Address all letters and telegrams to THE GLOBE, St. Paul, Minn. EASTERN ADVERTISING OFFICE, ROOM 401, TEMPLE COURT BUILDING, NEW YORK.

WEATHER FOR TODAY.

WASHINGTON, Sept. 5.—Forecast for Sunday: Minnesota and Dakota—Fair; warmer; variable wind, becoming southerly.

DAILY MEANS.

Barometer, 29.81; relative humidity, 75; wind, S.W.; thermometer, 48; thermometer, 41; minimum thermometer, 35; daily range, 13; amount of rainfall or melted snow in last twenty-four hours, .08; thermometer, 24; wind, northwest.

RIVER AT S. A. M.

Table with 4 columns: Gauge, Danger Height, Reading, Water, Change. Rows for St. Paul, La Crosse, Davenport, St. Louis.

Note—Barometer corrected for temperature and elevation. —P. F. Lyons, Observer.

CONGRATULATIONS.

Now that the Grand Army encampment has come and gone, and all its glories are faded to a memory, we wish to extend to the people of St. Paul the heartiest congratulations upon the unmeasured success that they won by their efforts to play the perfect host during the past six days.

AN OLD FABLE APPLIES.

The books that contain the homely truths familiarly illustrated by Aesop are supposed to be fit reading only for children. We put them into the hands of the little folks because they are fitted to their understandings and help to convey to their opening intelligences some very fundamental rules of life and conduct.

WAR, A DEVELOPER.

Charles O'Connor, the noted lawyer and the nominee in 1872 of those Democrats who could not accept the nomination of Greeley, said, in an interview shortly before his death, in which his success at the bar was commented on, that he was sure that he could have achieved the same eminence in any vocation to which he might have addressed his energies.

ONE MORE NIGHT.

Vesuvius Will Make One More Attack on Pompeii. Paine's spectacle, the "Last Days of Pompeii," having drawn large houses all the week, except on the night when rain interfered with the performance, the management has decided to continue it with a performance Monday night, for the benefit of St. Paul and Minneapolis.

TOUCHING LITTLE SCENE AT WOMEN'S HEADQUARTERS YESTERDAY.

An affecting little scene at the women's headquarters yesterday during the reception occurred in the dining room where Mrs. Dibble was one of the women at the table. A woman from Massachusetts came to the fore and after telling her how thoroughly delighted she thought the encampment had been being reported to her, she said "Now I want to place just one kiss on your cheek," and stooping over, she gently touched her lips to Mrs. Dibble's cheek. That woman's praise came from her heart and Mrs. Dibble says she shall always remember the exact spot where she kissed her.

to the women of St. Paul, whose untiring and loving efforts, freely given through months past, and whose splendid enthusiasm during the last week contributed the final element of success. While we are proud of all who took a part in this great event, we are most so of the women, whose committees left nothing undone on their part, and whose labors not only in the special field of women's work, but spreading over the whole scope of the entertainment, gave grace and beauty everywhere.

CONCERNING THE POEMS OF EMILY DICKENSON.

The truth of the adage that "one man's meat is another man's poison" is never more strikingly illustrated than in the matter of minor literary preferences. Concerning the great ones of Parnassus, two opinions are not permissible. To the man who cannot read Shakespeare we have nothing to say, for he writes himself down thereby as unworthy of consideration; but when it is a question of appreciating writers of our own day upon whom only a temporary and provisional judgment has as yet been passed, there is room for some very pretty quarreling.

Apropos of the announcement that a new series of the late Emily Dickenson's poems is about to be published, a writer in the New York Tribune took occasion recently to denounce the popularity of her previously published volumes of verse, and to assure the public that their vogue was a sort of temporary insanity; that the books had long since been relegated to obscurity, and that the forthcoming third series would meet with a chill reception on its appearance.

Now, as a matter of fact, the sale of Miss Dickenson's poems up to this time has amounted to some twenty thousand copies, a sale unprecedented in the annals of modern verse, and one which certainly indicates that the books have, in popular phraseology, met some want. The amount of non-appreciation with which Miss Dickenson's verse has met is small both in volume and force compared to the admiration which it has aroused.

REFORM BY ALL MEANS.

Our tariff systems have protected the results of labor and given employment to our people, but commerce and finance have been so controlled that the results of labor have not been distributed equitably. The working people of the United States may be continually employed manufacturing goods, but they are not getting the full benefit of their own labor.

THE LATEST NOVELTIES IN DIS-EASE.

There are fashions in medicine, as well as in millinery, and even the diseases all flesh is heir to must change their style to keep pace with modern progress. A recent issue of the New York Medical Record contained an article entitled "The Bicycle Frigate." This appellation was not an allusion to the elderly wearers of bloomers, but referred to an actual nervous disease, whose chief symptom is the propensity, commonly seen in beginners in the art of cycling, to run squarely into an object the rider desires to avoid.

SOUND MONEY CLUB.

A sound money meeting was held at the Great Northern Shops yesterday afternoon between 5 and 6 o'clock, about 200 employees of the shops being present. The meeting was addressed by ex-Attorney General Clapp and Judge Flanagan. The former, among other things, said that while there was a considerable conflict between employer and employee as to the matter of wages, yet the outside world the interests of employer and employee were interrelated, and any policy which would result in the employer's being destructive to employees as well. He then showed in a clear and convincing way how the free coinage of silver would inevitably produce general stagnation and paralysis of all business.

ONE IS ORGANIZED AT THE GREAT NORTHERN SHOPS.

A sound money meeting was held at the Great Northern Shops yesterday afternoon between 5 and 6 o'clock, about 200 employees of the shops being present. The meeting was addressed by ex-Attorney General Clapp and Judge Flanagan. The former, among other things, said that while there was a considerable conflict between employer and employee as to the matter of wages, yet the outside world the interests of employer and employee were interrelated, and any policy which would result in the employer's being destructive to employees as well.

EDWARD HARTMAN INJURED.

Edward Hartman, living at 455 St. Anthony avenue, had his leg and foot badly bruised in a street car collision yesterday evening. Hartman was standing on the rear platform of a car when it struck a pile of lumber on Washington street, and before the motorist could stop the car the collision occurred. Hartman was not seriously injured.

WILL POLL 500,000.

F. W. M. CUTCHERON BELIEVES PALMER WILL GET THAT MANY VOTES. MAY EVEN CARRY KENTUCKY. NATIONAL DEMOCRATS OF FLORIDA BELIEVE THEY CAN CAPTURE THAT STATE. STRENGTH IN THE NEW TICKET. Friends of Mr. Lawler Very Active at the Convention—His Name Frequently Mentioned. F. W. M. Cutcheron and Daniel W. Lawler returned yesterday from the convention of the National Democratic party at Indianapolis, highly pleased with the success of the convention and the future outlook of the National Democracy. Both gentlemen took an active part in the doings of the convention.

It means a currency whose value fluctuates from day to day with changes in the market price of silver bullion. We do not need to say to a man as intelligent as our correspondent that, where the purchasing power of money is not constant, but moves up and down through short intervals, it is the poor man who gets the worst of it, and the shrewd, sharp capitalist, who can hold when he pleases and sell when it is to his advantage, who takes all the profits.

THE NEW PARTY.

Great as is the satisfaction and relief of Democrats at having in the field as a candidate for their suffrages a party representing Democracy as they have always understood and believed in it, there is still another aspect of the National Democratic movement and a wider one. We believe that the formation of the new party was necessary to preserve Democratic traditions from practical extinction, and to offer in the present contest a rallying point for those who are repelled almost equally by the abhorrent extremes of Bryanism and McKinleyism.
