OPENING OF THE SILVER JUBILEE REGATTA OF THE AMATEUR OARSMEN.

ARIEL CLUB, OF BALTIMORE,

AND INSTITUTE CLUB, OF NEW YORK, WINNERS OF HEATS IN SENIOR FOURS.

HIGH SCHOOL BOYS SUCCESSFUL

Worcester Wins the Final and Only Heat in Intermediate Eight—The Summaries.

PHILADELPHIA, Pa., Aug. 13.—The first day's races in the silver jubilee regatta of the National Association of Amateur Oarsmen were rowed today over the national course on the Schuylkill river in Fairmount park.

Today's racing consisted of trials in intermediate singles, senior four shells, intermediate singles, senior fours, international four shells and the final and only heat in the intermediate eights. Of these the feature events were the two senior four heats and the final intermediate eight. The Ariel club, of Baltimore, won the first of the former by a half length and the Institute club, of New York, the second senior four heat in a magnificent dash. In the eights, the Worcester High School Athletic association took the lead at the crack of the pistol, maintaining it throughout, with the Montrose and Fairmount clubs, both of Philadelphia, following closely in the order named. In the remaining events, the Wauchois club and the Columbia Rowing association, both of Massachusetts, won the first two heats in the intermediate shells and the Narragansett club, of Providence, the third heat. The Pennsylvania Barge club, West End Boat club, of Boston, and the Bradford club, of Cambridge, Mass., won respectively the three heats in the senior singles, while in the international fours the Institute club, of Newark, and the Argonauts, of Toronto, each won a heat. All the events, with the exception of the international fours and the intermediate eights, were three-quarters of a mile and return. The exceptions were one and a half miles straightaway.

The day was perfect for sculling and the course was almost without a ripple. There was a light breeze. Every precaution was taken to police the course and keep it clear of river craft and in only one instance was there any interference with the racing. This was during the intermediate eight. The New York club, which was the favorite, was held up by the Montrose club, when a yawl boat shot across its bow and struck it hard, causing the yawl to lose its way and the Montrose to claim the action was deliberate on the part of the man in the yawl. The police immediately placed him under arrest. The Montrose did not get another crew back and New York was unable to finish.

Much comment was indulged in over the Montrose's failure to compete in the senior singles. The first race, the intermediate singles was called for 2:30 o'clock. By that time the river was crowded with spectators. The Montrose club, soon caught him and pulling about a thirty stroke, made the turn at the three-quarters flag first and kept the lead to the finish, crossing the line first. The Montrose crew consisted of the following: Charles Cressent caught the shot by a fraction in the first heat of the senior fours, and about a quarter-mile from the start, forced the Ariel club to give up. The crews were brought back to the start and got away together. Staten Island led for awhile, but Ariel and Cressent took the lead. The Montrose crew did not get another crew back and New York was unable to finish.

ST. LOUIS, Mo., Aug. 13.—All the cracks expected here to take part in the Zimmerman regatta, which is being held at Southside park, have arrived and are in fine condition for the contest. Ex-Champion Zimmerman, who is the favorite, is in fine condition. In addition to a long list of professionals, a number of well-known amateurs will take part.

Steps Taken to Exclude Anarchists Expelled From Europe.

NEW YORK, Aug. 13.—Commissioner General Powell has requested the treasury department to cable to United States consuls in Europe and principally to those in Spain, France, Italy and Germany, to keep them advised of the sharp lookout for anarchist emigrants to America and to notify him by cable when anyone of them embarks for the United States. The plan is to deport as fast as they arrive.

One Man Killed in the Disaster on the K. & T. Railway.

ST. LOUIS, Aug. 12.—Information from the headquarters of the Missouri, Kansas & Texas railway, in this city, to the effect that the wreck on the K. & T. railway, which was derailed near Caddo Mills, between forty and fifty miles north of Dallas, Tex., about midnight last night, and in which three men were killed, and three more were seriously wounded, has been ascertained by design, but whether it was the result of robbery or through slip, is not yet known.

FATHER AND SON DROWN.

LOUISVILLE, Ky., Aug. 12.—Special to the Evening Post from Spottsville, Ky., says: It is reported from a point above here, that Wallace G. Collins, who, for the past five years, has been general superintendent of the Milwaukee road at Chicago, was to be made general manager of the Great Northern. The fact that Mr. Collins was in the city yesterday and spent some time with Great Northern officials, gave color to the story, which they say that the view is expressed that it will be a long time before the Great Northern has another general manager. Mr. Collins is an experienced railroad man, having come up from a comparatively modest position with the Milwaukee to the berth which he now occupies.

Railway Men Think the Selection of Mr. Winter's Successor a Good One.

Within a short time the St. Paul union depot will be subjected to a thorough overhauling, when a number of material improvements will be made which will make the big building better adapted to the constantly increasing traffic which is being carried on. This determination was reached at a special meeting of the union depot company, held yesterday morning, when all the lines members were represented, and the work will be begun at an early date. In the first place the depot will be extended for its entire width, 120 feet, to the sidewalk on Sibley street, a distance of exactly 60 feet, and this space, or the major portion of it will be utilized as a general waiting room for ladies waiting on the ground floor, as well as that on the second floor, will remain unchanged, although it will be necessary to change the position of the main staircase leading to the upper one.
