Hopes All Silver Men Will Forget Their Differences and Elect the Great Apostle.

ST. LOUIS, Oct. 3.—On his arrival here, Candidate William J. Bryan gave out for publication the following letter of acceptance of the Populist nomination for president:

Hon. William V. Allen, Chairman, and Others, Members of the National Committee of the Peoples Party—Gentlemen: The nomination of the Peoples party for the presidency of the United States has been tendered me in such a generous spirit and upon such honorable terms that I am able to accept the same without departing from the platform adopted by the Democratic national convention at Chicago.

ST. LOUIS, Oct. 3.—The town fairly boiled over with Democratic enthusiasm today. It was visible at every corner, and scores of banners which had been hung across the streets proclaimed it to the world. And if one were to judge by the sashes and buttons worn by citizens one might easily have been constrained to believe that Democracy had overwhelmed St. Louis from the river to its western limits.

Contract for Transporting Troops to Be Made.

SAN FRANCISCO, Oct. 3.—A circular has been issued by the assistant quartermaster, United States Army, asking for bids from all the overland lines for the transportation of troops which have been ordered to New York, and as the contract calls for the transportation of several hundred men and officers and several hundred tons of freight, the quartermaster's proposal has created more excitement in the railroad circles than has occurred for years past. The wires between her and the Eastern railroad centers, where the general offices of the interested lines are located, were kept very warm yesterday with queries for permission to cut the rate. Heretofore the Southern Pacific company and the Seaboard Air-line have managed to capture the big transportation contracts in the gift of the navy and war departments and it

POPS HAD A BIG BLOWOUT

In Honor of the Visit of the Nebraska Adherent of William Jennings Bryan.

Six thousand persons heard Senator Allen, of Nebraska, preach the doctrine of free silver in the exhibition building at Minneapolis last night. The vast audience—hundreds of those present were women—cheered the sentiments he uttered and waved their flags and hats and handkerchiefs in the fervor of their enthusiasm. Senator Allen confined himself to national issues. He spoke for nearly three hours, but the audience remained and cheered to the last.

What ever may be said of the political belief of that crowd, it is certain that they were an earnest and fine looking lot. St. Paul contributed more than 200 of those present. In the front seats were 200 old soldiers who form the Veterans' Bimetallic League of Minneapolis. The orator's appeal to the old soldier and his arraignment of Alger and his party who are stumping the West in a special car was received with cries of derision and wild applause by the old fellows in the front seats, who agreed with the speaker that he didn't need any soldier general to tell him how to vote.

EAST ST. LOUIS, Ill., Oct. 3.—The names of William J. Bryan and John P. The special bearing the Bryan party arrived in at 6:30 o'clock and the speaker this evening and Mr. Bryan was taken in a carriage to the Grand. He was introduced to an audience, which contained more people than he could make hear his voice, by Col. John I. Martin, of St. Louis.

Annual Report of the General Land Commissioner.

WASHINGTON, Oct. 3.—Commissioner Lamoreaux, of the general land office, has made a survey and report to the secretary of the interior for the past fiscal year. The total land selections during the year were 13,208,000 acres, of which 4,820,215 were in the form of homesteads, and 8,387,785 railroad selections. The increase in selections over the previous years was 4,802,673 acres. The cash receipts were \$2,106,391, an increase of \$72,307. Lands patented in satisfaction of grants 15,527,844 acres, an increase of 7,343,508 acres over last year; agricultural patents 6,470,000, a decrease of 2,829,480 acres. The total number of acres patented was 22,997,844. The total vacant public land in the United States is 600,940,671 acres, of which 215,651,881 are surveyed and 385,288,810 unsurveyed. The amount of land surveyed during the year was 6,908,808 acres.

Several Free Silver Talks, as a Matter of Course.

ST. LOUIS, Oct. 3.—Mr. Bryan left Cincinnati on the special car at President Peabody, of the Burlington & Ohio, at 7 o'clock this morning. The car was in charge of Railroad and Warehouse Commissioner Cantrell, of Illinois, and Allen W. Clark, of Kentucky. Mr. Bryan's arrival in Indiana and Illinois called for the same hard work which has characterized each visit he has made to what is considered by many the battle ground of the campaign. The points en route were scheduled for these two states, and he spoke at nearly every one of them, and where it was impossible for him to speak, he made up in public speaking and in the circulation of literature. Therefore, we have to get up earlier than our opponents, and I believe that most of us are better acquainted with getting up

The Nebraska's reputation as a long-winded orator had preceded him. When, upon one occasion he said he would elucidate a point if the audience would bear with him for "a few hours," everybody remembered the memorable occasion when speaking on the Sherman act the Nebraska Populist held the floor for seventeen hours without pausing for food or rest. He is a tall, stalwart, earnest-looking man, with a smooth-shaven, even forehead, and is dead in earnest in all he says. There is a certain grim humor about his address, but his delivery is that of a man who has faith in the doctrines of the Populists and earnestly believes that national salvation can only come through the channels of Populist legislation.

The great hall was well filled at 8 o'clock, and on the stage a large number of leading citizens and an equally large number of politicians who are not so distinguished, but who are willing to be seated about the speaker. A band, bright as to uniform, but brazen in impudence in supposing that civilized people would find any pleasure in listening to their amateur efforts, disturbed the pleasure of the audience upon the arrival of the St. Paul contingent and the old soldiers. Fortunately at that moment Senator Allen, accompanied by S. M. Owen, T. Ankeny and other Populist candidates for office, entered upon the platform from the rear, and the crowd that went up from the audience drowned the efforts of the hornblowers.

Charles M. Foote called the assemblage to order and introduced A. T. Ankeny, fusion candidate for mayor of Minneapolis. Mr. Ankeny spoke but briefly, and in turn introduced Sidney M. Owen, candidate for congress. Mr. Owen is evidently a favorite, for the demonstration that followed his introduction, was not quieted for some time. Finally, when the flag wavers were weary and the lungs of the enthusiasts were sore with effort, quiet was partially restored, and Mr. Owen said: "When I look at this audience and realize that there is not a drafted man in it, I'm inclined to move a suspension of the rules and that we proceed to elect by acclamation. But for me, serious, from years of study of important public questions, I wonder why it should be necessary to resort to a ballot to settle the question that now confronts us. I wonder how any man, standing in the midst of the ruin the gold system has wrought, can hesitate to cast his ballot to put an end to the reign of the system that has brought more disaster and desolation over the United States than the Thirty Years war did in Europe—a system how any man who gazes on the crumbling business fabric of the nation, should wait to be urged to assist in putting an end to that system. I am amazed that men will stand by an experiment, when we have to fall back upon a system that entered upon the field that helped the nation and that never injured any material interest small or great. But we are told we must not re-establish that system, for if we do we will destroy the reputation of the nation. But there is no act of dishonour
