HART FORECAST IT. Said Hennepin County Jail Wouldn't Hold Prisoners.

In the light of recent developments at the Hennepin county jail, which the citizens of Minneapolis thought was the finest on earth, the board of corrections and charities, published in the last bulletin of the state board, is of the opinion that the jail is not fit for the purpose for which it was built.

"St. Paul, Minn., Oct. 3, 1896. Gentlemen: On yesterday I visited the new Hennepin county jail, with Commissioner Nash.

"The stop sinks proved to have an insufficient water pressure pipes so small as to be impossible to use, and it will be necessary to replace them with larger pipes, having larger pipes and a better system of pressure which will wash them promptly and completely.

"The window at the extreme end of the main cell block is so situated that a prisoner coming out of the cell block would be looking out of a window which cannot be locked on the outside.

"The window at the extreme end of the main cell block is so situated that a prisoner coming out of the cell block would be looking out of a window which cannot be locked on the outside.

"On visiting the jail Oct. 8, it was found that the county physician and the physician employed to care for the prisoners had been protesting against confining the prisoners in their separate cells until the ventilating fans should be set in motion.

"The halo of superstition which surrounds Fire Box No. 25, in the milling district, has been intensified by the events of the past fortnight hours. Another fire, which was added to the list of fatalities credited to that section in keeping with the awesome reputation of the box, occurred on Friday.

"Was Known in Minneapolis. Hon. Frank S. Burton, of Ann Arbor, Mich., who spent several months of last summer and fall in Minneapolis, died at his home in Ann Arbor last week.

"Elopers Welcomed Home. The usual sequel followed upon the elopement of W. C. Williams and Miss Mulvihill from this city Sunday last week.

BARE WALLS LEFT

HAVOC BY FIRE COMPLETE IN THE PACKING DEPARTMENT OF ANCHOR MILL.

THE LOSS REACHES \$100,000.

MILLING DISTRICT NARROWLY ESCAPED A DISASTROUS CONFLAGRATION.

NONE OF THE INJURED WILL DIE.

Crossing Collision Victims in a Fair Way to Recover—News of Minneapolis.

The havoc wrought by the flames on the Anchor mill packing structure early Sunday morning was strikingly apparent in the daylight. Only the four walls remained standing, and, taken to tell of the former center industrial activity.

The machinery within the packing house was estimated to be worth fully \$200,000, and this was entirely destroyed by the heat and fall, or rendered unfit for further use.

The amount of insurance could not be obtained yesterday, but the information secured showed that the loss above stated was a "blanket" policy covering the entire property of the district and included the contents of the structure.

The scene of the fire was visited yesterday by crowds of people, and the ruins inspected at close range. There was little left of the quantity of debris which suggested the thrilling fight of the department or the splendor of the fiery spectacle.

The night was a hard one for the members of the fire department. It had been a long time since the third alarm had been given in these companies attracted to one place. Not until the night had fairly flown did the boys get back again to their houses.

DO NOT TRIFLE!

Whenever You Feel at All Out of Sorts Look Out for the Grip—What to Do.

Nearly every physician, every scientist and every sufferer has been asking this great question: "What is the grip?" Some have asserted that it is a dangerous miasm which comes into the system, broods around the body every second, and soon overruns the body with disease.
