GRAIG KILLED THEM

FINAL ORDERS FOR LAYING FIVE MILES OF WOODEN SIDE-WALKS. THE ALDERMEN PASSED THEM BUT THREE OF THE ASSEMBLYMEN WERE ABSENT, SO CRAIG SUCCEEDED.

ALLEGED TO BE AN INJUSTICE. But That Fact Didn't Make Any Difference With the Prospective Building Inspector.

Meetings of the board of aldermen and assembly were held last evening. The aldermen convened first and among other business approved final orders from the board of public works for about five miles of wooden sidewalks. When the orders reached the assembly in the regular order of business Assemblyman Craig raised the point that there were but five present and it required a two-thirds vote of the members to elect or six votes to pass them.

Assistant Corporation Attorney Phillips, when asked for an opinion, stated that a majority vote of a working quorum would carry the orders through. Mr. Craig, who, as vice president of the assembly, presided, called Assemblyman Daly to the chair and moved that the orders be referred to the committee on streets. This was opposed by Assemblyman Johnson, who said that as final orders for sidewalks could not be passed after Oct. 31, it would be unfair and an injustice to several hundred property owners and proprietors to have the orders referred to the board of public works, Mr. Johnson said, had notified property owners affected by the final orders before they were made, and that new walks would have to be built in front of their property. Several hundred of those so notified had taken advantage of the law which allows property owners to lay their own walks at any time previous to the passage of the final order for the work. They had taken out permits from the city engineer and in numerous cases had gone ahead and laid the walks. The reference of the matter to the board of public works would mean that the orders would be killed and those who had laid walks would be out the money so expended, while those on adjoining property would be reason of the council delaying action be at no expense. This, he argued, was unfair and an injustice.

Assemblyman Daly, as presiding officer for the time being, said he should rule that it took six votes to pass the orders. Under this ruling the orders were laid on the table. The principal object for the adjourned meeting of the assembly, at least it was so stated last Thursday evening, was to approve of the contract for the sewer on Orleans street, which is to connect with the Douglas school and put that structure in a better sanitary condition. Owing to there being but five members present the approval of this contract was not brought up, it requiring six votes to put it through.

The resolution passed by the aldermen fixing the license of the Palm garden theater at \$25 per year, was passed by a vote of four to one. Mr. Craig voting against it. Mr. Thompson said he was opposed to the granting of the license owing to a saloon being conducted in connection with the theater. Mr. Daly thought if one place was allowed to run on Bridge square with a combination saloon and theater there should be no objection to a like resort being conducted on Eighth street.

Mr. Reardon stated that he had talked with the proprietor of the place and had been informed that no saloon would be operated in connection with the theater. The specifications for the collection of garbage for the coming year as approved by the board of aldermen yesterday and the assembly adjourned. The absentees were Messrs. Arwin, Kirke and Dix. Eight members of the board of aldermen attended the adjourned meeting of the board of public works. The absentees were Messrs. Bigelow, Allard and Lindahl. In the absence of both the president and vice president, Ald. Donohue presiding, final orders from the board of public works regarding the construction of five miles of wooden sidewalk in various parts of the city were made by evening. The recommendation of the license committee, the Palm Garden theater license was fixed at \$25 per year.

A final order was passed for the paving of the fourth and St. Paul city blocks with asphalt of Market street, from Third to Sixth streets. Specifications were approved for the painting of the Lafayette avenue bridge by the Great Northern and Northern Pacific Railway companies. A resolution was adopted directing the proper city officers to lease to the county the morgue for a term of five years at a nominal sum.

THROWN FROM A WAGON. James Needham the Victim of a Street Car Accident. A delivery wagon belonging to the New York dry house, was struck by a Seventh street car, near Robert street, shortly after 3 o'clock last evening and the driver, James Needham, severely injured. The vehicle was partly turned around when a car struck the rear wheels and turned the wagon completely over. Needham was thrown to the pavement and when picked up was found to have sustained a fractured leg and a broken leg. Dr. Hesselgrave attended the young man and had him removed to St. Lukes' hospital. Needham lives at 229 1/2 West Seventh street.

POLICE PATROL MOTOR. Committee Receives Two Bids, but Takes No Action. An interesting session of the joint council committee on police was held last evening previous to the council meetings. The object of the session was to award the contract for furnishing the police patrol telegraph department with an electric motor. No action, however, was taken owing to the statements made by E. B. Birge, ex-superintendent of the system, that the plan providing for motor was not a practical one. In addition to the "knock" which Mr. Birge gave the proposed motor scheme, he also submitted a proposition to the effect that if he were elected superintendent of the system he would agree to furnish all the material and help necessary to be used covering the system for \$1 in addition to the salary of \$2,000 per year.

are reported in all the country west of us. Any day now we can expect them here. Isn't it rather wise on your part to do your shopping and get your FUR or CLOTH GARMENT ready? Really, stocks are light this year, and a week's rush will break them up so you may not find what you want. There's a great demand for BLOUSE GARMENTS. You should see ours before you buy. We feel quite sure we have the most nobby and best-fitting ones (see our east window). FUR stocks of made-up goods are so small that ladies who don't buy early this year will go cold many a day waiting to get what they want. Doubtless you think this is "shop talk," but you'll find it true. We have a choice selection of everything in Fur and Cloth, and at very close prices. Come and see.
