MINNEAPOLIS.

OFFICE 29 SOUTH FOURTH STREET.

MINNEAPOLIS GLOBULES.

In Old Kentucky never seems to lose its popularity. Large audiences are the rule at the Bijou this week and every scene and incident of this favorite melodrama are received enthusiastically.

At the Metropolitan, "The Irish Artist" will be played tonight and Friday night; for the popular priced matinee Saturday and also Saturday evening Chaucer Olooff will be seen in "Mavroune" and on Sunday evening he announces "The Minister of Clara." The sale of seats has been moving briskly and everything points to a most successful engagement.

George Miller and George Warren, both charged with burglary in the third degree, were each sentenced yesterday afternoon. The former pleaded guilty and was given a year in the penitentiary. The latter pleaded guilty to unlawful assault and battery and was given three months in the workhouse.

Manager Augustus Pitou and his "Mme. Sans-Gene" company, numbering 45 people and accompanied by two carloads of scenery and furniture, will arrive in this city early next Sunday from Omaha and the first production in this city of the great Napoleonic comedy will be given at the Metropolitan on Monday evening.

William Smith and Dan Connors, the men brought back from West Superior by Inspectors Hoy and Lawrence, were arraigned in the municipal court yesterday morning, charged with the burglary of H. C. Strelow's tailor shop. They were held until today in \$500 bail each.

Steve Cramer, a registration judge, was fined \$5 or five days yesterday morning by Judge Holt for failing to register a man named Rudolph Jasper out of the polling place at fire headquarters in such a way that Jasper got two very black eyes. The trouble occurred last Saturday.

The production of "Uncle Tom's Cabin," announced for the Lafayette theater for the week commencing next Monday, is represented as one of the most brilliant from a spectacular point of view and has been in this city for some time. The company is known as the Cook-Twin Sisters' combination, and includes 40 people.

Made a Bicycle of His Buggy. An unusual and most singular accident was met with by W. F. Meador, bookkeeper for the Farmhan Marble works, in driving down Nicollet avenue Tuesday afternoon. His horse was traveling along slowly and he was suddenly held by the driver, when two teams passed him, one on either side, going at a fast rate of speed. Meador, who was leaning out of the front of his vehicle, was caught and wrenched from the hub, the front of the carriage dropping to the pavement. Luckily no serious results followed, and the driver of the ill-fated rig escaped uninjured.

Rev. Dr. Beach Installed. With due ceremony, Rev. David N. Beach was formally installed as pastor of Plymouth Congregational church yesterday afternoon, in the presence of a large number of the congregation and invited clergymen and laymen of the city. Almost 1,000 people were present and the service was most impressive and instructive. Rev. Dr. Beach has been in charge of the pastoral work of the church since the death of Rev. Dr. George H. Wells, who left Minneapolis about a year ago.

The Battle of the Flags. The battle of flags is by no means confined to the business district; the residence portions of the city often see a hand-to-hand struggle for the entrance to a house or gracefully draped as a window shade, and even put the picture of the favorite candidate in some conspicuous place and decorated it with flags. This not only leads to a rival display by some one on the other side. The result is that Minneapolis is decorated with flags drooping to the pavement.

Waitresses on Strike. The union waitresses in the New England cafe yesterday went on strike, the first move in an effort to enforce the payment of the scale by proprietors of Minneapolis restaurants. The matter has been a subject of negotiation for some time. The members of the union are using all their efforts among the proprietors of other restaurants to have them sign the scale, so that a majority of the restaurant keepers will be on the side of the union.

Work of Incendiaries. A frame dwelling, untenanted, situated at 2239 Chicago avenue, was totally destroyed last evening by a fire regarded by the firemen as of undoubted incendiary origin. The place had a strong start when discovered, and consumed the structure almost before the arrival of the department. The loss is estimated at \$700. The fire of last evening is significant, in view of the fact that on Oct. 3 three unsuccessful attempts were made to burn the building. The name of the owner was not learned.

Divorce Mill Grind. Judge Elliott granted a divorce to Rebecca

After a Trial. The STAR Milwaukee Beer, the exceptional high quality of this famous beverage will engage the name BLATZ upon your mind and it will become second nature with you to call for BLATZ and see that "BLATZ" is on the cork.

Val Blatz Brewing Co., St. Paul Branch, Lower Levee, Foot of John St. Telephone 1414.

IT WAS \$10,000 EVEN

BIGGEST WAGER ON THE ELECTION THAT HAS BEEN MADE IN THE STATE.

BRYAN HAS ONE FIRM FRIEND,

BUT HIS MONEY FINDS NO DIFFICULTY IN GETTING ITSELF COVERED.

THE BIG SPEAKERS COME LAST.

Senators Davis and Allison to Wind Up the Campaign in Minneapolis Tonight.

The spell is broken, Minneapolis McKinley men who have watched their money go begging have at last been able to discern the color of Bryan's coin. In addition to the money they have extreme pleasure in knowing that what they have put up has been covered with an equal amount. Yesterday a bet of \$10,000 even was made on the result in the state of Minnesota.

It was whispered in Minneapolis yesterday that a man in New York had \$10,000 behind the statement that Bryan would carry Minnesota. Here was a chance for some of the McKinley money and no time was lost in communicating with New York in an effort to locate the man and learn the truth of the rumor. The wires brought back the answer that such a man really existed and that he had the amount mentioned ready to back up his opinion.

A syndicate was at once formed, and a few hours the necessary \$10,000 was raised and deposited in this city, and the New York party notified of such action. Another wire told that at the other end of the line an equal amount had been deposited, to lay there until Wednesday, Nov. 4, or until such time as the result would be known.

This is the largest bet made in Minnesota this year, by several thousands, and there have been few in the country. It is not known whether or not the New Yorker has any more on the same terms, but it is presumed he has not, as he would have had no trouble at all in securing odds of 1 to 2.

THE BIG ONES LAST.

Davis and Allison Will Wind Up the Campaign.

The Republicans of this city intend to wind up this memorable campaign in a fitting manner and what will probably be the last demonstration of the kind in this city. The citizens of Minneapolis will be afforded the excellent opportunity to hear two of the ablest speakers of the Republican party discuss the issues of the day. The first to be held at the Exposition building and it is expected that it will be a repetition of Iowa, to the utmost, for it is not every day that the opportunity is offered to hear such men as Senator Cushman K. Davis, who represents the North Star state in the upper branch of Congress, and a man who has an enviable reputation as a speaker and a leader.

All efforts are being made to make this meeting a fitting close to the campaign and to hold it in the city. The speakers will be the ablest of the speakers tonight. The Masonic club will furnish campaign songs, while the Flanahan club will serve as a guard of honor for the speakers on their trip from the hotel to the hall.

The unemployed meeting at the Union Veterans headquarters, 310 Hennepin, will be held in the municipal court yesterday afternoon. It was a great success in point of numbers, the seats were all filled and the speakers were heard with interest.

E. H. Blackburn introduced the speakers. L. G. Powers, state labor commissioner, made the principal address. He referred to the remarks he had made to the unemployed to hold up their hands. About 500 hands were raised in response to the unemployed in 1892 to hold up their hands and only one went up.

Taking his, Mr. Powers spoke of the lack of confidence and the fear of an unstable currency which kept the mills and factories closed, and the men unemployed. He said he thought there was honest opinion on both sides, but the free traders were not to be trusted.

He showed that the most conspicuous advocates of free silver are not the men who are the real friends of the laboring men. He said that the men who are the real friends of the laboring men are the men who are the real friends of the laboring men.

The labor speakers who had been advertised for the evening were Cushman K. Davis, of Iowa, and a man who has an enviable reputation as a speaker and a leader.

The East Side Bimetallic club held a rally at their headquarters last night. The speaker was J. C. Harris, of Duluth. He is among the oldest silver men of this state, as he was a delegate to the Chicago convention, and marks last night dealt principally with the silver issue.

The Minneapolis Sound Money club has opened another branch at 425 Cedar avenue, at which there will be good speakers every evening. Col. Norton, of Duluth, made an address last evening.

A rousing Republican rally was held last night at the headquarters of the Minneapolis Sound Money club, 425 Cedar avenue. Judge O. J. Norton, of Duluth, was the principal speaker. He addressed the audience, his speech was a red-hot one. He spoke of the principles, and the Popocrats received no attention. Benjamin Davenport was the next speaker. He is a plan about a gentleman who was formerly a Democrat, but was converted to the silver issue by the money question and held the closest attention of those present. He said that the money question was the most important thing in the history of this country. He arraigned those who sought to array labor against capital, and that they were hand in hand to build up a country. A. B. Robbins acted as chairman of the meeting.

The Eighth Ward Relief hall was crowded with an old-time Republican gathering of men, women and boys last night. The principal feature of the meeting was the address by Victor B. Dolliver, of Port Dodge, Ia., one of the most famous stump-speakers in the country and the brother of the eloquent Congressman Dolliver of that state. The other speakers were C. A. Pillsbury, Republican Congressman Fletcher and C. A. Pillsbury.

A big camp fire in the Seventh ward Republican wigwag was well attended. The property was destroyed by a fire which was started by C. A. Pillsbury and G. C. Clouse, but was extinguished by a fireman. The fire was caused by a fireman who was cutting him in the head, the missile striking him in the head, the fireman cutting him in the head, the fireman cutting him in the head.

Republicans Attacked. Revolvers and Rocks Used by New Haven Roughs.

NEW HAVEN, Conn., Oct. 28.—An attack was made upon a Republican parade in Fair Haven tonight, during which a revolver was discharged and a member of the Young Men's Association club severely injured. The parade was being held in honor of the late Congressman Pillsbury and was being led by C. A. Pillsbury and G. C. Clouse, but was extinguished by a fireman.

Castoria. MANKATO, Minn., Oct. 28.—The books for registration in this city closed last night. The total number is 2,605 males and 1,999 females, a gain of over 300 male voters and upwards of 1,000 females. The vote on county superintendent, in which women participate, will be large.

TORNADO TEXAS.

No One Is Known to Have Been Killed.

SHERMAN, Tex., Oct. 28.—This afternoon at 5:45 o'clock a well-defined tornado formed in the eastern suburbs of Sherman, and moved toward the village of Farmington, and about ten miles west of this city. Parties who saw it at its height described it as a great, dark, funnel-shaped mass of ink-black clouds, a funnel-shaped column descended until it touched the earth and then it disappeared. It was accompanied by the usual terrific crash and roar as it tore through the bottom, uprooting large trees and demolishing everything in its path, which, for the first mile or two, was thirty to forty yards in width. The first house it is known to have struck was on the George Duke farm, one mile west of Howe, and about a mile from the village of Farmington. No one was hurt at this place. From this point until it struck Jim Parrie's farm, two miles south of Howe, it was a great, dark, funnel-shaped mass of ink-black clouds, a funnel-shaped column descended until it touched the earth and then it disappeared. It was accompanied by the usual terrific crash and roar as it tore through the bottom, uprooting large trees and demolishing everything in its path, which, for the first mile or two, was thirty to forty yards in width. The first house it is known to have struck was on the George Duke farm, one mile west of Howe, and about a mile from the village of Farmington. No one was hurt at this place. From this point until it struck Jim Parrie's farm, two miles south of Howe, it was a great, dark, funnel-shaped mass of ink-black clouds, a funnel-shaped column descended until it touched the earth and then it disappeared. It was accompanied by the usual terrific crash and roar as it tore through the bottom, uprooting large trees and demolishing everything in its path, which, for the first mile or two, was thirty to forty yards in width. The first house it is known to have struck was on the George Duke farm, one mile west of Howe, and about a mile from the village of Farmington. No one was hurt at this place. From this point until it struck Jim Parrie's farm, two miles south of Howe, it was a great, dark, funnel-shaped mass of ink-black clouds, a funnel-shaped column descended until it touched the earth and then it disappeared. It was accompanied by the usual terrific crash and roar as it tore through the bottom, uprooting large trees and demolishing everything in its path, which, for the first mile or two, was thirty to forty yards in width.
