MOVEMENT OF STEAMSHIPS.

NEW YORK—Arrived: Othman, Rotterdam. HAVRE—Arrived: La Champagne, New York. QUEENSTOWN—Sailed: Etruria (Liverpool), New York.

The gasoline stove doesn't appear to be doing its worst this season.

We assure Mr. Fitzsimmons, who has just resumed talking, that the public has reached a state of mind in which it would much prefer silence.

There is a charming simplicity about the names of the Japs. Marquis Ito is traveling through this country. He is accompanied by Marquis Kido.

In answer to Senator Tillman's pitchfork resolution, Senator Aldrich says he has not bought or sold a share of sugar stock. But, Senator, there are others.

Kansas takes the bakery for uncleanliness again. The notice of a young woman's wedding winds up with a long list of young men whom she has rejected.

The German ambassador at Constantinople is Baron Saurma von der Jeltsch. At any rate, he is an even terms with most of the Turks as to a name.

It is announced that there will be six days of formal tea drinking during the queen's jubilee. And, it might be added, a week of free but informal champagne drinking.

The sultan of Turkey objects to Minister Angell because he is the friend of missionary societies. The old rascal! Somebody ought to steal his whole harem for that.

Mayor Strong, of New York, is a man without a party. The Republicans have turned him down, and the citizens' union leaders declare they do not want him because he has not come up to their standard.

The meanest man in the world lives at Melbourne, Australia. He told a lot of theosophist ladies where to find coal, and they spent \$40,000 in cash, bored 6,000 feet and got thirty tons of rich ocean mud.

Statistics show that many of the girls are turning their attention to pharmacy. Who knows but the girl of the future will give her faithful lover prussic acid instead of fudge him for \$10,000 for breach of promise?

The Spanish newspaper Herald says the United States is preparing to intervene with perfidy in Cuba, and asks if the Spanish nation will swallow the pill. Hadn't you better take a good look at Greece before bristling up? You aren't big enough to talk like that and back it up with bayonets.

The Brice family is again before the public. A Washington newswoman has sued Mrs. Calvin S. Brice for \$428.50 for working monograms on table and tea cloths and napkins. Mrs. Brice declines because she says the bill is excessive.

Connecticut has the most sensitive women on earth. Over 170,000 of them are qualified to vote, but only 2,600 of them vote, the others preferring not to because by casting their ballots they would admit that they are over twenty-one years of age.

The weather bureau announces that it is now possible to forecast the weather for a period at least sixteen hours longer than at present. Really, Mr. Moore, what is wanted is something which will forecast about sixteen hours nearer the facts.

The good people of Dodge City, Kan., have something to talk about which will last them half a century. Three young men gave a Midway Plaisance entertainment there last month. Since that time two of them have been killed by railroad trains, and the other maimed for life.

Senator Tillman may not succeed in getting any of his colleagues to tell that they bought sugar when sugar was a "good thing," but he can get his resolutions on record and make a few of them feel uncomfortable for several moons. This will be glory enough for the South Carolina fire eater.

FOR CUBA LIBERTY.

Independence of the Island Said to Be McKinley's Policy, EVEN IF WAR IS TO FOLLOW.

It is Claimed That the President and Cabinet Have Definitely Decided on Such a Course—Special Message May Accompany the Ruiz Report When the Latter Is Sent to Congress.

WASHINGTON, May 30.—In pursuing a policy looking to the complete independence of Cuba, President McKinley has the cordial co-operation of every member of his cabinet. The president proposes to use every endeavor to induce Spain to peacefully accept the good offices of this government for the purpose of concluding an honorable peace, with the understanding that Cuba shall have a republican form of government and be freed from the possibility of a military dictatorship; this government to undertake to sustain a civil form of government on the island. In the event of failure, after exhausting every means of securing a peaceful solution of the problem, the president will resort to force. The Spanish minister is fully advised of the plan, and has communicated it to his government.

At the cabinet meeting on Friday last it was suggested by two of the members of the cabinet that in the event of war it would be necessary to issue bonds, and that this power would have to be secured from the congress, where the silver senators might block the way by demanding the issue of silver bonds. This matter was fully considered, and on Saturday the president communicated with a leading silver Republican senator, who sent back word: "Tell the president that the silver senators are as patriotic as ever, and will do nothing in such an emergency to hamper him. We are not only patriotic, but we are also patriots enough to know that the people of this country would condemn us if we should pursue such a course in such an emergency. It would mean the doom of the silver cause if we should undertake to stand in the way of public opinion at such a time."

Senator Morgan, of Alabama, the author of the joint resolution which recently passed the senate, said: "I am a silver man, and a Democrat."

The president is a Republican and a gold man. Both of us are American citizens, and I should stand with him in a war with Spain, and so would my Democratic colleagues. The president was stated at the White house this afternoon by a senator who had conversed with the president, that the report of Judge Calhoun is expected this week, and that the president does not intend to take final action in the development of his policy until he receives that report. Consul General Lee was directed to show Judge Calhoun the copy of his recent report, and also to give him data concerning later developments in Havana, in order that the important report of Calhoun may be an up-to-date document, upon which the president may act, and which he may be able to lay before both houses of congress in a special message on the all-engrossing topic. No doubt is expressed in any quarter concerning the determination of the president to bring to a close the present condition of affairs in Cuba.

Charles Pepper, for many years Washington correspondent of the Chicago Tribune, and known to be a man of absolute reliability, has a long letter in the Evening Star from Havana, in which he says: "No one who comes to this island will doubt, after a brief stay, that the island is a state of savagery exists which goes under the name of war. People are being starved to death by the insurrection. Small-pox is working greater havoc now among the refugees in Guanabacoa, five miles from Havana, than hunger. But hunger is taking many lives, and destitution is everywhere apparent. One of our consuls today said to me: 'I have been here since the beginning. Weyler's pacification is a farce. This guerrilla fighting is being kept up by the insurrectionists ahead for the island but scarcely.'"

Weyler's Havana Organ Scores the Commissioner.

HAVANA, May 30.—In a leading article this a. m. El Diario de la Marina makes a scathing indirect attack upon Commissioner Calhoun by criticizing articles which have appeared in a Washington newspaper on the signature of Mr. Pepper, who, in the guise of an intimate friend of President McKinley and Mr. Calhoun, accompanied the latter to Cuba. El Diario de la Marina maintains that many incidents of the interior working of the mixed commission which are wholely untrue, have been divulged by Mr. Pepper's letter, thus tending to compromise Mr. Calhoun. The paper also resents Mr. Pepper's attack upon the Cuban question, expressing disgust that, while he blames Spain for the neutral results of the war, he may not have been more candidly and honestly in the Cuban insurgents, whose torches are destroying the wealth of the island. In closing its article, El Diario de la Marina calls attention to the fact that two New York newspapers, whose Cuban representatives are scarcely favorable to Spain, maintain bureaus in Havana under the same roof with the United States consular general, intimating, without much delicacy, that the correspondents of these newspapers are virtually under the wing of Gen. Fitzhugh Lee and draw most of their inspiration from him. Mr. Fishback, accompanied by Mr. Pepper, went into the interior today with a special messenger, and on the day with Gen. Lee at the American consulate. Capt. Gen. Weyler went from Uncas to New York on Friday, but returned to Cuba on Saturday. The insurgents dynamited a passenger train between Santa Clara and Havana, and the locomotive and three passenger cars were derailed, but no lives were lost.

LANDED ARMS IN CUBA.

Gen. Namsos Heads an Important Filibustering Expedition. WASHINGTON, N. C., May 30.—The Messenger today prints a detailed account of the loading of the tug Alexander Jones and her departure with the United States flag and other insignia of the filibustering expedition. The facts were obtained from a member of the crew of the Alexander Jones, which left New York on Friday night, and arrived in Cuba on Saturday morning. The cargo carried out of her was valued at \$75,000 and included the second largest ever landed in Cuba. The members of the crew above referred to say, there is no truth in the story that the Jones was chased and fired on by a Spanish war vessel. The Jones never saw the smoke of such a war vessel while on her trip.

RALLI IS A CONSPIRATOR.

He Is Said to Be in the Plot to Overthrow King George.

LONDON, May 31.—The Berlin correspondent of the Daily Mail says today: From a Russian source comes news of a conspiracy against King George of Greece far more deeply rooted than was supposed. There is indisputable evidence that Premier Ralli and his colleagues in the cabinet are gravely implicated in a plot to overthrow the dynasty. The Kohnstien-Zengling says that the Russian minister yesterday offered to pay a large indemnity to reduce her army to 20,000 men and to give up her fleet. The reports of alarming anti-dynastic troubles, published abroad, cause surprise here, as the king is a man of such movement, nor is any prominent politician likely to commit himself to an anti-dynastic programme. It appears that the Prince of Wales has expressed his personal desire that Emperor Constantine should come to London for the jubilee festivities; and this is regarded as indicative of English good will toward Greece.

WAMNOS IS IN RUINS.

Important City in Norway Completely Burned. CHRISTIANIA, May 30.—The town of Wamnos, province of North Trondhjem, near the mouth of the Namsen river, on the Namsen fjord, west coast of Norway, has been entirely destroyed by fire. The flames, fanned by a fierce wind, spread so rapidly that the 1,800 inhabitants were unable to save even their furniture.

SHELLED THE REBEL REDS.

Indian Troubles in Manitoba Assume a War-like Aspect. Winnipeg, Man., May 30.—The telegraph wires have been cut in the neighborhood of the Indian reserves at Duck Lake, where the fugitive Indian outlaws are being besieged by mounted police and volunteers, and there is much uneasiness here and there as being certain that other Indians are joining the fugitives. The government took charge of the wires today and military officers in various parts of the country have been exchanging telegrams relative to the situation. A large quantity of ammunition was sent by ship from here today by express, and the mounted police were being leaving for England to attend the jubilee were recalled to duty to meet the scene of the Indian trouble this morning report that Capt. Gagnon, with a seven-pound field gun, arrived before dark last night at the bluff, where the Indians are entrenched, and fired seven shells into the bluff. At dusk, when everything had quieted down, Almighty Voice yelled to the police that they were doing well, but were being to do so. The nine-pounder, in charge of Assistant Commissioner Mollire, was trained on the bluff at 8 a. m., and got the range at the second shot. A transport is leaving with picks and shovels for the purpose of throwing up earthworks to enable the men to advance on the bluff upon cover in case they are not successful in driving the Indians out with shells. The Indians are supposed to have good underground protection. There have been no further fatalities.

WARRNA HASN'T HEART FAILURE.

Trifle Timid About Entering the Senatorial Contest. Special to the Globe. WASHINGTON, May 30.—Senator Hanna today denies the statement that he is suffering with heart failure, although he admits that he has been warned against continued excitement and extreme political work. For this reason, he is advised by friends to refrain from having his name put forward by the Ohio Republican state convention as a candidate for the senate. His friends say that his public nomination would make it necessary for him to enter actively upon a public life to meet with the people. In the present state of his health, that might prove to be a dangerous proceeding. Hence, his name may not be mentioned by the convention, except by a resolution of appreciation for past party services.

WEST POINT'S BATTLE MONUMENT.

Secretary Alger and Other Officials Attending the Unveiling. WEST POINT, N. Y., May 30.—Many distinguished officers of the United States army and other invited guests have arrived to attend the decoration ceremony of the battle monument tomorrow. Among the number are Secretary of War Alger, Adj. Gen. Rugles, Brig. Gen. John M. Wilson and Gen. George S. Green, the oldest living graduate of the military academy.

ONE BANK FOREVER.

Three Fishermen Captured in the Mississippi at St. Cloud. ST. CLOUD, Minn., May 30.—By the capture of a boat on the swift water in the Mississippi river, just below the dam, this morning, Charles Dorroughy was drowned and his brother John and nephew, James, were rescued. The men were in a small boat fishing, and while rowing for an eddy below the dam lost one of the oars, and the boat, getting beyond control, was swept into the fast water and upset. The men all

AGED AND UNKNOWN.

Septuagenarian Dies at Glenville Without Revealing His Identity. Special to the Globe. MINN., May 30.—An old man about seventy years of age died at the Hostetter house, Glenville, this country, last night after having been in the city for some time. He was a stranger and said he had been traveling several days, but did not give his name, nor can it be ascertained how long he has been in the city. His case had the card of an Osage, lo, a few other stamped upon it. He had a slender watch and only a few cents in money. It is thought he died of cerebral hemorrhage, and a post mortem examination may be held tomorrow, as the body has been brought here.

Small St. Cloud Blaze.

Special to the Globe. ST. CLOUD, Minn., May 30.—Fire this morning partially destroyed the residence of Nath. Huff. Prompt and effective work by the fire department prevented serious loss. Damage, \$600; covered by insurance.

RIO GRANDE RETIRING.

Situation Still Serious in the Flooded District. EL PASO, Tex., May 30.—There are no new developments in the flood situation today. The river is falling at this point and all along the line as high as Albuquerque, N. M., but people in the flooded district continue to move out and the eastern end of San Antonio street with its handsome brick residence is deserted.

NASHVILLE, Tenn., May 30.—Yesterday in the criminal court at Lebanon, in the case of

CUT OFF HANDS OF NATIVES.

Gov. Wadsworth Says "It is a Native Custom." LONDON, May 31.—Gov. Wadsworth, of the Congo Free State, has a column letter in the Times this morning concerning the statements recently made by Missionary Sjöblom in this city at a public meeting at Exeter hall, where the subject of Western African Christian missions was under consideration. He admits that many of the charges, such as the mutilations and the severing of hands by the soldiers, which he says is a native custom, are difficult to disprove. He admits that an attack was made on the village of Mandakaka, and that many credulous were practiced there. But he declares that all these offenses have either been punished or are being investigated. The letter is, on the whole, less a denial of the offenses imputed by the missionaries than a justification of the Congo administration. The Times, commenting editorially on the reply of Gov. Wadsworth, thinks it incomplete, and expresses regret that the charges against Congo Free State cannot be submitted to a full and searching inquiry.

YERKE'S TELESCOPE INJURED.

Fall of the Floor Wrecks Some of the Work. CHICAGO, May 30.—Yerkes' observatory at Williams Bay, Wis., will be closed for the summer, the movable floor of the dome having been wrecked by a fall of forty-five feet. The floor, which was 75 feet in diameter, was suspended by inch cables and unbalanced the floor, which fell to the bottom of the dome. In its fall it carried the winding stairway of the support of the telescope with it, crushing an electric apparatus underneath. The loss from this part of the accident is slight, but it is feared the jar may have disturbed the accuracy of some of the very delicate machinery of the telescope itself.

CO. D AT THE TOP.

According to Lieut. McCoy's Report on the Militia.

CO. A, OF MINNEAPOLIS, NEXT.

While a Duluth Company Gets Third Place, Invading the Monopoly the First Regiment Has Hitherto Had—Glose Contests for Lower Ranks in the List.

The report of Lieut. Frank B. McCoy, detailed from the Third Infantry to inspect the companies of the Minnesota national guard, was submitted to Adj. Gen. Herman Muehlberg Saturday, and every member of the guard will be interested in noting the result of the inspection. Without reference to the report, which was not at his hand when a reporter for the Globe called on Gen. Muehlberg, some portions of the report could not be secured. The position of honor again falls to Capt. Ed Bean's crack Company D, which earned a marking of 88 points out of a possible 100. The other companies of the First regiment in St. Paul and Minneapolis are pretty well together with creditable markings, while Company C, of the Third regiment, at Duluth, in command of Capt. Resche, for the first time in many years broke into the honor column, which had hitherto been monopolized by the First regiment, and captured a score of 88 points. This puts them in third position, second place having fallen to Company A in Minneapolis, Capt. McWade commanding, with 82 points. Two Minneapolis companies had a close struggle for fourth place, Capt. Diggles, Company B, having won the position by less than a point from Capt. Corriston's Company I, both companies having a total of 87 and a fraction.

Another close struggle is shown to have taken place between Companies C, Capt. Robinson, and E, Capt. Spear, both of St. Paul, the C boys holding a lead in the marking by two points. The figures were 83 for C and 81 for E. Capt. Monfort's command, Company H of this city, comes next in line, closely followed by the Red Wing company. Outside of the First regiment, companies located in the Twin Cities, the Duluth company, which showed up so creditably, and the West Duluth company, which stands at the bottom with but 51 points, all the infantry companies ranged between 60 and 75 points, and for the most part showed signs of improvement in general efficiency.

Taken as a whole, the St. Paul guardsmen made the best general showing, with the soldier boys from Minneapolis a close second. Lieut. McCoy gives considerable credit to Company C, of the Third, at Duluth, which won third honors, and adds that the other two Duluth companies are alike affording showing the good effect of the contact, argument and rivalry which is afforded in cities. The West Duluth company, as stated above, foots the list with a total of 51 points. Company F, of the First regiment in

TAWNEY DISGUSTED WITH TARIFF.

Says the House Republicans Will Insist on the Original Dingley Bill. Special to the Globe. WASHINGTON, May 30.—"I am obliged to remain here until the tariff bill is passed," says Congressman Tawney, of Winona. "Every member of the committee on ways and means is in duty bound to remain in Washington and look after the various schedules in the bill; particularly to protect the interests of constituents. Consequently while fully two hundred members of the majority party are absent from the city, the greater part of the time, Chairman Dingley and the members of the committee on ways and means are here, and will remain here."

CONVICTS FAR FROM SUBDUED.

Trouble Ahead for the Officials of San Quentin Prison. SAN FRANCISCO, Cal., May 30.—The riotous convicts in the San Quentin penitentiary caused no serious trouble today, but they are still defiant, and vaguely threaten that they will yet compel the authorities to yield to their demands. Warden Hale is confident that the backbone of the strike has been broken, and thinks that he will soon starve the unruly men into submission. They are closely watched, and the guards are instructed to instantly suppress any attempts at organized disturbance. During the regular exercises today some of the convicts not implicated in the strike, but sympathizing with the leaders, pelted the doors of the dungeons where the men on short rations are confined with potatoes and pieces of bread, and in this way managed to give them considerable food before the very eyes of the keepers.

SHOULD BE DISCIPLINED AGAIN.

Shouting and hammering on the doors was continued all day, but those who approached within hearing distance were greeted with the vilest curses. The men declare that they will never submit to discipline again, and prison officials are fully aware that it will be a difficult task to restore tranquility. Warden Hale declares that there is no foundation in fact for the complaints regarding the quality of food served. He thinks their charge is merely a pretext for the convicts refusing to work in the jail mill, and positively declares that, having quelled the first outbreak, he is now master of the situation.

SENTENCED A BANKER.
