IGNORING THE LAW

MAYOR DORAN'S EXCUSE FOR PAY-ING NO ATTENTION TO A MAN-DATORY CLAUSE

IN THE ACT HE HOLDS GOOD.

IT SAYS HE "SHALL" APPOINT FOUR MEMBERS OF THE PARK BOARD.

WHEN ACT IS MADE APPLICABLE.

The Latter Took Place When He Installed Copeland Commissioner of Public Works,

The members of the board of public works are of the opinion that Doran has discriminated against them and in favor of the board of park commissioners. In proof of this they point to the fact that while the mayor has done all in his power to turn out the board of public works, by appointing a commissioner of pub-lic works in place of the board, he has seen fit to utterly disregard another mandatory section of the act of 1895, which requires him to also appoint a new board of park commissioners as soon as the act takes effect. The language of Section 116, page 562 of the act creating a department of public works is, in part, as follows:

The mayor of each city, as soon as this act is made applicable thereto, shall appoint four members of the park commission which shall supersede the park commission then existing in said city.

It will be observed that the mayor has neglected to comply with this proexplanation;
"If the old board of public works

had submitted at once to the action of the law abolishing it, I would have proceeded to appoint a park board im-mediately, but in view of the fuss the members of the old board have made and the fact that the legality or validity of the act is to be contested in the courts. I concluded that no harm would be done if I left the park board alone until the legal question should be determined. The fact of the matter is I couldn't at this minute name the present members of the park board, with the exception of Messrs. Wheelock and Hamm. When this matter is finally settled in the courts, if the board of public works ever intend to take it there, it will be time enough to appoint a new park board.'

it is the opinion of lawyers general-that, as the law says the mayor "shall" appoint a board of park com-missioners to supersede the existing park board, as soon as the law becomes applicable, the present park board has no legal existence, if the act of 1895 is valid, and Mayor Doran is going on the presumption it is. These same legal gentlemen think the mayor has no option in the matter, having already named his commissioner of public works

FOURTHCLASS P.M.'S

THEY WANT MORE PAY AND PROTECTION OF THE CIVIL SERVICE.

MINNESOTA STAMP LICKERS

ORGANIZE TO PUSH THEIR CLAIMS IN CONGRESS AND ELSEWHERE.

WILL MEET AGAIN SUNDAY

To Extend the Membership and Formulate Requests Embodying Their Most Urgent Needs.

The fourth class postmasters of Minnesota, it transpires, recently met at North St. Paul, and organized a branch of the National League of Fourth Class Postmasters, and will hold another meeting next Sunday at a point accessible to the Twin Cities to take active steps for the betterment of their condition. The league has already given its indorsement to the Cummings and Hardy bills, now pending in congress, for securing better compensation for postmasters of the fourth class, and has also asked the civil service commission for the protection of the civil service laws.

The circular calling the meeting for next Sunday says: "Now is our golden opportunity to make a united effort for improvement in our own condition, and consequently for an improved public service. The bills now before congress for increasing our remuneration have as yet found no voice of dissent in that body and only wait the united demand of the postmasters themselves to secure their final passage. They have already been ordered printed, read twice and re-ferred to the committee on postal affairs, with whom it now rests to re port them to congress for final passage. The congressmen so far approached have expressed their entire sympathy with us, and their readiness to vote for both these bills when put on their final passage.

As regards civil service, the commis-sion has actually prepared and submitted to the department a plan for ex tending the law to us. But the department deemed it too complicated, and referred it back to the commission to be revised and simplified. This revision is now being made. Thus the commis-sion and the department are both working hard to bring about this great re-form before the present administration goes out of office. A member of the commission has expressed the that the fourth-class postmasters should themselves, both collectively and in-dividually, show an active interest in this matter, and arouse also the interest and support of the patrons of their respective offices, that the authorities may be encouraged to push through this reform by the knowledge that there is a public demand for it.

The present congress will reassemble after the elections are over; the present administration will complete its term of office next March. congress nor the administration, there-fore, will be hampered by questions of mere party expediency in the effort to meet fairly our demands for civil service protection and increased remuneration. We propose, then, with your assistance, to build up a state branch of the

National League of Fourth-Class Post-masters in our own state, and to push on at once the organizing of a county branch in every county in the state. Branches are now being organized in other states, and from these branches representatives will be chosen to meet representatives will be chosen to meet and organize the national league.

Further notify them to be sure to leave some one at home to take care of the premises whenever they are away, and also request them to watch all suspicious characters and report them at once to the police authorities. HOLD-OVER IN KITTSON. Special Ruling on the Term of Clerk

Agmstrong. Attorney General Childs yesterday sent to Secretary of State Berg an opinion that no election would be necessary this year for the office of clerk of the court of Kittson county. The incumbent of the office died in 1893, and although his term would not have expired until the first of January next, at the regular selection in 1894. N. G. at the regular election in 1894, N. G. Armstrong, who had been appointed to the vacancy, was regularly nomi-nated and elected for the ensuing term. The attorney general holds that where an office has a fixed term, an election must as a rule be construed to be for that term and not to fill an unexpired term. On that interpretation, he holds that Mr. Armstrong's term will con-tinue until the first Monday in January,
