nonitory symptoms today of the rumpus in December wheat that shook the pit to its enter for fifteen minutes about an hour from the close of the session. That delivery was worth from \$1.041/2 to \$1.05 most of the morning, and all at once it began to show decided weakness. Before the crowd could realize what was happening it was being offered at 97½c, and closed at 99½c, or at a decline of 5c a bu since Saturday. May comparatively steady. Its loss for the day was ½c. Both Armour and the Leiter crowd were said to have sold heavily, and this selling was-instrumental in causing the slump. The large amount of contract wheat which arrived in Chicago made the decline isy. Corn, oats and provisions showed at ie close very little change in prices. Corn, though quiet, was firm. Small coun-

offerings and bad weather West were apful factors. Oats were slow, within an extremely narrow range. Some strength was developed in provisions during the morning the small run of hogs and prices opened slight'y higher and improved to a limited exnt. The rise in prices was taken advantage by packers to sell, but the offerings were fairly well taken care of until the smash came in December wheat. This made buyers timid and, in the absence of support, the market lost its advantage. At the close May pork was 21/2c lower at \$3.55; May lard was unchanged at \$4.52½ and May ribs unchanged at \$4.55. Estimated receipts Tuesday: Wheat, 370 cars; corn, 560 cars; oats, 600 cars; hogs,

MINNEAPOLIS GRAIN.

MINNEAPOLIS, Minn., Dec. 13.—There was very little of an encouraging nature for holders at the opening this morning. Cables were all weak and lower. The usual Monday morning statistics were bearish, inasmuch as the world's shipments showed a very large total—nearly 9,000,000 bu for the week. It is true these figures are a full million less than last week, but it means a good increase in the European visible or a large increase on passage, which, as a rule, have a depressing effect on the market. About 11 a. m. the government report was made, showing a total of wheat actually harvested during the summer of 530,000,000 bu, or fully 30,000,000 bu more than expected. These figures to a large extent had been fully discounted by "tips," it is said, and as a resuit it fell flat. Locally our stocks in store increased \$18,000 bu. The visible supply showed a decrease of only 101,000 bu. Clearances from the seaboard were liberal. The action of the market immediately preceding the noon hour gave evidence that there was something in the wind regarding the December deal. Short sellers were full of assurance that the darkest day had passed. From other sources we learn that it would be well not to be too confident.

e that the darkest day had passed. From er sources we learn that it would be well to be too confident. ecember wheat opened at 91½c, being the as Saturday's close, lost ½c. advanced 92½c about midsession and declined to ge by noon. to 92½c about midsession and declined to 91%c by noon.

May wheat opened at 89c, against 88%c Saturday, lost %c, firmed up to 89c, dropped to 88%c, advanced to 89½c, lost %gc, gained ½c and dropped gradually to 88½c by noon.

The cash wheat market was somewhat of a puzzle to many. The demand was good for grades that would pass inspection in Chicago, and brought 5c over the May option. Ordinary good milling wheat was slow to move at anywhere near the premium paid on Saturday, and lower grades were decidedly slow and weak.

The market during the noon hour was weak and inactive with sentiment generally bearish. Chicago advised that there were over 2,000,000 bu in private clevators there which would come into the visible as soon as navigation closed. New York reported a very light export trade. December wheat closed at 90%c; May at 88%c.

 MINNEAPOLIS MARKET.

MINNEAPOLIS, Dec. 13.—Butter rules firm and is without price change from Saturday on all grades. The call for creamery extras is large, with receipts running light. Medium grade creameries are in more liberal supply, with the movement out fair. Dairy extras are scarce and sentiment on this grade strong. Firsts and seconds in dairies are in heavy supply and rule a trifle easy. Fresh, sweet packing stock is in excellent demand. Ladies are selling moderately well. Strictly fresh eggs are ½c lower. There was no business done on change, as buyers and sellers were apart as to prices. A feature of the market, which is having weakening effect on sentiment, is the fact that receipts are increasing, while the demand shows but slight improvement. Dressed poultry market is firm on chickens and turkeys, and easy on ducks and geese. A good many of the latter were carried over from last week.

There are vague rumors of increased business in staple cotton goods, but it to recognifications are not selled. of increased business in staple cotton goods, but it is not possible to run any of these down and to say just when and where the improvement has taken place. The reductions in the prices of staple cottons, which, it was rumored, would take place last week, are still deferred, but it is thought that when these are made public a fair demand will be recorded. Dealings in brown goods, both in sheetings and shirtings and in wide and standard shirtings, both in brown and in bleached lines, have been quite restricted and show no improvement. There is not even increased inquiry, although it is thought that stocks are low in many trading centers throughout the country. Bleached shirtings are quiet and without feature. Colored cottons in all grades are without feature.
