Arrangements Completed for the Big Convention—News of Minneapolis.

Work on the Dickinson case came to a standstill yesterday afternoon, with but eight jurors in the box. During the day but two were secured, Otto Lieden, a farmer of Greenwood, and H. S. Clough, a resident of Minneapolis, who has not yet entered into any business here.

When the case came on, the attorneys soon ran out of material for jurors, and the court ordered a special venire of fifty names drawn. Ordinarily they would have been drawn the day before, but the court feared some tampering with the jury, and so waited until yesterday. When the names were drawn, the defense had a stenographer present making a copy of the list, and the county attorney insists that within an hour afterwards, copies of this list were seen in the hands of certain aldermen. If this was the case, the aldermen were able to reach the jurors before the sheriff had time to get to the court house.

GOOD TIMES WEST

SAMUEL HILL PLEASUED WITH EVIL DEVICES OF PROSPERITY WHICH HE SAW.

NEVER GREATER ACTIVITY

IN FARMING AND ALL KINDS OF COMMERCIAL ENTERPRISES—ON THE COAST.

TRADE WITH ORIENT GROWS.

Demand for Grain and Flour Increasing—Alaskan Trade a Big Feature.

Mr. and Mrs. Samuel Hill and Mr. and Mrs. W. H. Dunwoody, who have been spending several weeks on the Pacific coast, particularly in and about Seattle, returned to Minneapolis last evening.

Mr. Hill says that the people of Seattle have gone perfectly wild over the subject of flowers, and the spirit promises to continue until that becomes the prettiest city in America. The roses grow on trees instead of on bushes, and strawberries in size and flavor have never been excelled anywhere in the world. The proper thing is to cut the strawberries in slices like tomatoes, and three or four make a dish. Mrs. Hill brought some of these luxuriant queens of the berry kingdom to friends, and nothing could have been more pleasing.

"Everything in the Pacific Northwest is showing the return of better times," said Mr. Hill. "The men as a rule are going into the mining country so rapidly that we find it difficult to find laborers to dig the trenches for the gas mains which are being laid in Seattle. That was a little unpleasant for some of us, but it is compensated by the general improvement in conditions of business and of the people."

Conditions from Minneapolis clear through to the coast have never been so favorable as they are at the present time. In the Dakotas and Northern Minnesota the wheat crop is very good, and in Montana they have had more rain than during any recent year so that the grasses are luxuriant, and the cattle in splendid condition. This is reflected into the business of the towns, and Spokane and Great Falls, like Seattle, are all reasonably good.

"The people of the entire Northwest section through to Washington are feeling good; in fact, if the truth must be said, there seems to be less of that spirit of revival in Minneapolis than in any town that I have been in. It may be because we take things more coolly, or because this city is larger and it takes more to make it stir, but the fact will appeal to any one who goes West and returns."

"I'll give you an example. One day I noticed that the door of one of the large wholesale grocery houses in Seattle, a house corresponding to George R. Newell in Minneapolis, was closed. I inquired what was the matter and was told that they had so much Yukon and other Alaskan trade that they simply had to shut the doors to local business until they got the other 'out' of the way. Imagine one of our large wholesale houses shutting its doors because it could not attend to business."

"Then the trade with Japan and China is increasing. The Asiatics are eating more and more flour, and, as far as I was able to learn, not a drop of flour or grain from west of the Dakota line has been shipped East to compete with our Minnesota product. In Seattle every vessel going to China and Japan is loaded to the limit, and there is always merchandise on the wharf which cannot be taken. The flour trade has increased so that not a mill is grinding less than its full capacity, and in spite of the increase in the shipping facilities there is still room for more. A new 100-barrel flour mill has been erected at Seattle as one of the evidences of the increase of the flour trade on the Pacific."

"The shingle mills and the lumber mills on the line of the Great Northern are running full time. The tide of immigration, particularly on the Northern Pacific, is full and all westward. I tell you, it is impossible to put it too strong to show the reaction from hard times which is now in progress."

PLEDGES HIS BEST EFFORTS TO THE ELECTION OF MR. BUSH-NELL.

FORAKER FACTION DEFEATED.

The Platform Adopted Leads McKinley and Indorses His Manager for the Senate Seat.

TOLEDO, O., June 23.—The Republican state convention completed its work today in a session of less than four hours. While there had been a hard fight for two days for the control of the central committee, there was every appearance of harmony and enthusiasm today. The two contested districts cases were decided in favor of the Dick candidates, and this showed that the state committee stood seven-teen for Dick and four for Kurt. Senator Hanna was not only congratulated on the result, but all the delegates were seeking admittance to his apartments for conferences. Gov. Bushnell not only accepted the situation complacently before the convention assembled, by having a friendly consultation with Senator Hanna, but he also made a strong speech of acceptance in the convention. When Gov. Bushnell declared: "In spite of the statement of the Democratic press, I accept," there was a loud demonstration. In the organization of the state central committee in the afternoon Gov. Bushnell named the chairman, while Senator Hanna selected the secretary. Senator Hanna returned to Cleveland this afternoon and will soon be back in Washington. The feature of the convention was the speech of Senator Hanna. Gov.
