SEVENTH SEIBERT CONCERT OF THE PRESENT SERIES

Schubert Club to Give Its Fifth Orchestral Concert at People's Church Tuesday Evening—Max Heinrich's Coming Engagement—Testimonial Being Arranged for Miss Pottgiesser.

A concert as a testimonial is being arranged for Miss Milla E. Pottgiesser, St. Paul's promising contralto. Miss Pottgiesser has sung for so many societies and has such a host of friends that great interest is being taken in the event.

The seventh Seibert concert of the present series will be given at the Metropolitan opera house this afternoon at 3:30. These popular and successful concerts have met with success throughout the season, and the support accorded them has been heartily appreciated both by management and by the orchestra itself.

The class of music presented has been high, and the popular selections, the solo and the specialty features of the concert have been chosen with the best of judgment.

The programme for this afternoon includes a soprano solo by Miss Florence, one of the most popular of our local artists. The programme in detail is as follows: March—"Comedone" by Laboureire; Overture—"Leinisch" by "Freunde"; Mendelssohn; Symphony No. 1—First two movements—Beethoven; Soprano Solo—"Alone"—Seebach; "Theodor"—E. Straka; Miss Florence Marion Pace; "Herzweiden"—Grieg; "Lecter Fröhlich"—Grieg; "Strick Orchestra"; Violin Solo—"Theme with variations"; Master Milton Pirostone ten years old; Overture—"Le lac des Fees"—Auber; Selection—"Freischütz"—Weber.

The Schubert club will give its fifth orchestral concert in People's church Tuesday evening. The affair is by invitation of the Apollo Club, Minneapolis coming over in a body, and many societies enjoying the hospitality of the club. The orchestra and chorus will both appear under the direction of Max Heinrich. The orchestral numbers include a Haydn symphony, one of the freshest and most graceful of this genre, and the overture to "Merry Widow." The chorus will sing "Autumn Violets," by Bartlett, the orchestral accompaniment having been prepared by Mr. Ober-Hoffer; Elgar's "Snow" and "The Elms"; Miss Hope Payne will play a violin solo, with Mr. Erd at the piano. Miss Florence Pace will sing the solo in "Violet" and Gounod's "O Divine Redeemer," with organ, piano and violin accompaniment.

Max Heinrich will appear at People's church one week from Wednesday. Mr. Heinrich is one of the most admirable artists before the public, and in his individual art is inimitable. This remark is hazarded with the full knowledge that George Henschel is still living and has sung in the city but a few weeks ago. But Heinrich is not Henschel. Perhaps the explanation of the difference, Mr. Henschel is an aristocrat, an artist of the elevated, the

IN GOOD FIGHTING FORM

SIXTH WARD DEMOCRATS ARE WORKING TOGETHER

May Yet Give an Indorsement to Anthony Yeorg for Mayor—Fifth Ward Democratic Club Going to Be a Factor in the Coming Campaign—Local Politics.

The Democratic Sixth-warders met last night at 368 South Washaba street, and listened to a number of speeches on the coming campaign.

President Joseph Smith announced that some 200 names had been suggested as precinct workers, and the executive committee will, during this week, select thirty-nine of them, and assign them to the various wards.

Several residents of the ward, Anthony Yeorg, John C. McCarthy, J. M. Bell, Frank Baer, A. L. Graves, James Dearing, Thomas Minea, Dr. Xanten, R. N. Hare and J. G. Wardell, spoke briefly on the situation, and were assured by the assembly that they were to go about organizing the ward now and decide later who will get its indorsement for the different offices.

The sentiment was that never before has the ward been so united, and that now was the time to accomplish such good work.

Although no action was recorded, and it was decided not to print any during this time, it is understood that Anthony Yeorg may possibly be a candidate for the mayoralty. If not, he will be indorsed for comptroller, J. G. Wardell for alderman, Joseph Smith, justice of the peace, Joseph Fahey for constable, and John Twohy for municipal judge.

The club will meet Saturday evening.

DEL CONTE OPERA COMPANY GETTING TOGETHER

The Trouble, However, Gets Into the Court and Two Arrests Are Made—Members of the Company Are in Good Financial Shape—What They All Have to Say.

The trouble which disrupted the Italian opera company, in this city last week, culminated yesterday in the arrest of Alfred De Conte and Alfred S. Harris, on the charge of larceny.

The warrants were served by Deputy Sheriff Miesen yesterday morning, when the two defendants were arraigned in the municipal court. The case was continued until tomorrow, and the prisoners released in \$500 bonds each, the surety being furnished by J. J. Harris and Del Conte.

Harris and Del Conte are charged with purloining the orchestration of the new opera, La Boheme, and the libretto of Lucia di Lammermoore, together with various costumes, and it is alleged that, when this stuff was sent to the union depot Sunday for shipment to Duluth, the Del Conte forces sent an agent to get it and had it taken to a small store on the West side. From here it is said to have been taken to Minneapolis, where it is still supposed to be.

The balance of the stuff, including scenery, costumes, etc., is still in the possession of Mr. Crawford, who holds it by virtue of several bills of sale given at various times by Del Conte. Both Mr. Crawford and Advance Agents Ricaby were willing to talk last night. They said they had given the other side plenty of time to return the stuff, but this was not done, and patience ceased to be a virtue. In Crawford's forty weeks' contract with the artists through Del Conte, he agrees to take a certain percentage of the receipts in return for which he will pay railroad fares, printing and the salary of the advance agent. The people were to pay their own hotel bills, and Del Conte was to pay salaries.

The statement made last night that the company, in spite of long jumps on the way east from the coast, has enjoyed liberal patronage, and salaries were not good, and that some misunderstanding occurred at this place, and Mr. Crawford felt that an effort was being made to cross-road him. When he heard that Del Conte had been arrested, he decided to go out under the Thompson management, he decided to call a halt, and the warrants were issued.

He is much disappointed, for he says the company is a splendid one and should do well on the tour booked for them through this state and on to Kansas City, Milwaukee, St. Louis and other cities. He has determined, however, to get back his stuff, and will have no more business with the company in the future.

Treasurer Colver is between the devil and the deep sea, and his efforts to be neutral, for he has been friendly to both Crawford and Del Conte, have let him in for several embarrassing situations.

The Del Conte company under the contracts signed yesterday passes into the hands of W. A. Thompson, now manager of the Boston Lyric Opera company.

Col. Thompson has changed the name of the company to the Royal Italian Grand Opera company. His contracts runs for a term of three years, with a salary of \$50,000 per year, and he will longer. He holds contracts with all the artists separately.

The Royal Italian Opera company will give its first tour on Monday, under the management of Col. W. A. Thompson, opening in Duluth; from that point they will play the interior of the state for the weeks of March 20 and 27. The many people who enjoyed the fine singing of this company will undoubtedly be glad to welcome them here again.

After leaving here the company will play an extended engagement in New York, Boston and other Eastern cities. The repertoire of the Royal Grand Opera company consists of over twenty operas, being the best compositions of the Italian masters, and they carry complete special scenery and costumes.

The members of the Del Conte company were anything but pleased at the statement published in another newspaper that they are hard up.

"Each man has money to support himself," said A. Aloise, one of the company, last night. "Not only that, but each man has money to loan."

Messrs. Augustus Franceseoni, Bagetto and Fumigalli, who were with Mr. Aloise, all indorsed the statement.

"There are four of them," he continued, "and they will loan that paper money on good security. Not one in the whole company has need to ask anybody for bread or anything else."

"The real life of Bohemia hasn't come yet, nor will it come so long as the company stays together."

The new director of the company, Mr. Bagetto, who has been chosen enough to carry the company on himself for two years.

WHAT THE GAZETTEER WILL SHOW WHEN ISSUED

MINNESOTA MAKES THE BEST SHOWING, ALTHOUGH NORTH AND SOUTH DAKOTA AND MONTANA ALSO GIVE TANGIBLE EVIDENCE OF PROGRESS—INCREASE OF BUSINESS IN ALL LINES OF TRADE.

Advance sheets from the twenty-second volume of R. L. Polk & Co.'s Northwestern Gazetteer, embracing the states of Minnesota, North and South Dakota and Montana, which will be issued in a few days, indicate a highly progressive and prosperous condition in the rural districts.

The latest volume contains the names of 5,255 cities, villages, towns and post-offices, as compared with 3,869 in the 1890 edition; 300 new towns have been established during the past two years.

In the introductory to the Gazetteer the publishers say: "This volume contains nearly two hundred more pages than the last issue, and about three hundred new settlements are described, one hundred and three of which are already in the possession of some of which are prosperous, progressive villages. There is scarcely a settlement in the four states that does not show an increase of population."

The following table presents a comparison of the number of cities, villages, post-offices, etc., and the population in 1890 with 1898, from which a fair idea may be formed of the progress that has been made in the business center during the past eight years.

Table with 4 columns: State, Number of Cities, Villages, Post-offices in 1890, Number of Cities, Villages, Post-offices in 1898, Population in 1890, Population in 1898.

There is an increase in the four states during eight years of 1,416 villages and towns, which equals 37 per cent, and an increase of 66,488 in population, equating 36 per cent. Such increases must attract attention everywhere, and we may confidently expect a still greater growth during the next eight years.

Although the principal growth seems to have been made in the rural districts, it is equally gratifying to those who are interested in the cities, for it is the unvalued resources and opportunities of the smaller towns upon which depend the prosperity of the cities.

The census, compilation, printing and binding have caused the expenditures of a large amount of cash and have given employment to several hundred persons.

TEST OF ANDERSON BILL. The Anderson bill has finally reached the supreme court for a test of its constitutionality. The appeal in the test case brought in Aitkin county was argued before the clerk of the supreme court yesterday.

An effort was made to have the case reach the supreme court during the October term, but the railroad companies insisted upon their statutory right to the full sixty days' time in which to prepare for an appeal, and it was impossible to bring it up sooner.

The brief which Attorney C. W. Burnham filed yesterday contends that the law is unconstitutional, as it impairs the obligation of a contract, and the gross earnings tax system, is, he contends, a contract between the state and the railroad companies.

The railroad companies also set forth that the submission of the amendment to the voters was illegal, owing to the fact that only the words "in favor of taxation of unused railroad lands," were printed on the ballot. The defendants' attorneys claim that the voters were not fully advised as to the import of the proposed amendment and therefore cast their vote ignorantly.

They also contend that the law was not legally passed, and a copy of the evidence submitted, with the brief and appeal, covering the dates when the bill was up for consideration, and the days when Gov. Clough was inaugurated and Mr. Day elected president of the senate pro tem.

The contention as to the legality of Mr. Day's vote, as senator, when he occupied the position of lieutenant governor, were much the same as the points brought out in the case when being considered in the district court in Aitkin county.

The attorneys for the railroad companies dwell at length upon the legality of Mr. Day's vote, and his authority to hold both the office of lieutenant governor and senator.

Gen. Childs will file his brief with the supreme court in a short time covering the state's side of the case. It will be one of the first cases heard during the April term of the supreme court.

ITALIAN REVENGEFUL

ANGELO MUCCI ACCUSED OF PUSHING A BOY INTO THE RIVER

Four-Year-Old Salvatore Dadorio Almost Drowned in the Mississippi—Thrilling Adventure of the Infant in the Ice Water—Brave Rescue by Annetta Catini.

Salvatore Dadorio, the four-year-old son of Lohario Dadorio, an Italian laborer living at 153 Upper flats, had a narrow escape from drowning yesterday afternoon. The child's father accuses Angelo Mucci, the nine-year-old son of a neighbor, of pushing his infant boy into the river.

The father applied to the central station for a warrant for the arrest of young Mucci and was directed to lodge complaint with the clerk of the municipal court.

The parent was very much excited over what he termed an attempt to kill his child. According to his story, the infant was standing on the river bank near his home, and when the latter approached from behind and pushed the little one over the edge.

It is about six feet there to the surface of the river, and the child sank the child rolled with a splash into the water. The strong current at this point has kept on open space in the river, and the child was quickly seized by the eddy and whirled down stream. Fifty feet below the ice joined the shore and if help had not reached the infant he would undoubtedly have been lost.

The child's fall, however, had been witnessed by Annetta Catini and another flat dweller, who ran to the little one's rescue. The child, who was not precipitous along the river bank, by wading into the water up to his waist Catini was able to seize the child's clothing.

The male child was under the water once and was well nigh unconscious when dragged to the shore. Prompt measures after the child was taken to his home, his mother, Mrs. Mucci, says, though he is severely ill from the wetting in the icy river and the cold water which he swallowed.

It is alleged by the child's father that several days ago the little boy playfully knocked a handful of peanuts from young Mucci's hand, and that the youthful Italian's rage was so aroused by the act as to prompt him to push him into the river.

PERSONAL TAXES PAID.

Sum is Not as Large as That Received Last Year.

The county treasurer received \$111,044.74 on the last day of February, 1898, in payment of personal taxes for 1897.

The sum is not as large by \$16,000 as the amount paid in on the corresponding day a year ago, but it represents payments by a much larger number of taxpayers.

PROSPERITY THEIR SONG.

Visitors Bring Hopeful Tidings From Duluth, Milwaukee and Smaller Towns in Minnesota.

Giles W. Holden, of the grain inspection department, of Duluth, Minn., was in St. Paul yesterday renewing his acquaintances here.

Prosperity is floating around Duluth, and the business men here are glad to hear of it. At present there are 15,000 men employed in and around Duluth, and one year ago there were nearly that many men out of work.

As a jobbing center, Duluth was fast catching up with the Twin Cities, he thought. There are two houses in Duluth who employ thirty salesmen each, to say nothing of the other jobbing houses who cater to the trade as far west as the Pacific coast.

There is a great deal of business going on in the ranges. Mr. Holden stated that an employment agent told him last week that he had an order for 150 men for the range at \$1.75 per day, and that he had been unable to begin to fill the order.

Plans were on foot to open up some of the old mines which had not been opened with all the old world mines, such as the Minnesota and Mountain Iron, were running with additional shifts of men.

The business men of the city were greatly encouraged over the industrial situation.

Z. Davidson, a prominent general store man of Minnetonka, N. D., came down yesterday accompanied by his wife, and registered at the Windsor. Spring activity among the farmers is being evidenced by large purchases of fancy goods.

The Ross Bud senator from Stearns, who blew in yesterday from the country at the Sauk Center. The senator called on Gov. Clough during the day, and stated to a Globe reporter that fanning mills were being demanded in Sauk Center, he was ever finding markets for his invention as far south as Minnetonka.

H. L. Walker, of Fergus Falls, was in the city yesterday. Wheat in the Red river valley district is very scarce just now, hardly enough remaining for seed wheat, said Mr. Walker. However, the farmers and general store men all have money derived from the sale of the unusually large crop last year.

Tom Burke blew in last night from his run down in Wisconsin. Prosperity is rampant in Wisconsin, he says. People are buying liberally, and canned tomatoes of a higher grade than last year are in demand.

POPULISTS CHOSE APRIL 4.

Decide to Hold Primaries That Day and the Convention Next.

The members of the Populist city committee held an extended conference last night at 368 South Washaba street, and decided that the Populist primaries will be held between the hours of 7 and 8 p. m., Monday, April 4, and the convention will be held on the following day, both in labor hall. The hour set for the convention is 2 o'clock.

The list of judges, etc., was discussed, and partially made up, and it was decided to announce the complete list later. It is expected that the Populist ticket will be completed at the next meeting, which is fixed for Saturday night.
