Hayward et al, appellants. 25-France vs. Hutton. H. H. Hutton, respondent, vs. H. H. Hutton, appellant. People's Gas and Electric Company, respondent.

Home money to loan at lowest rates without charge for commission, without gold clause and with the "on or before" privilege at the State Savings Bank, Germania Life Bldg., 4th and Minn. Sds.

CITY TO CONTROL IT

IT WILL RULE THE NEW HILL ELECTRIC LINE EVERY INCH. ORDINANCE IS REFERRED BY THE BOARD OF ALDERMEN TO THE COMMITTEE ON STREETS.

BUDGET OF ROUTINE MATTERS Also Disposed of by the Board at Last Night's Session—Bids, and Banking.

Vice President Allard occupied the chair at the meeting of the board of aldermen last evening. President Markham occupying a seat among the members. The ordinance directing the street railway company to change the present cable line to an electric and constructing the tracks via Third street and Summit avenue instead of on the Selby avenue hill was introduced by Ald. Shepley and referred to the committee on streets without discussion.

The Eleventh ward alderman, in speaking of the ordinance, said the measure was a perfectly fair one in every way. The cost to the street railway company in making the change would be comparatively light, as the only additional expense would be the building of the line on Third street and Summit avenue. By the provisions of the ordinance, the council reserved the right to locate the tracks in both streets to suit the interests of the public. Summit avenue was now 100 feet wide with two fifteen-foot boulevards on either side, and this would not interfere seriously with the travel on the avenue.

The ordinance directing the cable line to be changed prior to Sept. 1, 1897, to a double track electric line. That part of the line between Summit avenue and Third street, on what is known as Selby avenue hill, to be so changed that the electric line when completed shall extend up Third street to Summit avenue and four blocks west to Selby avenue. The company in question has the change authorized and directed to locate their tracks on Third street and Summit avenue, so as to avoid, as far as possible, consistent with the safe construction and operation, any and all obstruction to travel on said Summit avenue.

The company is directed to submit to the council within thirty days after the passage and publication of the ordinance, full drawings and plans showing the location on which to build under the direction of the ordinance. The council reserves the right to change the location and location on Summit avenue and Third street shall be deemed best for the interests of the city. The ordinance says that the council of the city of St. Paul declares the public interest in the life and limb of the patrons of said road demand the passage and enforcement of the ordinance.

The cable line runs from Broadway to Milton street on Fourth, Third and Selby avenues, and the company is now maintaining and operating the same in connection with the cable line, an electric service from Milton street to Fairview to Marshall street, north on Prior and north on Prior to University avenue.

The company shall fail to comply with the conditions of this ordinance within the time named, then all right and authority which said ordinance confers upon the city shall terminate and operate all or any kind of any street railway or any portion of any street now occupied by said cable line, and the city shall have the right to take possession of the same, and to operate the same, without any other action whatsoever of the council cease, terminate and be void.

The resolution passed by the assembly directing that after Jan. 1 the payment of maturing obligations of the city, and the payment of the lines named or indicated shall upon Sept. 1, 1897, without any other action whatsoever of the council cease, terminate and be void.

Resolved, That we, the citizens of the Third ward, in mass meeting assembled, do most earnestly and unanimously demand the resignation of Hon. E. G. Kraemer from the office of alderman of the Third ward, and be it

FEAR OF THE TORCH

KEEPS EIGHTH WARD RESIDENTS IN A STATE OF SLAVE-LIKENESS. FIREBUG IS STILL ABROAD. EARLY YESTERDAY MORNING HE APPLIED THE MATCH TO FIVE MORE BARN.

STINE GETS PINNEY'S PLACE. Was Elected Secretary of the Commercial Club.

So Brooks and A. M. Knox were elected directors of the Commercial club yesterday and Charles T. Stine was chosen secretary. Mr. Knox was a candidate for the position of second vice president at the last election, but was defeated by Charles B. Bowley. Mr. Brooks is the assistant general freight agent of the Chicago Great Western, and came within one vote of an election to the directorate.

The president was instructed to appoint four delegates to attend, at their own expense, the monetary conference to be held at Indianapolis, Jan. 12.

The interest at the directors' meeting when this took place was centered in the election of a secretary to succeed John S. Pinney. After some preliminary skirmishing, Charles P. Stine was elected on the first formal ballot. He received 15 votes, and was declared the unanimous choice of the board. His nearest competitor was E. J. Westlake, who got 11 votes.

Mr. Stine is the present treasurer of the Minnesota Type foundry, and well known in business circles. He has been a prominent member of the St. Paul Press-Opinion, the monetary conference, and has always been identified with all movements looking to the upbuilding of St. Paul and its interests. He is affable and companionable, and will make a capable secretary of the club. The salary of the secretary is \$1,800 a year.

The following chairmen of committees were appointed: Finance—J. A. Watrous. International Trade—E. S. Durmont. Membership—H. T. Block. State and National Legislation—Conde Hamlin.

Press—J. H. Beck. Immigration—C. B. McGinnis. House—John W. Lane. Entertainment—C. B. Bowley. Railway, Mail and Telegraph—F. I. Whitney.

State and National Legislation—Conde Hamlin. The directors of the club were instructed to cooperate with the jobbers' union in securing legislation which would reduce the taxation in the city and county, was referred to the president.

An invitation was received from President Peet, of the chamber of commerce, to attend a meeting to be held by the chamber on Friday evening to discuss the currency question.

WANT GEORGE LAMB. Third Ward Republicans After Assemblyman Kraemer's Seat.

George H. Lamb was named as a candidate to succeed E. G. Kraemer in the Assembly at a meeting of the Third Ward Republican club at 481 Broadway, last evening, subsequent to the adoption of the following resolution:

Whereas, There will soon be a vacancy in the assembly, occasioned by the resignation of Hon. E. G. Kraemer, and whereas, the Third ward covers the district of the largest and most valuable interests in the city, and whereas, the Third ward is entitled to the greatest representation in the assembly, and whereas, we, the citizens of the Third ward, do most earnestly and unanimously demand the resignation of Hon. E. G. Kraemer from the office of alderman of the Third ward, and be it

Resolved, That we, the citizens of the Third ward, in mass meeting assembled, do most earnestly and unanimously demand the resignation of Hon. E. G. Kraemer from the office of alderman of the Third ward, and be it

Resolved, That we, the citizens of the Third ward, in mass meeting assembled, do most earnestly and unanimously demand the resignation of Hon. E. G. Kraemer from the office of alderman of the Third ward, and be it

EXTRA POLICE PATROL PUT ON

Chief Jackson Confers With Chief Goss—Believed to Be the Work of an Insane Man.

The residents of the Rondo street district are in a state of terror over the depredations of an unknown firebug who has been indiscriminately applying an incendiary torch to barns and sheds in the western portion of the city since Sunday morning. At that time, as told in the Globe five barns were fired between 1 and 4 o'clock and during the early morning hours of yesterday the fiend continued his work by setting fire to five more buildings.

The number of fires and the methods of setting the barns on fire correspond with the reports of the police and fire department officials that the district is at the mercy of some one seeking revenge or a dangerous crank who engages in the property-destroying diversion for his own fanatical amusement. Chief Jackson, of the fire department, had a consultation with Chief of Police Goss yesterday concerning the firebug, and the night police force of the district has been doubled, in hopes that the criminal or lunatic may be apprehended.

The portion of the city in which the firebug has been operating is particularly adapted to his plans, as the protection to the fire department and police is not so good as in other portions of the city. The territory is large, rendering it an easy matter to set the fires and escape without detection. As night approaches the residents are apprehensive of the danger it brings to them, and all over the district they are now hourly inspecting their barns and keeping their doors locked with iron bolts. It will prove a decidedly unprofitable position should the incendiary catch any suspicious characters prowling around after night.

The snow fall which covered the ground yesterday morning made it possible to easily follow the firebug from one scene of his operations to another. Footprints of the firebug leading directly to the doors of the barns fired, and in each instance tallied with those discovered at the other places. It was plainly evident that the depredations were committed by but one man, as a single track showed in the snow. It was rather hard to follow, as the snow was so light, and the man wore new rubbers, as indicated by the crushed appearance of the "beautiful" in places where his pace was evidently quickened after setting a fire, it is merely a matter of time before the firebug will be caught.

The first alarm yesterday morning came in at 1:12, when fire was discovered in a large barn in the rear of No. 495 Thomson street. The building is owned by Mark Elbert and occupied for storage purposes by N. Bolmen. An immediate alarm was given, and the fire department arrived at the scene at 1:20. The fire was extinguished by 1:30. The loss was estimated at \$150.

While at work on this fire, the firemen were startled by the appearance of a firebug who had climbed up from a wood shed two blocks away, and had set fire to No. 480 Blair street. The house on the lot is occupied by a widow named Mary Nottman. The shed was partially destroyed, and the firebug was seen after being thrown in by the firemen. The loss was estimated at \$100.

The members of the fire department on the hill did not retire when they returned to their engine house, for they expected night work, and when at 2:23 box No. 84 was pulled, the apparatus hurried to No. 267 Aurora avenue. The fire was extinguished by 2:30. The loss was estimated at \$100.

The fire department had not even reached the scene of a fire when an alarm from Box No. 447 was counted which took a detachment to 469 Farrington avenue, where a barn in the rear of Louis Mark's residence was burning. The firebug was pursuing his characteristic tactics of setting two buildings close together, and then making off to another portion of the district, as this fire was but a block and a half distant from the Gerlach place. Chief Jackson had some one on duty to see that the firemen here, while Assistant Chief Cook put out the other blaze, Mr. Mark's barn was burned, and a cow which was saved with difficulty. A quantity of feed was destroyed. The evidence of incendiary work was seen on the fire, and the firebug was traced from the street where he had climbed a fence to the top of the barn, and then in long strides across a vacant lot immediately under a bay window of Charles Pusch's residence, where he had been knocked on the glass. From the window the foot-prints again led to the street where the man cunningly took to the road to prevent being followed. Mr. Mark's barn was burned, and a cow which was saved with difficulty. A quantity of feed was destroyed. The evidence of incendiary work was seen on the fire, and the firebug was traced from the street where he had climbed a fence to the top of the barn, and then in long strides across a vacant lot immediately under a bay window of Charles Pusch's residence, where he had been knocked on the glass. A quantity of feed was destroyed. The evidence of incendiary work was seen on the fire, and the firebug was traced from the street where he had climbed a fence to the top of the barn, and then in long strides across a vacant lot immediately under a bay window of Charles Pusch's residence, where he had been knocked on the glass. From the window the foot-prints again led to the street where the man cunningly took to the road to prevent being followed. Mr. Mark's barn was burned, and a cow which was saved with difficulty. A quantity of feed was destroyed. The evidence of incendiary work was seen on the fire, and the firebug was traced from the street where he had climbed a fence to the top of the barn, and then in long strides across a vacant lot immediately under a bay window of Charles Pusch's residence, where he had been knocked on the glass.
