the author, Mr. Dunn, and Messrs. Grondahl and Littleton. This motion was carried. DOUGLAS RATE BILL

Will Be Publicly Considered Thursday Evening.

Mr. Lovejoy, chairman of the committee on railroads, rose as a question of personal privilege and said that, whereas there had been a good deal of whereas there had been a good dear of comment in the newspapers and elsewhere rgarding the action and attitud of the railroad committee, he wished to say that the committee had six bills referred to it so far upon six bills referred to it so har upon which it had acted, three of these were indefinitely postponed, two were referred to the judiciary committee, and one was recommended for passage. He wished to give public notice, he said, that the committee would hold a public hearing upon the Douglas rate bill Thursday evening in the chamber of the house. "This being an ex parte body." he said, "we thought it would be fair to allow the author of the bill to pre-sent the arguments for the bill, and 1 wish now to give him notice to that effect, and the railroad attorneys will be heard on the other side." It was understood that all members of the house would be permitted to take part in the discussion of the bill, and with this explanation the incident closed.

House Odds and Ends.

A bill (H. F. 698) introduced by Mr. Mc-Donald, which seeks to require a license of at least \$1,000 a year for every theater in any city of the state of 50,000 or more population. The bill is to go into effect at once, but it is not to affect licenses already granted.

The Sons of Veterans of Minnesota by a bill (H. F. 699) are to be recognized as a part of the military reserve of the state. They are to be mustered in companies of thirty or more and make application to the adjutant general who is to attend to their inspection

Two petitions were sent in from Goodhue punty, which are somewhat significant, as The signers ask their senators and represen tatives to use their efforts to secure this re-sult, as they believe Hastings is for various ns best suited to the needs of the hos-

house a numerously signed petition in favor of the passage of the county option bill, whereas, on the other hand, petitions were received from the business men of Brainerd and other cities to the effect that they believed towns and cities were able to govern them-selves, and, therefore, opposed the passage of the county option bill.

A number of the representatives presented, on behalf of their constituents, vigerously on behalf of their constituents, vigerously worded petitions opposing variously the Doug-las "distance tariff bill," the Ringdal "freight reduction measure" and the Jackson bill.
These petitions came from Mankato, St. Anthony Park, Minnesota Transfer and along
the Omaha road.

A very excellent oil painting of Speaker Jones, of the house, stands in the lobby of the hall of representatives.

The move made yesterday by two members of the house to have the morning sessions begin at 9:30 instead of 10 o'clock as now, does not appear to be received with much glee by the members, and it is considered doubtful if the change will be made, at least at present.

was voted yesterday that Paul Stein-, an old soldier, be employed as flagraiser and committee room keeper at a compensation of \$3 a day.

It is the present plan of the normal school committee of the house to visit St. Cloud early the coming week. It is not probable that the committee will visit Moorhead.

BILLS INTRODUCED.

THE CHICAGO WHEAT PIT DOMI-NATED BY THE MARKET AT

HALF CENT NET ADVANCE.

AT ONE TIME MAY WAS A FULL CENT ABOVE THE CLOSE.

AUSSIAN DAMAGE A NEW STRING.

Bulls Twanged Upon It for a Cent and a Half Rise in the First Hour.

CHICAGO, March 2.-The local wheat market had its tail thoroughly twisted by St. Louis today. The sharp bulge and equally sharp break there were closely followed here, the May option closing at a half cent advance after selling a cent above that figure, the session being the liveliest seen in some time. All the other pits were very dull, corn and oats closing at substantially unchanged figures, and provisions at 5@71/2c declines. In wheat, Russian crop damage was a new str.ng the bulls had to play on when business in the pit commenced. They twanged upon it to so much advantage that in an hour the price of May wheat had advanced 1½c per bu. Whether inspired by the example of Chicago or because the Russian damage was the stimulus at Liverpool, wheat there, which opened with the modest gain of from ¼d to ½d, was 1¾d higher for the day when next heard from. That market made its influence decidedly felt all day. May wheat, which closed yesterday at 75¼@75%c, opened today at 75%@75½c, and sold at 76%c before an hour had gone by. The bull music kept up until about 11:30 o'clock, when a

cablegram from Liverpool to a prominent house here threw it into a howling discord, which gave the bears their opportunity. The Liverpool cable referred to read: "Advance in futures, due to shorts covering; spot wheat pressed for sale without buyers; Russian offerings increasing." That and a sudden collapse of a previously pronounced builish wheat market at St. Louis caused a stampede of the bulls here. St. Louis, which yesterday at the close quoted May wheat at 871%c, hoisted it in the first hour today to 89%, and let the bottom all our afterward. The suddenness of the drop made speculators fairly shiver, and sent May tumbling from 76% to 75%c. Chicago receipts of wheat were 39 cars and shipments by rail 111,534 bu. Minneapolis and Duluth reported 359 cars received against 608 a week ago, and 399 last year. Atlantic port exports of wheat and flour were together equal to only 215,000 bu. Bradstreet's statement of the world's visible gave it as having been reduced 4,065,000 bu in and afloat for Europe. May rallied from 75% to 76% on that, but the bull feeling had been so largely squeezed out that it turned down again to 75%c, and closed at 75% 275%c. Corn was very quiet all day and even when wheat traders were tumbling over themselves in their eagerness to buy or sell, no sympathetic interest was displayed. The general feeling was firm, but fluctuations were confined to %c. Receipts were liberal and exports were much lighter than of late, 389,000 bu. May opened unchanged at 241/sc, advanced to 241/sc, then reacted to 241/sc, where it closed. The market for oats was dull to the extent of stupidity. Business was much smaller than an average neglected session aggregates and absolutely nothing of any inter est was reported of trade. The feeling was steady. May opened a shade higher at 171/4c, so'd at 17%c, and closed at 171/sc. Provisions were easy and dull. It was in a measure a were easy and dull. It was in a measure a day of liquidation by longs, the consequence being that yesterday's advance was all lost. There was but little outside demand, and the hog market was weaker. At the close May pork was 7½c lower at \$5.05; May lard, 7½c lower at \$4.05; May ribs, 5c lower at \$4.17½. Estimates: Wheat, 12 cars; corn, 240 cars; oats, 150 cars; hogs, 40,000 head.

MINNEAPOLIS GRAIN.

MINNEAPOLIS, March 2.—Wheat opened fractionally higher this morning on Liverpool cables showing a half-penny advance and on advices from New York that foreigners were buying freely. The trade had also studied the figures reported yesterday of the situation abroad, on the ocean and at home, and as a result the most of the local crowd came down this morning feeling bullish, and only wanted a little enecuragement to put their changed views into practice. The first cable referred to, showing the ½d advance, was not much, considering that that market declined 1d yesterday, but it did show an improvement in tone; and second cables, advising of a further advance of ½d per cental, put it beyond peradventure that the trade had turned on the other side. Those who were short took cognizance of the change and hastened for cover, and as a result an advance of 1½c for May was scored and 1c for July wheat. The gossip of the day was generally bullish in character. Crop damage reports were numerous from all the different winter wheat states, and all Crop damage reports were numerous from all the different winter wheat states, and all affected the St. Louis market materially, causing an excited and higher market there. All other markets were in sympathy, our own included.

included.

Closing cables quoted Liverpool 1%d higher and Berlin ½ mark higher. Clearances from the seaboard aggregated 214,000 bu of wheat and flour.

Bradstreet's report is expected to show a decrease of 3,500,000 bu in the world's visible today.

MINNEAPOLIS MARKET.

MINNEAPOLIS, March 2.—Creamery butter is easier. Extras and firsts are ½c lower, being now quoted at 17@17½c and 16@16½c respectively, against the outside flat quotation in each case yesterday. Seconds and thirds are in light supply, and this prevents a decline in price taking place. Extra dairies and firsts rule firm, with the retail trade taking hold better than with regard to separator goods. Seconds, which consist largely of jar stock, are not selling well at grade prices, but find a ready outlet as packing stock. Roll and print is firm and ladles steady. Packing stock is strong. Eggs sold off ¾c, and are somewhat easier. Storage and pickled stock are quiet. Chickens are strong at quotations. Turkeys are in request and anything fancy is sought after eagerly. Geese are 1c higher and ducks moving well. Veal is firm. Mutton and lamb are steady. Dressed hogs are in request. MINNEAPOLIS MARKET. BUTTER AND EGGS.

CHICAGO.

CHICAGO.

CHICAGO. March 2.—There was only a moderate demand for cattle, prices showing no improvement, despite the meager supply offered on the market. Most of the cattle sold at \$3.90@4.90, and sales above \$5 were few and far between. Western fed steers were rather numerous, and sold at \$3.65@4.65. There was a good trade in stockers and feeders at \$3.85@4.20. Butchers' and canners' stuff sold fairly well, the bulk of the cows and helfers fetching \$2.30@3.75. Calves were firm. Offerings of hogs were quite moderate, but the feeling was weaker, and sales were largely at a decline of 2½c per 100 lbs. Common to the best lots brought \$3.36@3.75, light weights showing the least weakness and sales were largely at \$3.60@3.70. The market firmed up toward noon, and closed strong. All of today's receipts of sheep were readily disposed of at \$3.60.30 for poor to choice flocks of sheep. Mexicans selling as low as \$3.50 for common, and being salable as high as \$4.30 for prime droves averaging 97 lbs. Western sheep soid up to \$4.15. Yearlings brought \$4.60, and lambs sold from \$3.50@3.75 for a few common lots up to \$5.25 for the, best with sales largely at \$4.50 (95. Receipts—Cattle, 2,500 head; hogs, 25,000 head; sheep, 11,000 head. CHICAGO.

Clark Set Free.

Clark Set Free.

Special to the Globe.

Milbank, S. D., March 2.—Geo, M. Clark, the alleged forger and embezzler, who has been confined in the county jail since April, 1896, was today dismissed, a demurrer to the indictments by Clark's attorney being sustained by Judge Telby. It seems that all the papers claimed to be forged were drawn in a manner contradictory to the statutes, and, therefore, Clark could not be held on the ground of forgery.

LAKE SHORE DEBT

TO BE REFUNDED BY A FIFTY MILLION GOLD BOND ISSUE.

STOCK MARKET HELPED OUT.

GENERAL SHARE LIST STRENGTH-ENED BY THE NEWS OF THE DEAL.

BURLINGTON ALSO A BIG FACTOR.

Early Firmness Given to the Trading by a Favorable Traffic Statement-Close Firm.

NEW YORK, March 2.- The reason for the

recent sensational advances in Lake Shore was discovered today when the announce-

ment was made in Wall street that the directors of the company had authorized an issue of \$50,000,000 of 31/2 per cent 100-year gold onds, the proceeds to be used for the retirement of the present bonded debt as it matures in the next few years, or in advancof maturity, as arrangements may be made with the holders. Coupled with this was an announcement that the directors had accepted an offer from a well known banking nouse for the entire issue at 1021/2. It is calculated that the saving in annual interest charges by the completion of the refunding will amount to a million and half of dollars, from which the stock will benefit. This is said to be the largest transaction in railroad bonds ever made in this country, and with one exception it is said to be the highest price paid for American railroad bonds. The market today opened with a show of strength but yielded soon to the effect of a marked depression in New Jersey Central, which was sold down 2 points on continued uneasiness as to the financial status of Lehigh Valley & Wilkesbarre, its subsidiary coal company. Manhattan was also depressed on the falling off in earnings and the belief that the dividend will be reduced. The fact that the directors of the road were in session imparted some nervousness to the dealings and the stock fell %. London also sold St. Paul, Louisville & Nashville and a few of the low grade shares. The center of depression thus formed in this market spread through the general railway list, and Sugar and Chicago Gas were also marked down a fraction

The announcement of the Burlington statement for January, showing a surplus after of \$87,82, was regarded as favorable, although attained at the expense of a heavy cut in operating expenses. The decline was checked and an advance set in on the strength of this statement, which continued during the day with the exception of a slight reaction on profit-taking just before the announcement of the Lake Shore bonding operation, and another just before the close from the same cause. The strength imparted by the news of the Lake Shore project permeated the whole market and the subsequent prices were in many cases the best of the day. Lake Shore itself advanced 4½ to 171½, but reacted to 165½ at the close. The Vanderbilt properties were generally strong in sympathy and gained from a fraction to a half. The rise in Burlington equalled ½, the stock touching 77. Northwest rose 1½. The close was generally firm with gains of a fraction sa a rule on the day.

The bond market continues to furnish evidence of the plethora of funds at this center. The transactions in the high grade mortgages are limited only to the amount offered, and investors are more reasonable and disposed to take blocks of lower grade issues. Dealings in miscellaneous securilies continue heavy, with municipal liens in most request. The Lake Shore lien was conspicuous owing to the announcement of the funding arrangement. The second consols advanced 3, and the dividend 7s 1½ per cent. There were a few weak spots noted, but the general understone was strong, many issues recording substantial gains. Government bonds were quiet but well held on transactions of \$51,600.

The total sales of stocks today were 147,778 shares, including: Sugar, 25,900; Burlington, 20,100; Lake Shore, 4,000; L. & N. 3,400; Man, \$200; Northwest, 4,400; Omaha, 3,500; Reading, 3,100; St. Paul, 20,800; New Jersey 10,100; Lake Shore, 4,000; L. & N. 3,400; Man, \$200; Northwest, 4,400; Omaha, 3,500; Reading, 3,100; St. Paul, 20,800; New Jersey 10,100; Lake Shore, 4,000; L. & N. 3,400; Man, \$

MISCELLANEOUS.

NEW YORK DRY GOODS. NEW YORK, March 2.—The demand and purchases today turned out better than was promised at the opening. Bleached cottons were taken in good quantity by several of the were taken in good quantity by several of the largest distributing markets west of New York. Fancy cottons for petiticoats and dress wear had increased attention. For desirable goods orders were placed, as none are to be had for immediate delivery. Dress silks and ribbons are doing very well, and so are men's wear goods. Brown cottons were moved well on old engagements, but new business was of moderate proportions. Foreign and domestic fancy worsted dress goods in steady request. Printing cloths more active and sales of about 75.000 pieces, contracts for May and July, at 2%c.

MINNEAPOLIS HAY MARKET. SEED MARKETS.

MINNEAPOLIS HAY MARKET. MINNEAPOLIS, March 2.—J. A. Huntt & Co. report a better feeling among retailers and jobbers. The former are buying more freely. The demand, however, is almost altogether confined to the best grades. Low grades are still slow to move. Receipts are ruling light and afford a chance for jobbers to clear up old stocks.
