

MINNEAPOLIS.

OFFICE 29 SOUTH FOURTH STREET.

QUESTION OF BONDS

COUNCIL DECIDES TO LEAVE THE MATTER TO A DECISION BY THE VOTERS.

BOND LIMIT IS REACHED.

CITIZENS ALONE CAN AUTHORIZE THE RAISING OF MUCH NEEDED FUNDS.

EXPENSE OF NEARLY A MILLION

Is Estimated for the Needs of the City in 1897—New Telephone Franchise.

The city council, at its meeting last evening, with twenty-four of the twenty-six members present, voted almost unanimously to refer to the people of Minneapolis at the coming election in November the question of adding to the bonded indebtedness of the city the sum of \$600,000. By the reduction of the assessed valuation of the city the bonded indebtedness has been brought close to the 5 per cent limit allowed by law, and the council have no power to add to the present amount of bonds according to the usual methods. The law of the state, however, provides that when the tax limit has been reached, in case any more bonds are to be issued, they must be voted by the people themselves. The resolution referring the question of bond issue to the people was offered by Ald. Drew, and its second reading was prefaced by the reading of a communication from the board of education, showing that the need of a new school building is so great that \$200,000 is asked for school purposes, and \$400,000 is wanted to go on with the work of the Columbia Heights reservoir. The final vote showed all except Ald. Rand in favor of the resolution.

The proposition which provoked the loudest opposition was an ordinance relative to the opening of Oak street, southeast Minneapolis, which upon its face was obscure. The ordinance provided for the opening of Oak street from Fourth street to the C. M. & St. P. railroad tracks, upon giving thirty days' notice to those owning buildings or other obstructions thereon. Some curious aldermen wanted to know what the obstructions were, and this brought out the fact that the Standard Oil company had built upon a portion of the street. The resolution was finally passed after the question of charging the company rent for the land had been determined to the effect that the city had no authority to lease its property.

Reports of the city officers were read and ordered filed. An ordinance was offered granting the American Long Distance Telegraph and Telephone company the right to use the streets of Minneapolis for the purpose of laying underground conduits for its wires, the company on its part agreeing to indemnify the original draft of the ordinance were offered by the legal department, to the effect that the company be answerable for all damages of the city and to the use of the streets, and those to be hereafter passed, also to be subject to pay any reasonable amount that might be here-

DIPHTHERIA.

Swift, But Fatal in its Action Unless Properly Treated.

Nine out of ten cases can be saved with proper care. This is a disease caused by microbes; they grow and increase in the terrible lesions of the throat; from there they are taken up by the blood, in this way they contaminate the entire system, and the patient dies thoroughly poisoned. Use Kickapoo Indian Sagwa for this trouble. It purifies the blood; it acts direct on the stomach, liver and kidneys; it expels all poisonous secretions by the natural channels of the body, and enables the great vital organs to perform their natural functions; it carries the patient over the critical point of the disease; convalescence and health attend its use. Purely vegetable; efficient always; harmful never. All druggists sell it. \$1.00 a bottle; 6 bottles for \$5.00.

SHORT CUT TO DEATH.

Aged Laboring Man Found Lifeless on a Railroad Track.

John Anderson, residing at 1823 Broadway street, northeast, was found dead yesterday morning by two laborers, while on their way to work, the railroad tracks near Eighteenth avenue, between Monroe and Jackson streets. Anderson had evidently been killed by an outgoing Northern Pacific train which passed at about 9 and 10 o'clock this evening. Anderson had been out with his son, Gust Johnson, who resides at 1412 Fourth street, northeast, looking for a house, it was his intention to move nearer to his place of work. Upon leaving his home, he had evidently been struck by the train, which would sooner bring him home, and had here met his death. He was taken to the morgue, where investigation was made, but no signs of life were detected. There were no other marks of violence about his body. Anderson was sixty years old, married and had two grown-up children. He had been in the employ of the casket company for seven years. An inquest will probably be held this afternoon.

WANT TO PUT ALL THE MONEY WE HAVE ALREADY AT WORK.

In 1890, when he advocated more money, he had secured \$24,000,000 to the circulation. This year we have no such provision. We have repealed the Sherman law, but we have no provision to add to the currency by the increase in our silver money, and we have decreased the money in circulation in the last two years, by \$10,000,000. We have decreased the money in circulation, the same McKinley, who wanted more money in 1890, tells you now that it is too much money. But to put the money we already have at work. Which does he want, the money, or the money?

FLORIDA FIGURES SCALED.

Majority Not So Large as Had Been Expected.

JACKSONVILLE, Fla., Oct. 8.—Complete returns from sixteen counties in Florida, and partial returns from twenty-three other counties indicate that W. D. Bloxham's plurality for governor will be from 15,000 to 20,000. This is several thousand lower than the earlier estimates and below the confident predictions of most of the Democratic leaders. The vote in the campaign. The figures show a considerable falling off in the Democratic vote in comparison with 1892. In that year, Mr. Mitchell received 23,900 votes, and Mr. Baskin, the Populist candidate, 8,200. Mitchell's majority being 23,700. The vote for W. N. Sheats, for superintendent of public instruction falls considerably below that for Bloxham for governor. Dennis Eagan, National Republican candidate for Florida, says that the low vote poll shows that the Democratic vote has fallen off considerably below that for Bloxham for governor. ATLANTA, Ga., Oct. 8.—Populist Chairman Cunningham gives the press the following statement: The Democratic estimate was evidently padded for the purpose of "cooking" the returns under the claim of an increased majority. This is thoroughly demonstrated by the fact that the total vote for the Democratic loss of 1,150 from figures given out by Democratic morning papers. At this time the Populist registration board has not been reported, we confidently expect a Democratic loss of 1,150 from figures given out by Democratic morning papers. WAS THERE ANOTHER MOTIVE?

Hint That Robbery Was Not the Chief Object.

A weird, and seemingly dubious story was hawked about in the vicinity of Sherburne yesterday to the effect that there might be another motive for the robbery for the dastardly crime of the day before. It was urged in favor of this view, that the cold-blooded brutality of the crime, the location of the place, and the fact that the robbery was committed in a place where there was a large amount of money, and that the robbery was committed in a place where there was a large amount of money.

Widow Is Left With a Large Family.

Olaf Oesteren, five of whom are seven living children, leaves a wife and girl, the eldest child is a young man, who had just secured a position teaching school. The family are in poor circumstances, and will get something from the benefit fund of the Grand U. W. of which Oesteren was a member. While Oesteren had been a hard working man all his life, sickness in the family had prevented them from amassing any money, and his family is left badly off.

GEORGIA MAJORITY.

It Is Now Put at About Thirty-Six Thousand.

ATLANTA, Ga., Oct. 8.—Advices received up to midnight from combined official and unofficial sources fix the total Democratic majority at 35,125, this estimate is based upon the vote for Atkinson for governor, which is in many cases less than that cast for the other state officers. It is not believed that the final returns will materially alter this estimate. The legislature is almost entirely Democratic.

GIRLS IN STORES,

offices, or factories, are peculiarly liable to female diseases, especially those who are constantly on their feet. Often they are unable to perform their duties, their suffering is so intense.

When the first symptoms present themselves, such as backache, pains in the groins, headache, dizziness, faintness, swollen feet, blues, etc., they should at once write Mrs. P. Pinkham.

Lynn, Mass., stating symptoms; she will tell them exactly what to do, and in the meantime they will find prompt relief in Lydia E. Pinkham's Vegetable Compound, which can be obtained from any druggist.

"MY DEAR MRS. PINKHAM—I am so grateful to you for what your Compound has done for me. For years I suffered such pains from ovarian trouble, which caused dreadful weakness of the limbs, tenderness and burning pain in the groins, pain when standing or walking, and increased pain during menstruation, headache and leucorrhoea. I weighed only 99 pounds, and was advised to use your Vegetable Compound, which I did. I felt the benefit before I had taken all of one bottle. I continued using it, and it has entirely cured me. I have not been troubled with leucorrhoea for months, and now I weigh 115 pounds."
