CONCERT... HE JUST FAILED. BOSTON, Mass., Sept. 4.—Champion Sprinter Bernard J. Wefers just failed by the smallest possible fraction of a second to equal another world's record at the Knights of Columbus field day at Caledonia grove today. He competed in the eighty-yard dash, and in the first heat in the semi-finals ran close to Wendell Baker's records of eight seconds. One watch got eight seconds flat. Another got 8 1/5. The third watch got between eight seconds and 8 1/5 seconds, and it was thought best to let the time go at 8 1/5 seconds. This establishes a record for the distance in competition.

FATAL FLASH OF GAS

SIX KILLED AND TWENTY INJURED BY AN EXPLOSION IN INDIANA.

BROAD RIPPLE THE SCENE.

LARGEST BUILDINGS IN THE BUSINESS PORTION OF THE TOWN BURNED.

NO MORE BODIES AT GLENWOOD.

Total of Fatalities in the Sunshine Mine Disaster Given in the First Reports.

INDIANAPOLIS, Sept. 4.—Two frightful explosions of natural gas occurred in Broad Ripple, a suburb six miles north of here this morning, at 10 o'clock. Five are known to have been killed, and the seriously injured will number between twenty and thirty. The business part of the town took fire, and the largest buildings were destroyed. The city of Indianapolis was called on for help and sent engines and doctors. The first explosion occurred in J. L. Watts drug store, from unknown causes. Five were injured there, and the building was set on fire. Across the street was the Odd Fellows hall, underneath which was Pious Gresh's grocery store. Seeing that the fire was spreading, Gresh and twenty men were removing his stock of groceries, when a crashing explosion occurred in this building. The walls were blown out, the upper floor fell in on the men. Gresh and Jacob Darling, a painter, were taken out dead. The others in the building were badly injured, several of them probably fatally. Nearly every one of them suffered a broken leg or arm. The fire spread from the Odd Fellows' hall, and the drug store ruins in every direction. Five buildings were on fire at once, and were doomed before help could be attempted. The entire community turned out and there was work all day in rescuing the injured, and hurrying calls for help were sent to the city. The hospital and dispensary doctors took the first Ripple car, and the fire department loaded an engine on a Monon flat car and left for the scene. The fire was under control at noon, with five business houses destroyed. The dead: CHARLES YOUNT, Indianapolis. JACOB DARLING, Broad Ripple. PIUS GRESHE, groceryman, Broad Ripple. HENRY ERNEST, laborer, Broad Ripple. TWO UNIDENTIFIED, dead, one supposed to be John Porter, a laborer. The injured: Edgar Watts, badly burned; Frank Watts, head cut by glass, seriously hurt; Edward Morris, shoulder dislocated, compound fracture of right arm, seriously burned; Joseph Wambaugh, had cut about the eyes, condition serious; J. P. Lumber, cut by flying glass; W. F. Privity, cut across the head and face; F. Featherstone, bruises on forehead; Orville Heady, left knee fractured and leg broken in two places below knee; Charles Jones, cut on hands and all over the body by flying glass; will and all over the body by flying glass; William Bass, cut by flying glass; not serious; C. A. Culbertson, badly bruised and cut, not serious; J. B. Watts, extent of injuries unknown; Thomas Jones, had a serious bruise on forehead; George Kelly, shot a number of times by exploding shotgun shells, condition serious; Thomas E. Smith, bruised about leg from flying glass; Oliver Wright, burned about face and hands; Jacob Cruse, sixty-seven years old, seriously injured; Harvey Dugan, shoulder internal injuries; Frank Dugan, shoulder pierced by broken fragments of glass, cut on head; Clarence Metzger, cut on leg; Amos Day, bruised about head and body, not serious; numerous bruises on body, not serious; Vinton Record, cut and burns, painful, but not serious; John Doaks, back badly injured. At 2:30 it was reported that seven dead bodies had been recovered from the ruins. Of these only three were positively identified. It is thought that the remains of two more may be in the debris. It is supposed that natural gas had accumulated in Watts' cellar, and that some one went in the dark room with a light and a terrible explosion followed. It shattered the building and injured all the occupants. Every house in the suburbs north and west of Broad Ripple felt the concussion and hurried to the scene. The building was a two-story white frame and caught fire from the explosion. Procaught fire from the homes and the hand pipe apparatus was hurriedly dragged to the burning building. There was no water supply at hand, and hose was laid in the direction of White River, but the hose would not reach to the stream, and a large crowd of persons stood helpless as they watched the street crying and wringing their hands. The men who went to the rescue found a fierce fire as well as heavy debris from the building. The work of rescue was slow and heroic to remove the timbers and debris under which they knew their neighbors were buried. The Odd Fellows building was also a wooden structure and it was a seething mass of fire before the first man was rescued. NO MORE BODIES. GLENWOOD SPRINGS, Col., Sept. 4.—No additional bodies have been covered from the Sunshine mine, where twelve men were killed last night by an explosion. The men were preparing to leave the mine on the day shift when the disaster occurred. A shot which shot backward and struck a direct explosion it was what in miners' parlance is called a "blow-out," that is, the powder exploded in the chamber, instead of catching the dust that had accumulated in the chamber, instead of dislodging the seam of coal intended to be raised. At the time of the explosion there was a barrel of gunpowder in the chamber which ignited and aided the disaster which would have occurred through the coal dust in the Sunshine mine, where the disaster occurred, is a peculiar coal, a combination of anthracite and bitumen, and there is a belief that the gathering of the coal dust in the chamber was due to excessive exhaustion caused by a desire to empty the chamber too quickly. In the whole property there were fifty to fifty-five men employed. The single chamber where the men were killed was the only one damaged. Two hours after the explosion occurred the bodies of the dead men were all brought to the surface. As the bodies lay, the faces covered with the black dust and the coal burned away, they were practically unrecognizable. The force of the explosion had completely crushed each one in the twelve bodies, so that the remains were merely a shapeless mass of flesh and bone, and as easily rolled into a knot as though composed of yarn. Three of the dead miners, Louis and John Audyetta and John Jonni, leave unsmiled. This mine is the oldest of the Spring Gulch group. Two entries below the

one in which the accident occurred have been worked out. These two cover a distance of 600 feet above the level of the creek. The slope which proved the death trap of the twelve men is usually the working place of forty others. Yesterday the main force were employed in entry No. 4, two hundred and fifty feet above the level where the explosion occurred. The explosion broke away the stoppage from the low level to the main level, and two working slopes were at once filled with the deadly black damp. An idea of the force of the explosion can be had from the fact that the timbers, many twenty-two inches in diameter, were twisted and broken as though mere pipe stems.

NITRO EXPLOSION. Two Men and a Horse Blown Into Small Bits. MONONGAHELA, Pa., Sept. 4.—By an explosion of nitroglycerine, early this morning, two men and a horse were killed, a buggy completely demolished and the bridge across the Monongahela river so badly damaged that it will have to be abandoned and repaired. Windows in the vicinity were broken and the residents for miles awakened by the concussion. One of the men is believed to be Charles P. Rankin, formerly superintendent of the Watson Mining company. It is supposed that the men had the glycerine in a buggy, and that a sudden jolt caused the explosion.

ATTEMPTED ASSASSINATION. Spanish Anarchist Fires Upon Two Police Chiefs. BARCELONA, Sept. 4.—The man arrested here for shooting two police officials is a native of this city, but he belongs to the Falange group of anarchists. His name is given as Barril. As two police chiefs were leaving the circus here last evening, they were stopped and abused by the prisoner. Barril then fired at officers with a revolver, wounding Chief Portias in the shoulder and chest and wounding Assistant Chief Enrizerero in the shoulder. Both of the chiefs pursued Barril, who sought refuge in a wine shop, where before he was taken into custody, he shot and severely wounded Chief Portias is convinced that Barril is an accomplice of Michele Angiolillo, the recently executed anarchist. Barril, when questioned regarding his attempt to assassinate the two chiefs, admitted he was an anarchist, and that he had been expelled from Spain in 1885 for his part in the Spanish flag. He then went to London, remaining there some time and subsequently resided in Brussels. He returned to Barcelona on Aug. 16 last. The prisoner, who is now confined in the fortress of Montjuich, will be tried by courtmartial within the near future. When Barril was searched an important document of a compromising nature was found upon his person.

BOTTO UNDER ARREST. New Chapter in a Louisville Social Sensation. NEW YORK, Sept. 4.—William Botto, of Louisville, was arrested today charged with uttering a worthless check for \$5 on the Louisville Trust company, and passing it upon Frank C. Benjamin, of Philadelphia. Botto was held to await a requisition from Philadelphia. The police say this bad check is one of a series passed by Botto in neighboring cities.

WOMAN SAVED. A CASE OF INTEREST TO EVERY WOMAN. Mrs. Henry Youngmans Tells a Story of Suffering and How She Was Cured.

From the Evening News, Detroit, Mich. Mrs. Henry Youngmans, Detroit, Mich., who resides at 1003 Grand River Avenue, said: "Ever since our last little one came I was invalid. For years I have had the most painful neuralgic experience and would have to lie down most of the time. After the last baby was born I was unable to attend to my household duties. I wanted to sleep all the time and was treated by several of the best physicians. I would have been a healthy woman if I had been treated with Dr. Williams' Pink Pills for Pale People. I was scarcely ever sick after he was born. I grew weak and thin, and received scarcely any help from the medicine I used. I wanted to use these pills but applications until I blistered myself severely. "Before our child was born I had been a healthy woman. I was scarcely ever sick. BRYAN IN IOWA.

Mr. Towne and the Late Candidate at Denison.

DENISON, Ia., Sept. 4.—Hon. William J. Bryan and Congressman C. A. Towne, of Duluth, were here today and spoke to large and enthusiastic audiences. E. A. Plummer, fusion candidate for lieutenant governor, and Judge L. G. Kinns, fusion candidate for supreme judge, were both present. Hon. Mike Healy, of Fort Dodge, presided over the meeting. Mr. Bryan was given an ovation. He said the silver question was the great issue of this campaign in Ohio and Iowa and he believed the present system of national taxation was unjust and favored the removal of all international revenue taxes and tariff taxes and the substitution of a graduated income tax. The income tax had been constitutional for a hundred years and had been so until a judge changed his mind. He also said that as far as he could learn, affairs in Iowa were in such bad shape that any change would be for the better. Mr. Towne spoke entirely on the money question, saying that if he had not had free silver, wheat would be selling for two dollars and a half per bushel. People came from all West-ern Iowa to hear the speech and were very enthusiastic.

NEW CARNEGIE DEAL. Rockefeller Gogebic Mines Are to Be Leased. CLEVELAND, O., Sept. 4.—Representatives of Andrew Carnegie and John D. Rockefeller are said to have been conferring here yesterday and today regarding the lease of the former of several big Rockefeller iron mines on the Gogebic range. If the leases are executed it is declared by iron men Carnegie will be placed in the same position as the former of old range mines that the arrangements of last summer placed him in with respect to new range. It will give him all the iron ore for use at his works at practically his own price, and the effect upon the iron and steel business will be marked. Messrs. Oliver and Gate could not be seen today, but iron men believe the deal is going through as indicated.

DANIEL DENIES. Says He Did Not Assist in Denouncing Cleveland. LYNCHBURG, Va., Sept. 4.—The News will tomorrow print a letter from United States Senator John W. Daniel denying to certain statements made by Gov. O'Farrell in his recently published letter. In his letter Gov. O'Farrell says that Mr. Daniel offered a resolution in the senate commending Mr. Cleveland for his connection with the suppression of the Chicago riots, and later was a member of the committee on resolutions at the Chicago convention "when the committee denounced Mr. Cleveland for doing the very thing for which Senator Daniel has praised him."

COME FROM THE KLONDIKE. Vanderbilt Party Arrives in Chicago From Alaska. CHICAGO, Sept. 3.—There was a stir of excitement in the Auditorium Annex hotel last evening as a party of about twenty men and women hurried through the Michigan avenue entrance to the corridor. The party consisted of the Vanderbilt party girls, and that is Sloan and Twombly, revealed their identity. Marching past the crowd of guests was the Vanderbilt party of the hotel desk, and in a few moments Flats C, D and F were set aside for the affluent guests at the rate of \$50 per day. When the same ten started toward the elevator they left the following names on the hotel book, unsmiled and blond with much ink: "Mr. and Mrs. H. McK. Twombly, Miss Twombly, Mr. and Mrs. William D. Sloan, Miss Sloan, Mrs. E. Sloan, Mrs. E. Sloan, Knowlton and two males, New York city." Fresh from the Klondike gold fields, the daughters of the house of Vanderbilt, with their husbands, William D. Sloan and H. McK. Twombly, had just returned from the Klondike. They had been in Chicago on a special train from the West via the Chicago & North western railroad. Each member of the party is loaded down with gold nuggets, tied with ribbons of bright blue. Pictures of the frozen region are scattered all over the party. They are all anxious to say that they dug the gold with their own hands. The regular miner, pick, so Sloan says, was used by the women, who knew more about pick teas than digging gold. Once in a while a man of the party was shown to the \$50 per day apartments. After removing the stains of travel the entire party, including the Vanderbilt party, of the Annex. On leaving the cafe Mr. Sloan was congratulated by a visitor. "I'm a deuced hurray," he said, with a smile. "I've got to take all this party of gold diggers to the opera and I can't talk for my life."

traveling in a private car. We arrived to night and leave for home in the morning. We had more than a jolly time, only the price will give you some idea of the fun. We used five-pound picks in digging gold. We were as far up in Alaska as Circle City. We spent most of the time in Juneau. Don't tell me that country that it is a good place to start a company, but you know they may be only wanting me to spend my money on some scheme. "We have enough pictures of Alaska to start a gallery. Each member of our party was armed with a camera. We wore bearskin garments, and so did the women. It was not a case of style, only a good time. I guess all of our party will write books on the trip for the next year. The trip for previous conditions of service are invited, and it is to be their own fault if they do not pick up some very young thing who is willing to darn socks, build the fire and ride on the front seat of the tandem. The promoters are sure several matches will be made. In a near "bitter" it is given out that many girls will be asked to wed. Acquaintances on either side is not necessary, for the club argues that marriage is only an introduction, anyhow, and that while persons may foolishly think they are acquainted with each other before they marry it is all a mistake. So, if you need a wife and don't see one, go to the picnic and call for her. Another feature on the invitation card is not quite so clear. It may be misleading. There is a clause which says: "Those who went last year long for another." The club evidently had a picnic. Whether those who went want another picnic or whether those who picked up wives are referred to is not given out.

Sloan and H. McK. Twombly, had just returned from the Klondike. They had been in Chicago on a special train from the West via the Chicago & North western railroad. Each member of the party is loaded down with gold nuggets, tied with ribbons of bright blue. Pictures of the frozen region are scattered all over the party. They are all anxious to say that they dug the gold with their own hands. The regular miner, pick, so Sloan says, was used by the women, who knew more about pick teas than digging gold. Once in a while a man of the party was shown to the \$50 per day apartments. After removing the stains of travel the entire party, including the Vanderbilt party, of the Annex. On leaving the cafe Mr. Sloan was congratulated by a visitor. "I'm a deuced hurray," he said, with a smile. "I've got to take all this party of gold diggers to the opera and I can't talk for my life."

COME FROM THE KLONDIKE. Vanderbilt Party Arrives in Chicago From Alaska. CHICAGO, Sept. 3.—There was a stir of excitement in the Auditorium Annex hotel last evening as a party of about twenty men and women hurried through the Michigan avenue entrance to the corridor. The party consisted of the Vanderbilt party girls, and that is Sloan and Twombly, revealed their identity. Marching past the crowd of guests was the Vanderbilt party of the hotel desk, and in a few moments Flats C, D and F were set aside for the affluent guests at the rate of \$50 per day. When the same ten started toward the elevator they left the following names on the hotel book, unsmiled and blond with much ink: "Mr. and Mrs. H. McK. Twombly, Miss Twombly, Mr. and Mrs. William D.
