DECISION IN THE MATTER POSTPONED BY THE WESTERN LEAGUE MAGNATES.

MAIL VOTE TO BE TAKEN.

QUESTION LEFT IN THE HANDS OF A COMMITTEE OF THREE.

THE PLACE DECLINED BY OMAHA.

Prospective Manager Unable to Comply With All the Conditions Imposed on the Franchise.

CHICAGO, Dec. 20.—After having the eighth franchise of the Western league practically awarded to Omaha, Manager James T. McKee today, in a brief note of explanation, notified the base ball magnates that the conditions that would have to be fulfilled were too hard, and after thanking the gentlemen for courteous extended and "hoping that I have not put you to any unnecessary trouble," Mr. McKee declined the honor of managing a team in the Western city.

The magnates of the Western league met today at its headquarters in the Great Northern hotel for the purpose of formally awarding the franchise for the eighth city. It was decided at the informal meeting last night that Omaha was the best place for the franchise and as Manager McKee had agreed to all the conditions of the league, he was given the privilege. The note from Mr. McKee was a complete surprise. There was a strong feeling that Grand Rapids would retain the franchise after the refusal of the Omaha representatives to take it, but from the number of times Henry Strobel, of Toledo, was called into the room where the meeting was being held it was evident that the application of the Ohio city had many friends. These two cities were apparently the only two remaining in the race. None of the ball men in attendance would discuss the matter, however, beyond the statement that nothing definite had yet been decided upon.

What the inward meaning of Omaha's withdrawal is, was the subject of much speculation. McKee is confessedly a Spalding man, and it was hinted, though no one would admit the truth of the rumor, that behind it lay a plan for the placing of a Western league club in Chicago with Capt. Anson as manager. This phase of the matter was suggested to McKee today, but he claimed there was not the slightest foundation for such a report. He said his decision not to accept the franchise for Omaha was made because he did not see his way clear to fulfill the conditions imposed by the league.

In speaking of the matter he said: "In the first place all the good players in the Western league are disposed of, and it would be impossible for me to get a good team together, and even then, this being its initial year, it would of course be a tall order. I would have to build new grounds, besides paying up the indebtedness on the franchise. I figure that it will cost me \$100,000 before we play a game, and then there is a bond for \$100,000 which will have to be given. All in all, it is too tough a proposition for me to go against."

It was finally decided that the question of awarding the eighth franchise should be left to a committee of three, of which President Johnson is to be one, which will give the matter careful study and report its findings to the league by mail. A mail vote will then be taken, and the much-mooted question settled for three years at least. The next meeting will take place Feb. 24, in Kansas City.

CLUBS FOR INSANE

MINNEAPOLIS JOURNAL, CONVINCED BY THE INVESTIGATION, CONDEMNED STILLWATER PLAN OF SUBDUING PRISONERS.

GUARDS WRATHY AT TESTIMONY.

SUGGESTED THAT AN INSANE WARD SHOULD BE ESTABLISHED FOR "CRANKS."

The Minneapolis Journal, which only took up the new idea of a state prison investigation after a great deal of reluctance, practically concedes that the charges made through the Globe publication are well founded, and which it published in its issue of last night. While not all the premises made by the Journal editor can be subscribed to by those who heard all the testimony, the Journal's deductions from some of the cases which were brought to light in the investigation demand at least the consideration of which their deliberate preparation entitles them to.

The editorial is as follows:

It is a matter of more than usual significance that nearly all of the specific charges of cruelty preferred against the state management have had to do with prisoners of doubtful sanity. Prisoners of sound mind and this includes more than 90 per cent of the whole—in the main being disposed and able to conform to the rules. About two-thirds of the remaining one-third belong to the second grade, and the remainder number more than a dozen. The average prisoner, no matter what his instincts and inclinations, has a strong desire to get into the first grade and stay there. It is a matter of personal interest with him. Good behavior, as well as the desire to get into the first grade, means a definite shortening of sentence. If his record is good he knows he will get out of the prison in a few months, and if he is a prisoner, this, indeed, is his purpose, and under its influence prisoners all sympathize with the management, and most of the places of detention and punishment for those who have transgressed the law, and are being kept in the prison, are in the hands of the management. Naturally, therefore, the average prisoner rapidly comes into sympathy with the management, and is well pleased to make the prison discipline affective.

Now, as shown by the recent investigation, with Charles Hahn, who was locked up at Stillwater that cannot be reached by these reform methods. Some of these men, being of sane mind, and of sane mind, are not so much as they are, but are either admitted insane, or so near the dividing line between sanity and insanity that they are kept in the prison as "cranks." As previously stated, nearly all of the specific charges of cruelty have to do with these "cranks."

It is not the intention of the Journal, in advance of the commission's report, to say anything of these charges. It is only intended to call attention to the fact that the average prisoner of undoubted sanity, and of sane mind, is not so much as they are, but are either admitted insane, or so near the dividing line between sanity and insanity that they are kept in the prison as "cranks."

MADE FOR OTHER FIGHTS. Maher intends to carry out his present intention of fighting, to come off in February, but is anxious to meet Rubin also. Arrangements are therefore being made contingent on the San Francisco battle to go after the Little Rock purse in March or thereafter.

ANSON IN THE DARK.

Had Heard Nothing of the Western League Deal.

"If I remain with the Chicago club during the coming season I'll not care very much whether I hear or not," said Capt. A. C. Anson Sunday afternoon. "Some of them (meaning the people) seem to think that I am going to get the franchise, that is, active participation in the game. Well, if I am getting too old, I'd just as soon lay aside the game."

"I don't propose to quit, base ball, though, matter what they say," he said. "I don't care what they say. I like Chicago too well to keep myself in the game if the people think I am well, I might say, a better manager than they do. I like Chicago too well to keep myself in the game if the people think I am well, I might say, a better manager than they do. NO AGREEMENT LIKELY.

Minnesota Yacht Club Insists on Abandoning the Cuts.

Prospects are not very bright just at present for the annual races between the yacht clubs of Minnesota and White Bear. After the races last summer the Minnesota club decided to drop the cutboat class from their contests hereafter, because of the lack of interest manifested. The one-racers of the first class class were retained. This decision was duly communicated to the White Bear club, and they fully understood the reasons for the action. Late in the autumn the committees from both clubs met to draft new rules to govern interlake races in the future. The Minnesota club ratified the action of its representatives, but the White Bear club repudiated the rule agreed upon by the interlake committee. The Minnesota club thereupon offered to race the coming year under the rules governing the first class class, but the White Bear club refused to do so, and replied with a proposition to race under rules vastly different. This proposal was in turn declined by the Minnesota club, and the White Bear club made another offer, this time agreeing to race under the rules of the interlake committee, but the cutboat class was to be retained. This last communication was up before the members of the interlake committee of the Minnesota club yesterday. It was given courteous consideration, but was declined. The members of the committee, Messrs. William Peet Jr., F. B. Long and E. J. Hopkins, were unanimous in their decision. The matter was then taken up by the Minnesota club. "We could not agree to the proposal of the White Bear club, for the reason that the club has twice before now refused the question of retaining the cutboat class, and because of the expense involved in providing new boats to compete with the White Bear club, we have decided to drop the cutboat class from our contests hereafter. It is our hope that by this point, and that a series of interlake races will be arranged for the coming summer."

PRETTY POOR SECOND.

Heferman Not Likely to Strike the Fitzsimmons Gait.

BUFFALO, N. Y., Dec. 20.—"Bill" Heferman, of Johannesburg, South Africa, who has been touted as a second Fitzsimmons, made his initial appearance in an American ring tonight in what was to have been a fight with Tommy Ryan, of Syracuse. Heferman was the easiest victim that Ryan has ever met. The men met before the Olympic club and weighed in at 150 pounds. Heferman was tall and lanky, with a long reach, which, however, was of no use to him, as Ryan was landed when and where he pleased. Heferman was slow and awkward, and Ryan played him for three rounds, while the crowd laughed derisively. In the third round the South African was sent to the door by a left on the chin, and took the bludge getting up. He went down again a moment later from a right-hander on the jaw, and was counted out.

PAU CLAIRE, Wis., Dec. 20.—Judge Bailey today discharged James O'Donnell, who was on trial for the murder of George O'Connell, in the case came up with W. H. Flannery, counsel for the prisoner, said that he had decided to drop the charges against O'Donnell, and that he would not prosecute him.

Durrant Hopes.

SAN FRANCISCO, Dec. 20.—The father of Theodore Durrant, the condemned murderer, who was executed here last night, hopes that his son's life will be spared. He will try to get a writ of error from the state supreme court to the United States supreme court. If this is denied, he can go direct to the latter court and make the application, that is, if he can raise the money for the expenses of this long litigation have impoverished us.

Heavy Snow.

OMAHA, Neb., Dec. 20.—Another heavy snow storm hit this state today. During the last ten hours a great quantity of snow has fallen, which, added to the 15 inches which fell in the morning, has made the heaviest in the state's history. Out in the state the snow is from 20 to 30 inches deep. The storm has given the people a very good condition. The grain men declare that the heavy covering of snow has saved the wheat from damage from the severe cold.
