CHILD FATALITY HURT.

Runaway Horse Adds to Troubles of Patrick Kelly. Little five-year-old Margaret Kelly, daughter of Patrick Kelly, a laborer living in the rear of 23rd street, was fatally injured, it is believed, by a runaway horse which trampled upon her while at play yesterday noon.

The accident occurred while the little girl was being taken to the steps of her home by her grandmother, Mrs. Margaret O'Donnell. The horse fronts on an alley running from West Seventh street to the rear of 23rd street.

The animal was terrified from fright, and blindly rushed toward the child. The cry of the horse, as Mrs. O'Donnell made an effort to save her grandchild and seized the little one by her arm to draw her out from the steps, added to the confusion.

TALK ON DISCIPLINE

Field, Schlick & Co. AT THE MEETING OF THE WEBSTER AND NEILL SCHOOL UNION. LED BY A PAPER BY MRS. BOND.

HOW THE HOME TRAINING CAN AID THE TRAINING IN SCHOOLS. LAWYER ELECTED PRESIDENT. The members of the Neill school union joined with those of the Webster union at the latter school, last night, in a well attended meeting called for the election of officers and the discussion of school matters in general.

A number of representative people were present, and after a little preliminary business was attended to, D. W. Lawler was chosen president, John C. Swenson, vice president; S. C. Olmsted secretary, and Edward Kopper and Mrs. D. A. McKinley were named for the executive committee. It was decided to hold five meetings each year.

A very interesting paper by Mrs. J. A. Bond was read on "How Can the Home Discipline Aid the Discipline of the Schools?" Mrs. Bond opened with exact definitions of the word discipline, and thought it should train the child to right habits, form his character, regulate his daily life by acknowledged laws of right living, acting and thinking.

To accomplish the best results home discipline must coincide with discipline of the school, and Mrs. Bond expressed the view that much harm resulted from the tendency to allow teachers to undertake the entire disciplining of school children.

The subject was thrown open for discussion and the balance of the evening was taken up with an expression of the views of those present. Mr. Gorey spoke of the different courses of study, and argued that a closer acquaintance with them by the parents would serve to reinforce the efforts of the teacher, and would make fathers and mothers sympathizers instead of critics.

Mr. Swenson wanted the beginning of discipline to be made at home. The matter was quite a problem to solve, but he felt that these union meetings helped to bring teachers and parents into closer harmony. The mother, as a rule, exerted the most influence for good, the father usually being too busy to give his children much of his time.

The children of nowadays showed a woeful lack of veneration, and this, he thought, should and could be corrected. C. N. Woodward thought that children should be shown that, after their parents have made a closer acquaintance with them by the parents would serve to reinforce the efforts of the teacher, and would make fathers and mothers sympathizers instead of critics.
