Briggs, of North Dakota, at the Nicollet this morning while discussing the case of the editor of the Bismarck Tribune, which Editor Moffett, of Bismarck, has been subjected to. "It is such a dogged, stubborn and persistent persecution that I would leave the city simply as a matter of self-protection. His enemies, who they are, have been bent on his ruin for years, and they will never rest contented until they have either killed him or driven him out of the city. He has been nearly pounded to death several years ago, a short time since he was shot at five times, and he has been persecuted recently as the whole Northwest knows, his office was raided by vandals and his whole outfit thrown out of the city."

He stated that the commission was a tentative one to secure an expression of opinion on the subject. The commissioners thought that it would be a good plan to have a little time to consider the matter. The board stated that it was wise to go to extremes in the matter of adopting any sweeping policy for the framing of the charter. It might be wise to avoid boards, but he did not think it would be wise with regard to parks, schools and libraries. The board favored the idea of a small board.
