The pressmen's union will turn out in the parade today in a tally-no drawn by four horses. The members will carry horns and will endeavor to make as much noise as any organization in the parade. IN VINCENT'S NAME

A NEW CHURCH WILL RISE TO ADVANCE THE CATHOLIC DOCTRINES.

CORNER STONE IS BLESSED WITH SACRED RITES AS IT SWINGS INTO ITS LAST RESTING PLACE.

ARCHBISHOP IRELAND LEADS In the Service of Consecration in the New Temple of Christian Worship.

Under a scorching sun a multitude of people assembled yesterday afternoon at Virginia avenue and Blair street, to witness the laying of the cornerstone of the new church of St. Vincent de Paul. Archbishop Ireland performed the ceremony and preached the sermon.

The ceremony began with the ecclesiastical procession from the residence of the pastor, Rev. Lawrence Cosgrove. The procession was headed by acolytes, followed by the processional cross and the clergy and the most reverend archbishop, who was vested with cape and mitre, and who carried a crozier in his hand. The assisting clergy included Fr. James Trobec, bishop-declt. of St. Cloud; Rev. Lawrence Cosgrove, the pastor of the church; Rev. J. Lawler, Rev. John Starha, Rev. Alex. Christie, of Minneapolis; Rev. T. Harrison, Rev. J. M. Solnce, Rev. P. R. Cunningham, Rev. John Walsh, Rev. William Walsh, Rev. Dominick Majer, Rev. John Gleason, Rev. John Andrews and Rev. John Seiler.

The archbishop and clergy first proceeded to that portion of the church where the sanctuary is to be placed, and the archbishop blessed the cross erected there to mark the place. Then the ecclesiastical procession filed slowly over to the cornerstone, the priests chanting the Itany as they proceeded. Arriving at the cornerstone, more liturgical and musical services were performed. Then two little girls in white, their heads wreathed with flowers, presented the archbishop with a silver trowel. The archbishop took the implement and placed some mortar under the cornerstone, which was suspended over the foundation. While performing this ceremony the archbishop blessed the stone. The ritual was conducted in the Latin language. The English translation of the blessing uttered by the archbishop is this:

"In the faith of Jesus Christ we lay this cornerstone in the name of the Father and of the Son and of the Holy Ghost. May the true faith here dwell, with the fear of the Lord and brotherly love for our fellow beings. Be the place sacred to prayer. Let it serve to the invocation, and the praise of the name of the Lord Jesus Christ, who liveth and reigneth with the Father and the Holy Ghost."

As the concluding words of the blessing fell from the lips of the archbishop he sprinkled the stone with holy water. Then the archbishop and clergy passed in procession around the interior of the building and the former sprinkled the wall with holy water. Returning to the cornerstone, Archbishop Ireland delivered the sermon, which, in consequence of the extreme heat, was brief.

The archbishop congratulated the parishioners of the church of St. Vincent de Paul on the laying of the cornerstone of their new church. The parish, which was created only a few years ago, had gotten along with a very small edifice, the gift of a generous Catholic. Later on, after an addition was built, and afterwards a presbytery and then a hall. And finally the parishioners were willing to undertake the construction of a noble edifice to be dedicated to Almighty God.

"I cannot but congratulate you warmly," said the archbishop, "the devoted pastor and the devoted people who have co-operated with him in this good work. I am sure all of you will watch with pleasure every brick put into the walls of this building, and I am very sure that you will all generously contribute to the building of this church. Remember, whatever you give to this church you give to God Himself, and God will repay you. Give what you can according to your means, and give cheerfully and willingly."

In conclusion, Archbishop Ireland said: "This laying of a cornerstone is an act of sublime worship. We hereby recognize and worship Almighty God, our Creator. We worship Him because He is our Creator. Men who do not worship their God will be lost in the clouds of hell. Love, justice and righteousness. As the walls of this church ascend on high, they invite us to send up our hearts to the great God above us. What we hope for is the life above, the life of heaven and of God. In this temple we will dedicate our hearts to God. This cornerstone is the symbol of our faith, and our hope in worship of God, but it is a symbol of our own eternal hopes. So while you contribute to the building of this church, do not forget to lead holy, Christian lives, and by your good conduct to merit the eternal reward promised by the Creator."

This closed the exercises and the ecclesiastical procession returned to the parish house.

Before the ceremony, there was a parade of Catholic societies, including the Father Mathew society, the Crusaders and the Society of St. Vincent de Paul. It numbered over 500 men, besides 100 little boys, each of whom carried an American flag. The parade started from University avenue and Blair street, and marched thence on Western to University avenue, on University to Virginia, and thence to the church, six blocks north of University avenue. Patrick M. Moroney was the grand marshal. The banners of the Father Mathew society and the Crusaders, were displayed on the incomplete wall of the church, while the American flag was draped over the corner stone.

The corner stone, a handsome specimen of Superior granite, was donated to the church by John McNeely. On the Virginia avenue side it bears the inscription "Church of St. Vincent de Paul," between the symbols of a sunken cross and an anchor. On the Blair street side are inscribed these figures, "1889-1897." The former year being that of the formation of the parish. Within the corner stone the archbishop placed a copper plate containing the following Latin inscription: "Deo Sacrum Sancti Vincenti de Pauli in reverendissimo Joanne Ireland archiepiscopo Sancti Pauli die quinta Septembris, 1897. Rev. L. Cosgrove, curius ecclesie doctor." The church, when completed, will seat 1,000 people. It is to be constructed of local red pressed brick, and the architect is the modern Gothic style. The dimensions of the edifice will be 115 feet by 68. It is expected that the church will be completed by Christmas.

The first church of the St. Vincent de Paul parish was built in 1888. It was donated by P. V. Dwyer, and cost \$3,000. The estimated cost of the new church, when completed and furnished, is \$25,000. The lots upon a portion of
