MINNEAPOLIS GLOBELES.

The force of men employed in the Milwaukee shops has been increased by fifty and the institution is running full time also.

The illness of J. H. Dumbore, who was city assessor of Minneapolis for many years, has taken a critical turn, and he is confined to his home, 37 Park street, southeast.

The fortieth annual convention of the Minnesota Christian Missionary society will be held this week at Portland Avenue Church of Christ, corner of Eleventh street and Portland Avenue.

Earl Quirk, eight years of age, was brought here Friday from Waterloo, Minn., and taken to Asbury hospital. The boy was accidentally shot, but his injuries are reported as serious, and he was resting comfortably yesterday.

Judge Elliott has made an order allowing the account of the assignee in the assignment of Ludwig to be collected for \$10, and the attorney and assignee were allowed \$20. The estate pays 25 per cent, and all the money was assigned to the assignee, turning over nothing.

Carroll McCarty, a laborer employed in the big ditch now being excavated from the reservoir to the North side pumping station, was struck in the head by an iron cap Thursday afternoon and followed by a stone from his head. He was taken to his home, where his injury was found not to be serious.

KIDNAP HAS THE FEVER.

Alderman From the Third Will Go to Klondike.

Ald. Joseph Kitchie, he who has been such a shining light in ward politics, has determined to follow the Klondike trail. His plan is to take along a marine engine and a team of oxen, by devoting which to the purpose for which they were intended, he expects to make quite as much money as the miners are undergoing such terrible hardships for. He also expects to take with him a mixed stock of merchandise to sell to the natives at fancy prices.

"I believe," said he, "that if a man keeps his eye open for the main chance he can make more money in other ways than in mining."

There is one serious obstacle to his plans which the Third ward statesman has already encountered, and that is the alleged indisposition of certain of his constituents to allow him to escape serving the remainder of his term. It is said that he will get around this difficulty by hiring a substitute.

Weak Men and Women

When Medicine Fails—What Then?

Skillful, scientific medical treatment has accomplished much in the relief and cure of the various ills which afflict humanity, and it would be strange, indeed, if generative debility alone had resisted its efforts. The number of well-authenticated cases in which considerable benefit has been experienced by appropriate medical treatment are too numerous to doubt its efficacy. But while giving due honor and credit to medical treatment, it must be admitted that in nearly all cases, owing to peculiarities in the constitution or certain individual idiosyncrasies, this method of treatment will fail.

It is in these obstinate chronic forms of seminal and nervous debility and loss of sexual power that electricity in advanced stages of seminal weakness and nervous debility, with streaming out from them through every nerve and fiber of the body, to the vital organs, the heart, liver, lungs, stomach, the bladder, seminal vesicles, prostate gland and testicles, renders powerful assistance in restoring the organism to health and vigor.

Its effect upon the nerves is that of a powerful nerve-tonic. It generates new life and energy, and tones up the relaxed, weakened and shaky nerves, seminal weakness exerts its most pernicious effects. The reaction of the sense of the organs, natural or unnatural, is primarily upon the nerve-centers, and from them the injurious excitation is reflected to the generative organs and to all parts of the physical system.

Dr. Sanden's book "Three Classes of Men" and "Health, Strength and Vigor," which latter book is especially written for ladies, can be had free at office, or will be sent closely sealed, free from observation upon request.

Remember particularly that everything about Dr. Sanden's Electric Belt is warranted for one year, and if anything about Dr. Sanden's Electric Belt it will be repaired free of charge. As to power of cure, we guarantee that our Belt will generate stronger and more lasting ones than any other

MIXERS OF PILLS

THE FIRST DELEGATES TO THE DRUGGISTS' CONVENTION WILL ARRIVE MONDAY.

A THOUSAND ARE EXPECTED.

ALL ARRANGEMENTS COMPLETED TO MAKE THEIR VISIT A GREAT SUCCESS.

AN ADDRESS BY SENATOR DAVIS.

He Will Extend a Welcome on Behalf of the State of Minnesota.

Tomorrow evening the first delegates will arrive for the meeting of the American Pharmaceutical association, and by Tuesday evening over 1,000 druggists are expected at Lake Minnetonka, where the sessions of the association will be held. The special train from Chicago will arrive Tuesday morning at 7 o'clock, and will be pulled directly out to the Lafayette.

The 1,000 or more delegates who are coming from the East by way of the great lakes and Duluth will also arrive in Minneapolis Tuesday morning, and the special train from North Dakota is expected at the same time. President Joseph E. Morrison, of Montreal, will arrive with the party from Duluth, and he will at once take up his headquarters at the Lafayette.

All cities seem to like the druggists and many are after the convention for next year. Those who are in the lists and who will come prepared to make a hard contest for the honor are Richmond, Va., Nashville, Tenn., Baltimore and New York city.

An important and very pleasant announcement was made by the local arrangements committee yesterday in the fact that Senator Davis had consented to make the address of welcome to the delegates. He is well known in the East, where most of the delegates come from, and his presence and eloquence will add much to the felicities of the occasion.

Local Secretary Shumpik was very busy yesterday making preparations for the reception of the delegates. They will be met at St. Paul when they arrive over the different routes and their entrance to Minneapolis made pleasant. The badges and system of registration is original with Mr. Shumpik, and is a modification and combination of the best that has heretofore been used here. There is a coupon book numbered and slips enclosed with transportation or admission tickets for all the forms of entertainment provided for the delegates. The purple ribbon which is the back ground for the badge is also numbered to correspond with the coupon book. A directory of all delegates and visitors with their names will be printed and then each can be easily identified and all confusion avoided. The badge is pretty and unique. It bears a lithographed photograph of Minnehaha Falls, and the words "American Pharmaceutical Association" above, and "Minnetonka, August, Minnesota" below. A druggist's balance with a mortar and pestle completes the design.

ARE WHEELS EXEMPT?

Test Case to be Taken to the Supreme Court.

The question as to whether or not bicycles are exempt from execution by Sheriff Phillips. The case of J. P. Shadwell vs. H. O. Foster came up before Judge Elliott in which the question was in dispute, and the matter was taken under advisement. It appears that an amendment to the law of 1878 was passed in 1885, which inserted bicycles in the list of exemptions. In 1897 there was another amendment which named sewing machines, typewriters, and other non-mention bicycles. The claim of the plaintiff is that the amendment set aside all other laws, while Mr. Lynch, for the sheriff, contended that the last amendment only repealed the original law, and left the first amendment in 1885 still standing, with the new additions. The case is an important one, and the decision will be watched with interest.

AN ODD ACTION.

Small Boys Defendant in a Damage Case.

There are all kinds of damage actions in a year. Last winter Ida M. Thompson slipped and fell upon the icy sidewalk from North Dakota and her husband, Joseph P. Thompson, commenced separate actions against the city of Minneapolis, Robert Gould, Raymond Kenyon, Clayton Darrow and Army T. G. Mackenzie, for damages. Three of the defendants are small boys, who flooded a lot, and made for themselves a skating rink. The water was frozen and the boys, and that is why they are made parties to the action, and appear by guardians to answer.

SERIOUSLY INJURED.

Feasus Carlson, of 25 Harrison street northeast, was severely injured yesterday afternoon, while driving a team with a load of hay in the vicinities of Johnson and driving down a hill the team became frightened and ran away, throwing Carlson out. He was taken to the hospital, and at first he was supposed to have sustained a fracture of the spine, but afterwards it was learned that he had a fractured rib, and a dislocation of the lower limbs, with which he was again afflicted after the accident.

"Dutch John" Dead.

Peter Johnson, better known to his associates as "Dutch John," expired without warning at his room, 295 Twelfth avenue south, at 2 o'clock yesterday morning. He had been sick for a number of months, and, although almost recovered, was still weak. He was found by a neighbor, who called on him, and returned home last night very tired. After partaking of a light supper, and while sitting at the table, he fell almost into the arms of his housekeeper, Mrs. Lily Bentine. He died before help could be rendered.

SAVAGE KING SURRENDERS.

Monarch of Benin Comes Under the Power of England.

LAGOS, West Coast of Africa, Aug. 21.—The king of Benin surrendered today, Aug. 5 to the British authorities, after wandering in the bush since the capture of Benin City by the British in February last, as a result of the massacre of an unarmed expedition under Consul Phillips. He entered Benin City, preceded by a messenger bearing a white flag and followed by 800 unarmed blacks, ten chiefs, twenty wives and a reed band playing native music. On Aug. 7, the acting political residents received the king's obsequies in front of the palace. The king was covered with coral ornaments, and his arms were supported on each side by natives. About 400 naked natives and many chiefs gathered about the king. The latter at first expressed a desire to make his submission privately to the president, but the British representative insisted that he should appear, after having consulted with his chief ministers, an obsequies, rubbing his forehead three times upon the ground. Ten of his most important chiefs did the same, and the ceremony was concluded.

OVER THE DOLLAR MARK.

Three Wheat Options Above That Point at St. Louis.

ST. LOUIS, Mo., Aug. 21.—The wheat market here made new records today on all options as well as cash, selling and closing at a good advance over the dollar mark. It was the first time in six years that the prevailing option on wheat sold above \$1, and the first time in the history of the exchange that sales of more than \$1 a bushel were made in three options during the same session. In addition to this cash sold at \$1.05, traders hardly dared to do anything until the opening of the market, Chicago were known. This gave them a cue, and the trading began. December, the principal option, which closed at 97 1/2 cents on the previous day, opened 2 1/2 cents higher, advanced 7 1/2 of a cent more, declined 1 1/2 cents and subsequently advanced 2 1/2 cents, closing at \$1.02 1/2. The top September option opened at \$1, an advance of 3 cents over yesterday, while the first deal in May was a sale at \$1.03, which was 3 1/2 cents higher than yesterday's close. September after fluctuating between \$1.02 1/2 and \$1.02 3/4, the top figure and closing price. May went to \$1.05 1/2, but after the closing had fallen 1/2 a cent. Despite the fact that today's advance was a record breaker, trading was not heavy.

TO AID ROADS.

Text of the New Law Adopted by Venezuela.

WASHINGTON, Aug. 21.—The text of the new law of Venezuela, granting subsidies for railroad construction, has been sent to the state department by Consul Plumacher at Maracaibo. It authorizes the president to grant rail-road concessions for 100 years and exclusive concessions for 50 years. The permanent roads subsidies may be given of 20,000 bolivars per 20 kilometers of level road, 40,000 bolivars on broken or swampy roads, and 60,000 bolivars on mountain roads. On prospective roads, the subsidies run from 10,000 to 20,000 bolivars per 20 kilometers. Railroad contractors must pay 20 bolivars per kilometer and must deposit up to 100,000 bolivars as a guaranty of completing the road. Concessions cannot be transferred to foreign governments.

CORTES CALLED.

New Premier Approves of the Policy of Weyler.

SAN SEBASTIAN, Aug. 21.—Gen. Azcarraga, the premier and minister for war, has decided to convoke the cortes in November. The premier announces that he is in accord with Gen. Weyler, but he reserves the right to make a further examination of the Cuban question. In conclusion, the premier proclaims himself as being the head of the government, and not the leader of any party.

LOTS OF TITLES.

Special to the Globe.

WINNIPEG, Man., Aug. 21.—F. C. Wade, a barrister of this city, has been appointed registrar, crown prosecutor and clerk of the court for the District of Yukon, with headquarters at Cuddey.

Manitoba Yield.

WINNIPEG, Man., Aug. 21.—Manitoba crop bulletin, issued this afternoon, places total wheat yield of Manitoba at 21,284,374 bushels, the average per acre being estimated at 16.9 bushels.

JAPAN'S SIDE OF IT

CLAIMS WHICH THE ORIENTAL COUNTRY WILL MAKE AGAINST HAWAII.

OPPOSED TO ANNEXATION.

STAND ON THAT POINT WILL NOT BE ALTERED BY ARBITRATION.

GENERAL NEWS FROM FAR EAST.

A Marine Muddle is Giving Trouble to the Powers That Be in China.

SAN FRANCISCO, Aug. 21.—The steamer Coptic, which arrived today from Yokohama via Honolulu, brought the following news from the Orient.

The Japanese government is preparing to publish all correspondence and proceedings in the controversy with the Hawaiian government in the event of the matter being submitted to arbitration. It will insist upon the settlement of the following claims:

That the action of Hawaii in refusing the landing of the Japanese was a flagrant violation of the treaty.

That the Hawaiian government is responsible to pay damages resulting therefrom.

That the Hawaiian government is required to establish a guarantee to avoid future trouble of a similar kind.

The Japan Times, commenting upon the subject of annexation, says: So far as Japan's attitude toward annexation is concerned, it will remain unchanged even after the settlement of her trouble with Hawaii. Her attitude has and will be opposed to annexation by America, not because she harbors any ambitious designs upon those islands, but simply and solely because she is desirous of guarding the legitimate rights of her nation there.

A very severe and prolonged earthquake shock was experienced at Yokohama and surrounding towns on July 22. Eight people were trampled to death during the crush at a public festival at Koshi on July 22. During a blockade on the Tenjushiji bridge, a party of young ruffians attempted to force their way through the crowd. About forty people were knocked down, and a panic ensued with the result that eight were killed and fifty or more seriously injured. A cart load of umbrellas and other articles was removed from the scene by the police after the crowd had dispersed.

As soon as the steamer China docked on her arrival from San Francisco, on Aug. 11, G. W. MacFarlane, who claimed to be her owner, called upon the collector of customs and requested that he be given a permanent register. The collector, however, refused. The matter was then taken into the courts, and on the 13th, a writ of mandamus was issued. The depositions of G. W. MacFarlane and John Seabury were taken on Aug. 14. The latter testified that the steamer had been running in the Pacific Mail line between American, Hawaiian and Oriental ports. The vessel cost \$750,000, he said, but could be built today for \$600,000. He could not apprise her value, but he had heard Capt. Metcalf, Lloyd's surveyor at San Francisco, remark in his presence that the China was not worth more than \$200,000.

MAINE MULLDLE.

MacFarlane then took the stand and repeated the history of how he purchased the steamship, giving a mortgage to the collector of customs, and had secured a provisional Hawaiian register for her in London and how he had applied to the collector for a permanent register, and giving all the requirements of the law in every particular. He stated that he had not signed an agreement to transfer the China back to the Pacific Mail company nor had he signed any agreement to stand on the one mentioned. On cross-examination, however, MacFarlane admitted that he was merely the nominal owner of the China, and that he had received \$4250 for his share. He succeeded in securing a permanent register.

The matter has created a great deal of interest in government circles, and it is believed the court will sustain the stand taken by the executive. The day after the steamer arrived the cabinet met and considered the matter. After the meeting Minister Koopler said: "The executive has authorized me to extend the sea letter of the China to Honolulu, in London, until the steamer can reach San Francisco; then the sea letter will expire. The Hawaiian government has finally determined not to grant the China a permanent register."

When the annexation treaty was in the hands of the foreign relations committee that body wanted to recommend that no foreign vessels other than American should be granted American registers while the treaty was pending and refrained from inserting the clause which would give the Hawaiian government to Minister Sewall, which were wired by him to Washington. This government intends to keep faith with the Hawaiian nation and will not grant a register to the China.

Capt. A. G. S. Hawes, British consul to Hawaii, died at Hilo on the sixth, aged fifty-five years. A carbuncle was the cause of his death. His remains were brought to this city and buried with military honors.

Admiral Miller took command of the Pacific squadron yesterday, relieving Admiral Beadles, who will depart for Washington to act as president of the naval examining board.

Lorrin A. Thurston, now in Washington, will be appointed secretary of the Hawaiian legation in place of Frank Hastings, deceased.

The British ship Penguin left for the south on the 13th.

GRAIN IN STACK.

Special to the Globe.

NEW PAINESVILLE, Minn., Aug. 21.—The farmers of a few who had sown some fields of oats late in the season, have all finished cutting, and probably one-half, if not more, of the grain is in stack. The past two weeks have been very fine weather for harvest work of all kinds, and the farmers have taken advantage of it. The yield will not be what was expected, and the prevailing opinion seems to be that the yield will be below the average. Some farmers are inclined to place the grade to be not above No. 2, but that hardly seems probable, and that the quality will be No. 2 by far the more general opinion. Very little No. 1 will be handled by the farmers or others from this section. Oats will be a good average crop.

EXEMPT FROM TAXATION.

OSHKOSH, Wis., Aug. 21.—Judge Barnell held today in the suit of the Alexis Brothers' hospital against Winnebago county, that such institutions are exempt from taxation. His decision was in accord with that of a similar case by the supreme court. The city is entitled to exemption from collecting taxes on the Alexis Brothers' hospital. The same action was taken in a case against the Sisters of the Sorrowful Mother.

TAXES VALID.

FARGO, N. D., Aug. 21.—Judge Amidon today rendered a decision in the Bismarck water works case, holding that taxes are valid, but he granted temporary injunction restraining the treasurer of Burleigh county from levying taxes on the water works ground that only part of the plant has been seized; that the plant can only be sold as an entirety.

BUFFALO CROWDED.

Thousands Pouring In for the Grand Army Encampment.

BUFFALO, N. Y., Aug. 21.—Every train entering the city this afternoon and evening has been crowded with delegates to the G. A. R. encampment, and tonight the main streets are crowded as they have never been before. The different headquarters of the local committees are besieged by veterans looking for quarters. Work on the reviewing stands and triumphal arches will go on all night and all day Sunday. It is expected that by Monday morning everything will be ship-shape.

Four thousand children, who are to comprise the living shield, were in rehearsal today on the grand stand that has been erected at Chippewa street and Delaware avenue. They rehearsed as they will sing on the day of the parade, in relays, two thousand in each relay. Thousands of spectators were attracted by the swelling chorus of their voices and
