

GEN. BRAGG'S BOOM

IT IS ASSUMING WINNING PROPORTIONS AMONG THE NATIONAL DEMOCRATS.

GOLD MEN MEET TODAY.

SENATOR PALMER WILL CALL THE INDIANAPOLIS CONVENTION TO ORDER.

PROGRAMME AS IT IS LAID OUT.

Nominations and the Platform Will Not Be Reached Until the Second Day.

INDIANAPOLIS, Ind., Sept. 1.—Senator John M. Palmer, of Illinois, chairman of the provisional committee appointed at Chicago five weeks ago, will call the convention of gold Democrats to order at noon tomorrow in Tomlin-

son hall. All the indications are that the gathering will exceed expectations both in point of numbers and states represented. From the lists in the hands of Secretary Wilson tonight it is certain that over 800 delegates will be present, representing forty-one or forty-two states and territories. Considering the fact that the original call for the meeting of representatives of ten middle and western states was issued July 20, the managers feel that they have reason to feel proud of the result of their work.

Aside from the general question as to how far the platform should go beyond a renunciation of the Chicago platform and a strong financial declaration, coming in line with the precipitated over the question of incorporating in it an indorsement of the principle of an income tax and a declaration in favor of the retirement of the greenbacks, coupled with the establishment of a new federal banking system. Today there has been considerable discussion also as to the form of the financial declaration, the divergence of opinion being as to whether the plank should declare for the gold standard with or without a declaration for the bimetallic standard by international agreement. The money planks of most of the gold Democratic conventions are being examined closely with a view to reaching a consensus of opinion. The demand for a single declaration for the maintenance of the gold standard, comes principally from the East but has strong supporters, like Senator Vilas, in the West. The convention will complete its permanent organization tomorrow and
