MR. ALLISON HOPES TO HAVE A VOTE ON MONDAY OR TUES-DAY.

REPUBLICAN SIDE ON THE ROCKS.

A Protracted Debate on the Bounty Clause Promised by Mr. Jones,

WASHINGTON, July 3.-The tariff the senate met today there was some that the final vote would be reached tonight, but this was speedily dispelled by the storm occasioned when | table. Allison reported a new amendment from the finance committee, giving a bounty of one-quarter central in respect to such ore the refined metal shall be experted at or the duty paid pound on beet sugar made from beets within six months from the date of grown in the United States. Mr. Jones, ment from the finance committee, givof Arkansas, speaking for the minority, soon took occasion to say that no vote could be reached on the bill in the near future in view of this bounty amendment. He intimated that the amendment. He intimated that the the debate would be very protracted. The house retroactive clause (sec. the debate would be very protracted from this time forward. Mr. Teller, of Colorado, supplemented this view, saying that the appearance of such an amendment at the last moment looked ing to elay the passage of their own As it became apparent that the bill. As it became apparent that the bounty provision might cause serious delay, Mr. Thurston, of Nebraska, one duty of \$1 per ton, but withdrew the motion on assurance that the entire subject would be considered in conferof the prime movers, arose, and, in impatriotic motives, and for the purpose of removing all obstacles to the pas-sage of the bill. His colleague, Mr. Allen, immediately renewed the bounty proposition, so that the complication was the same as before. Late in the day Mr. Allison sought to have a time fixed for the vote, but the bounty amendment stood in the way, and all appeals to Mr. Jones were in vain, Mr. Allison finally gave notice that he would expect to pass the bill Monday

or Tuesday.

During the day the bill was brought to a state of practical completion, the only remaining items being the new propositions submitted by the committee and individual senators. Besides the bounty amendment, Mr. Allison representation in the day an amendthe bounty amendment, Mr. Allison proposed late in the day an amendment for stamping bonds, etc., which went over until Monday. Among the features disposed of today was the anti-trust section, the provisions of the Wilson act on that subject being re-enacted. Mr. Mills (Dem., Tex.) brought forward a new amendment for a tax of twenty cents a pack on playing cards, which was agreed to by unanimous vote amid much amusement and surprise, as Mr. Mills had not expected this result. All of the administrative sections of the bill and that repealing the Wilson act, were disposed of during the day, and the paragraph proposing a tax on beer paragraph proposing a tax on beer was withdrawn by the committee. The senate adjourned to Monday, no effort being made to observe the national

The tariff bill was taken up promptly and Mr. Allison presented three amendments, not for immediate action, he said, but in order that they might be speedily printed. The first of these proposed a bounty of one-quarter of a cent per pound on beet sugar made from heets grown in the sugar made from beets grown in the United States from July 1, 1898, to

Allison also proposed two new amendments embodying sections 7 and 11 of the administrative paragraphs of the law of 1890. He also gave notice that the amendment heretofore offered by Mr. Spooner (Wisconsin), providing for a comprehensive tariff inquiry by three members of the board of ap-pralsers, would be inserted on page 213. This last amendment subse-

quently went over. Section 6, as reported by the com-mittee, relating to the internal revenue tax on tobacco and snuff, was struck out, and section 7, relating to the tax on cigars and cigarettes, was agreed to as reported. The sections relating to protecting trade marks also were agreed to.

The sections relating to the free admission of lumber cut in province of New Brunswick when owned by American citizens, were agreed to with

American citizens, were agreed to with a further proviso that the lumber shall be cut "by American labor."

After the first reading of the bill had been completed, Mr. Jones announced that, in view of the new amendment on sugar bounties, the senate would be in session "a good long time." It could not be passed without the fullest discussion. The dorr dears the senate would be in session. not be passed without the fullest discussion. The dog days were here, and the weather was intensely hot. Therefore, Mr. Jones proceeded decisively, he thought it well to give up the early daily mt. Ags of the session, resuming the 12 o'clock session, and thought it desirable that the senate now adjourn.

Mr. Allison responded that he thought the bull mrs. thought the bill was to be passed to-

In surprised tones, Mr. Jones ans-In surprised tones, Mr. Jones answered that such an idea was preposterous. With this bounty question brought in, could it be possible to expect the passage of the bill this week or next week, or the week after next? He was absolutely astounded, he said, to have this proposition brought in at the last moment. He again expressed hope that 12 o'clock sessions and an adjournment for today would be agreed to.

Mr. Thurston (Neb. who had been conferring with Mr. Allison took the floor. He spoke of the part he had taken in urging this beet sugar bounty, and his earnest wish that it be incorporated tenter.

made with impressive effect and was received with awe-like silence by senators and spectators.

Mr. Allen (Neb.) the colleague of Mr. Thurston, took the floor and said he had not been present when the threats of filibustering had been made.

"There were no threats of filibuster-ng," interjected Mr. Pettus (Ala.) If there had been such threats, pro-needed Mr. Allen, he thought he might take a hand for a few weeks, or a few months. He earnestly supported the bounty, and said he regarded it as cowardly to abandon it.

"If my colleague withdraws it, then I will renew it," concluded Mr. Allen. Mr. Allison said that in view of what had occurred, he concurred in what the Nebraska senator, (Thurston) had said, that it was not best to introduce any question which might prolong the debate. After defeating an attempt by Mr. Stewart, Nevada, to reopen the clause as to cyanide of potassium, Mr. Allison presented the new amendment proposing to stamp taxes on bonds, de-bentures, certificates of stock, etc. It was very voluminous, and Mr. Allison explained by saying that, while formidable in appearance, it was in reality simply providing a stamp tax of five cents on every \$100 of debenture, etc., and two cents on every \$100 of transfer of stock, etc. He modified this so as to except building association stocks and bonds and allowed the amendment

If matters are not put right soon, the scenes of 1857 are likely to be rewitnessed there, as neither the Hindoos nor the Mohammedans will tolerate the persecution of their wives and children for any length of time. It is the misfortune of the people that the honor, religion and modesty of women, safe even under Mogul ruie, should be violated under the enlightened English government. We wonder why no notice is taken of the shameful doings of the soldiers in Poonah. They are, perhaps, secretly instigated by the government to do these things in retaliation for the tortures once inflicted upon Europeans by the Tantra Topi and to punish the capital of the Deccan for taking the lead in all public agitations. Replying to a question in the house of commons Lord George Hamilton, the secretary of state for India, said the government was fully alive to the gravity of the case and meant to act promptly. It is difficult to conceive what would then become of English agriculture. Rents could not be pald. The American advocates of the competing metals must win the farmer's vote and they can only win by con-ceding their demand, which, if protec-tion is reasonable at all, must be absolutely just. Why should other industries be protected and the oldest and best be left out in the cold? The expense will delight the friends of President McKinley, who wish to deplete and not to fill the treasury."

BERLIN, July 3.-The cabinet crisis which has been dragging for weeks has reached another stage, hardly less curious than the previous one. It is believed in political circles that Baron von Bulow, if he shows the necessary capacity and ability to secure the support of a majority of the diet and the reichstag, will be Prince Hohenlohe's cessor, the post of foreign secretary in that case going to Count von Kid-erlen-Wachter, the emperor's favorite and the present German minister at Copenhagen. The Vossische Zeitung (Advanced Liberal) compares the conditions here with those prevailing in Turkey and Russia, saying that "in Turkey a pasha is today a finance minister, tomorrow a general and the day after minister for foreign affairs. The same is with us today." One of the most curious features of

the present situation is that Prince Hohenlohe refused point blank to countersign the appointment of Gen. Podbielsky as the successor of the late Dr. Stephen as imperial postmaster, and left Berlin for his estate in a hur-On the other hand, it is reported in official and court circles that the emperor will visit Prince Hohenlohe at Schillingfuerst later in the summer. The visit of Prince Hohenlohe and Baron Bulow simultaneously to Prince Bismarck is taken as an indication of another reconciliation, and the whole of the Bismarck press is writing in a tone of satisfaction on recent events, claiming that the old Bismarck force of politics, especially foreign politics, and the repressive measures against socialism will be renewed. It is certain, however, that the whole situation has not been cleared up, and additional surprises may be expected at any hour. surprises may be expected at any hour.

The letter which emperor William addressed to Dr. von Boetticher, the retiring vice president of the council of ministers and minister of the interior, is taken to indicate that his majesty proposes to make Dr. von Boetticher president of a Prussian province, probably Hanover. It is rumored that Von Wedel, the former German minister at Stockholm, will succeed Baron von Bulow as minister at Rome. It is stated that Count Wilhelm Bismarck, president of East Prussia, will be transferred to the presidency of Schlesswig-Holstein and that he will be succeeded in his present office by Dr. von Koeller.

WASHINGTON, July 3.-There quite a flurry of interest in the Cuban question in town last night when it became known that Secretary Alger had intimated to Capt. Taskar R. Lieut. George L. Dyer, the naval attache, also proposes to go to naval attache, also proposes to go to Madrid unaccompanied by any member of his family. Washington, July 3.—The Minnesota and Wisconsin delegations in congress are not disposed to allow the pine tariff to rest without a restoration of the \$2 rate. Their first effort will be to get a reconsideration of the vote in the senate by which the duty was cut from \$2 to \$1. Telegrams have been sent to absent senators who are known to favor the retention of the duty on lumber as fixed by the finance committee. Dispatches are also being sent to interested congressmen and lumbermen in the Northwest asking them to return to Washington and assist in making a fight to have the duty restored. If the senate fails to reconsider, the contest will then be waged after the bill goes to conference committee.

There has been no regular programme mapped out for the days to be spent in Washington, and today the members are scattered over the city, visiting the old places made pleasant by the associations of thirty-four or thirty-five years ago. There is some talk that in the absence of President McKinley, the visitors from Minnesota may be received by Vice President Hobart. It is not known, however, whether the veterans will care to meet Mr. Hobart, as they are engaged in outside trips to Mount Vernon, their old camping ground at Poolsville, Md, and, many also contemplate visiting Buil Run, where their military experience commenced thirty-five years ago. The members of the party are in good health and spirits. Governor and Staff Do Washington

Sleepers Full of Them Coming in on the Omaha This Week.

The Omaha road will bring in a goodly share of the horned brethren this week, and already the running time of some of the specia's has been decided upon and made

specials has been decided upon and made public.

Both the early morning and day trains on this road will bring in extra sleepers tomorrow containing Elks from just east of Chicago, one sleeper full of Elks from Meadville, Penn, on the Erie road, and others from Camden, N. J. A special reaching here at 8:30 Tuesday morning will bring in six sleepers of Elks from Massachusetts and Connecticut, while in the afternoon a second special will deliver to the convention city four sleepers, with the New York and New Jersey contingent. On Thursday, July 8, there will be three specials during the day from Stillwater, Mankato and Duluth. It is expected from the latter place that not less than 600 Elks and their friends will come in on the train.

The Omaha passenger people have not completed their list, but estimate that they will handle not less than 1,000 of the persons who come to the convention.

ne to the convention Michigan Central's Souvenir.

General Passenger and Ticket Agent O. W. Ruggles, of the Michigan Central, has just issued a decidedly tasteful souvenir booklet relative to the national encampment of the Grand Army at Buffalo. The booklet is printed en calendared paper, and upon the leaves, in half-tone effects, are the portraits of all the commanders-in-chief, with a quantity of interesting information put together in brief manner about the encampment city, Niagara Falls, and the encampment gether in brief manner about the encampment city, Niagara Falls, and the encampment in general.

The edition is limited, but the members of the local Grand Army posts can secure copies upon application to Walt Wyand, Northwestern passenger agent of the Michigan Central.
