GAVE HIM CONVICTION.

SECOND TRIAL OF ALDERMAN DICKINSON BECOMING A FARCE.

DEFECTS IN THE TESTIMONY.

MOTION OF DEFENSE FOR DISMISSAL OF THE CASE IS DENIED.

PRICE OF PAVING GOES UP.

With Suspicious Unanimity—Dolans of the Council—News of the Mill City.

The trial of the case of the state against Alderman C. E. Dickinson, accused of agreeing to accept a bribe from T. E. Bishop, is drawing to a close, with no chance of a conviction, and a probability that there will be an acquittal.

The witness insisted that he met Dickinson across the street from the postoffice, and that when shaking hands with him, left \$250 in his hand.

After the cross-examination of Mr. Bishop, some minor evidence was introduced, identifying the journal of the Penny Press and then an adjournment was ordered for the next morning.

When Peter Sutherland took the stand the state showed that there had been no expenses for the reorganization of the company, although in the book showed the charge for that purpose, and the defense had made much of it at the previous trial.

"All you know about this is what some one has told you," he asked. "No, I think I know more than that," answered Mr. Harrison.

The state feared that the defense would not put Dickinson on the stand, and in order to be sure to make a point had Stenographer Purple read a portion of the evidence at the former trial, showing that he had said he was in the room of the Irish American bank with T. E. Bishop.

The state rested its case after recalling Mr. Canfield for a few unimportant questions, and then Mr. Noyes arose and made a statement on the grounds that there was no corroboration of the evidence of the chief witness, and that upon the evidence of the state it was not shown that a crime had been committed, under the law of Minnesota.

The court denied the motion, and the defense was present and could not withdraw its plea. The case was set for trial on the 27th inst.

IS THERE A PAVING COMBINE?

Unanimous Advance in the Size of Bids.

The city council was expected to have a session on the new telephone ordinance last night, but the committee failed to agree, and the matter did not come up.

Has No Corner on Wheat.

C. A. Pillsbury Panicles an Evening Newspaper Fake.

An evening paper published a story to the effect that C. A. Pillsbury was credited by grain men in Minneapolis with having secured a corner in control of about all the cash wheat in the visible supply of the country.

The idea of a corner in Minneapolis is ridiculed here. It is pointed out that a lot of wheat, at least 1,000,000 bushels held by an elevator company, which may be purchased.

HANGED TWICE.

Terrible Execution of a Negro Murderer in Texas.

HOUSTON, Tex., June 25.—Jim Williamson, a young man, was hanged by the state for his complicity in the murder of the Crocker family last May.

The massacre of Crocker, his wife and 12-year-old son grew out of a feud over land. Mrs. Crocker had previously been indicted for killing one Day, a member of the Williamson faction, but had not been tried.

NEW YORK, June 25.—Bradstreet's improvement in business report for the first half of the year, during the past month, in an apparent endeavor to make the prospective improvement in business appear to be its present condition, demands an examination as to the facts, and Bradstreet's presents condensed results of interviews with representatives of manufacturers, merchants, more than fifty important commercial and industrial centers, east of the Rocky mountains.

There is no material change in the volume of business compared with a year ago, and prices for many staples are lower. But there has been an improvement compared with the situation in business reported for the first half of 1896, and as contrasted with last January.

TRADE LOOKING UP

BUSINESS IMPROVEMENT PLAIN TO THOSE WHO ARE IN CLOSE TOUCH.

TENDENCY TO BRANCH OUT.

CONSERVATIVE MEN ARE PREPARING TO EMBARK ON THE RISING TIDE.

CONFIDENCE NOW WIDESPREAD.

Less Optimistic of the Trade Views Sees Reason to Expect Better Things Soon.

NEW YORK, June 25.—R. G. Dun & Co.'s weekly review of trade tomorrow will say: There is no step backward in business, although the season of mid-summer is near.

The review says that the improvement continues, gradual and prudently cautious as before, although, in many branches, evident where no signs of it appeared a few weeks ago.

Business men of the highest standing in all parts of the country having gradually perceived that the tide has begun to rise, are regulating their contracts, investments and plans for the future with a confidence quite unknown to them a short time ago.

Great changes are being made in the program of the hard to be expected, but removal of uncertainty is, with reason, expected to bring into operation buying forces which have been restricted for months.

The price has advanced 1 1/2c during the week, with a decrease of 1,200,000 bu in Western receipts, and Atlantic exports of only 1,445,047 bushels, flour included, against 1,713,961 last year.

Cotton was lifted an eighth without reason and has fallen back as much, because everything points to a larger crop than has been commonly expected.

There is an encouraging prospect for cottons, which have so long been slow, and though it is but moderate there is nothing of a speculative character in the transactions, and prices are firmly held.

Gladness Comes With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—right directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. This is a family remedy, and with millions of families, and everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co., only and sold by all reputable druggists. If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physician, but if free of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
