OFFICER'S QUEER EXPERIENCE. Pedestrian Shoves a Revolver in His Face.

Officer Joseph Goulet, of the First precinct, had an unusual experience a few days ago. He was covering his beat and about 2 o'clock in the morning he was on the corner of Exchange and Seventh avenues south met a man who approached him from the rear and shoved a revolver into the officer's face. The letter was somewhat thick and asked the man what the matter was. The man replied that he had taken Goulet for a fool. The man, who was dressed in a dark suit and a hat, rapidly disappeared in the darkness. Officer Goulet does not know whether the man was really a thief or not, but he is sure that he was up and, after finding his mistake, made a dash for it.

Prominent People Wed. Two young persons widely known in Minneapolis were united in marriage last evening in Eau Claire, Wis.

Sold Liquor Illegally. The police are again after alleged illegal liquor sales. A man and woman were arrested on warrants on this charge. Both warrants were sworn to by Sergeant Leonard and alleged that beer was sold to one E. E. Strout. The two prisoners are Mary Dore, tried in the case of Officer Thomas Britt, and J. A. Clark, upon whom the warrant was served by Officer Jim. The warrant was issued by Judge Normal, and that Clark disposed of two bottles of beer at 727 Hennepin avenue Dec. 16, and that Clark disposed of one bottle Dec. 16 at 27 Washington avenue south. The prisoners will be arraigned this morning.

EVERYBODY GUESS

IT IS NOT KNOWN YET AGAINST WHOM INDICTMENTS WERE FOUND.

CHAS. F. HANEY MAY BE ONE.

A COUPLE OF SENSATIONAL ARRESTS ARE EXPECTED THIS MORNING.

TROUBLES OF JACK QUINN.

His Sentence at Stillwater Will Not Expire for More Than a Year.

The grand jury, which has since Wednesday last been investigating alleged "broodiness" in city offices, reported to Judge Pond yesterday afternoon shortly after 2 o'clock with four indictments and was excused by the court until next Monday morning at 10 o'clock.

It was confidently expected during the morning that the jury would report before the day was over and adjourn until next Christmas. Miss Gleason, the county attorney's stenographer, had been at work since early morning, copying indictments, and the county attorney had labored long into the hours of Monday night in order to have the work completed by yesterday afternoon. The jurors themselves were anxious to postpone their work until after the holidays, and it was definitely settled during the morning session that the court should be asked to grant them such vacation.

Shortly after reconvening in the afternoon Judge Pond was sent for, and the jury filed out into the outer hallway and down the corridor to Judge Pond's court. Foreman Hale, at the head of the body, carried in his pocket a bulky indictment and two smaller ones. He went into the jury room in the hallway and in the court room created considerable excitement, and a large number of spectators were on hand during the short proceedings. The papers were handed to Judge Pond, who looked them over and stated that he understood the jury wished to adjourn until Monday morning, and that they might do so. The jurors then filed out of the court room and to the jury room, when they were dismissed. All kinds of speculation were indulged in by those around the court house as to what names appeared upon the indictments. Every person felt at liberty to make a guess, and if indictments had been returned against every name mentioned, Minneapolis in a short time would find herself in a most peculiar position. The opinion, however, seemed to prevail that at least one of the indictments was filed in with the name of Charles F. Haney. This conclusion was strengthened by the statement of the sheriff's office that the requisition papers had been sent to Sheriff Holmgren, who is at present in Normal, Ill., where also is Mr. Haney.

The fact that Haney has already declared his intention of voluntarily standing trial does not seem to "go" in the office of the county attorney or the sheriff. They do not intend to lose their man, and it is more than likely that Sheriff Holmgren will remain in Normal until such time as they can be brought to this city. The presence of Albert H. Hall in Normal lends color to the statement that possibly Mr. Haney has changed his mind in regard to returning and will not come here until he is compelled to do so. Whether he has changed his mind or not, however, the fact remains that he is wanted, and will be given no chance of evading a trial.

Who the other indictments were for is not known. A person who by virtue of his position in the present investigation knows the names informed the Globe yesterday afternoon that there was considerable surprise expressed when the names were made known. The three names which have during the past two days, been on everybody's tongue as those likely to adorn the indictments, were mentioned to this gentleman, and he positively said that the "guess" was wrong. There is no reason to believe that he did not speak the truth and every reason to believe that he is in a position to make a definite statement.

Owing to the work which must be done in copying the indictments in the criminal division, the warrants could be made out and handed to the sheriff, no arrests were made last night. It is expected that this morning, however, if the case, and probably two gentlemen will have been arrested by a deputy sheriff and arraigned in court. If there had been any danger, the arrests would not have been made, but as those who will be placed under arrest are men who by flight would probably be known to the police, they will not be molested until this morning.

A further case is, therefore, expected shortly after 10 o'clock this morning. When the grand jury met yesterday morning there was a large number of witnesses on the stand, but, however, in connection with the work of the youthful trio of highwaymen. Inspector Health-Inspiration, who was among those present and gave evidence in the case. A large number of watches, which the youthful criminals had collected during the past few days, were produced in the grand jury room and the several witnesses were asked to identify the particular one with which they had parted at the time of their meeting with the trio. The work in connection with the highway case lasted until shortly after 11 o'clock, when A. A. Smith, who had been waiting all morning, was called for what purpose could not be learned, inasmuch as he had promised the jury to say nothing to the reporters.

Joel B. Bassett, who had been waiting for three days to tell the jury what he knew, got a chance also and the jury room until the hour of noon recess. Those in waiting when the jury adjourned the morning session were ex-Sergeant S. A. Kirkham, Ed A. Stevens, Charles Carpenter, T. H. Wyman, of Onoka, and Jerry J. Cowles.

Mr. Kirkham told the reporters that he had come of his own accord, not having been subpoenaed. He had, however, been asked to come and tell what he could of certain cases which the jury were evidently investigating. During the noon hour Mr. Peterson was called up by telephone by David M. Simpson, who resigned his office as city attorney Monday. Mr. Peterson was a very much wanted witness, but objected to coming, and he therefore tried to beg off on the plea that he did not think it proper to take a proper view of his presence before the jury. Mr. Peterson, however, could not see that that was and informed the judge-elect that he must appear and testify, as it was too late to make other arrangements.

Promptly at 2 o'clock, therefore, Mr. Peterson and the many other witnesses, who had been left over from the morning session, were on hand, but were only given a few minutes. Mr. Peterson appearing and excusing them all until such a time as they should be again summoned to appear. Shortly after 2 o'clock the grand jury prepared to make its report.

Ald. Drew is confined to his bed with an attack of heart disease. At least that was the information received by a reporter, whose call was made at the alderman's home, 2300 Thirty-fifth street south, last evening. It was further stated that the attending physician had given orders that Mr. Drew should under no circumstances be seen by any one, as his condition did not warrant it. Mr. Drew, it was stated, has been suffering from this weakness for some time, and had been confined to his bed Monday morning previous to his appearance before the grand jury, and has not since been seen by any one but members of the family, and would not be until his condition was better.

SMOOTH CHECK SWINDLER. He Works the Merchants of Nicollet Avenue.

A loud wail of anger and disgust went up from several of the leading merchants of Nicollet avenue yesterday. They learned, most simultaneously, that a man had been "cleverly duped" by a member of the smooth-check swindler's gang. His name is not known, but it is thought to be in evidence in the vicinity of Nicollet and Hennepin streets. The man who worked the swindler was a man of about 35 years of age, of medium stature, in complexion dark with face clean shaven and hummed with a beguiling smile. He was a business man, and was known to the merchants of Nicollet avenue. He was a member of the swindler's gang, and was known to the merchants of Nicollet avenue. ABOUT A MILLION

MODEST DEMAND FOR THE CONSTRUCTION OF THE ANOKA INSANE HOSPITAL.

BUT ONLY \$313,000 IN 1897.

COMMISSION THINKS THAT WILL BE ENOUGH TO MAKE A START.

PLOTS OF HASTINGS PEOPLE

Still Worry the Majority of the Commission, Who Voted for the Northern City.

The site has been chosen, the plans accepted and the estimated cost made out for the fourth insane asylum of the state of Minnesota. Yesterday the commission which has been such a point of attack for certain individuals and cities completed its labors as far as anything is to be done before the opening of the legislature, and the complete report was made out for presentation to that august body, which will assemble in St. Paul the first Monday in January.

The report is a lengthy one, the first part being of no special interest. What will attract attention, however, is the section which has to do with the plans and buildings and the estimated cost of each. The commission some time ago accepted the plans drawn by W. B. Dunnell, of this city, and then asked him for an estimate of the cost of construction. The plans, as accepted, call for a completed plant which will accommodate 1,600 patients. The different buildings and their estimated cost is as follows:

Table with 2 columns: Building Name, Estimated Cost. Includes Hospital group with administration, building and corridors (\$243,680), laundry (\$18,350), cold storage (\$4,900), two groups of buildings for chronic (\$270,500), two convalescent wards (\$5,000), two infirmary wards (\$2,000), 7,400 ft. of building for insane (\$1,000), one building for contagious diseases (\$4,500), two buildings for employees (\$38,000), 10,000 ft. of building for insane (\$1,000), one barn (\$1,000), one cottage for superintendent (\$1,000), 10,000 ft. of building for insane (\$1,000), amusement hall and gymnasium (\$7,000), chapel (\$15,000), 10,000 ft. of building for insane (\$1,000), tunnel (\$1,000), boiler and machinery for engine room (\$14,900).

Total \$838,184. The estimated cost is not a million dollars, a rather large sum of money, but when the number of patients which will be accommodated is taken into consideration, the sum is not so large.

Of course it is not to be expected that the coming session of the legislature will appropriate so much money in the building of a new insane asylum. The commission has made out a list of buildings which in its opinion are necessary for a good foundation. It further advises that no one be admitted to the asylum until the buildings, which it recommends, are finished. This recommendation is as follows:

The commission recommends that the legislature make a sufficient appropriation to build the administration building, and the hospital wards, steward's office, and the boiler, boiler and engine room, kitchen, bakery, laundry and barn. These should be directly completed before a patient is committed to the institution. The estimated cost of these buildings is \$313,000. It will be noticed that in the recommendation of the commission, the cost of the buildings is \$313,000. It is required by law, but as the commission have made provision for it in the complete report, they hold this sum to be sufficient to carry out the plan for the next two or three years can be passed before this ward is erected.

The full report which designates Anoka for the site for the new asylum, signed by Commissioners O. C. Merriam, Alvah Eastman, J. H. Block, Henry Hopper, Commissioners C. E. Bondy and J. Carlson signed, and was put out all ready for publication. It will be noticed that Commissioner S. G. Smith has not signed either report. He has opposed the plan of making the purchase of the site for the asylum, and has steadily held for a hospital for acute cases. He will probably be called to testify before the legislature. If all the stories that are afloat are true, Anoka will not see the start on the purchase of the site for the asylum, and the meantime, the state will be cramped for room to take care of the insane. The latest phase of the opposition of the site is that the state will try by every possible means to delay the commission in its work. The style of dilatory tactics will be pursued, and it is known that the report will come from the legislature. It is claimed that a prominent citizen of Hastings, a man who has been an active advocate of his city for the site, has written a letter to a member of the commission, stating that an effort would be made during the coming session of the legislature to have another commission appointed who were to investigate the different sites which were offered. They would be given express orders to do their best to delay the report for as long a time as possible. The object of this is not stated, but may possibly be that some one supposes that the present commission selected the site when there was several feet of snow on the ground, and the members of the commission could not know what kind of soil or even the nature of the surface of the ground.

Fatal Spree. MATTOON, Ill., Dec. 22.—Two deaths, the result of alcohol poisoning, occurred in this city recently. The two young men were under the care of physicians and more deaths may be announced. A number of young men, ranging from 17 to 22 years of age, were on a holiday party, and were under the care of physicians and more deaths may be announced.

Blizzard Victim. PEESSENDE, N. D., Dec. 22.—The body of a fifteen-year-old victim of the recent blizzard was found in the west of Harvey, House, in company with David McLeod, started from Dimmock's camp, and was found in the snow, and the boy becoming exhausted, McLeod was forced to abandon him to save his own life.

Yacht Racing League. NEW YORK, Dec. 22.—There was a special meeting of the New York Yacht club tonight for the purpose of calling a convention of representatives of the several yacht clubs throughout the country to organize a racing league. There was a slim attendance at the club house, and the meeting it was announced that a seven-man committee would be appointed for the purpose of considering the advisability of organizing.

Murphy Was Whipped. NEW YORK, Dec. 22.—Dolly Lyons, of New York, and Maxey Haugh, of Brooklyn, were to have fought at the Madison Eastern Athletic club at Williamsburg tonight. However, it was announced from the ring, however, that Lyons was ill at his home and that he would perhaps never enter the ring with his substitute. Murphy was whipped by the punishment, and after two minutes of fighting in the seventh round, he dropped to the floor and was knocked out. The referee gave the decision to Haugh.

Pat Pureell Out. TROY, N. Y., Dec. 22.—Fred Morris, Mulvey and Pat Pureell, but Frank Pureell in the second round before the Manhattan Athletic club.

OUT TO MEET GOMEZ

WEYLER ONCE MORE FORCED TO TAKE THE FIELD IN PERSON.

CUBANS ARE INFURIATED.

PLAN OF THE LEADER IS TO ADVANCE TO HAVANA'S GATES.

HANDS ARE ALL ABOUT THE CITY.

Captain General Worried, But Unable to Capture or Disperse the Daring Insurgents.

KEY WEST, Fla., Dec. 22.—Gen. Weyler is going into the field again. This is confirmed tonight by passengers on the Havana boat. Preparations are being made with secrecy for a forward move. The battalions of newly landed troops left by water Sunday for the East. It is supposed that this is part of Weyler's coming campaign. Gomez is advancing rapidly, and it is thought that Weyler will, if possible, prevent his coming to the gates of Havana. It is stated from Cuban sources that the Cuban leader is wild over the murder of his only son and his beloved chief lieutenant and is burning to revenge their fall. The Cubans in the army are infuriated also. Dr. Zertucha is a marked man, and it is reported that a move has been made to arrest him. He is now in a fortress some miles from Havana with a strong Spanish guard. His trip to Spain will be postponed, the Cubans say, as if he goes over there, they will have friends here in that country who will advance Maceo and young Gomez. Maj. Cirujeda also comes in for his share of hatred and revenge.

Strong Insurgents are now so close to Havana that the Spanish soldiers seldom venture far out of the gates of the city except in strong force. A company of twenty-five was attacked Sunday night over three miles from the palace by an insurgent band, and several of them killed. This audacity has worried Weyler, but he cannot capture or disperse them. An American named Amos Johnson, from Texas, is their most prominent leader. It is stated that Capt. Gen. Weyler arrived at Mariel this morning and proceeded by train to Havana. He took breakfast at 12 o'clock, and upon leaving for the field, was escorted by the principle squadron of colored firemen of Havana. Gen. Weyler has ordered that all the cattle be gathered up immediately by the guerrillas, in order to deprive the insurgents of their food supply. The soldiers to the number of 486 have arrived at Havana from Artemisa and other places in the province of Pinar del Rio.

There is much guessing as to the whereabouts of the Three Friends, that left Fernandez ten days ago with arms and ammunition. It is supposed that she has landed her cargo at M. Barrs, her attorney and partner, was asked today if it was not time to deal with the daring conduct of the Spanish whiting and one pound of water, previously dissolved by soaking in cold water, and the resulting solution was put in a large one filled with water. To the whole add five gallons of hot water and let stand for twenty-four hours. Dust and dirt. It should be applied hot, which purpose it can be kept in a kettle or portable furnace. It is a very cheap remedy, and will cover one square yard. It will be as serviceable as paint for wood, brick and stone, and is much cheaper than the cheapest paint. If a cream color is wanted, yellow ochre is added; if pearl or lead black, black lead is added. It will add four pounds of amber to one pound of Italian red and one pound of common lamp black, while four pounds of raw umber to two pounds lamp black will give a common stone color. This mixture is used by the painters to draw the light lines, and it now covers the east end of the president's house at Washington.

PLEASANT. Little Games in the Kansas City Stock Yards.

The favorite game played on strangers is the "mock fight," says the Kansas City Times. Two of the local stockyard boys pretend to quarrel, and the crowd, in the excitement, both the contestants draw revolvers. This is not a serious matter, as the man who is not "on" cares to see of the fracas, for by this time he is about four blocks away. Yesterday afternoon a quarrel broke out before the fight was so sudden and so realistic that he lost no time in leaving the scene. He then took possession of the fence and crawl on his hands and knees behind a man. When the guns were wrapped to him and found to have been corked with tin foil for cylinders, he said he was ready to bet a farthing. But like many others, this game was worked once to often. Two fellows, both well-dressed, were seen to start a sham fight before a stranger who happened to be from Texas. Of course they didn't know when the man started to draw his gun the Texas pulled an enormous 4 that looked like a Gatling gun on the would-be fighters and said calmly:

"If there is any shooting going on I want a hand in it myself, and if either of you turns away from me now, I'll let mine loose. I'm from Terantula Creek myself, and I don't get away from my place without my shooting."

It is needless to say it was the jokers who had the "hot foot" this time, and this joke hasn't been played since.

Ate Poisoned Cakes. ST. LOUIS, Mo., Dec. 22.—Five members of the family of M. Roberts, a fireman on the Missouri Pacific, died here yesterday by eating cakes made of prepared buckwheat flour today. Four of them are at the city hospital and it is doubtful if they will recover.

Considering His Health. Cleverton—You didn't take any vacation this year, did you? "No, I thought I needed the rest."—Life.
