

MINNEAPOLIS.

OFFICE 29 SOUTH FOURTH STREET.

MINNEAPOLIS GLOBE.

Speak thieves entered the residence of P. H. Ward at 25 Fourth street northeast Sunday and made away with a lady's gold watch and chain.

The condition of Dr. Foss, who has been in such a precarious state for the past few days, is unchanged, but there is little hope for his recovery.

Jeremiah Sullivan, a well-known and respected pioneer of Minneapolis, died at the family residence, Fifth street, east, Eighth avenue north, Sunday morning, at the advanced age of eighty-six years.

The committee on the board of education on supplies met yesterday morning to consider bids for the drawing material to be used in the high schools during the coming year.

George E. Maxwell, receiver of the Northwestern Loan and Building association, has proposed to the court that the mortgagor stockholders of the association should be treated in the same equitable manner, the same being just and equitable.

They shall be charged with the amount actually paid to them by the association, with the interest at the same per cent per annum from the date of such payment, and credited with the amount paid by them upon account.

Section of the stockholders of the association have petitioned the court to be allowed to pay their loans upon that basis, and the matter will be passed upon shortly.

Permits for conduits. Number of Companies Get Privileges From the Council Committee.

The conduit committee of the city council yesterday afternoon granted permission to lay additional conduits in Third avenue south from First to Second street.

The North American Telephone company was granted permission to lay an iron pipe across Washington street, west of Second street, to connect the office at No. 6 Washington avenue with the Nicollet house.

The sound money campaign. Democrats Name a Committee to Conduct It.

The sound money Democrats of Hennepin county have a provisional committee now in the municipal office, the committee being headed by Judge Ueland.

Wife of a Horseplay Fined. Minnie Micka was fined \$3 or three days in the municipal court this morning on a charge of assault and battery.

Rounder Jabbid at Jumbo. C. B. Miller was fined \$10 or ten days yesterday morning by Judge Holt on a charge of disorderly conduct.

Mill City Valuations. The hard work of the assessor's department for this year is over.

Her Arm Mangled. Mrs. F. W. Vaughan, an employe of the Metropolitan laundry, while at work Saturday had one of the fingers of her left hand drawn into the rollers for pressing linen.

What Mayor McKenna Says. The genuine JOHANN HOFF'S MALT EXTRACT has been used in my family for a long time, and I can recommend it very highly.

Only a Possibility. The mystery surrounding the peculiar animal captured at Minnehaha driving park last Wednesday, is at an end and so is the animal.

Mysterious Animal Was a Native of Central America. The mystery surrounding the peculiar animal captured at Minnehaha driving park last Wednesday, is at an end and so is the animal.

Waterworks Committee Will Recommend That They Be Laid. The council committee on waterworks held a session yesterday afternoon and decided to recommend to the city council at tonight's meeting that about six miles of water mains be laid in the city.

Six Miles of New Mains. The council committee on waterworks held a session yesterday afternoon and decided to recommend to the city council at tonight's meeting that about six miles of water mains be laid in the city.

Fatal Fall Over a Beam. Thomas Shafer, son of Thomas Shafer, a driver for the Sawyer street car line, was fatally injured Saturday afternoon near Riverside.

Will Not Come to Trial. A notice has been filed in the district court by the Youngs & Clark lumber company against W. L. Milliken et al.

Asks for a Loan of \$500. The Metropolitan bank has begun suit against William E. Johnson, a \$500 on a promissory note.

HELD THE PRIMARIES

PRELIMINARIES FOR THE TWO BIG PARTY CONVENTIONS OF TODAY.

PARK BOARD'S NEW RULES

PROHIBIT BICYCLING ON FOOT PATHS AND SHUT OFF SCORCHING.

COUNTY COMMISSIONERS MEET.

Big Grist of Work Turned Out of General News of Minneapolis.

All the Democratic primaries to select delegates to the county convention were held between 7 and 8 o'clock last night.

It was generally conceded that the nominations would go to Judges Smith and Bond and little interest was manifested in even the strong Democratic wards.

The sentiment devolved at the primaries was that the Democrats were in favor of a non-partisan ticket.

It was generally conceded that the convention to be held tomorrow at 11 o'clock tomorrow at the Hennepin League room, New York Life building, at 11 o'clock tomorrow.

The Republican primaries to select delegates to the county convention at Turner hall today were also held last night.

There were nine candidates in the field, and the result of the election was very much mixed.

Nearly every voting district was represented in the reports, which were received at the Union league, and many of the tickets were badly split up between the several candidates.

It was generally conceded that at the convention to be held tomorrow at the Hennepin League room, New York Life building, at 11 o'clock tomorrow.

The board of county commissioners met yesterday at an adjourned meeting. The first matter to come up was the petition of Fred Johnson, to recover taxes paid by mistake.

The board decided to grant the petition, and the result was referred to the license committee.

George Wilson presented a petition for the ward of Hennepin, asking that the district be returned to its old lines.

A complaint was made by Lake Minnetonka residents that the ferryman at the narrow crossing on the ferry boat, three people across on the ferry boat.

People at the lake wanted some rule laid down by the board, but Johnson stated that he had no objection to the rule.

It was thought that the rule should be advertised for, but it was reported that there was an iron clad trust and the board decided to refer the matter to the present time.

The board decided to refer the matter to the present time and that it would be better to wait until some future date before contracts were made.

THE SAINT PAUL GLOBE

MINNEAPOLIS GLOBE.

MINNEAPOLIS GLOBE.

nection with his ownership of it, that is quite interesting and proves his pet, for such it was, was a veritable elephant, an animal of a colossal size, and no little bother. It also shows that it was the same animal that was found in the north part of the city about two weeks ago.

Mr. Alexander brought the animal home with him from Central America, about the first of June as a pet for his little son, the naturalist it is known as the kinkajou. It is described as a carnivorous nocturnal animal found in that country and belonging to the family of the coon and opossum are species. It is about the size of the American coon and has a long bushy tail. By the natives, where it is found, it is called the honey bear on account of its fondness for honey and other said it obtains by inserting its tail into the hollow tree where the honey is found.

The animal, Mr. Harrington had kept in the city for some time, but a short time before he obtained it, but that even in its wild state, it will not fight unless forced to. He had it at a show, and he and his children played with it as they would with a dog. It seemed tame enough, but he took the precaution to chain it up at night, and when he escaped from him about the middle of June, and since then he hasn't done much else but hurt it. He located it last night, and he was very much surprised to find it in the woman who had it, refused to give it up. Several days after, he went to see her again and she asserted that he had escaped. Later developments, however, proved, that she had sold it to the reporter and policeman, who, when they were informed that it was only a common opossum, turned to look at him and he ended until Mr. Montgomery found it captive at the driving park. Mr. Harrington took possession of his pet and took it home with him. The animal was very tame and he was very much surprised to find it in the woman who had it, refused to give it up. Several days after, he went to see her again and she asserted that he had escaped. CAROLS ARE GOLD

MINNEAPOLIS FREETS ABOUT HOW TO KEEP HER NEW CHIMES WARM.

THEIR TOWER IS SO HIGH

THAT THEY CAN'T GET EVEN SOLAR HEAT UP THERE FOR MONTHS.

TONS OF COSTLY BELL METAL

May Be Cracked by the Frosts That Come After the Election This Year.

Minneapolis is much distraught over a perplexing question, to wit, what to do with the sweet-toned chiming which peal hours and occasional hymns from the pinnacle of the new court house and city hall.

The people of Minneapolis thought they had a proud thing when they first heard the mellow music of the brassy tower singers, and they hastened to ring their every time an interurban car brought a party of St. Paul people to see Lake Harriet or attend a ball game.

Now, however, as the stems of the leaves are lessening, and the lawns are littered with dry rubbish that whirrs about in the chilly evening zephyrs, the people of the Mill City are beginning to wonder what they will do with the bells in winter.

The temperature at the Lumber exchange corner and other places on the ground in Minneapolis averages about twenty-three degrees below zero from Dec. 1 to March 1, after reductions have been made for wind and snow, and the temperature in the tower where these bells are located has never been even estimated, much less recorded.

The board of court house and city hall commissioners met yesterday afternoon to consider the question, and at the present writing the official opinion seems to be divided between putting storm windows on the curfew and heating it with oil stoves, or turning it over to the county organization to take its own chances.

It is thought, however, that some experience in Minneapolis primaries, said that if noise meant warmth, he did not see why the bells could not be kept ringing from the 1st of October to the 1st of April constantly, which would prevent them from acquiring frost bites, chills, or neuralgia.

Oliver T. Erickson thought the bellry had better be heated up, whether by steam pipes or some other way, but John C. Oswald said that he did not think that storm windows in the tower would add to the aesthetic appearance of the building, or anything like that.

George A. Brackett thought the bells might be heated by a few able-bodied men to carry the coal up cheaply, but he thought it would kind of rob the Christmas bells of the spirit of the carols if the populace knew that they were rung over a dull fire, like some half-baked griddle cakes.

It was thought that the bells could be heated by a few able-bodied men to carry the coal up cheaply, but he thought it would kind of rob the Christmas bells of the spirit of the carols if the populace knew that they were rung over a dull fire, like some half-baked griddle cakes.

speakers to be local talent. In that way it was suggested that a fair discussion of the question might be had. A motion was carried to this effect.

William Urle was then presented, who announced that he had fought for the greenback party in the good old days, and the present silver agitation was the legitimate offspring of greenback principles. He denounced the national bank in toto, and was frequently applauded.
