

BULLETIN OF THE ST. PAUL GLOBE

MONDAY, JULY 12, 1897.

Weather for Today—Fair; Rising Temperature.

PAGE 1. Turk Still Declines to Yield. Senate Afloat of Currency Question. Sunday Conference on Tariff. Republican Leaguers in Detroit. Status of the Big Mine Strike. Dam at Anoka Gives Way. Congressional Forecast. Cuban Forces Concentrating.

PAGE 2. Death of Mrs. Hasenwinkle. School Board's Budget Ready. George Swanson Drowned. Scandal at North St. Paul. St. Boniface Church Dedicated.

PAGE 3. Father Cleary's Silver Jubilee. Minneapolis Matters. River Bepoming Dangerous. Endeavorers Have a Day of Worship.

PAGE 4. Editorial. Rich Purses for the State Fair. Plenty of Moisture for Crops. Comment on Pardon of Youngers.

PAGE 5. Saints Shut Out the Cripples. Miller Defeat Brewers in Tenth. Buckeyes Win From Bobolinks. Results in the National. Entries at Henley. Resources of Hawaii.

PAGE 6. Gold Mining in Minnesota. World's Markets Reviewed.

PAGE 7. Wonderful Typewriting Machine. Barber Talks of Great Men. Wants of the People.

PAGE 8. Globe's Great Vacation Offer.

EVENTS TODAY. Lexington Park—Base Ball, 3.45.

Much of Mr. Rockefeller's trouble is ore.

Japan is working its protestor overtime.

The weather man is just beginning to get into the game.

They say the chainless bicycle is going to be more popular than the chainless dog.

This is the time to announce that the climate of Minnesota is the finest on earth.

The manufacturers of the East are hustling for coal, while most of us are looking for ice.

A Utica, N. Y., ice man died Saturday from sunstroke. He should have known enough to stay in his own ice house.

It is stated that Fitzsimmons and Sullivan will star together. The Kangaroo will be the big star and Sullivan the satellite.

It is said Fitzhugh Lee will be permitted to remain at Havana. This is proper. Lee is conspicuously the right man in the right place.

Ex-Senator Washburn announces that he is not done, but that he will distribute circulars in China. This will be "Chinese" to the Chinese.

If it could be so arranged that St. Paul could play with Kansas City all the time, this town would fly the Western league pennant next year.

A mine at Rossland, B. C., declared two dividends in one week. Steady there! You are likely to drive some of your stockholders to riotous living.

Mrs. Langtry is setting up the pins so that very few people will ever mention her name again. She is going to marry Prince Esterhazy de Galantha.

Capt. Carl Fildet, of New York, has built a boat which looks like a fish. It won't swim like a fish, however, as it must keep its back too far out of water.

Mr. Quay announces that he will again be a candidate for the United States senate. This isn't so surprising as it might appear to some people.

The sun hatched out a basketful of eggs at Webster City, Io. This must have happened before the July hot spell. That would have cooked the eggs.

The girls do not care these days to read about new ideas in dress. They are looking for these cloth that is a little thinner than any they ever saw before.

The parliament of Iceland will assemble this month. The ice supply is one of the subjects it will consider. Iceland has far more ice than flies and mosquitoes.

Chauncey M. Depew really, truly wants to be the first mayor of Greater New York. He intimates that he wants it because he is a good American. There are others, Chauncey.

Mark Hanna has taken to dreaming that he ought not to have gone into politics. Something more realistic than a dream will strike Mark, if he will keep his head in sight long enough.

Perhaps the bicycle leads on to fortune. One of the most prominent cyclists in New York state, George R. Bidwell, has been made collector of the port of New York at a salary of \$12,000 a year.

Well, well, well! One Englishman with a title isn't going to marry an American girl. The Duke of Manchester asks for a contradiction of the report that he is engaged to Miss Mary Golet, of New York.

President McKinley is selecting some very "good" timber from Minnesota. He has named Goodnow for consul to Shanghai and proposes to send Ozmun to Stuttgart. Tim Byrnes is waiting just outside the breastworks.

GREATEST OF MINE STRIKES.

Already It Has Reached Proportions Astounding to Operators and Men.

VIRGINIANS HOLD THE KEY. MINE OWNERS REAP PROFIT.

The Fact That They Are Working Night and Day Weakens the Position of the Strikers—Strong Effort Will Be Made This Week to Bring Them Out—Miners Greatly Elated at the Situation as They See It at Present.

PITTSBURG, Pa., July 11.—Today marks the beginning of the second week of the coal miners' strike, and already it gives promise of being one of the greatest wage struggles in the history of this country. Eight days ago the coal operators in this district and the miners themselves little dreamed that within one short week such an era of general suspension would be wrought as now exists in the bituminous mining industry. On the hillsides there is an army of 18,000 unemployed, who are anxiously waiting for more to join the troops of idlers.

The success that has attended the movement has greatly elated the miners, and during the next few days every effort will be made to bring out the men in the few mines that are still working. This will be a difficult task, but they express confidence in their ability to make the suspension complete before the week is forty-eight hours old.

Flood Bursts Its Bonds.

Gigantic Wave Coming, Result of Break in Anoka Dam.

ANOKA, Minn., July 11.—The coffee dam on Rum river gave way this morning about 10 o'clock, and a heavy and simply menacing beginning all over again. The flats were submerged, and the lower river rose rapidly, subsiding in about an hour. The water power is the property of the Pillsbury-Washburn Flour Mill company, and repairs were being made by them. The river is reported falling above. A great volume of water rushes through the gap today.

Cubans Concentrating.

Gen. Diaz in Command in Pinar del Rio—Fever Decimates Spanish.

NEW YORK, July 11.—A dispatch to the Herald from Havana says: Maj. Gen. Peirce Diaz has assumed command of the insurgent forces in Pinar del Rio province. The rebel army of the province is being thoroughly reorganized and put in fighting trim to cooperate with the Eastern army, if the latter succeeds in reaching Havana province.

The Spanish have destroyed a number of small forts because they cannot spare men to garrison them. An engagement took place this week near Artemisa, in which the Spaniards lost heavily. Over 400 sick and wounded men have been sent to Havana. In Matanzas town there are over 5,000 concentrados, of which over fifty die every day. The Spanish troops have been ordered not to eat mangoes, but they disobey the order because they have nothing else for food. Mango diet aggravates fever. During the last ten days over 8,000 soldiers were taken to the hospital there.

all the surplus coal taken from the market. The new features in the situation today were the arrival of the Ohio and Indiana state boards of arbitration at the meeting tonight of the United Labor League, of Western Pennsylvania, and the report that a movement was being made to buy coal in this city to fill their contracts.

MILWAUKEE, Wis., July 11.—That the coal miners' strike is already showing its effect is evidenced by the fact that Chicago dealers are trying to buy coal in this city to fill their contracts. Out of 200,000 tons of soft coal, all but 50,000 tons have been contracted for, and it is figured that the supply on hand will last but ninety days. The demand for coal is also so great that the prices ruling in the open market today are nearly double the contract price at which coal is delivered. For example, coal that has been bought on contract for \$1.65 up to \$2.12, according to grade, is now selling at prices ranging from \$2.25 up to \$3.50 a ton. The railroads are uneasy over the situation.

Relief for the East.

Several Hundred Minor Amendments Agreed Upon, the House Receding From Its Position in Nearly Every Instance—Compromise in Sight on Important Points Such as Lumber, Hides, Wool and Possibly Sugar.

GOOD PROGRESS MADE. REGARDING RECIPROcity.

WASHINGTON, July 11.—The conferees of the tariff bill held a four hours' session today. The anxiety to reach a complete agreement as early as possible induced them to meet on the Sabbath, and tonight both the house and senate conferees appear satisfied with the progress that has been made. Several hundred of the minor amendments have been agreed upon, many of them mere changes of phraseology, and on a large majority of these the house conferees naturally have yielded. None of the real important problems in the bill, however, have as yet been solved. All of them have received more or less consideration, and there has been a free exchange of opinions. The temper and disposition of the senate and house conferees on these important matters have in this way been ascertained.

LA CROSSE, Wis., July 11.—A severe hail and rain storm occurred at West Salem today. Crops are believed to have been much damaged. A man who walked in the rain, and whose report is as large as his fist fell, and had he not taken refuge under some thick bushes he would have been killed.

LA CROSSE, Wis., July 11.—A severe hail and rain storm occurred at West Salem today. Crops are believed to have been much damaged. A man who walked in the rain, and whose report is as large as his fist fell, and had he not taken refuge under some thick bushes he would have been killed.
