

Burlington Route

The Globe's Best People WILL USE

"THE FINEST TRAIN ON EARTH"

The Burlington's New Limited Express, specially built by the Pullman Company and pronounced by Mr. Pullman "the finest cars that ever stood on wheels." The train consists of Pullman Compartment and Standard Sleepers, Pullman Buffet Library Car, Reclining Chair Cars and Coaches, Electric Lighted Throughout, which, commencing today, Wednesday, June 2, will run as the "Chicago, St. Paul and Minneapolis Limited Express," leaving St. Paul Union Depot at 8:05 p. m.

HEAD CAMP MEETS

BIENNIAL CONVENTION OF THE MODERN WOODMEN IS ON AT DUBUQUE.

NEW OFFICERS NOMINATED. SOME DAMAGE BY FROST.

SMALL GRAINS HELPED RATHER THAN RETARDED BY THE COOL NIGHTS.

LACK OF RAIN IN ALL SECTIONS.

Corn Is Growing Very Slowly and Much of It Will Not Come Up at All.

DUBUQUE, Io., June 1.—Nearly every delegate to the head camp, Modern Woodmen, was in the city for the opening session of the biennial meeting. The head camp was called to order at 10:30 o'clock by Head Consul Northcott. Address of welcome was delivered by Mayor Duffy, responded to by the head camp. The convention then appointed committees on resolutions, elections, order of business, salaries and compensation, appeals and grievances.

The biennial report of Head Consul Northcott showed that during the past year the membership had increased from 127,115 to 137,000; average age decreased from 38.05 to 35.76 years; cost of management from \$1.62 to 61 cents; at present \$550,000,000 insurance on 127,115 members, certificates written; 1,838 new camps organized.

The question of an emergency fund has been eliminated from the consideration of the head camp by a vote of the members, the vote being so decisively in opposition that the action upon this part of the head camp delegates was unnecessary. The recommendation of the law committee for an extension of territory, and spoke favorably of the Royal Neighbors (the latter an auxiliary of the order).

The report of Charles W. Hayes, the head clerk showed that the general fund expenses amounted to \$23,483; an amount credited to this fund, \$41,100; mortuary claims allowed, \$1,066; and the annual dues, \$2,280; \$16, amount of claims pending, \$27,500; and amount of claims paid, \$27,500.

The report of A. J. Hollister, head banker, showed that during the biennial period ending March 31, 1897, the total receipts were \$3,534,222, and the total disbursements, leaving a balance of \$415,234, which included the balance of \$36,724.

At the afternoon session a regular order of business was suspended to consider a charge against the city deposit in the Scandia bank, and the Scandia receiver did not want to have the payment a credit for the Columbia against the deposit. Since Mr. Kittleson had telephoned from across the street at a drug store, and not from the bank, where a state examiner then was, the receiver insisted that the payment was not authorized by the Scandia officials. It was all referred to the committee on appeals and grievances, which at one time, was to be brought before the grand jury.

WORMS ARE AT WORK

THE WEEKLY CROP RESUME REPORTS THEIR PRESENCE IN THE STATE.

SMALL GRAINS HELPED RATHER THAN RETARDED BY THE COOL NIGHTS.

LACK OF RAIN IN ALL SECTIONS.

Corn Is Growing Very Slowly and Much of It Will Not Come Up at All.

The weekly Minnesota crop report, issued yesterday, says: "The week has been cool, with the minimum temperatures of the morning of the 31st lower than those of the 24th. Besides severe frosts on the 24th, there have been frosts during the week, but, except cutting off some early corn, potatoes and garden stuff and slight injury to wild plums and a few apples, the damage has been slight. The cool weather has been a help to the small grains, promoting rooting, but it has retarded the growth of corn, grass and gardens. There has been a great lack of rain in all sections.

Light local rains have been a great benefit in the small areas where they have occurred, helping the late sown grain, the roots of which have not yet reached the ground. The corn is growing very slowly, and a great deal will not come up at all, because of defective seed, so that the yield will be very irregular. Considerable corn ground will be plowed up and devoted to other crops.

Rye is heading out. Though some report it looking very fine, most correspondents say it is heading thin and short. Hay prospects are good.

Army worms and cut-worms are at work, and caterpillars are doing much damage to apples, plums, and other fruit trees, a great deal of the bass-wood being killed by the pests.

THUNDER CLOUD AT WASHINGTON

HEAD CHIEF OF THE KICKAPOOS SHOWS THE SIGHTS OF THE NATIONAL CAPITAL.

The beauty of the Buildings entranced him; the height of the Monument surprised him; the mysterious Trolley Cars bewitched him; but what astonished and appalled him was the many sudden deaths in civilization. Impure blood, liver and kidney troubles responsible for many being so stricken.

Thunder Cloud when on a visit to Washington recently called the Great White City, as the red men call the President, was paid many attentions and shown the sights at the Nation's Capital. When asked what surprised him most about civilization, the Head Chief of the Kickapoos started his questioners by replying—"The appalling number of sudden deaths among you 'pale faces'."

The truth of Thunder Cloud's assertion cannot be denied. Statistics show that yearly thousands of people are suddenly stricken on the street, in public places, at their desks, and in their homes. Their deaths are attributed to "heart failure," but if the truth were known, impure blood, liver and kidney disorders are what' sever so quickly the thread of life.

How unlike are the people of today from the Indians whose "one talent" was and is to keep well, strong and able to endure the most terrible hardships and privations. For years they kept the trail to health a secret. Now, thousands are being cured of disease by Indian remedies. The Kickapoos now and always led their race in medicine coming, and always led their race in medicine coming. Sudden death from disease is unknown to them. Why? They always

MINNEAPOLIS. GET THEIR DIPLOMAS

OFFICE 20 SOUTH FOURTH STREET.

A \$10,000 WALK.

Her Wager Won by Mrs. Estby, of Spokane.

Mrs. Helga Estby and her daughter, Miss Clara Estby, of Spokane, Wash., who last year performed the marvelous feat of walking from Spokane to New York city, arrived in Minneapolis last evening, and are at present guests at the Excelsior-Scandia house. They dropped into town in the drizzling rain from Chicago, which they left May 9. The ladies left Spokane May 5 last year at the instance of private parties in New York, who offered them \$10,000 if the feat was successfully accomplished by Dec. 1, the same year. In the contract made was a provision which into consideration sickness, but accidents were overlooked. The ladies arrived in New York Dec. 3, three days behind time, which was owing to the fact that Miss Estby had her ankle sprained in Pennsylvania. That matter was finally satisfactorily adjusted, and the ladies will receive \$10,000 when the book, written by them and describing their travels and adventures, is completed.

Steele Gets Two Years.

Samuel Berg and George Wilson went before Judge Simpson, in criminal court, and pleaded not guilty to the charge of carrying burglary and two charging grand larceny. The cases were set for trial June 17.

Charles Steele, who pleaded guilty to carrying burglary and two charging grand larceny, was brought in for sentence. His attorney advised that he had a family who needed his support, and the prisoner shed some tears very quietly. The court gave him two years in the penitentiary, because he had once before been in trouble for forgery. The fact that he pleaded guilty to the present charge was the reason for his escaping the extreme penalty.

NEGRO BOYS STEAL WATCHES.

Judge Russell Decides That the Scandia Bank Must Pay That \$10,000.

The twelfth annual commencement exercises of the Minneapolis academy were held last night, and despite the rain, a large number of the parents and friends of the graduation class were present. The programme commenced promptly at 8 o'clock, and it was late in the evening when Thomas Peebles, principal of the college, presented the diplomas to the twenty-one members of the class. The exercises were very interesting. Martin Elvich Waldeland, the valedictorian, delivered an oration on "Greek Patriotism and Love of Liberty," which was well received. Mr. Waldeland is possessed of a fine appearance, a good voice and a splendid delivery, and his address was the feature of the evening. The salutatory, by Joseph Hook Chase, was also a very brilliant effort. The orators of the class, Hope G. McCall and Bernard Jacobs, delivered orations, the former on "English Common Law," and the latter on "Culture." In his address Mr. McCall paid much attention to the lawyers of today, and he closed by referring to the good they were doing and had done in the past. He grew eloquent as he spoke of President Munroe, who gave birth to the grand doctrine that bears his name, and which has had much to do with maintaining peace between the United States and other nations.

T. Frank McCarthy, the historian of the class, and Miss Marian Esther Peterson, the class prophet, fulfilled the duties assigned to them in an admirable manner.

The conclusion of the programme was the presentation of the diplomas by President Peebles, to the members of the class, as follows: A. Anderson, E. Anderson, A. J. Atkins, C. C. Beim, Isabelle Burns, James Callagan, Karl Shryler, Emma Cudde, A. W. Higgins, Bernard Jacobs, J. A. Johnson, H. G. McCall, P. F. McCarthy, Robert McGregor, Marion Peterson, L. L. Sellers, Carl Talle, M. E. Waldeland, C. Wenderdahl, J. F. Chase, Aurora Wren.

THEY STOLE CATTLE.

Two "Nervy" Dakota County Men Are Arrested.

It might go hard with W. Nevens and Elmer Pettit, who were locked up last night in June, when the seniors asked that all recollection of college years, except as they were pleasant memories, be forgotten. The seniors were in the hall room, early yesterday, and they were looking for a third man. The men, it is claimed, entered the pasture of L. J. House, a stock farmer near Mendota, Dakota county, Sunday night, rounded up a bunch of ten cattle, valued at \$400, mounted horses and drove the lowing kine into Minneapolis, to the city, eight miles distant. They arrived in the city bright and early yesterday, and the bovines drifted to the stockyards of ex-Aid. Farnsworth, in the thirtieth ward. When the cattle were ordered to Farnsworth for \$100 he promptly purchased them, and the men went down town to have a good time.

A deputy sheriff from Dakota county drove into the city, and located the cattle. Then he went to police headquarters, and gave a description of the men, two of them being located in the city. One was at Washington and First avenues south. One of the men was recovered. The prisoners were taken back to Mendota.

SEABURY SCHOOL.

Their Degrees Given to Five Divinity Students.

Special to the Globe. June 1.—Notwithstanding the cold and the rain, the auditorium at Seabury divinity school was filled to overflowing for the graduation exercises. The Rev. Dr. St. Paul, delivered the baccalaureate sermon, which was a masterpiece of good thought and feeling. The exercises consisted of the reading of the "Bachelor of Divinity" degree. There are three other members of the school who enter the missionary field this year.

No Money for Jury Cases.

Special to the Globe. WINONA, Minn., June 1.—The regular term of the United States court here opened yesterday, but the lack of appropriations for payment of jurors, no jury trials can be held here until the case of Joseph Graff vs. Chicago, Milwaukee & St. Paul Road is on, arguments being received for a new order to have the case removed back to the state court from whence it first came. The case was tried in this court last June, but the jury was unable to reach a verdict, and the case was continued to the next term of the court.

PECULIAR POISONS.

GENERATED IN THE HUMAN BODY.

The Result of Imperfect Digestion of Food.

Every living thing, plant or animal, contains within itself the germs of certain decay and death.

In the human body these germs of disease are produced by imperfect digestion of food; the result of indigestion or dyspepsia.

The stomach, from absorption of weakness, does not promptly and thoroughly digest the food. The result is a heavy, sodden mass which ferments (the first cause of decay) poisoning the blood, making it thin, weak and lacking in red corpuscles; poisoning the brain causing headaches and pain in the eyes.

Bad digestion irritates the heart, causing palpitation and finally bringing on disease of this very important organ.

Poor digestion poisons the kidneys, causing Bright's disease and diabetes. And this is so because every organ, every nerve depends upon the stomach for nourishment and renewal, and weak digestion shows itself not only in loss of appetite and flesh, but in weak nerves and muddy complexion.

The greatest health preserving remedy said the best start in life is a sound stomach. Weak stomachs fail to digest food properly, because they lack the proper quantity of digestive acids (lactic and hydrochloric) and peptogen products; the most sensible remedy in all cases of indigestion, is to take after each meal, one or two of Stuart's Dyspepsia Tablets, because they supply in a pleasant, harmless form all the elements that weak stomachs lack.

The regular use of Stuart's Dyspepsia Tablets will cure every form of stomach trouble except cancer of the stomach.

The increase of flesh, insuring pure blood, strong nerves, a bright eye and clear complexion, because all these result only from wholesome food well digested.

Nearly all druggists sell Stuart's Dyspepsia Tablets at 50 cents full sized package, or by mail by enclosing price to Stuart Co., Marshall, Mich.; but as your druggist may not have them, a little book on stomach diseases mailed free. Address Stuart Co., Marshall, Mich.

CHESS MATCH TIED

AMERICA AND ENGLAND BREAK EVEN IN THE INTERNATIONAL CONTEST.

DAY SAVED BY SHAFROTH.

THE GENTLEMAN FROM COLORADO WAS EQUAL TO THE OPPONENT.

THREE CHEERS FOR VICTORIA.

Cable Tournament Between the Two Houses Closed With General Good Will and Wishes.

WASHINGTON, June 1.—The international chess match between members of the house of representatives and the English house of commons today resulted in a draw, each side having won and lost two games and one being a draw. When the match was concluded by Mr. Shafroth winning his game any tying the score, hearty cheers were given on each side of the water for the president and her majesty the queen.

The games yesterday resulted in a winning by Mr. Bodine for America, and a game to the credit of England, won by Mr. Plunkett. Three games remaining to be finished today. The games resulted in the loss of one by Mr. Plowman and the drawing of the game between Mr. Handy and Mr. Wilson. It then remained for Mr. Shafroth to save the day for America by winning his game, and the deepest interest was manifested in every move made. He started under the necessity of making six moves in thirteen minutes, but soon caught up and had time to play studiously. When the announcement of the result of his game came, the cheers of the spectators filled the room for several minutes.

At 2:10 p. m. play was begun. The greatest interest was manifested in the play at the fourth table, where it was thought a few moves would indicate the result to be expected. After a time the crowd shifted to No. 5, where there were but three pieces on the board, white king and pawn and black king, and a draw was predicted. A message conveying the information that the game was a draw, was received at the time limit two seconds, thus forfeiting the game, was answered with a message saying "go ahead." A message that the game was a draw, justified the predictions of the onlookers. After some deliberation the proposition was accepted.

AN EVEN THING.

The consultation game was then started with the rule that twenty moves should be made each hour. The next event of importance was the resignation of Mr. Plowman in his forty-sixth move. This left the games two for England, one for America, one drawn and one unfinished, thus leaving to Mr. Shafroth the opportunity of making the match a tie by winning his game. So interested did the spectators become that Mr. Shafroth was repeatedly necessary to admonish them to refrain from crowding about the players and making remarks referring to the play. Mr. Shafroth continued to play deliberately, studying long before making a move, and consuming his time almost to the limit. As the pieces changed their locations and were one by one removed from the board, the game improved from an American point of view, and experts expressed

the opinion that Mr. Shafroth would win.

Mr. Parnell, after his fifty-eighth move, sent a message to Mr. Shafroth resigning the game, and continued "He renews congratulations on long fight. Better luck the next time. Hope we will renew friendly struggle at an early date."

There was an outburst of applause and Mr. Shafroth was warmly congratulated upon tying the score of the match. He replied: "I wish to express my compliments and the pleasure I have had in playing this able defended game."

The next message was: "Announced the result as a draw. Three hearty cheers were given for the president of the United States." This was received with another storm of applause and when the match was over, what response should be made. "Three cheers for the English house of commons," and they were given with a will. The following response was sent to London: "Have announced result a draw in the company here have just given three hearty cheers for her majesty the queen."

The chess match was substituted for Mr. Plowman in the consultation game which was in progress while these messages were being transmitted to the board, and continued at 10 o'clock, the hour for adjournment, and remains unfinished. It was decided to place a diagram of the board in the hands of Baron Hengelmueller and allow him to make a decision as to whether the game should be given to either side or be declared a draw.

FOR DELICACY

For purity, and for improvement of the complexion nothing equals FOSBORN'S POWDER.

ALLEN'S LUNG BALSAM

stands without a peer in the world for successful treatment of Consumption, Bronchitis, Pulmonary Diseases, Whooping Cough, and Croup. It has cured when every other remedy failed. Skilled physicians recommend it; trained nurses insist on having it for patients in their charge. Ask your druggist about it and testimonials. 75c, and 50c, and \$1.00 bottles.

SCANDIA MUST PAY \$10,000.

Judge Russell's Decision in the Columbia Bank Matter.

Judge Russell has made an order in the receivership of the Scandia bank, in which he decrees that the claim of the receiver for \$1,824 be reduced to \$10,000, so that the claim is but \$4,224.

The same arose out of the \$10,000 drawn by A. C. Haugan, out of the Columbia National bank. On the morning when the directors of the Scandia bank were preparing to close, Charles Kittleson telephoned the acting teller of the Columbia National to find C. Haugan, and ask him to draw a check against the Scandia bank for \$10,000 and deposit it in the clearing house. The teller secured Haugan, and later Haugan went to him and told him the clearing house was

DEMOCRAT ELECTED

In the First Congressional District of Missouri.

ST. LOUIS, Mo., June 2.—Estimates based upon returns received up to midnight from the First Missouri election district, indicate Lloyd (Dem.) is elected over Clark (Rep.) by a plurality of 5,000. The total vote cast was about equal to 90 per cent of the cast last November. Lloyd carried Hannibal, Clark's home, by 34 plurality, a Democratic gain of 206 over the November election.

Another Frost.

MILWAUKEE, Wis., June 1.—Another killing frost was experienced throughout the state last night, and small fruit and vegetables suffered severely. Snow fell in the extreme northern portion of the state and in Northern Michigan.

GOODNEWS ARE DIVORCED.

The Wife Agrees to Ask for no Alimony.

Judgment was entered yesterday afternoon, divorcing John Goodnow and his wife. A story goes that the wife, who tried twice to saw from the Hennepin county jail, once successfully, has been trying to get in the state prison. The guards discovered the smearing of soap, however, and he was placed in military confinement.

The story goes that he refused to tell how he secured the saw, until he had been closely confined for a week, when he confessed to the warden that he had secured the saw by underclothing, and made a transfer when he was searching at Stillwater. A knife was stuck upon him, which he secured from the shoe factory, where he had been at work. He was now closely watched and is known as a dangerous man. The act will make him lose his good time, and he will be quite an elderly man when he comes from prison.

HELD UP ONE DIVORCE.

Judge Johnson granted a divorce to Oscar Doty from Mamie E. Doty. In the case of Gertrude L. Beach vs. John H. Beach, the court took the matter under advisement.

DR. A. T. SANDEN

33 - 1/2 Leffel Av., Cor. Washington, MINNEAPOLIS, MINN.

Office Hours—9 a. m. to 6 p. m. Sundays, 2 to 4 p. m.
