think to the use of Paine's celery compound is due the fact that after a winter of exhausting work I have been able to carry my duties through the enervating springtime with unusual ease and comfort. To the multitude who suffer from the enervating effects of the warm weather in this climate, this plan,

straightforward statement from so eminent and fearless a clergyman should be heeded. Paine's celery compound has put an end to an enormous amount of sickness and disease. It began at the very outset of his splendid career to cure men and women of kidney troubles, liver complaint and nervous prostration. Its speedy and lasting cures of all these nerve and blood disorders were not slow in spreading its reputation through every state in the country. Physicians everywhere greeted the great remedy as the most enlightened, most skillful means that could be employed for invigorating the "run-down" system. Thousands of wholly disinterested men and women saw their neighbors and townspeople made well by Paine's celery compound. This epoch-making discovery in medicine, due to the patience, thoroughness and zeal of the great Dartmouth college scientist, stands today unquestioned as the greatest brain and nerve strengthener and restorer the world possesses.
