PRATT IN A WALK

MAYOR CARRIES THE PRIMARIES IN NEARLY EVERY PRECINCT.

WARM FIGHT ON HAUGEN.

HOLTEN A STRONG OPPONENT—NYE TO BE NOMINATED FOR COMPTROLLER.

FUSIONISTS MAKE A DIVIDE.

Pops and Silver Democrats Approve the County Offices—Minneapolis Matters.

The Republican city primaries were held last night. Mayor Pratt carried the city with the exception of about fifty delegates. W. G. Nye will be comptroller again, and for treasurer there is not much fight between the present incumbent, A. C. Hougan, and Frank E. Holton, who is paying toll in the Northwestern bank, and president of the Tenth Ward Republican club. He has been an active party worker for several years and is well thought of, but has not the general support of the business men.

In the Fourth precinct a novel way of ascertaining the sentiment of the voters was used. The tickets, both city and aldermanic, contained a list of the candidates and below them the names of the delegates. Each voter was instructed to mark a cross opposite the name of the candidate whom he favored, and the delegation was instructed to vote for the man receiving the most votes. The sentiment was overwhelmingly for Pratt. He received 116 votes to 18 for Kelley. Hicks received the sole support of his own precinct.

The primaries in the Sixth ward were well attended but the whole affair was rather tame because there was such unanimity of opinion among the voters. In the majority contest Pratt practically carried the whole ward. Kelley was a delegate from the Sixth district and in the Ninth district he was elected to the city council.

The friends of the ward are following in the ward are very much surprised to see that Swanson had stolen a march in every district. However, the latter seems very popular and his name was only checked over when the result was announced in the various districts.

In the Eighth ward it would be somewhat difficult, using the primaries as a criterion, to tell just who is the favorite, either for mayor or for alderman. Out of the 44 delegates to the city convention, 18 are instructed for Pratt, 14 for Kelley, and 6 for Grimshaw. This leaves six scattering votes which will probably be evenly divided between Pratt and Kelley, giving the former 21 votes and the latter 19 for mayor.

Pratt is near as could be figured out, the aldermanic candidates in the upper district can count on the following votes: Powers, 13; Webster, 11; Hicks, 10; Longbrake, 2. This leaves about 5 scattering votes which should be favorable to Hicks.

In the Twelfth ward primaries the whole fight centered about the candidates in the morning. The contest was especially lively in the two upper districts, the First and Fifth where John Healey and V. W. Voorhees ran a close race. In the First by a vote of 92 against 87, Healey was elected. In the fifth the contest was so close that recount of ballots was necessary. The majority of the votes was cast by a margin of three out of 132 votes.

In the Second, Third and Fourth districts Alderman C. E. Dickinson had everything his own way. In the second and third wards the roof had been dug out of every four; while in his own district, the fourth, there were no opposition aldermanic tickets. Hence in this morning's convention John Dickinson should have nine votes to five that were captured by John W. Healey.

Though the aldermanic contest overshadowed the mayor's fight, indications are that Mayor Pratt has practically captured the ward.

FIXING A STATE.

Representative Democrats and Populists Come Together.

Some of the representative Democrats have come together and decided on a scheme for distributing the city offices among their own ranks. The matter has been quietly discussed for some time, but yesterday the politicians came together in formal meeting, and they agreed that all that is necessary now is for the different conventions to select the men and then have them take the oath of office in January 1—if they should be elected.

They settled this much. Both the Pops and Democrats would like to have the mayoralty, but they are willing to let the Democrats have it. The silver Republicans, and then dividing the rest of the spoils among themselves. The silver Republican who is being courted by the Democrats is Frank M. Nye, and the Populists intend to run him, whether he will or not. They evidently do not intend to ask his consent.

The first hitch at the conference yesterday was over the question whether the Democrats or Populists should have the mayor. The Democrats claimed that they had the right to the place because they cast such a large vote as compared with the Populists, but the Pops present objected to this, saying that while the numerical strength might be as claimed, it would not be a good policy to put up a Democrat for mayor, considering the many concessions which the Democrats were asking in the way of legislative offices of a minor character.

Leaving the mayoralty question for a while, the conference took up the matter of the city treasurer and city comptroller. It was decided without any objection that the Populists, in their convention, should take their pick of the two offices. The Democrats would take the office the Populists rejected.

Coming back to the mayor again, the conference finally decided to yield everything and put up silver Republican for mayor. All agreed on silver Nye, but it was suggested that he might object to having his name used. The Democrats agreed that when they decided to go ahead and run him, they decided to go ahead and run him, anyway, and today they will doubtless get some silver Republicans after him.

The matter settled, it was definitely decided without objection that the Populists and the Democrats should nominate their man in the First, Third, Sixth and Twelfth wards, the silver Republicans being nominated for the Second, Fourth, Fifth, Eighth and Thirteenth wards, and Populists and

DEMOCRATS WILL DIVIDE THE REMAINING WARD.

LET THERE BE LIGHT.

Politics Prevent a Quorum at the Council Committee on Gas.

The council committee on gas tried to meet yesterday afternoon, but politics prevented a quorum, and the meeting was called off until Thursday. Ald. Elliott called the attention of the other members to the crying need of additional lighting facilities on Tenth avenue south, from Washington to Franklin avenues. He said a number of hold-up episodes had taken place on that thoroughfare, and that the residents believed that a lack of lighting accommodations attracted evildoers to the street. Gas Inspector Meed stated that travel on Tenth avenue had greatly increased since last year, and that the street needed more light. It is probable that the committee will vote to recommend that additional gasoline lamps be put in on the avenue.

A representative of the General Electric company, who was present, informed the aldermen that the heavy wind and rain storm of a few weeks ago had blown down a number of broken globes, fallen wires, telegraph poles and burned-out switches.

COOK GOES TO THE G. J.

McManus Didn't Want to Prosecute His Assailant.

Tom Cook, charged with assault in the second degree upon the person of Henry McManus, was held to the grand jury in \$500 bonds after being examined in the municipal court yesterday afternoon. The case called in the morning, but McManus was not on hand, evidently wishing to have the case dismissed. Judge Holt insisted that McManus' reluctance was sufficient reason for holding him to the grand jury until the afternoon, when McManus was again present. McManus used a cane and appeared to be in a state of health. On the witness stand he took all the blame upon himself and seemed afraid that something unkind would be said against him. "I went out to Spring Park to have a little fun," he said, "and I don't know but what I caused the trouble. Cook told me to leave his wife alone if I wished to avoid a charge of assault. He said, 'I didn't get hurt much, just a little scratch.' You must limp or you wouldn't use a cane," said Assistant State's Attorney Beardsley.

"Oh, I always use a cane," was the smiling reply, and McManus got up and stepped easily around the room by way of a practical demonstration of walking without a limp.

Cook wasn't very vindictive either. An answer to a question from his attorney, A. P. Loomis, he said: "I don't know what a rough gang out to the park and my wife was there for a while. I thought some one might eat me up. McManus and I got into a row there and he was a little more voluble at the ground just to scare him, but the bullet struck him in the leg."
